This page is intentionally left blank

Your supporting documents should show the amount paid and that the amount was for inventory. Documents reporting the cost of inventory include the following.

- Canceled checks.
- Cash register tape receipts.
- Credit card sales slips.
- Invoices.

These records will help you determine the value of your inventory at the end of the year. See Pub. 538 for information on methods for valuing inventory.

Expenses. Expenses are the costs you incur (other than the cost of inventory) to carry on your business. Your supporting documents should show the amount paid and that the amount was for a business expense. Documents for expenses include the following.

- Canceled checks.

- Cash register tapes.
- Account statements.
- Credit card sales slips.
- Invoices.
- Petty cash slips for small cash payments.

A petty cash fund allows you to make small payments without having to write checks for small amounts. Each time you make a payment from this fund, you should make out a petty cash slip and attach it to your receipt as proof of payment.

Travel, transportation, and gift expenses.

Specific recordkeeping rules apply to these expenses. For more information, see Pub. 463.

Employment taxes. There are specific employment tax records you must keep. For a list, see Pub. 15.

Assets. Assets are the property, such as machinery and furniture you own and use in your business. You must keep records to verify certain information about your business assets. You need records to figure the annual depreciation and the gain or loss when you sell the assets. Your records should show the following information.

- When and how you acquired the asset.
- Purchase price.
- Cost of any improvements.
- Section 179 deduction taken.
- Deductions taken for depreciation.
- Deductions taken for casualty losses, such as losses resulting from fires or storms.
- How you used the asset.
- When and how you disposed of the asset.
- Selling price.
- Expenses of sale.

The following documents may show this information.

- Purchase and sales invoices.
- Real estate closing statements.
- Canceled checks.

What if I don't have a canceled check?

If you do not have a canceled check, you may be able to prove payment with certain financial account statements prepared by financial institutions. These include account statements prepared for the financial institution by a third party. These account statements must be highly legible. The following table lists acceptable account statements.

**IF payment is
by...**

**THEN the statement
must show the...**

Check

- Check number.
 - Amount.
 - Payee's name.
 - Date the check amount was posted to the account by the financial institution.
-

Electronic funds
transfer

- Amount transferred.
 - Payee's name.
 - Date the transfer was posted to the account by the financial institution.
-

Credit card

- Amount charged.
 - Payee's name.
 - Transaction date.
-

Proof of payment of an amount, by itself, does not establish you are entitled to a tax deduction. You should also keep other documents, such as credit card sales slips and invoices, to show that you also incurred the cost.

Recording Business Transactions

A good recordkeeping system includes a summary of your business transactions. (Your business transactions are shown on the supporting documents just discussed.)

Business transactions are ordinarily summarized in books called journals and ledgers. You can buy them over the Internet and at your local stationery or office supply store.

A journal is a book where you record each business transaction shown on your supporting documents. You may have to keep separate journals for transactions that occur frequently.

A ledger is a book that contains the totals from all of your journals. It is organized into different accounts.

Whether you keep journals and ledgers and how you keep them depends on the type of business you are in. For example, a recordkeeping system for a small business might include the following items.

- Business checkbook.
- Daily summary of cash receipts.
- Monthly summary of cash receipts.
- Check disbursements journal.
- Depreciation worksheet.
- Employee compensation record.

The business checkbook is explained next. The other items are illustrated later under Recordkeeping System Example.

The system you use to record business transactions will be more effective if you follow good recordkeeping practices. For example, record expenses when they occur, and identify the source of recorded receipts. Generally, it is best to record transactions on a daily basis.

Business checkbook. One of the first things you should do when you start a business is open a business checking account. You should keep your business account separate from your personal checking account.

The business checkbook is your basic source of information for recording your business expenses. You should deposit all daily receipts in your business checking account. You should check your account for errors by reconciling it. See *Reconciling the checking account*, later.

Consider using a checkbook that allows enough space to identify the source of deposits as business income, personal funds, or loans. You should also note on the deposit slip the source of the deposit and keep copies of all slips.

You should make all payments by check to document business expenses. Write checks payable to yourself only when making withdrawals from your business for personal use. Avoid writing checks payable to cash. If you must write a check for cash to pay a business expense, include the receipt for the cash payment in your records. If you cannot get a receipt for a cash payment, you should make an adequate explanation in your records at the time of payment.

Use the business account for business purposes only. Indicate the source of deposits and the type of expense in the checkbook.

