# Corporation Income Tax Returns Line Item Estimates

This report contains estimates of frequencies of taxpayer entries and estimates of monetary amounts recorded on the applicable lines of the forms and schedules filed as part of corporation tax returns as shown in the 2022 Statistics of Income (SOI) Complete Report.

The estimates of counts and monetary amounts on 1120 Series forms are aggregated and presented on Form 1120. Items unique to specific 1120 Series forms are shown separately on the specific return type. 1120 Series forms included in the SOI statistical sample are:

Form 1120 Form 1120-F Form 1120-L Form 1120-PC Form 1120-REIT Form 1120-RIC Form 1120-S

Estimates of counts and monetary amounts for attached forms and schedules for 1120 Series tax returns are categorized by the form or schedule and are inclusive across all 1120 Series forms to which they were attached, unless specifically noted on the form. For example, estimates for Form 1120 Schedule D are inclusive across all 1120 Series forms included in the sample except 1120-S, because Schedule D exists as a separate form for 1120S returns.

The Statistics of Income Division's Statistical Information Services (SIS) staff provide data and information in response to requests from customers. The SIS staff can be reached by email at sis@irs.gov.

# Description of the Sample and Limitations of the Data

his section describes the sample design, sample selection, data capture, data cleaning, and data completion processes for the SOI Tax Year (TY) 2022 Corporation Statistics Program. It also presents the techniques used to produce estimates of the total number of active corporations and any associated variables, as well as an assessment of the data limitations, including sampling and nonsampling errors.

#### **Background**

From TY 1916 through TY 1950, SOI extracted data from every corporate income tax return that was filed. In TY 1951, SOI introduced stratified probability sampling. Since then, the sample size has generally decreased while the corporate tax return population has increased. For example, for TY 1951, the sample accounted for 41.5% of the entire population, or 285,000 of the 687,000 total returns that were filed. For TY 2022, the sample accounted for about 1.83% of the total population of just over 7.5 million returns. This population count differs from the estimated population count cited elsewhere in this publication because the sampling frame includes out-of-scope and duplicate returns.

For TY 1951, SOI stratified the sample by size of total assets and industry. However, from TY 1952 through TY 1967, SOI stratified the sample by a measure of size only. The size

was measured by either business volume (TY 1953–TY 1958) or total assets (TY 1952 and TY 1959–TY1967). Since TY 1968, SOI has stratified returns by total assets, and for Forms 1120 and 1120-S by total assets and a measure of income. [1].

#### **Target Population**

The target population consists of all returns of active corporations organized for profit that are required to file one of the 1120-series forms included in this study.

#### **Survey Population**

The survey population includes corporate tax returns filed using one of the 1120-series forms selected for the study and posted to the IRS Business Master File (BMF). Amended returns and returns for which the tax liabilities changed because of a tax audit were excluded from the survey. Figure E gives the number of corporate returns by form type that were subject to sampling during TYs 2019 through 2022, as well as the resulting sample sizes.

#### Sample Design

The current design is a probability sample stratified by form type and either by 1) size of total assets alone or 2) size of total assets and a measure of income. Form 1120 returns are

Figure E. Total Number of Corporation Tax Returns: Population and Sample Counts, Tax Years 2019–2022

	Tax year											
Form type	20	19	20	20	20	)21	20	)22

Total	6,972,543	124,890	7,031,863	131,205	7,421,978	146, 732	7,540,316	138,232				

Bertrand Überall and Nicholas Mountjoy were responsible for the sample design and estimation of the SOI 2022 Corporation Statistics Program under the direction of Tamara Rib, Chief, SOI Program Support, Statistical Services Branch.

stratified by size of total assets and size of "proceeds," which is the measure of income for this form. Size of proceeds is defined as the larger of the absolute value of net income (or deficit) or the absolute value of "cash flow," which is the sum of net income, several depreciation amounts, and depletion. Form 1120-S is stratified by size of total assets and size of ordinary income. SOI stratified all other 1120-series forms (1120-L, 1120-PC, 1120-RIC, 1120-REIT, and 1120-F) by size of total assets only.

SOI began the design process with projected population totals derived from IRS administrative workload estimates, adjusted using the distribution by population strata from previous survey years. Using projected population totals by sample strata, SOI carried out an optimal allocation based on strata standard errors to assign sample sizes to each stratum such that the overall targeted sample size was 140,000 returns for TY 2022, significantly larger than the TY 2021 target. Mathematical statisticians selected a Bernoulli sample independently from each stratum, with sampling rates ranging from 0.25 to 100%. The total realized sample for 2022, including inactive and noneligible corporations, is 138,232 returns.

#### **Sample Selection**

The IRS Kansas City and Ogden Submission Processing Centers process all corporate returns to determine tax liability before transmitting the data to the BMF. After any error correction, these returns are said to "post" to the BMF, which serves as the SOI sampling frame. SOI selects the sample on a weekly basis.

Sample selection for TY 2022 occurred over a 24-month period, from July 2022 through June 2024. SOI requires a 24month sampling period for two reasons. First, nearly 5.6% of all corporations use non-calendar year accounting periods. To capture these returns, the TY 2022 statistics include all corporations filing returns with accounting periods ending between July 2022 and June 2023. Second, many corporations, including some of the largest corporations, request filing extensions, which generally extend the filing deadline by 6 months. This combination of non-calendar year accounting periods and filing extensions means that the last TY 2022 returns the IRS received had accounting periods ending in June 2023, and had to be filed by September 2023. However, taking into account the filing extensions, these returns could have been filed as late as April 2024 and still be considered timely. To account for the normal processing time, the sample selection process remained open for the TY 2022 study until the end of June 2024. In addition, SOI adjusted its processes because some significant returns became available for SOI processing later because of COVID-19 related processing adjustments in the IRS Submission Processing Centers.

