TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
*Washington, November* 7, 1873.

SIR: I have the honor to transmit herewith the tabular statements made up from the accounts of this Office, which the Secretary of the Treasury is required to lay before Congress, as follows:

Table A, showing the receipts from each specific source of revenue, and the amounts refunded in each collection district, State, and Territory of the United States, for the fiscal year ended June 30, 1873.

Table B, showing the number and value of internal revenue stamps ordered monthly by the Commissioner, the receipts from the sale of stamps, and the commissions allowed on the same; also the number and value of stamps for special taxes, tobacco, cigars, snuff, distilled spirits, and fermented liquors, issued monthly to collectors during the fiscal year ended June 30, 1873.

Table C, showing the territorial distribution of internal revenue from various sources in the United States for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, and 1873.

Table D, showing the aggregate receipts from each collection district, State, and Territory, for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, and 1873.

Table E, showing the total collections from each specific source of revenue for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, and 1873.

Table F, showing the ratio of receipts from specific sources to the aggregate of all collections for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, and 1873.

Table G, an abstract of reports of district attorneys concerning suits and prosecutions under the internal revenue laws, during the fiscal year ended June 30, 1873.

Table H, an abstract of seizures of property for violation of internal revenue laws during the fiscal year ended June 30, 1873.

The aggregate receipts from all sources, exclusive of the direct tax upon lands and the duty upon the capital, circulation, and deposits of national banks, for the fiscal year ended June 30, 1873, were $114,075,456.08. This amount includes sums refunded and allowed on drawbacks.

The amount of drawback allowed during the last fiscal year was as follows:

| | |
|---|---|
| On spirits | $33,700 20 |
| On tobacco | 1,959 30 |
| On general merchandise | 16,686 81 |
| Total | 52,346 31 |

The amount of tax abated on spirits destroyed under act of May 27, 1872, was $27,855.

There were refunded during the last fiscal year for taxes illegally assessed and collected $618,667.77.

## SPIRITS.

The following statement shows the receipts from the several sources relating to distilled spirits for the fiscal years ended June 30, 1872 and 1873, together with the increase and decrease from each source:

| Total | 49,475,516 36 | 52,099,371 78 | 11,118,134 38 | 8,494,278 96 |

Aggregate increase, $2,623,855.42.

*This amount, $10,474,884.96, includes $636,200.71 tax on rectifiers producing in excess of 200 barrels per year; $1,337,911.71 on sales of liquors in excess of $25,000 (including other merchandise) per annum; $2,010,986.53, per diem tax on distilleries, and $6,489,786.01 distillers' special and barrel tax, all of which taxes were included in the report for last year on page VII under their appropriate headings, but which taxes were repealed by act of June 6, 1872, and are now therefore presented in one amount.

The increase in the receipts from the gallon tax on distilled spirits was $10,013,276; and from the special tax of rectifiers and dealers in liquor, $1,094,264; making a total increase from these sources of over $11,000,000. The tax on distilled spirits was raised from 50 to 70 cents per gallon August 1, 1872. To this fact is due the large increase in the receipts from this source. The large increase in the receipts from special taxes is doubtless owing in great part to the earlier and more thorough collection of special taxes since the introduction of the present system of paying them by stamps. A part of this $11,000,000 increase was, however, offset by the loss of nearly $400,000 during the last year by the reduction of the value of stamps for spirits, other than tax-paid stamps, from 25 cents to 10 cents each, under act of June 6, 1872; and by the further loss of a little over $8,000,000 by the repeal, under the same act, of certain taxes relating to spirits, leaving a balance of a little more than two and a half millions as the increase in the receipts from all sources relating to spirits.

From the above table it appears that during the last fiscal year 7,325 fruit distilleries were registered, and 6,948 operated; and that of the distilleries other than fruit, 624 were registered, and 556 operated.