Reconciling the checking account. When you receive your bank statement, make sure the statement, your checkbook, and your books agree. The statement balance may not agree with the balance in your checkbook and books if the statement:

- Includes bank charges you did not enter in your books and subtract from your checkbook balance, or
- Does not include deposits made after the statement date or checks that did not clear your account before the statement date.

By reconciling your checking account, you will:

- Verify how much money you have in the account,
- Make sure that your checkbook and books reflect all bank charges and the correct balance in the checking account, and

- Correct any errors in your bank statement, checkbook, and books.

You should reconcile your checking account each month.

Before you reconcile your monthly bank statement, check your own figures.

Begin with the balance shown in your checkbook at the end of the previous month. To this balance, add the total cash deposited during the month and subtract the total cash disbursements.

After checking your figures, the result should agree with your checkbook balance at the end of the month. If the result does not agree, you may have made an error in recording a check or deposit. You can find the error by doing the following.

1. Adding the amounts on your check stubs and comparing that total with the total in the “amount of check” column in your check disbursements

journal. If the totals do not agree, check the individual amounts to see if an error was made in your check stub record or in the related entry in your check disbursements journal.

2. Adding the deposit amounts in your checkbook. Compare that total with the monthly total in your cash receipt book, if you have one. If the totals do not agree, check the individual amounts to find any errors.

If your checkbook and journal entries still disagree, then refigure the running balance in your checkbook to make sure additions and subtractions are correct.

When your checkbook balance agrees with the balance figured from the journal entries, you may begin reconciling your checkbook with the bank statement. Many banks print a reconciliation worksheet on the back of the statement.

To reconcile your account, follow these steps.

1. Compare the deposits listed on the bank statement with the deposits shown in your checkbook. Note all differences in the dollar amounts.
2. Compare each canceled check, including both check number and dollar amount, with the entry in your checkbook. Note all differences in the dollar amounts. Mark the check number in the checkbook as having cleared the bank. After accounting for all checks returned by the bank, those not marked in your checkbook are your outstanding checks.
3. Prepare a bank reconciliation. One is illustrated later under Recordkeeping System Example.

4. Update your checkbook and journals for items shown on the reconciliation as not recorded (such as service charges) or recorded incorrectly.

At this point, the adjusted bank statement balance should equal your adjusted checkbook balance. If you still have differences, check the previous steps to find the errors.

Bookkeeping System

You must decide whether to use a single-entry or a double-entry bookkeeping system. The single-entry system of bookkeeping is the simplest to maintain, but it may not be suitable for everyone. You may find the double-entry system better because it has built-in checks and balances to assure accuracy and control.

Single-entry. A single-entry system is based on the income statement (profit or loss statement).

It can be a simple and practical system if you are starting a small business. The system records the flow of income and expenses through the use of:

1. A daily summary of cash receipts, and
2. Monthly summaries of cash receipts and disbursements.

Double-entry. A double-entry bookkeeping system uses journals and ledgers. Transactions are first entered in a journal and then posted to ledger accounts. These accounts show income, expenses, assets (property a business owns), liabilities (debts of a business), and net worth (excess of assets over liabilities). You close income and expense accounts at the end of each tax year. You keep asset, liability, and net worth accounts open on a permanent basis.

In the double-entry system, each account has a left side for debits and a right side for credits.

It is self-balancing because you record every transaction as a debit entry in one account and as a credit entry in another.

Under this system, the total debits must equal the total credits after you post the journal entries to the ledger accounts. If the amounts do not balance, you have made an error and you must find and correct it.

An example of a journal entry exhibiting a payment of rent in October is shown next.

General Journal

Date	Description of Entry	Debit	Credit
<i>Oct. 5</i>	<i>Rent expense</i>	<i>780.00</i>	
	<i>Cash</i>		<i>780.00</i>

Computerized System

There are computer software packages you can use for recordkeeping. They can be purchased over the Internet and in many retail stores. These packages are very helpful and relatively easy to use; they require very little knowledge of bookkeeping and accounting.

If you use a computerized system, you must be able to produce sufficient legible records to support and verify entries made on your return and determine your correct tax liability. To meet this qualification, the machine-sensible records must reconcile with your books and return. These records must provide enough detail to identify the underlying source documents.

You must also keep all machine-sensible records and a complete description of the computerized portion of your recordkeeping system.

This documentation must be sufficiently detailed to show all of the following items.

- Functions being performed as the data flows through the system.
- Controls used to ensure accurate and reliable processing.
- Controls used to prevent the unauthorized addition, alteration, or deletion of retained records.
- Charts of accounts and detailed account descriptions.