Each tax return in the survey population is assigned to a stratum and becomes subject to sampling. Each filing corporation has a unique Employer Identification Number (EIN). An integer function of the EIN, called the Transformed Taxpayer Identification Number (TTIN), is computed. The number formed by the last four digits of the TTIN is a pseudorandom number. A return for which this pseudo-random number is less than the sampling rate multiplied by 10,000 is selected for the sample.

The algorithm for generating the TTIN does not change from year to year. Therefore, corporations selected for the sample in any given year may be selected for the following year, so long as the corporation files a return using the same EIN and is placed into a stratum with the same or higher sampling rate. If the corporation is placed into a stratum with a lower rate, the probability of selection will be the ratio of the second-year sampling rate to the first-year sampling rate. If the corporation files with a new EIN, then the probability of selection will be independent from the prior-year selection [2].

#### **Data Capture**

Data processing for SOI begins with information that was already extracted for IRS administrative purposes. More than 100 data items available from the BMF system are checked and corrected (as necessary), and SOI also extracts some 2,500 additional items from the corporate tax returns during processing. This data capture process can take as little as 15 minutes for a small, single-entity corporation filing Form 1120, or up to several weeks for a large, consolidated corporation filing several hundred attachments and schedules with the return. The process is further complicated by several factors:

- Over 2,500 separate data items may be extracted from any given tax return. This often requires constructing totals from various other items elsewhere on the return.
- Each 1120-series form type has a different layout with different types of schedules and attachments, making data extraction less than uniform for the various forms.
- There is not any legal requirement for a corporation to meet its tax return filing requirements by filling in, line by line, the entire U.S. tax return form. Therefore, many corporate taxpayers report financial details using schedules of their own design or using commercial tax preparation software packages.
- A single accepted method of corporate tax accounting does not exist in the United States, but there are several accepted "guidelines," which can vary by geographic location. SOI staff attempt to standardize these differences during data abstraction and editing.
- Different companies may report the same data item, such as other current liabilities, on different lines of the tax form. SOI staff also attempt to standardize these differences.

Each tax year, to help staff overcome these complexities and differences in taxpayer reporting, SOI prepares detailed instructions for the editing units at the IRS Submission Processing Centers. For TY 2022, these instructions covered standard and straightforward procedures and instructions for addressing data exceptions.

#### **Data Cleaning**

SOI staff enter data from the corporate tax returns selected for the sample directly into the database. In this context, the term "editing" refers to the combined interactive processes of data extraction, consistency testing, and error resolution. SOI runs hundreds of tests to check for inconsistencies, and they include identifying:

- Impossible conditions, such as incorrect tax data for a particular form type.
- Internal inconsistencies, such as items not adding to totals.
- Questionable values, such as a bank with an unusually large amount reported for cost of goods sold and/or operations.
- Improper sample class codes, such as when a return has \$100 million in total assets but was selected as though it had \$1 million because the last two digits of the total assets were keyed in as cents.

#### **Data Completion**

In addition to the tests previously mentioned, SOI addresses missing data items and identifies returns to be excluded from the tabulations. The data completion process focuses on these issues.

Beginning with the TY 2012 sample, the criteria for imputing balance sheets for returns with incomplete balance sheets changed significantly. Now, only the largest returns with incomplete balance sheets are subject to SOI's balance sheet imputation procedure. As a result, the number of returns with imputed balance sheets will be negligible, and SOI will perform imputation on an ad hoc basis only.

SOI uses various methods to impute data for some certainty returns that were unavailable for editing, depending on the information available at the time the return needed to be completed for the sample. These corporations are identified from the previous year's sample using a combination of assets and receipts. Additional corporations may need to be identified to ensure industry coverage. SOI uses electronically filed data for those corporate returns selected for the sample that were unavailable for statistical processing. For TY 2022, there were 40 returns that met these criteria. For some returns that were not selected for the sample, if the current tax return was not located and other current tax data were not available, then SOI used data from the previous year's return, with any necessary adjustments for tax law changes.

The data completion process also includes identifying returns not eligible for the sample because the BMF may have duplicate and other out-of-scope returns. These returns include those filed by nonprofit corporations, returns having neither current income nor deductions, and prior-year tax returns. Additionally, amended or tentative returns, nonresident foreign corporations having no effectively connected income with a trade or business located in the United States, fraudulent returns, and returns filed by tax-exempt corporations are not eligible for the sample. Figure F displays the number of inactive sampled returns excluded from the tabulations, as well as the percentages of the total sample size they represent for TY 2019 through TY 2022.

Figure F. Corporation Tax Returns: Number of Inactive Sampled Returns for Tax Years 2019-2022

Tuno of	Tax year									
Type of inactive return	2019	2020	2021	2022						
mactive return	(1)	(2)	(3)	(4)						
No income or deductions	2,602	2,733	2,536	2,837						
Other*	6,960	8,235	10,630	9,886						
Total	9,562	10,968	13,166	12,723						
Percent of sample	7.69	8.41	9.19	9.22						

\*Includes duplicate returns (returns that appear more than once in the sample) and prior-year

Figure G provides estimates of the number of active corporations by form type for TY 2019 through TY 2022. For Forms 1120-L and 1120-PC, these estimates may differ from the population counts in Figure E due to changes made during the data capture and data cleaning processes.

Figure G. Corporation Tax Returns: Estimated Number of Active Returns for Tax Years 2019-2022

	Tax year								
Form type	2019	2020	2021	2022					
	(1)	(2)	(3)	(4)					
1120	1,477,196	1,451,658	1,509,261	1,514,763					
1120-S	4,940,351	4,892,722	5,120,552	5,266,702					
1120-L	525	475	461	455					
1120-PC	15,589	15,870	16,155	17,195					
1120-RIC	15,164	15,705	17,013	17,245					
1120-REIT	3,885	4,160	4,597	5,674					
1120-F*	21,037	21,540	22,692	23,687					
Total	6,473,747	6,402,130	6,690,732	6,845,719					

NOTE: Detail may not add to total due to rounding.
\*Foreign Insurance Companies file on Forms 1120-L and 1120-PC, but are counted in Form 1120-F, Table 10.