The following statement shows the number of grain and molasses distilleries in operation at the beginning of each month during the fiscal year ended June 30, 1873:

| Quantity removed for export during the year, including the quantity accounted for | | 2,358,630 |

The tax collected on spirits withdrawn from warehouse during the fiscal year 1872 was $32,457,235.50. The tax collected on spirits withdrawn from warehouse during the fiscal year 1873 was $41,102,921.10. The tax on spirits withdrawn for export during the fiscal year 1873 was $1,651,041. If the tax had been collected on spirits withdrawn for export during the fiscal year 1873, as was the case during the fiscal year 1872, the receipts for the fiscal year 1873 would have been increased $1,651,041; thus swelling the receipts from spirits withdrawn from bond for the fiscal year 1873 to $42,753,962.10.

A comparative statement, therefore, of the receipts on account of all spirits withdrawn from bond for the two years, under like circumstances, would show an increase of $10,296,726.60, or over 31 per cent., in the receipts of the fiscal year 1873 over those for the preceding fiscal year.

The act of June 6, 1872, authorizing the withdrawal of spirits from distillery warehouse for export, without payment of the tax, has been in operation since the 1st of August, 1872, under the regulations of this Office approved by the Secretary of the Treasury:

| | |
|---|---|
| Number of rectifiers in business July 1, 1873 | 1,347 |
| Number of distillery warehouses in existence July 1, 1872 | 385 |
| Number of distillery warehouses in existence July 1, 1873 | 581 |
| Number of distillery store keepers in assignment July 1, 1873 | 624 |
| Number of distillery store keepers in commission July 1, 1873 | 1,105 |

## IMITATION WINES.

The tax received on imitation wines during the year ended June 30, 1873, was $3,531.90.

## FERMENTED LIQUORS.

The tax received on fermented liquors, at $1 per barrel, for the years 1872 and 1873 was $8,009,969.72 and $8,910,823.83 respectively.

The number of brewers engaged in the manufacture of fermented liquors during the fiscal year ended June 30, 1873, was 3,554, distributed as follows: Alabama, 5; Arizona, 15; Arkansas, 1; California, 201; Colorado, 44; Connecticut, 31; District of Columbia, 18; Delaware, 3; Dakota, 5; Florida, 3; Georgia, 7; Idaho, 15; Illinois, 210; Indiana, 158; Iowa, 174; Kansas, 55; Kentucky, 53; Louisiana, 17; Maine, 8; Maryland, 74; Massachusetts, 49; Michigan, 202; Minnesota, 132; Mississippi, 3; Missouri, 130; Montana, 31; Nebraska, 23; Nevada, 41; New Hampshire, 5; New Jersey, 81; New Mexico, 8; New York, 481; North Carolina, 2; Ohio, 296; Oregon, 34; Pennsylvania, 500; Rhode Island, 6; South Carolina, 4; Tennessee, 7; Texas, 50; Utah, 29; Vermont 2; Virginia, 10; Washington Territory, 15; West Virginia, 21; Wisconsin, 280; Wyoming, 15.

The number of breweries reported for 1872 was 3,421.

The increase in the receipts of the last over the preceding year will be seen to be, in number of breweries 133, in aggregate of tax paid $900,854.11, and average per brewery of $165.86.

But this comparison does not afford a full and fair exhibit of the increased productiveness of the country in this branch of our manufactures, or of the increased efficiency of the improved means employed by this Office for securing the tax imposed thereon.

The number of breweries given for the year ended June 30, 1873, comprise all the tax-paying breweries, which had been in operation for any portion of that year. This is true, also, of the number given for the year 1872. But within the fiscal year ended June 30, 1873, in portions of the country the sale of fermented liquors was prohibited by State enactments, and numbers of breweries were thus cut short, by other than business causes, of the time within the year during which they would otherwise have continued to operate, and the production of those continuing to manufacture in the States referred to has been materially lessened.