For more information, see Revenue Procedure 98-25 in Cumulative Bulletin 1998-1, available at

[IRS.gov/ Businesses/Automated-Records](https://www.irs.gov/Businesses/Automated-Records).

Table 3. **Period of Limitations**

IF you...	THEN the period is...
1. Owe additional tax and situations (2), (3), and (4), below, do not apply to you	3 years
2. Do not report income that you should report and it is more than 25% of the gross income shown on the return	6 years
3. File a fraudulent return	Not limited
4. Do not file a return	Not limited
5. File a claim for credit or refund after you filed your return	Later of: 3 years or 2 years after tax was paid
6. File a claim for a loss from worthless securities or a bad debt deduction	7 years

This page intentionally left blank

How Long To Keep Records

You must keep your records as long as they may be needed for the administration of any provision of the Internal Revenue Code.

Generally, this means you must keep records that support an item of income or deduction on a return until the period of limitations for that return runs out.

The period of limitations is the period of time in which you can amend your return to claim a credit or refund, or the IRS can assess additional tax. Table 3 contains the periods of limitations that apply to income tax returns. Unless otherwise stated, the years refer to the period after the return was filed. Returns filed before the due date are treated as filed on the due date.

Keep copies of your filed tax returns. They help in preparing future tax returns and making computations if you file an amended return.

Employment taxes. If you have employees, you must keep all employment tax records for at least 4 years after the date the tax becomes due or is paid, whichever is later. For more information about recordkeeping for employment taxes, see Pub. 15.

Assets. Keep records relating to property until the period of limitations expires for the year in which you dispose of the property in a taxable disposition. You must keep these records to figure any depreciation, amortization, or depletion deduction, and to figure your basis for computing gain or loss when you sell or otherwise dispose of the property.

Generally, if you received property in a nontaxable exchange, your basis in that property is the same as the basis of the property you gave up, increased by any money you paid.

You must keep the records on the old property, as well as on the new property, until the period of limitations expires for the year in which you dispose of the new property in a taxable disposition.

Records for nontax purposes. When your records are no longer needed for tax purposes, do not discard them until you check to see if you have to keep them longer for other purposes. For example, your insurance company or creditors may require you to keep them longer than the IRS does.

Recordkeeping System Example

This example illustrates a single-entry system used by Henry Brown, who is the sole proprietor of a small automobile body shop. Henry uses part-time help, has no inventory of items held for sale, and uses the cash method of accounting.

These sample records should not be viewed as a recommendation of how to keep your records. They are intended only to show how one business keeps its records.

1. Daily Summary of Cash Receipts

This summary is a record of cash sales for the day. It accounts for cash at the end of the day over the amount in the Change and Petty Cash Fund at the beginning of the day.

Henry takes the cash sales entry from his cash register tape. If he had no cash register, he would simply total his cash sale slips and any other cash received that day.

He carries the total receipts shown in this summary for January 3 (\$267.80), including cash sales (\$263.60) and sales tax (\$4.20), to the *Monthly Summary of Cash Receipts*.

Petty cash fund. Henry uses a petty cash fund to make small payments without having to write checks for small amounts.

Each time he makes a payment from this fund, he makes out a petty cash slip and attaches it to his receipt as proof of payment. He sets up a fixed amount (\$50) in his petty cash fund. The total of the unspent petty cash and the amounts on the petty cash slips should equal the fixed amount of the fund. When the totals on the petty cash slips approach the fixed amount, he brings the cash in the fund back to the fixed amount by writing a check to "Petty Cash" for the total of the outstanding slips. (See the *Check Disbursements Journal* entry for check number 92.) This restores the fund to its fixed amount of \$50. He then summarizes the slips and enters them in the proper columns in the monthly check disbursements journal.

2. Monthly Summary of Cash Receipts

This shows the income activity for the month. Henry carries the total monthly net sales shown in this summary for January (\$4,865.05) to his *Annual Summary*.

To figure total monthly net sales, Henry reduces the total monthly receipts by the sales tax imposed on his customers and turned over to the state. He cannot take a deduction for sales tax turned over to the state because he only collected the tax. He does not include the tax in his income.

3. Check Disbursements Journal

Henry enters checks drawn on the business checking account in the *Check Disbursements Journal* each day. All checks are prenumbered and each check number is listed and accounted for in the column provided in the journal.

Frequent expenses have their own headings across the sheet. He enters in a separate column expenses that require comparatively numerous or large payments each month, such as materials, gross payroll, and rent.

Under the *General Accounts* column, he enters small expenses that normally have only one or two monthly payments, such as licenses and postage.