#### **Estimation**

SOI bases the estimates of the total number of corporations and associated variables produced in this report on weighted sample data using either a one-step or two-step process, depending on the filed form type. Under the onestep process, SOI assigns a weight for the return, which is the reciprocal of the realized sampling rate, adjusted for unavailable returns, outliers, weight trimming, and any other necessary adjustments. SOI used these weights, referred to as the "national weights," to produce the estimates published in this report for Forms 1120-F, 1120-L, 1120-PC, 1120-RIC, and 1120-REIT, as well as Forms 1120 and 1120-S returns that were sampled with certainty.

The two-step process is used to improve the estimates by industry for returns filed using either Form 1120 or Form 1120-S that were not selected in self-representing strata. The first stage of the two-step process is to assign an initial weight for the return as previously described. The second stage involves post-stratification by industry and sample selection class. SOI uses a bounded raking ratio estimation approach to determine the final weights because certain post-stratification cells may have small sample sizes [3]. SOI used these final weights for these forms to produce the aggregated frequency and money amount estimates that are published in this report.

#### **Data Limitations and Measures of Variability**

SOI uses several extensive quality review processes to improve data quality. This starts at the sample selection stage with weekly monitoring to ensure the proper number of returns is selected, especially for the certainty strata. These processes continue using consistency testing through the data collection, data cleaning, and data completion procedures. Part of the review process includes extensive comparisons between the sample year (TY 2022) and prior-year (TY 2021) data. SOI designed each processing stage to ensure data integrity.

#### Sampling Error:

Since the TY 2022 estimates are based on a sample, they may differ from population aggregates, which were compiled from a complete census of all corporate income tax returns. The TY 2022 sample is one of many possible samples that could have been selected under the same sample design. Estimates derived from one possible sample could differ from those derived from another sample or from the population aggregates. The deviation of a sample estimate from the average of all possible similarly selected samples is called the sampling error.

The standard error (SE), a measure of the average magnitude of the sampling errors over all possible samples, can be estimated from the realized sample. The estimated standard error is usually expressed as a percentage of the value being estimated. This is called the estimated coefficient of variation (CV) of the estimate, and it can be used to assess the reliability of an estimate. The smaller the CV, the more reliable the estimate is deemed to be.

SOI calculates the estimated coefficient of variation of an estimate by dividing the estimated standard error by the estimate itself, and then taking the absolute value of this ratio. Table 1 (see Section 4) shows the estimated coefficients of variation by industrial groupings for the estimated number of returns as well as selected money amounts. The estimated CV, CV(X), can be used to construct confidence intervals for the estimate X. The estimated standard error, which is required for the confidence interval, must first be calculated. For example, the estimated number of companies in the manufacturing sector with net income and the corresponding estimated CV can be found in Table 1 and used to calculate the estimated standard error:

$$SE(X) = X \cdot CV(X)$$
  
= 138,867 x 3.92/100  
= 5.444

A 95% confidence interval for the estimated number of returns in manufacturing is constructed as follows:

$$X \pm 2 \cdot SE(X) = 138,867 \pm (2 \times 5,444)$$
  
= 138,867 \pm 10,888

The interval estimate is 127,979 returns to 149,755 returns. This means that if all possible samples were selected under the same general conditions and sample design, and if an estimate and its estimated standard error were calculated from each sample, then approximately 95% of the intervals from two standard errors below the estimate to two standard errors above the estimate would include the average estimate derived from all possible samples. Thus, for a particular sample, it can be said with 95% confidence that the average of all possible samples is included in the constructed interval. This average of the estimates derived from all possible samples would be equal to or near the value obtained from a census.

#### Nonsampling Error:

In addition to the sampling error, a nonsampling error can also affect the estimates. Nonsampling errors can be classified into two groups: random errors—whose effects may cancel out, and systematic errors—whose effects tend to remain somewhat fixed and result in bias.

Nonsampling errors include coverage errors, nonresponse errors, processing errors, or response errors. The inability to obtain information for all sampled returns, differing interpretations of tax concepts or taxpayer instructions, inability to provide accurate information at the time of filing (data are collected before auditing), and inability to obtain all tax schedules and attachments may cause these errors. These errors may also be caused by data recording or coding errors, data collecting or cleaning errors, estimation errors, and failure to represent all population units.

#### Coverage Error:

Coverage errors in the SOI corporation data can result from the difference between the time frame for sampling and the actual time needed for filing and processing the returns. Since many of the largest corporations receive filing-period extensions, they may file their returns after the closing date for sample selection, as was explained before in the Sample Selection description. However, any of the largest returns found are added into the file until the final file is produced.

Coverage problems within industrial groupings in the SOI Corporation study may result from the way some consolidated returns are filed. The Internal Revenue Code (IRC) permits a parent corporation to file a single return, which includes the combined financial data of the parent and its subsidiaries. These data are not separated into the different industries but are entered into the industry with the largest receipts. Thus, there is undercoverage of financial data within certain industries and overcoverage in others. Coverage problems within industries present a limitation on any analysis of the sample results.

#### Nonresponse Error:

There are two types of nonresponse errors: unit and item. Unit nonresponse occurs when a sampled return is unavailable for SOI processing. For example, other areas of the IRS may have the return at the time it is needed for statistical processing. These returns are termed "unavailable returns."

Item nonresponse occurs when certain items are unavailable for a return that was selected for SOI processing, even if the return itself is available. An example of item nonresponse would be an item missing from the balance sheet, even though other items have been reported.