## TOBACCO.

The total receipts from tobacco for the fiscal year ended June 30, 1873, were $34,386,303.09. Compared with the total receipts for the fiscal year ended June 30, 1872, the following results are shown:

Giving a grand total as above of $34,386,303.09, and showing an increase in the total receipts from the manufacture and sale of tobacco, snuff, and cigars, in all their forms, over the receipts from the same sources for the preceding fiscal year, of $650,132.57.

## PRODUCTION OF MANUFACTURED TOBACCO.

The quantity of tobacco represented by the collection of taxes, as above, during the year ended June 30, 1873, is as follows:

| | Pounds. |
|---|---|
| Tobacco of all descriptions, taxed at 20 cents per pound | 111,085,640 |
| Snuff, taxed at 32 cents per pound | 3,381,402 |
| Tobacco, taxed at 32 cents per pound | 294,594 |
| Tobacco, taxed at 16 cents per pound | 27,572 |
| Tobacco, &c., exported directly from manufactories | 8,177,107 |
| Total in pounds | 122,966,315 |
| Deducting the quantity stored in bonded warehouses June 30, 1872, and withdrawn during the year on payment of tax, together with the quantity on which taxes were collected which had accrued prior to July 1, 1872, to the amount of | 6,525,381 |
| And we have a balance of | 116,440,934 |

pounds as the actual product of the year, so far as such products have been reported to this Office, and showing an increase over the annual production reported for the preceding fiscal year of 9,180,079 pounds.

The number of cigars, cheroots, &c., on which taxes were collected during the fiscal year ended June 30, 1873, was 1,807,034,646, showing an excess over the number reported for the preceding fiscal year of 279,328,674.

The act of June 6, 1872, established a uniform rate of tax on all descriptions of chewing and smoking tobacco of 20 cents per pound, instead of the previous rates of 16 and 32 cents per pound, leaving the rate of tax on snuff at 32 cents per pound, as provided by the act of July 20, 1868. This was an average reduction of 22⅔ per cent. upon the rates at which the taxes for the previous fiscal year had been collected. But, notwithstanding this large reduction in the average rate of tax, the decrease of collections under the new rate of 20 cents per pound on all descriptions of tobacco, both chewing and smoking, is only a small fraction over 4 per cent., or, more exactly, $4\frac{1}{10}$ per cent. During the fiscal year ended June 30, 1873, the unprecedented quantity of 114,789,208 pounds of tobacco in its various manufactured forms reached taxation, being a quantity in excess of the preceding fiscal year of 19,579,889 pounds.

A part of this increase is owing to increased consumption, which undoubtedly keeps pace with the annual increase of population. A part may be due to the fact that after the closing out of the bonded warehouses a portion of the surplus stock which previously had been stored in them, awaiting a demand for consumption before the tax was paid, was during the last year placed upon the market, tax paid in anticipation of its demand. But by far the greater portion of this increase, in my opinion, to an amount not less than 15,000,000 pounds, is directly due to the fact that the act of June 6, 1872, which went into operation at the beginning of the last fiscal year, imposed a heavier tax on the sale of leaf tobacco, where such sales were made to persons who purchased leaf tobacco for direct consumption in an unmanufactured state, thus requiring the consumer to pay about the same amount of tax to the Government on the tobacco he consumed, whether in the manufactured or unmanufactured form. As between the two classes of tobacco, the tax being equal, or nearly so, the consumer does not hesitate to give the preference, in almost every case, to the manufactured article.

As shown by the figures given, the result of this legislation has been to increase largely the returns of manufactured tobacco, thus showing that the business of the manufacturers has been also largely increased. It has at the same time freed them from an unjust and an unequal competition with dealers in unmanufactured tobacco. It has enabled the Government to make a large reduction in the rate of tax, (22⅔ per cent.,) thereby cheapening the article to general consumers, while at the same time no material reduction has been made in the revenue derived directly from chewing and smoking tobacco.