Henry does not pay personal or nonbusiness expenses by checks drawn on the business account. If he did, he would record them in the journal, even though he could not deduct them as business expenses.

Henry carries the January total of expenses for materials (\$1,083.50) to the *Annual Summary*. Similarly, he enters the monthly total of expenses for telephone, truck/ auto, etc., in the appropriate columns of that summary.

4. Employee Compensation Record

This record shows the following information.

- The number of hours Henry's employee worked in a pay period.
- The employee's total pay for the period.

- The deductions Henry withheld in figuring the employee's net pay.
- The monthly gross payroll.

Henry carries the January gross payroll (\$520) to the *Annual Summary*.

5. Annual Summary

This annual summary of monthly cash receipts and expense totals provides the final amounts to enter on Henry's tax return. He figures the cash receipts total from the total of monthly cash receipts shown in the *Monthly Summary of Cash Receipts*. He figures the expense totals from the totals of monthly expense items shown in the *Check Disbursements Journal*. As in the journal, he keeps each major expense in a separate column.

Henry carries the cash receipts total shown in the annual summary (\$47,440.95) to Part I of Schedule C (Form 1040) (not illustrated).

He carries the total for materials (\$10,001.00) to Part II of Schedule C (Form 1040).

A business that keeps materials and supplies on hand generally must complete the inventory lines in Part III of Schedule C (Form 1040). However, there are no inventories of materials and supplies in this example. Henry buys parts and supplies on a per-job basis; he does not keep them on hand.

Henry enters annual totals for interest, rent, taxes, and wages on the appropriate lines in Part II of Schedule C (Form 1040). The total for taxes and licenses includes the employer's share of social security and Medicare taxes, and the business license fee. He enters the total of other annual business expenses on the "Other expenses" line of Schedule C (Form 1040).

6. Depreciation Worksheet

This worksheet shows the information used in figuring the depreciation allowed on assets used in Henry's business. Henry figures the depreciation using the modified accelerated cost recovery system (MACRS). He purchased and placed in service several used assets that do not qualify for the section 179 deduction. Depreciation and the section 179 deduction are discussed in Pub. 946. Henry uses the information in the worksheet to complete Form 4562, Depreciation and Amortization (not illustrated).

7. Bank Reconciliation

Henry reconciles his checkbook with his bank statement and prepares a bank reconciliation for January as follows.

1. Henry begins by entering his bank statement balance.

2. Henry compares the deposits listed on the bank statement with deposits shown in his checkbook. Two deposits shown in his checkbook— \$701.33 and \$516.08—were not on his bank statement. He enters these two amounts on the bank reconciliation. He adds them to the bank statement balance of \$1,458.12 to arrive at a subtotal of \$2,675.53.
3. After comparing each canceled check with his checkbook, Henry found four outstanding checks totaling \$526.50. He subtracts this amount from the subtotal in (2). The result of \$2,149.03 is the adjusted bank statement balance.
4. Henry enters his checkbook balance on the bank reconciliation.
5. Henry discovered that he mistakenly entered a deposit of \$600.40 in his checkbook as \$594.40.

He adds the difference (\$6.00) to the checkbook balance of \$2,153.03. There was a \$10.00 bank service charge on his bank statement that he subtracts from the checkbook balance. The result is the adjusted checkbook balance of \$2,149.03. This equals his adjusted bank statement balance computed in (3).

The only book adjustment Henry needs to make is to the *Check Disbursements Journal* for the \$10 bank service charge. He does not need to adjust the *Monthly Summary of Cash Receipts* because he correctly entered the January 8 deposit of \$600.40 in that record.

Daily Cash Receipts

1. Daily Summary of Cash Receipts

Date January 3, 20 —

Cash sales	263.60
Sales tax	4.20
TOTAL RECEIPTS	267.80

Cash on hand

Cash in register (including unspent petty cash)

Coins	23.75	
Bills	143.00	
Checks	134.05	
TOTAL CASH IN REGISTER	300.80	
Add: Petty cash slips	17.00	
TOTAL CASH	317.80	

Less: Change and petty cash

Petty cash slips	17.00	
Coins and bills (unspent petty cash)	33.00	
TOTAL CHANGE AND PETTY CASH FUND . .	50.00	
TOTAL CASH RECEIPTS	267.80	

2. Monthly Summary of Cash Receipts

Year 20— Month January

Day	Net Sales	Sales Tax	Daily Receipts	Deposit
3	263.60	4.20	267.80	
4	212.00	3.39	215.39	
5	194.40	3.10	197.50	680.69
6	222.40	3.54	225.94	
7	231.15	3.68	234.83	
8	137.50	2.13	139.63	600.40
10	187.90	2.99	190.89

2,159.03

Subtract: Bank service charge 10.00

Adjusted checkbook balance 2,149.03

How To Get Tax Help

If you have questions about a tax issue; need help preparing your tax return; or want to download free publications, forms, or instructions, go to [IRS.gov](https://www.irs.gov) to find resources that can help you right away.