#### Processing Error:

Errors in recording, coding, or processing the data can cause a return to be sampled in the wrong sampling class. This type of error is called a misstratification error. An example of how a return might be misstratified: a corporation files a return with total assets of \$100,000,023 and net income of \$5,000. A processing error causes the last two digits of the total assets to be keyed in as cents, so that the return is classified according to total assets of \$1,000,000.23 and net income of \$5,000.00. The return would be misstratified according to the incorrect value of the total assets stratifier. To adjust for misstratification errors, only returns selected in a noncertainty stratum that actually belonged in a certainty stratum were moved to this certainty stratum.

#### Response Error:

Response errors are due to data being captured before audit. Some purely arithmetical errors made by the taxpayer are corrected during the data capture and cleaning processes. Because of time constraints, SOI does not incorporate adjustments to a return during audit into the file.

# Line Item Data Confidence Intervals

he data shown for each form in this publication is taken from the Statistics of Income (SOI) 2022 Corporate Tax Return Sample and is therefore subject to the same data limitations that are detailed in the 2022 SOI Corporate Income Tax Complete Report (Publication 16). Because these data are statistically sampled, the money amounts are estimates and should not be treated as actual money amounts. As such, the data contained here are from a sample that could be one of a number of possible samples of corporate tax returns. Because each sample would contain different returns, estimates constructed from each sample would vary. The sample estimate, along with the estimated standard error, allows the computation of confidence intervals indicating that the estimate is contained within the interval with the prescribed confidence. Below are the computed 95% confidence intervals for selected variable counts that are shared among one or more Form 1120 return types, along with the associated Coefficient of Variation (CV). The variables selected are detailed in the 2022 SOI Corporate Income Tax Complete Report (Publication 16).

Variable	CV	Lower Bound	Upper bound
Number of returns	0.03	6,841,612	6,849,826
Total receipts	0.17	45,190,549,382	45,498,893,488
Business receipts	0.19	39,791,212,280	40,094,779,048
Cost of goods sold	0.26	24,444,882,185	24,700,437,849
Net income	0.09	5,501,566,807	5,521,408,161
Deficit	0.47	710,849,717	724,340,505
Income subject to tax	0.04	2,876,797,678	2,881,404,240
Total income tax before credits	0.04	632,809,082	633,822,388
Total income tax after credits	0.06	448,182,119	449,259,049
Total assets	0.01	143,302,138,917	143,359,471,239
Depreciable assets	0.14	16,807,365,483	16,901,751,009
Depreciation deduction	0.30	1,261,331,254	1,276,558,594

Table 1. 95% Confidence Intervals for Estimates of Selected Variables

# **Notes on Data Estimates**

Estimates marked with an asterisk (\*) preceding the data are based on a small number of sampled returns and should be used with caution. A dash (-) or zero shown in place of an estimate indicates that there were no returns having that characteristic, or the characteristic was so rare that it did not appear on any sampled returns. The symbol (d) indicates that this value (and the associated money amount) was suppressed to avoid disclosure of information for specific corporations. Detail may not add to total due to taxpayer reporting, rounding, and the impact of adjustments or other items not shown separately.

Some attachments to Form 1120 series returns were excluded because the quantities represented in the sample were insufficient for this publication. These attachments are:

- Form 6478, Biofuel Producer Credit;
- Form 8609-A, Annual Statement for Low-Income Housing Credit;
- Form 8826, Disabled Access Credit;
- Form 8834, Qualified Electric Vehicle Credit;
- Form 8896, Low Sulfur Diesel Fuel Production Credit; and
- Form 8910, Alternative Motor Vehicle Credit
- Form 8941, Credit for Small Employer Health Insurance Premiums
- Form 8996, Qualified Opportunity Fund

Data for items common across the various 1120 return types are shown as aggregates on Form 1120. Each 1120 return type displays counts and amounts for items unique to that return type as well as some common fields which are included in the aggregates on Form 1120, including:

- Total income (loss)
- Total deductions
- Taxable income
- Tax computation items
- Total assets
- Total liabilities
- Schedule M-1 items
- Schedule M-2 items
- [1] Counts and amounts for this data item are included in the aggregate totals shown on Form 1120.
- [2] Balance sheet data is not available for returns filing Form 1120-F, *U.S. Income Tax Return of a Foreign Corporation*. There is no 1120-F balance sheet information included in the aggregate balance sheet data shown on Form 1120.
- [3] Data for 1120-REIT, 1120-RIC, and 1120S have been excluded from the following forms: 3468, 3800, 5884, 5884-A, 6765, 8586, 8820, 8827, 8835, 8844, 8845, 8846, 8864, 8874, 8881, 8882, 8911, 8936, 8994. The resulting taxation and credit for these items are passed through to individual tax returns, and thus are excluded from corporate income tax return line item estimates.

#### **Who Must File**

Generally, any foreign corporation that is required to complete Form 1120-F, Section II must complete Schedules M-1 and M-2 (Form 1120-F). However, the following rules apply.

Do not complete Schedules M-1, M-2, and M-3 if total assets at the end of the tax year (Schedule L, line 17, column (d)) are less than \$25,000.

Complete Schedule M-3 in lieu of Schedule M-1 if total assets at the end of the tax year that are reportable on Schedule L are \$10 million or more.

A corporation filing Form 1120-F that is not required to file Schedule M-3 may voluntarily file Schedule M-3 instead of Schedule M-1. See the Instructions for Schedule M-3 (Form 1120-F) for more information.

Foreign corporations that **(a)** are required to file a Schedule M-3 (Form 1120-F) and have less than \$50 million in total assets at the end of the tax year, or **(b)** are not required to file a Schedule M-3 (Form 1120-F) and voluntarily file a Schedule M-3 (Form 1120-F) must either **(1)** complete Schedule M-3 (Form 1120-F) entirely, or **(2)** complete Schedule M-3 (Form 1120-F) through Part I and complete Schedule M-1 instead of

completing Parts II and III of Schedule M-3 (Form 1120-F). If the foreign corporation chooses (2), then Schedule M-1, line 1 must equal Schedule M-3 (Form 1120-F), Part I, line 11. See the Instructions for Schedule M-3 (Form 1120-F) for more information.

