INCOME TAX

Rev. Proc. 2025-26, page 315.

This revenue procedure provides indexing adjustments for the applicable dollar amounts under section 4980H(c)(1) and (b)(1) of the Internal Revenue Code. These indexed amounts are used to calculate the employer shared responsibility payments under section 4980H(a) and (b)(1), respectively.

The IRS Mission

Provide America's taxpayers top-quality service by helping them understand and meet their tax responsibilities and enforce the law with integrity and fairness to all.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned

against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1986 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1986.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions and Other Related Items, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts. Also included in this part are Bank Secrecy Act Administrative Rulings. Bank Secrecy Act Administrative Rulings are issued by the Department of the Treasury's Office of the Assistant Secretary (Enforcement).

Part IV.—Items of General Interest.

This part includes notices of proposed rulemakings, disbarment and suspension lists, and announcements.

The last Bulletin for each month includes a cumulative index for the matters published during the preceding months. These monthly indexes are cumulated on a semiannual basis, and are published in the last Bulletin of each semiannual period.

SECTION 1. PURPOSE

This revenue procedure provides indexing adjustments for the applicable dollar amounts under § 4980H(c)(1) and (b)(1) of the Internal Revenue Code. These indexed amounts are used to calculate the employer shared responsibility payments (ESRP) under § 4980H(a) and (b)(1), respectively.

SECTION 2. ADJUSTED ITEMS

Under § 4980H(c)(5), in the case of any calendar year after 2014, the applicable dollar amounts of \$2,000 and \$3,000 under § 4980H(c)(1) and (b)(1), respectively, are increased by an amount equal to the product of such dollar amount and the premium adjustment percentage (as defined in § 1302(c)(4) of the Patient Protection and Affordable Care Act¹) for

the calendar year. If the amount of any increase is not a multiple of \$10, such increase is rounded to the next lowest multiple of \$10.

The Department of Health and Human Services (HHS) published the premium adjustment percentage for 2026 on June 25, 2025, using the most recent National Health Expenditure Accounts (NHEA) income and premium data that was available at the time of publication. For calculation of the 2026 benefit year payment parameters, HHS used the NHEA Projections 2023-2032, the data source that reflected the most recent projections available. Using the NHEA Projections 2023-2032, the premium adjustment percentage for 2026 is the percentage (if any) by which the most recent NHEA projection of per enrollee premiums for private health insurance (excluding Medigap and property and casualty insurance) for 2025 (\$7,885) exceeds the most recent NHEA estimate of per enrollee premiums for private health insurance (excluding Medigap and property and casualty insurance) for 2013 (\$4,714) carried out to ten significant digits. Using this formula, the appli-

cable premium adjustment percentage is 1.6726771319.² For calendar year 2026, the adjusted \$2,000 amount under § 4980H(c)(1) is \$3,340 ($\$2,000 \times 1.6726771319 = \$3,345.3542638$ rounded down to \$3,340), and the adjusted \$3,000 amount under § 4980H(b)(1) is \$5,010 ($\$3,000 \times 1.6726771319 = \$5,018.0313957$ rounded down to \$5,010).

SECTION 3. EFFECTIVE DATE

This revenue procedure is effective for taxable years and plan years beginning after December 31, 2025.

SECTION 4. DRAFTING INFORMATION

The principal author of this revenue procedure is the Office of Associate Chief Counsel (Employee Benefits, Exempt Organizations, and Employment Taxes). Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified*, below).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the

new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in laws or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in a new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1986 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the

new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified* and *superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case, the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.