Preparing and filing your tax return.

After receiving all your wage and earnings statements (Forms W-2, W-2G, 1099-R, 1099-MISC, 1099-NEC, etc.); unemployment compensation statements (by mail or in a digital format) or other government payment statements (Form 1099-G); and interest, dividend, and retirement statements from banks and investment firms (Forms 1099), you have several options to choose from to prepare and file your tax return. You can prepare the tax return yourself, see if you qualify for free tax preparation, or hire a tax professional to prepare your return.

Free options for tax preparation. Your options for preparing and filing your return online or in your local community, if you qualify, include the following.

- **Direct File.** Direct File is a permanent option to file individual federal tax returns online—for free—directly and securely with the IRS. Direct File is an option for taxpayers in participating states who have relatively simple tax returns reporting certain types of income and claiming certain credits and deductions. While Direct File doesn't prepare state returns, if you live in a participating state, Direct File guides you to a state-supported tool you can use to prepare and file your state tax return for free. Go to [IRS.gov/DirectFile](https://www.irs.gov/DirectFile) for more information, program updates, and frequently asked questions.

- **Free File.** This program lets you prepare and file your federal individual income tax return for free using software or Free File Fillable Forms. However, state tax preparation may not be available through Free File. Go to [IRS.gov/FreeFile](https://www.irs.gov/FreeFile) to see if you qualify for free online federal tax preparation, e-filing, and direct deposit or payment options.
- **VITA.** The Volunteer Income Tax Assistance (VITA) program offers free tax help to people with low-to-moderate incomes, persons with disabilities, and limited-English-speaking taxpayers who need help preparing their own tax returns. Go to [IRS.gov/ VITA](https://www.irs.gov/VITA), download the free IRS2Go app, or call 800-906-9887 for information on free tax return preparation.

- **TCE.** The Tax Counseling for the Elderly (TCE) program offers free tax help for all taxpayers, particularly those who are 60 years of age and older. TCE volunteers specialize in answering questions about pensions and retirement-related issues unique to seniors. Go to [IRS.gov/TCE](https://www.irs.gov/TCE) or download the free IRS2Go app for information on free tax return preparation.
- **MilTax.** Members of the U.S. Armed Forces and qualified veterans may use MilTax, a free tax service offered by the Department of Defense through Military OneSource. For more information, go to [MilitaryOneSource \(MilitaryOneSource.mil/MilTax\)](https://www.MilitaryOneSource.com/MilTax).

Also, the IRS offers Free Fillable Forms, which can be completed online and then e-filed regardless of income.

Using online tools to help prepare your return. Go to [IRS.gov/Tools](https://www.irs.gov/Tools) for the following.

- [IRS.gov/DirectFile](https://www.irs.gov/DirectFile) offers an Eligibility Checker to help you determine if Direct File is the right choice for your tax filing needs.
- The [Earned Income Tax Credit Assistant \(IRS.gov/ EITCAssistant\)](https://www.irs.gov/EITCAssistant) determines if you're eligible for the earned income credit (EIC).
- The [Online EIN Application \(IRS.gov/EIN\)](https://www.irs.gov/EIN) helps you get an employer identification number (EIN) at no cost.
- The [Tax Withholding Estimator \(IRS.gov/W4App\)](https://www.irs.gov/W4App) makes it easier for you to estimate the federal income tax you want your employer to withhold from your paycheck. This is tax withholding. See how your withholding affects your refund, take-home pay, or tax due.

- The [First-Time Homebuyer Credit Account Look-up \(IRS.gov/HomeBuyer\)](https://www.irs.gov/first-time-homebuyer-credit-account-look-up) tool provides information on your repayments and account balance.
- The [Sales Tax Deduction Calculator \(IRS.gov/ SalesTax\)](https://www.irs.gov/sales-tax-deduction-calculator) figures the amount you can claim if you itemize deductions on Schedule A (Form 1040).

Getting answers to your tax questions. On IRS.gov, you can get up-to-date information on current events and changes in tax law.