**Note:** If Schedule M-3 is completed in lieu of Schedule M-1, the corporation is still required to complete Schedule M-2.

#### **Specific Instructions**

#### Schedule M-1

Line 1. Net income (loss) per books. The foreign corporation must report on line 1 of Schedule M-1 the net income (loss) per the set(s) of books taken into account on Schedule L.

Line 5c. Travel and entertainment expenses. Include any of the following.

- Entertainment expenses not deductible under section 274(a).
- Meal expenses not deductible under section 274(n).
- Expenses for the use of an entertainment facility.
- The part of business gifts over \$25.
- Expenses of an individual over \$2,000 that are allocable to conventions on cruise ships.

- Employee achievement awards of nontangible property or of tangible property if the value is over \$400 (\$1,600 if part of a qualified plan).
- The part of luxury water travel expenses not deductible under section 274(m).
- Expenses for travel as a form of education.
- Other nondeductible travel and entertainment expenses.

Line 7a. Tax-exempt interest. Report any tax-exempt interest received or accrued, including any exempt-interest dividends received as a shareholder in a mutual fund or other regulated investment company. Also report this same amount in item P at the top of page 2 of Form 1120-F.

#### Schedule M-2

### Line 1. Beginning balance of unappropriated retained earnings.

Enter the beginning balance of unappropriated retained earnings per the set(s) of books taken into account on Schedule L.

**Note:** For additional information for Schedule M-2 reporting, see the Instructions for Schedule M-3 (Form 1120-F).

#### **Who Must File**

Generally, any foreign corporation that is required to complete Form 1120-F, Section II must complete Schedules M-1 and M-2 (Form 1120-F). However, the following rules apply.

Do not complete Schedules M-1, M-2, and M-3 if total assets at the end of the tax year (Schedule L, line 17, column (d)) are less than \$25,000.

Complete Schedule M-3 in lieu of Schedule M-1 if total assets at the end of the tax year that are reportable on Schedule L are \$10 million or more.

A corporation filing Form 1120-F that is not required to file Schedule M-3 may voluntarily file Schedule M-3 instead of Schedule M-1. See the Instructions for Schedule M-3 (Form 1120-F) for more information.

Foreign corporations that **(a)** are required to file a Schedule M-3 (Form 1120-F) and have less than \$50 million in total assets at the end of the tax year, or **(b)** are not required to file a Schedule M-3 (Form 1120-F) and voluntarily file a Schedule M-3 (Form 1120-F) must either **(1)** complete Schedule M-3 (Form 1120-F) entirely, or **(2)** complete Schedule M-3 (Form 1120-F) through Part I and complete Schedule M-1 instead of

completing Parts II and III of Schedule M-3 (Form 1120-F). If the foreign corporation chooses (2), then Schedule M-1, line 1 must equal Schedule M-3 (Form 1120-F), Part I, line 11. See the Instructions for Schedule M-3 (Form 1120-F) for more information.

**Note:** If Schedule M-3 is completed in lieu of Schedule M-1, the corporation is still required to complete Schedule M-2.

#### **Specific Instructions**

#### Schedule M-1

Line 1. Net income (loss) per books. The foreign corporation must report on line 1 of Schedule M-1 the net income (loss) per the set(s) of books taken into account on Schedule L.

Line 5c. Travel and entertainment expenses. Include any of the following.

- Entertainment expenses not deductible under section 274(a).
- Meal expenses not deductible under section 274(n).
- Expenses for the use of an entertainment facility.
- The part of business gifts over \$25.
- Expenses of an individual over \$2,000 that are allocable to conventions on cruise ships.

- Employee achievement awards of nontangible property or of tangible property if the value is over \$400 (\$1,600 if part of a qualified plan).
- The part of luxury water travel expenses not deductible under section 274(m).
- Expenses for travel as a form of education.
- Other nondeductible travel and entertainment expenses.

Line 7a. Tax-exempt interest. Report any tax-exempt interest received or accrued, including any exempt-interest dividends received as a shareholder in a mutual fund or other regulated investment company. Also report this same amount in item P at the top of page 2 of Form 1120-F.

#### Schedule M-2

### Line 1. Beginning balance of unappropriated retained earnings.

Enter the beginning balance of unappropriated retained earnings per the set(s) of books taken into account on Schedule L.

**Note:** For additional information for Schedule M-2 reporting, see the Instructions for Schedule M-3 (Form 1120-F).

Section references are to the Internal Revenue Code unless otherwise noted.

#### What's New

**Small business taxpayers.** For tax years beginning after December 31, 2017, the following apply.

- A small business taxpayer (defined below), may use a method of accounting for inventories that either: (1) treats inventories as nonincidental materials and supplies, or (2) conforms to the taxpayer's financial accounting treatment of inventories.
- A small business taxpayer is not required to capitalize costs under section 263A.

#### **General Instructions**

#### **Purpose of Form**

Use Form 1125-A to calculate and deduct cost of goods sold for certain entities.

#### Who Must File

Filers of Form 1120, 1120-C, 1120-F, 1120S, or 1065, must complete and attach Form 1125-A if the applicable entity reports a deduction for cost of goods sold.

#### **Inventories**

Generally, inventories are required at the beginning and end of each tax year if the production, purchase, or sale of merchandise is an income-producing factor. See Regulations section 1.471-1. If inventories are required, you generally must use an accrual method of accounting for sales and purchases of inventory items.