Equally favorable have been the results upon the legitimate cigar trade of the additional provisions relating to leaf tobacco. They have been alike protective to the interests both of the Government and the honest cigar manufacturers. Under the present law none but legally authorized cigar manufacturers can purchase leaf tobacco to be made into cigars. The leaf dealer who shall sell leaf tobacco to an unauthorized manufacturer or maker of cigars, to be illicitly worked up without the payment of the Government tax, which was largely practiced prior to the present strin-

gent enactments on that subject, renders himself liable to a special tax of $500, in addition to penalties. It is estimated that not less than $500,000 of the increased collections upon cigars during the last fiscal year are due directly to the practical operation of these provisions on that branch of the tobacco business, and to that extent has the legitimate cigar trade, as well as the Government, been benefited.

### EXPORTATION OF MANUFACTURED TOBACCO.

Apprehensions were entertained by parties favoring the continuance of the former system of export bonded warehouses, that there would be a large falling off in the quantity of manufactured tobacco shipped to foreign countries under the present system. These predictions, however, have not been verified by the actual results, which show, that notwithstanding some considerable time was required fully to inaugurate the change, and to familiarize shippers with all the details of the law and regulations under which such shipments are now made, instead of there being any falling off, there was an actual increase of some 544,064 pounds of exported tobacco during the last fiscal year.

The reports made to this Office of such shipments show the following results:

| | Pounds. |
|---|---|
| Year ended June 30, 1873, exported of tobacco in warehouses, June 30, 1872 | 1,932,937.75 |
| Exported directly from manufactories | 8,177,107.75 |
| Total exports for the year | 10,110,045.50 |
| Year ended June 30, 1872 | 9,565,981.00 |
| Showing an increase of | 544,064.50 |

It has been the aim of this Office to render every facility in its power to the exporters of manufactured tobacco, and to that end it has endeavored to make the rules and regulations governing such exportations no more exacting than the safety of the revenue should require, and to reduce the expenses of exporters on account of export stamps, inspection fees, &c., to the minimum sum that the efficiency of the service would allow, in order to promote as much as possible this branch of our foreign trade.

### UNIFORM TAX.

The consolidation of the different rates of tax on different classes of chewing tobacco has seemed to realize in practice all that the friends of this measure predicted of good results. No branch of the business seems to have experienced any inconvenience, or suffered any diminution in the amount of business formerly done under a graded tax, in consequence of such uniform tax. Not only has there been a large increase generally in the production and sale of manufactured tobacco, but it is believed that this increased business has been done with a reasonable amount of profit to the manufacturer. The law in its present operation is thought to act equally and impartially. Its requirements have become better understood. There has been a more general acquiescence in these requirements during the last fiscal year than ever before. There have been fewer violations of law and regulations, fewer seizures, and fewer prosecutions reported.

| Articles and occupations formerly taxed but now exempt | 19,053,006 53 | 6,329,782 00 | | 12,723,224 53 |

The decrease in receipts from banks and bankers and adhesive stamps is due to legislation approved June 6, 1872. The class entitled "Articles and occupations formerly taxed but now exempt," includes certain taxes on old lists repealed prior to June 6, 1872, with the tax on income and gas. The aggregate receipts for the last fiscal year exceeded my estimate by $4,075,456.08.

It is estimated that the total receipts for the current fiscal year will be $100,000,000. This estimate will of course be affected somewhat by the continuance, or otherwise, of the present financial embarrassment. It is not thought that any material loss will ensue from the amounts of taxes received from the personal consumption of spirits or tobacco should the financial trouble continue; but a loss would undoubtedly be felt in the amount of spirits used chemically and in the mechanic arts.

SCHEDULE C.

The correspondence of this Office during the past year developed the fact that a contrariety of opinion and practice existed among the officers and tax-payers in relation to taxable articles under Schedule C. To secure uniformity of practice and, as far as possible, the proper collections from that source of revenue, a pamphlet containing the various rulings of this Office from 1863 to 1873 in regard to stamp duties on

medicines and cosmetics was issued to the local officers, with instructions to place a copy in the hands of every dealer and druggist. The awakened attention thus secured already gives evidence of a healthy effect, and cannot fail to materially increase the revenue from that source should it remain unrepealed.