- [IRS.gov/Help](https://www.irs.gov/help): A variety of tools to help you get answers to some of the most common tax questions.
- [IRS.gov/ITA](https://www.irs.gov/ita): The Interactive Tax Assistant, a tool that will ask you questions and, based on your input, provide answers on a number of tax topics.

- [IRS.gov/Forms](https://www.irs.gov/forms): Find forms, instructions, and publications. You will find details on the most recent tax changes and interactive links to help you find answers to your questions.
- You may also be able to access tax information in your e-filing software.

Need someone to prepare your tax

return? There are various types of tax return preparers, including enrolled agents, certified public accountants (CPAs), accountants, and many others who don't have professional credentials. If you choose to have someone prepare your tax return, choose that preparer wisely. A paid tax preparer is:

- Primarily responsible for the overall substantive accuracy of your return,
- Required to sign the return, and
- Required to include their preparer tax identification number (PTIN).

Although the tax preparer always signs the return, you're ultimately responsible for providing all the information required for the preparer to accurately prepare your return and for the accuracy of every item reported on the return. Anyone paid to prepare tax returns for others should have a thorough understanding of tax matters. For more information on how to choose a tax preparer, go to [Tips for Choosing a Tax Preparer](#) on IRS.gov.

Employers can register to use Business Services Online. The Social Security Administration (SSA) offers online service at [SSA.gov/employer](https://ssa.gov/employer) for fast, free, and secure W-2 filing options to CPAs, accountants, enrolled agents, and individuals who process Form W-2, Wage and Tax Statement; and Form W-2c, Corrected Wage and Tax Statement.

Business tax account. If you are a sole proprietor, a partnership, or an S corporation, you can view your tax information on record with the IRS and do more with a business tax account. Go to [IRS.gov/businessaccount](https://www.irs.gov/businessaccount) for more information.

IRS social media. Go to [IRS.gov/SocialMedia](https://www.irs.gov/SocialMedia) to see the various social media tools the IRS uses to share the latest information on tax changes, scam alerts, initiatives, products, and services. At the IRS, privacy and security are our highest priority. We use these tools to share public information with you. **Don't** post your social security number (SSN) or other confidential information on social media sites. Always protect your identity when using any social networking site.

The following IRS YouTube channels provide short, informative videos on various tax-related topics in English, Spanish, and ASL.

- [Youtube.com/irsvideos](https://www.youtube.com/irsvideos).
- [Youtube.com/irsvideomultilingua](https://www.youtube.com/irsvideomultilingua).
- [Youtube.com/irsvideosASL](https://www.youtube.com/irsvideosASL).

Online tax information in other languages. You can find information on [IRS.gov/MyLanguage](https://www.irs.gov/MyLanguage) if English isn't your native language.

Free Over-the-Phone Interpreter (OPI) Service. The IRS is committed to serving taxpayers with limited-English proficiency (LEP) by offering OPI services. The OPI Service is a federally funded program and is available at Taxpayer Assistance Centers (TACs), most IRS offices, and every VITA/TCE tax return site. The OPI Service is accessible in more than 350 languages.

Accessibility Helpline available for taxpayers with disabilities. Taxpayers who need information about accessibility services can call 833-690-0598.

The Accessibility Helpline can answer questions related to current and future accessibility products and services available in alternative media formats (for example, braille, large print, audio, etc.). The Accessibility Helpline does not have access to your IRS account. For help with tax law, refunds, or account-related issues, go to [IRS.gov/LetUsHelp](https://www.irs.gov/LetUsHelp).

Alternative media preference. Form 9000, Alternative Media Preference, or Form 9000(SP) allows you to elect to receive certain types of written correspondence in the following formats.

- Standard Print.
- Large Print.
- Braille.
- Audio (MP3).
- Plain Text File (TXT).
- Braille Ready File (BRF).

Disasters. Go to [IRS.gov/DisasterRelief](https://www.irs.gov/DisasterRelief) to review the available disaster tax relief.

Getting tax forms and publications. Go to [IRS.gov/Forms](https://www.irs.gov/Forms) to view, download, or print all the forms, instructions, and publications you may need. Or, you can go to [IRS.gov/OrderForms](https://www.irs.gov/OrderForms) to place an order.

Mobile-friendly forms. You'll need an IRS Online Account (OLA) to complete mobile-friendly forms that require signatures. You'll have the option to submit your form(s) online or download a copy for mailing. You'll need scans of your documents to support your submission. Go to [IRS.gov/MobileFriendlyForms](https://www.irs.gov/MobileFriendlyForms) for more information.

Getting tax publications and instructions in eBook format. Download and view most tax publications and instructions (including the Instructions for Form 1040) on mobile devices as eBooks at [IRS.gov/eBooks](https://www.irs.gov/eBooks).