Exception for certain taxpayers. A small business taxpayer (defined below), can adopt or change its accounting method to account for inventories in the same manner as material and supplies that are non-incidental, or conform to its treatment of inventories in an applicable financial statement (as defined in section 451(b)(3)), or if it does not have an applicable financial statement, the method of accounting used in its books and records prepared in accordance with its accounting procedures. See section 471(c)(3).

A small business taxpayer claiming exemption from the requirement to keep inventories is changing its method of accounting for purposes of section 481. For additional guidance on this method of accounting, see Pub. 538, Accounting Periods and Methods. For guidance on changing to this method of accounting, see Form 3115 and the Instructions for Form 3115.

Small business taxpayer. A small business taxpayer is a taxpayer that (a) has average annual gross receipts of \$25 million or less (indexed for inflation) for the 3 prior tax years, and (b) is not a tax shelter (as defined in section 448(d)(3)). See Pub. 538

**Uniform capitalization rules.** The uniform capitalization rules of section 263A generally require you to capitalize, or include in inventory, certain costs incurred in connection with the following.

- The production of real property and tangible personal property held in inventory or held for sale in the ordinary course of business
- Real property or personal property (tangible and intangible) acquired for resale.
- The production of real property and tangible personal property for use in its trade or business or in an activity engaged in for profit.

A small business taxpayer (defined above) is not required to capitalize costs under section 263A. See section 263A(i).

See the discussion on section 263A uniform capitalization rules in the instructions for your tax return before completing Form 1125-A. Also see Regulations sections 1.263A-1 through 1.263A-3. See Regulations section 1.263A-4 for rules for property produced in a farming business.

#### **General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form 8586 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/Form8586.

#### **Purpose of Form**

Use Form 8586 to claim the low-income housing credit. This general business credit is allowed for each new qualified low-income building placed in service after 1986. Generally, it is taken over a 10-year credit period.

Taxpayers, other than partnerships, S corporations, estates, or trusts, whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on Form 3800.

#### **Qualified Low-Income Housing Project**

The credit cannot exceed the amount allocated to the building. See section 42(h)(1) for details.

The low-income housing credit can only be claimed for residential rental buildings in low-income housing projects that meet one of the minimum set-aside tests. For details, see the instructions for Form 8609, Part II, line 10c.

Except for buildings financed with certain tax-exempt bonds, you may not take a low-income housing credit on a building if it has not received an allocation from the housing credit agency. No allocation is needed when 50% or more of the aggregate basis of the building and the land on which the building is located is financed with certain tax-exempt bonds. The owner must still get a Form 8609 from the appropriate housing credit agency (with the applicable items completed, including an assigned BIN). "Land on which the building is located" includes only land that is functionally related and subordinate to the qualified low-income building. (See Regulations sections 1.103-8(a)(3) and 1.103-8(b)(4)(iii).)

#### Recapture of Credit

There is a 15-year compliance period during which the residential rental building must continue to meet certain requirements. If, as of the close of any tax year in this period, there is a reduction in the qualified basis of the building from the previous year, you may have to recapture a part of the credit you have taken. Similarly, you may have to recapture part of the credits taken in previous years upon certain dispositions of the building or interests therein, unless you follow the procedures to prevent recapture. See Recapture and building dispositions in the Instructions for Form 8609-A, Annual Statement for Low-Income Housing Credit, for details. If you must recapture credits, use Form 8611, Recapture of Low-Income Housing Credit. See section 42(j) for details.

#### Recordkeeping

Keep a copy of this Form 8586 together with all Forms 8609, Forms 8609-A, and Forms 8611 for 3 years after the 15-year compliance period ends.

#### **Specific Instructions**

Line 2. A decrease in qualified basis will result in recapture if the qualified basis at the close of the tax year is less than the qualified basis at the close of the first year of the credit period.

If the reduction in qualified basis at the close of the tax year also results in a violation of the minimum set-aside requirement, then no credit is allowable for the year.

Line 3. The credit for the year is figured on Form 8609-A for each building. Attach a copy of each Form 8609-A you completed for the tax year to Form 8586. Enter on line 3 the total credit for attached Form(s) 8609-A.

Line 6. Estates or trusts. Allocate the low-income housing credit on line 5 between the estate or trust and the beneficiaries in the same proportion as income was allocated and enter the beneficiaries' share on line 6.

If the estate or trust is subject to the passive activity rules, include on line 4 any low-income housing credits from passive activities disallowed for prior years and carried forward to this year. Complete Form 8582-CR, Passive Activity Credit Limitations, to determine the allowed credit that must be allocated between the estate or trust and the beneficiaries. For details, see the Instructions for Form 8582-CR.

Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated burden for individual taxpavers filing this form is approved under OMB control number 1545-0074 and is included in the estimates shown in the instructions for their individual income tax return. The estimated burden for all other taxpayers who file this form is shown below.

**Recordkeeping** . . . . . . . . . . . . . . . . 5 hr., 44 min. Learning about the law or the form . . . . . . . . . 52 min. Preparing and sending the form to the IRS . . . 2 hr., 11 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form simpler, we would be happy to hear from you. See the instructions for the tax return with which this form is filed.

Report this amount on Form 3800, Part III, line 4d, column (c) 7 7

#### **General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** For the latest information about developments related to Form 8586 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/Form8586*.

#### **Purpose of Form**

Use Form 8586 to claim the low-income housing credit. This general business credit is allowed for each new qualified low-income building placed in service after 1986. Generally, it is taken over a 10-year credit period.

Taxpayers, other than partnerships, S corporations, estates, or trusts, whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on Form 3800.

#### **Qualified Low-Income Housing Project**

The credit cannot exceed the amount allocated to the building. See section 42(h)(1) for details.

The low-income housing credit can only be claimed for residential rental buildings in low-income housing projects that meet one of the minimum set-aside tests. For details, see the instructions for Form 8609, Part II, line 10c.