THE NEW SYSTEM.

The act of December 24, 1872, provided for the abolition of the offices of assessor and assistant assessor on or before the 30th day of June, 1873. Immediately upon the passage of the act, preparations were begun in the Office for this radical change. Regulations had to be revised and reprinted and general instructions prepared as to the method to be pursued in closing up the assessing offices and turning over their effects either to the Commissioner or the collectors. To avoid embarrassment from failures to transfer the offices, which would probably occur in some instances if the change was delayed until the last day (July 1) under the act, it was determined to make it, as far as practicable, on the 20th day of May. On that date a large proportion of the assessing offices were finally closed, and their papers and property turned over, a part to this Office and a part to the collectors. The assessment lists, by virtue of which, since the organization of the internal revenue system in 1862, the vast sums collected were authorized, and by which all refunding claims, either by Congress or the Commissioner, are tested, were shipped by express to this Office, and required over one thousand large boxes to contain them. The lists have been carefully sorted and filed for the future daily use which is demanded of them. Under the full and explicit instructions prepared and distributed by this Office the change was quietly and systematically made. The outgoing officers, with scarcely an exception, laid off their official garments gracefully, commending the simplicity and economy of the incoming system. The few districts that were not ready at that date, through accident or otherwise, were prepared for the change by the 30th of June, 1873, and the first day of the current fiscal year found the old system gone and the new in operation. Two hundred and twenty-eight assessors, 240 clerks, and 1,040 assistant assessors were thus finally discharged from the service at a large annual saving to the national Treasury, as shown below.

The law which abolished the office of assessor, authorized and required the Commissioner to make the various inquiries, determinations, and assessments of taxes which had been made by these officers; accordingly such monthly assessment lists are now so made up, and transmitted to the collectors of the various districts. It was soon found that the receipts of collectors, for their lists, reached this Office earlier than when prepared by the local assessing officers. This is doubtless largely due to the fact that all these assessments are prepared at one point, and by the same hands, thus avoiding the delays and controversies referred to in the report of last year, incident to the varied "interpretations of two or three hundred unassociated minds." The receipts of special taxes (licenses) show particularly the beneficial effects of the changes wrought by the new law.

The collections from spirits and tobacco have been hereinbefore treated at large under their respective heads.

In the report of this Office made last year, in which the new system

was proposed, it was asserted that a large saving per annum, in expenses, might be expected if the system was adopted. The following figures will show its annual saving in comparison with the old system which it supplanted, and the plan (act of June 6, 1872) of reducing to eighty districts, which was repealed before it had been inaugurated:

| | |
|---|---|
| The appropriations for assessing and collecting the internal revenue for the fiscal year ended June 30, 1873, were, (including $1,500,000 for salaries and expenses of gaugers and store keepers) | $6,200,000 |
| Appropriations for the fiscal year 1874, (including $1,500,000 for salaries and expenses of gaugers and store keepers) | 4,600,000 |
| Difference | 1,600,000 |

The estimate for the fiscal year 1874, based on the reduction to eighty districts, was $5,662,827, or $537,173 less than the appropriation for the fiscal year 1873.

The plan adopted in lieu of the eighty-district plan, to wit, abolishing the offices of assessors and assistant assessors, reduced the expenses $1,062,827 lower than the estimated reduction under the eighty-district plan, and $1,600,000 lower than the appropriation for 1873, under the old system.

The estimates for the fiscal year 1875 show a further reduction of $9,458, or $1,609,458 less than the appropriation for the fiscal year 1873, and $1,072,285 less than the estimate for 1874, based on the eighty-district plan.

It was thought at first that an additional clerical force would be needed in this Office in view of the increased labor under the act of December 24, 1872, but diligence and an enthusiastic application to their new duties on the part of the existing clerical forces have obviated such supposed necessity. For a considerable part of the past summer a number of the clerks were employed several hours each day after the regular business hours in executing and adjusting the new system. This gratuitous labor was cheerfully performed, and is deserving of special commendation.