IRS eBooks have been tested using Apple's iBooks for iPad. Our eBooks haven't been tested on other dedicated eBook readers, and eBook functionality may not operate as intended.

Access your online account (individual taxpayers only). Go to [IRS.gov/Account](https://www.irs.gov/Account) to securely access information about your federal tax account.

- View the amount you owe and a breakdown by tax year.
- See payment plan details or apply for a new payment plan.
- Make a payment or view 5 years of payment history and any pending or scheduled payments.
- Access your tax records, including key data from your most recent tax return, and transcripts.

- View digital copies of select notices from the IRS.
- Approve or reject authorization requests from tax professionals.
- View your address on file or manage your communication preferences.

Get a transcript of your return. With an online account, you can access a variety of information to help you during the filing season. You can get a transcript, review your most recently filed tax return, and get your adjusted gross income. Create or access your online account at [IRS.gov/ Account](https://www.irs.gov/Account).

Tax Pro Account. This tool lets your tax professional submit an authorization request to access your individual taxpayer IRS OLA. For more information, go to [IRS.gov/ TaxProAccount](https://www.irs.gov/TaxProAccount).

Using direct deposit. The safest and easiest way to receive a tax refund is to e-file and choose direct deposit, which securely and electronically transfers your refund directly into your financial account. Direct deposit also avoids the possibility that your check could be lost, stolen, destroyed, or returned undeliverable to the IRS. Eight in 10 taxpayers use direct deposit to receive their refunds. If you don't have a bank account, go to [IRS.gov/DirectDeposit](https://www.irs.gov/DirectDeposit) for more information on where to find a bank or credit union that can open an account online.

Reporting and resolving your tax-related identity theft issues.

- Tax-related identity theft happens when someone steals your personal information to commit tax fraud. Your taxes can be affected if your SSN is used to file a fraudulent return or to claim a refund or credit.

- The IRS doesn't initiate contact with taxpayers by email, text messages (including shortened links), telephone calls, or social media channels to request or verify personal or financial information. This includes requests for personal identification numbers (PINs), passwords, or similar information for credit cards, banks, or other financial accounts.
- Go to [IRS.gov/IdentityTheft](https://www.irs.gov/IdentityTheft), the IRS Identity Theft Central webpage, for information on identity theft and data security protection for taxpayers, tax professionals, and businesses. If your SSN has been lost or stolen or you suspect you're a victim of tax-related identity theft, you can learn what steps you should take.
- Get an Identity Protection PIN (IP PIN). IP PINs are six-digit numbers assigned to taxpayers to help prevent the misuse of their SSNs on fraudulent federal income

tax returns. When you have an IP PIN, it prevents someone else from filing a tax return with your SSN. To learn more, go to [IRS.gov/IPPIN](https://www.irs.gov/IPPIN).

Ways to check on the status of your refund.

- Go to [IRS.gov/Refunds](https://www.irs.gov/Refunds).
- Download the official IRS2Go app to your mobile device to check your refund status.
- Call the automated refund hotline at 800-829-1954.

The IRS can't issue refunds before mid-February for returns that claimed the EIC or the additional child tax credit (ACTC). This applies to the entire refund, not just the portion associated with these credits.

Making a tax payment. Payments of U.S. tax must be remitted to the IRS in U.S. dollars. [Digital assets](#) are **not** accepted.

Go to [IRS.gov/Payments](https://www.irs.gov/Payments) for information on how to make a payment using any of the following options.

- [*IRS Direct Pay*](#): Pay your individual tax bill or estimated tax payment directly from your checking or savings account at no cost to you.
- [*Debit Card, Credit Card, or Digital Wallet*](#): Choose an approved payment processor to pay online or by phone.
- [*Electronic Funds Withdrawal*](#): Schedule a payment when filing your federal taxes using tax return preparation software or through a tax professional.
- [*Electronic Federal Tax Payment System*](#): This is the best option for businesses. Enrollment is required.
- [*Check or Money Order*](#): Mail your payment to the address listed on the notice or instructions.

- [Cash](#): You may be able to pay your taxes with cash at a participating retail store.
- [Same-Day Wire](#): You may be able to do same-day wire from your financial institution. Contact your financial institution for availability, cost, and time frames.

Note. The IRS uses the latest encryption technology to ensure that the electronic payments you make online, by phone, or from a mobile device using the IRS2Go app are safe and secure. Paying electronically is quick, easy, and faster than mailing in a check or money order.