Except for buildings financed with certain tax-exempt bonds, you may not take a low-income housing credit on a building if it has not received an allocation from the housing credit agency. No allocation is needed when 50% or more of the aggregate basis of the building and the land on which the building is located is financed with certain tax-exempt bonds. The owner must still get a Form 8609 from the appropriate housing credit agency (with the applicable items completed, including an assigned BIN). "Land on which the building is located" includes only land that is functionally related and subordinate to the qualified low-income building. (See Regulations sections 1.103-8(a)(3) and 1.103-8(b)(4)(iii).)

#### Recapture of Credit

There is a 15-year compliance period during which the residential rental building must continue to meet certain requirements. If, as of the close of any tax year in this period, there is a reduction in the qualified basis of the building from the previous year, you may have to recapture a part of the credit you have taken. Similarly, you may have to recapture part of the credits taken in previous years upon certain dispositions of the building or interests therein, unless you follow the procedures to prevent recapture. See Recapture and building dispositions in the Instructions for Form 8609-A, Annual Statement for Low-Income Housing Credit, for details. If you must recapture credits, use Form 8611, Recapture of Low-Income Housing Credit. See section 42(j) for details.

#### Recordkeeping

Keep a copy of this Form 8586 together with all Forms 8609, Forms 8609-A, and Forms 8611 for 3 years after the 15-year compliance period ends.

#### **Specific Instructions**

**Line 2.** A decrease in qualified basis will result in recapture if the qualified basis at the close of the tax year is less than the qualified basis at the close of the first year of the credit period.

If the reduction in qualified basis at the close of the tax year also results in a violation of the minimum set-aside requirement, then no credit is allowable for the year.

**Line 3.** The credit for the year is figured on Form 8609-A for each building. Attach a copy of each Form 8609-A you completed for the tax year to Form 8586. Enter on line 3 the total credit for attached Form(s) 8609-A.

**Line 6. Estates or trusts.** Allocate the low-income housing credit on line 5 between the estate or trust and the beneficiaries in the same proportion as income was allocated and enter the beneficiaries' share on line 6.

If the estate or trust is subject to the passive activity rules, include on line 4 any low-income housing credits from passive activities disallowed for prior years and carried forward to this year. Complete Form 8582-CR, Passive Activity Credit Limitations, to determine the allowed credit that must be allocated between the estate or trust and the beneficiaries. For details, see the Instructions for Form 8582-CR.

Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated burden for individual taxpayers filing this form is approved under OMB control number 1545-0074 and is included in the estimates shown in the instructions for their individual income tax return. The estimated burden for all other taxpayers who file this form is shown below.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form simpler, we would be happy to hear from you. See the instructions for the tax return with which this form is filed.

## **Credit for Prior Year Minimum Tax—Corporations**

Attach to the corporation's tax return. Go to www.irs.gov/Form8827 for the latest information. OMB No. 1545-0123

**Employer identification number** 

Α	Corporation 2022 Line Item Counts (Estimated from SOI Sample) [3]		
1	Minimum tax credit carryforward from the prior tax year. Enter the amount from line 4 of the prior to year Form 8827	II.	1,805
2	Enter the corporation's current year regular income tax liability minus allowable tax credits (se instructions)	I	940
3	Current year minimum tax credit. Enter the smaller of line 1 or line 2 here and on Form 112 Schedule J, Part I, line 5d (or the applicable line of your return)	, I	864
4	<b>Minimum tax credit carryforward.</b> Subtract line 3 from line 1. Keep a record of this amount to car forward and use in future years	ry <b>4</b>	1,417

#### Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

#### Reminder

#### Current year minimum tax credit.

The refundable portion of the minimum tax credit does not apply for tax years beginning after 2019. See section 53(e). However, a corporation can have an unused portion of the regular minimum tax credit (because of limitations) that can be carried forward and allowable in later years.

#### **Purpose of Form**

Corporations use Form 8827 to figure the minimum tax credit, if any, for AMT incurred in prior tax years, and to figure any minimum tax credit carryforward.

#### Who Should File

Form 8827 should be filed by applicable corporations that have a minimum tax credit carryover from the prior tax year to the current tax year.

#### Line 2

Enter the corporation's current tax year regular income tax liability, as defined in section 26(b) (including any positive section 6226 adjustment from Form 8978), minus any credits allowed under Chapter 1, Subchapter A, Part IV, subparts B, D, E, and F of the Internal Revenue Code (for example, if filing Form 1120, subtract any credits on Schedule J, Part I, lines 5a through 5c, from the amount on Schedule J, Part I, line 2).

#### Paperwork Reduction Act Notice.

We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax. You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long

as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated burden for business taxpayers filing this form is approved under OMB control number 1545-0123 and is included in the estimates shown in the instructions for their business income tax return.

If you have comments concerning the accuracy of these time estimates, or suggestions for making this form simpler, we would be happy to hear from you. See the instructions for the tax return with which this form is filed.

For Paperwork Reduction Act Notice, see instructions.

information and requirements.

Corporation 2021 Line Item Counts (Estimated from SOI Sample) [3]

Caution: You cannot claim any amounts on Form 8864 that you claimed (or will claim) on Form 720 (Schedule C), Form 8849, or Form 4136.