## SALARIES.

The change under the law dispensing with assessors and assistant assessors made a re-organization of the collecting forces necessary, and required a small average increase of allowance for collecting expenses. The assessing had cost more than the collecting in about the proportion of three to two. To make the saving anticipated under the new system, and at the same time to insure a sufficient force to superintend and collect the revenue of the country, it was concluded to regulate the expenses, as a general thing, by the following rule: aggregate the entire expense of assessing and collecting in the respective districts for the past year under the old plan, divide that by two, and allow the result respectively to each district. This gives a slight average increase to the collectors for expenses to compensate them for the additional labor and responsibility, and yet makes sure the large saving heretofore noticed. It is very desirable that Congress should fix definitely the pay of the leading local officers—collectors. Under the present system, special and controlling allowances have to be made in all cases, the districts arranging themselves into two classes, each of which requires allowance, but for contrary reasons: First, when the collections are small and the salary and commissions are not large enough to personally

compensate the collector, and at the same time afford him sufficient means to employ a proper subordinate force. Second, when the collections are so large that, with the maximum salary ($4,500) allowed the collector, there would be more realized, in addition to his personal salary, than would be proper to be expended on subordinates. In the first class we give additional aid to secure the due enforcement of the law. In the second we withhold certain amounts to prevent the lavish and unnecessary expenditure of money.

It will at once be seen that this is a most delicate responsibility. It involves the measuring of men's services, which is always embarrassing, and urges a conflict between this department and its chief subordinates on the most tender point, next to character—that of moneyed interest. On the one hand, the subordinate officer is apt to think that he has been unfairly dealt with, while, on the other, the controlling officer is fearful that he may have been too free with that portion of the public purse intrusted to him.

It is urgently desired that Congress should fix by law the exact compensation of collectors, and the following schedule, based upon collections, is respectfully submitted as one that would fairly compensate them:

| | |
|---|---|
| Collectors collecting not over $50,000 per annum, salary | $2,500 |
| Collectors collecting over $50,000 and not exceeding $250,000, salary | 3,000 |
| Collectors collecting over $250,000 and not exceeding $500,000, salary | 3,500 |
| Collectors collecting over $500,000 and not exceeding $750,000, salary | 4,000 |
| Collectors collecting over $750,000 and not exceeding $1,000,000, salary | 4,500 |
| Collectors collecting over $1,000,000, salary | 5,000 |

Starting with a sum ($2,500) none too large, it would seem, for one who gives a bond ranging from $50,000 to $100,000, and who is responsible in the matter of due diligence for all the taxes of his district, as well as the honesty of his subordinates, and concluding with an amount ($5,000) strikingly small for the annual care, as is the case in a number of instances, of six or seven millions of the public money, it is hoped that this recommendation will receive congressional favor and early pass into the law.

The act of June 6, 1872, reduced the number of supervisors from twenty-five to ten, thus more than doubling the area of their districts, but leaving their compensation $3,000 per annum, the same as before. Under these circumstances I recommend that the salary of supervisors be fixed at $4,000 per annum. The duties of these officers are of great importance to the service and involve constantly pressing and grave responsibilities. In some of their districts the performance of duty is frequently attended with personal danger, and in all it demands constant travel and exposure. Their individual districts average in square miles a territory one-fifth larger than Austria, or nearly as large as the whole of Great Britain and France together.

With the general service so much reduced in its numbers of employés and yearly expenses, with the responsibility of the remaining officers so largely increased, it is respectfully suggested that the above slight increase of expenditure can be well afforded.