What if I can't pay now? Go to [IRS.gov/Payments](https://www.irs.gov/Payments) for more information about your options.

- Apply for an [online payment agreement](https://www.irs.gov/opa) ([IRS.gov/ OPA](https://www.irs.gov/opa)) to meet your tax obligation in monthly installments if you can't pay your taxes in full today.

Once you complete the online process, you will receive immediate notification of whether your agreement has been approved.

- Use the [Offer in Compromise Pre-Qualifier](#) to see if you can settle your tax debt for less than the full amount you owe. For more information on the Offer in Compromise program, go to [IRS.gov/OIC](#).

Filing an amended return.

Go to [IRS.gov/Form1040X](#) for information and updates.

Checking the status of your amended return. Go to [IRS.gov/WMAR](#) to track the status of Form 1040-X amended returns.

It can take up to 3 weeks from the date you filed your amended return for it to show up in our system, and processing it can take up to 16 weeks.

Understanding an IRS notice or letter you've received. Go to [IRS.gov/Notices](https://www.irs.gov/Notices) to find additional information about responding to an IRS notice or letter.

IRS Document Upload Tool. You may be able use the Document Upload Tool to respond digitally to eligible IRS notices and letters by securely uploading required documents online through IRS.gov. For more information, go to [IRS.gov/DUT](https://www.irs.gov/DUT).

Schedule LEP. You can use Schedule LEP (Form 1040), Request for Change in Language Preference, to state a preference to receive notices, letters, or other written communications from the IRS in an alternative language. You may not immediately receive written communications in the requested language. The IRS's commitment to LEP taxpayers is part of a multi-year timeline that began providing translations in 2023.

You will continue to receive communications, including notices and letters, in English until they are translated to your preferred language.

Contacting your local TAC. Keep in mind, many questions can be answered on IRS.gov without visiting a TAC. Go to [IRS.gov/LetUsHelp](https://www.irs.gov/LetUsHelp) for the topics people ask about most. If you still need help, TACs provide tax help when a tax issue can't be handled online or by phone. All TACs now provide service by appointment, so you'll know in advance that you can get the service you need without long wait times. Before you visit, go to [IRS.gov/TACLocator](https://www.irs.gov/TACLocator) to find the nearest TAC and to check hours, available services, and appointment options. Or, on the IRS2Go app, under the Stay Connected tab, choose the Contact Us option and click on "Local Offices."

Below is a message to you from the Taxpayer Advocate Service, an independent organization established by Congress.

The Taxpayer Advocate Service (TAS) Is Here To Help You

What Is the Taxpayer Advocate Service?

The Taxpayer Advocate Service (TAS) is an independent organization within the Internal Revenue Service (IRS). TAS helps taxpayers resolve problems with the IRS, makes administrative and legislative recommendations to prevent or correct the problems, and protects taxpayer rights. We work to ensure that every taxpayer is treated fairly and that you know and understand your rights under the Taxpayer Bill of Rights. We are Your Voice at the IRS.

How Can TAS Help Me?

TAS can help you resolve problems that you haven't been able to resolve with the IRS on your own. Always try to resolve your problem with the IRS first, but if you can't, then come to TAS. Our services are free.

- TAS helps all taxpayers (and their representatives), including individuals, businesses, and exempt organizations. You may be eligible for TAS help if your IRS problem is causing financial difficulty, if you've tried and been unable to resolve your issue with the IRS, or if you believe an IRS system, process, or procedure just isn't working as it should.
- To get help any time with general tax topics, visit www.TaxpayerAdvocate.IRS.gov. The site can help you with common tax issues and situations, such as what to do if you make a mistake on your return or if you get a notice from the IRS.

- TAS works to resolve large-scale (systemic) problems that affect many taxpayers. You can report systemic issues at www.IRS.gov/SAMS. (Be sure not to include any personal identifiable information.)

How Do I Contact TAS?

TAS has offices in every state, the District of Columbia, and Puerto Rico. To find your local advocate's number:

- Go to www.TaxpayerAdvocate.IRS.gov/Contact-Us,
- Check your local directory, or
- Call TAS toll free at 877-777-4778.

What Are My Rights as a Taxpayer?

The Taxpayer Bill of Rights describes ten basic rights that all taxpayers have when dealing with the IRS.

Go to

www.TaxpayerAdvocate.IRS.gov/Taxpayer-Rights for more information about the rights, what they mean to you, and how they apply to specific situations you may encounter with the IRS. TAS strives to protect taxpayer rights and ensure the IRS is administering the tax law in a fair and equitable way.