## REVISION AND COMPILATION OF THE LAWS.

During the year a revision of the internal revenue laws in force, as provided for in section 45, act of June 6, 1872, has been prepared and published, and generally distributed to Congress and the revenue service. This work has been conveniently arranged for reference by plac-

ing, as far as possible, all the law on each subject of taxation under its appropriate title; all obsolete or repealed law is eliminated, amendments are incorporated in their proper places, and a full and proper index accompanies the whole. It meets a want long felt, substantially aids the efforts of those charged with the execution of the laws, and will materially simplify the labor of Congress when considering amendments thereto. The two gentlemen in this Office appointed by you to perform this work have accomplished it in addition to their regular duties, the larger portion of it after office hours, and, in accordance with precedent, I would recommend that they be suitably compensated.

## ADDITIONAL RECOMMENDATIONS.

Section 44 of the act of June 6, 1872, provided, in effect, that all claims for the refunding of taxes alleged to have been erroneously assessed or collected must be presented to the Commissioner, and all suits or proceedings to recover such taxes must be brought "within two years next after the cause of action accrued and not after." It provided, however, as to claims which had accrued prior to the passage of the act, (June 6, 1872,) that the presentation thereof to the Commissioner, or the bringing of action thereon in the courts, must be done within one year from the last mentioned date.

As must always occur on the taking effect of any statute of limitation, some meritorious claims have doubtless been barred by the act above mentioned which might have been presented, but through neglect, indifference, or otherwise, were not. It would seem reasonable, however, to assume that few, if any, cases of actual hardship to tax-payers failed of presentation within the year given for that purpose.

On the other hand, it is quite probable that the statute has barred very many claims which, with a *prima-facie* appearance of legality, were in fact without merit, either in law or equity, but which it would have been difficult for the Government to disprove, owing to the recent change of system, under which many of our oldest officers have necessarily left the service.

I would repeat the suggestion contained in my report of November 21, 1871, that "section 44 of the act of July 20, 1868, should be amended by making the minimum penalty smaller, such penalty being now a fine of not less than $1,000, with not less than six months' imprisonment. The undue severity of this punishment would seem to be obvious as applied to the offenses of carrying on the business of a retail or wholesale liquor-dealer, rectifier, or manufacturer of stills, 'without having paid the special tax' in cases wherein no intent to defraud exists; the omission arising from ignorance of the law, or other circumstances not fraudulent, yet constituting no legal excuse under the terms of the section. The practical effect of providing so disproportionate a punishment for these offenses is to discourage complaints, defeat convictions, and induce suspensions of sentence, in many cases in which some moderate punishment should be enforced, as well to vindicate the law as to secure future compliance with its requirements."

The repeal of all documentary stamp duties under Schedule B, except that of two cents on bank checks, drafts, or orders, by the act of June 6, 1872, left many stamps in the hands of dealers and others throughout the country, for which they had no use; and such as have been presented to this office have been redeemed or exchanged, under the provisions of section 161 of the act of June 30, 1864, as amended by section 41 of the act of June 6, 1872.

The amount so redeemed and exchanged from October 1, 1872, to October 1, 1873, was $473,844.44.

As it is believed that the public have now had a sufficient notification of the willingness of the Government to redeem or exchange such stamps as might be presented, accompanied by satisfactory evidence that they had not been used, I would recommend such legislation by Congress as will limit the time to July 1, 1874, within which documentary stamps issued under Schedule B of a greater denomination than two cents may be presented for redemption, under section 161 of the act of June 30, 1864, as amended by section 41 of the act of June 6, 1872.

The suggestions made in my last annual report that the amendments of June 6, 1872, to section 59 of the act of July 20, 1868, relating to the special taxes of dealers in liquors, should be made more explicit, were fully met by the carefully drawn House bill No. 4069, entitled "An act to correct an error in section 13 of the act of June 6, 1872, and to amend certain sections of other acts relating to internal revenue." That bill passed the House of Representatives on the 3d day of March last, but unfortunately failed of being acted on by the Senate, solely, it is understood, for want of time in which to consider it. It is very important that the same or a similar bill should be enacted as soon as practicable.

Respectfully,

J. W. DOUGLASS,
*Commissioner.*

Hon. WILLIAM A. RICHARDSON,
*Secretary of the Treasury.*