The sustainable aviation fuel credit is only available for fuel produced after 2022. Biodiesel or renewable diesel mixtures. Claimant produced a mixture by mixing biodiesel with diesel fuel, or produced a mixture by mixing renewable diesel with liquid fuel (other than renewable diesel). The biodiesel used to produce the biodiesel mixture met ASTM D6751 and met EPA's registration requirements for fuels and fuel additives. The renewable diesel used to produce the renewable diesel mixture was derived from biomass, met EPA's registration requirements for fuels and fuel additives, and met ASTM D975, D396, or other equivalent standard approved by the IRS. The biodiesel or renewable mixture was sold by the claimant to any person for use as a fuel or was used as a fuel by the claimant. Sustainable aviation fuel (SAF) mixtures. Claimant produced a qualified mixture by mixing SAF with kerosene. The qualified mixture was produced by the claimant in the United States, such mixture was used by the claimant (or sold by the claimant for use) in an aircraft, such sale or use was in the ordinary course of a trade or business of the claimant, and the transfer of such mixture to the fuel tank of such aircraft occurred in the United States. The SAF used to produce the qualified mixture is the portion of liquid fuel that isn't kerosene that (i) either (A) meets the specifications of one of the ASTM D7566 Annexes, or (B) meets the specifications of ASTM D1655 Annex A1, (ii) isn't derived from coprocessing an applicable material (or materials derived from an applicable material) with a feedstock that isn't biomass, (iii) isn't derived from palm fatty acid distillates or petroleum, and (iv) has been

certified in accordance with section 40B(e) as having a lifecycle greenhouse gas emissions reduction percentage of at least 50%. For all claims. Claimant has attached the appropriate certificates and, if applicable, appropriate reseller statements. Claimant has no reason to believe that the information in the certificate or statement is false. See the instructions for additional

All others, stop here and report this amount on Form 3800, Part III, line 1k . . . . . . . . . . . . . . . 7 176 8 Amount allocated to beneficiaries of the estate or trust (see instructions) 8 9 Estates and trusts. Subtract line 8 from line 7. Report this amount on Form 3800, Part III, line 1k.

## **General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

#### **Purpose of Form**

Employers use Form 8882 to claim the credit for qualified childcare facility and resource and referral expenditures. The credit is part of the general business credit. You may claim the credit any time within 3 years from the due date of your return on either an original or amended return.

Taxpayers, other than partnerships, S corporations, estates, or trusts, whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on Form 3800.

### **How To Figure the Credit**

The credit is 25% of the qualified childcare facility expenditures plus 10% of the qualified childcare resource and referral expenditures paid or incurred during the tax year. The credit is limited to \$150,000 per tax year.

Qualified childcare expenditures are amounts paid or incurred:

- To acquire, construct, rehabilitate, or expand property that:
  - Is to be used as part of a qualified childcare facility of the taxpayer,
  - 2. Is depreciable (or amortizable) property, and
  - **3.** Is not part of the principal residence of the taxpayer or any employee of the taxpayer;
- For the operating expenses of a qualified childcare facility of the taxpayer, including expenses for training of employees, scholarship programs, and providing

increased compensation to employees with higher levels of childcare training; or

• Under a contract with a qualified childcare facility to provide childcare services to employees of the taxpayer.

**Note.** Any expenses for childcare included in qualified childcare facility expenditures may not exceed the fair market value of such care.

A *qualified childcare facility* is a facility that meets the requirements of all applicable laws and regulations of the state or local government in which it is located, including the licensing of the facility as a childcare facility. The following conditions must also be met.

- The principal use of the facility must be to provide childcare (unless the facility is also the personal residence of the person operating the facility).
- Enrollment in the facility must be open to employees of the taxpayer during the tax year.
- If the facility is the principal trade or business of the taxpayer, at least 30% of the enrollees of the facility must be dependents of employees of the taxpayer.
- The use of the facility (or the eligibility to use the facility) must not discriminate in favor of highly compensated employees.

Qualified childcare resource and referral expenditures are amounts paid or incurred under a contract to provide childcare resource and referral services to employees of the taxpayer. The provision of the services (or the eligibility to use the services) must not discriminate in favor of highly compensated employees.

### **Future Developments**

For the latest information about developments related to Form 8925 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/Form8925.

# **General Instructions Purpose of Form**

Use Form 8925 to report the number of employees covered by employer-owned life insurance contracts issued after August 17, 2006, and the total amount of employer-owned life insurance in force on those employees at the end of the tax year. Policyholders must also indicate whether a valid consent has been received from each covered employee, and the number of covered employees for which a valid consent has not been received.

For more information, see sections 101(j) and 6039I, and Notice 2009-48, 2009-24 I.R.B. 1085, available at www.irs.gov/irb/2009-24\_IRB/ar11.html.

#### **Definitions**

Employer-owned life insurance contract. For purposes of Form 8925, an insurance contract is an employer-owned life insurance contract if it is owned by a policyholder as defined below, and covers the life of the policyholder's employee(s) on the date the life insurance contract is issued. If you have master contracts, see section 101(j)(3) for additional information.

Policyholder. For purposes of Form 8925 and these instructions, a policyholder is an "applicable policyholder" as defined in section 101(j)(3)(B). Generally, a policyholder is the person who owns the employerowned life insurance contract, and who is (a) engaged in a trade or business that employer-owned life insurance under the employer-owned life insurance contract and (b) the direct or indirect beneficiary of the employer-owned life insurance contract.

Related person. A related person is considered a policyholder if that person is (a) related to the policyholder (defined earlier) under sections 267(b) or 707(b) (1), or (b) engaged in a trade or business under common control with the policyholder. See sections 52(a) and (b). **Employee.** Employee includes an

officer, director, or highly compensated employee under section 414(q).

Insured. An individual must be a U.S. citizen or resident to be considered insured under an employer-owned life insurance contract. Both individuals covered by a contract covering the joint lives of two individuals are considered insured.

**Notice and consent requirements.** To qualify as an employer-owned life insurance contract, the policyholder must meet the notice and consent requirements listed below before the issuance of the contract.

1. Provide written notification to the employee stating the policyholder intends to insure the employee's life and the maximum face amount for which the employee could be insured at the time the contract was issued.

228

The written notification must include a disclosure of the face amount of life insurance, either in dollars or as a multiple of salary, that the policyholder reasonably expects to purchase with regard to the employee during the course of the employee's tenure. Additional notice and consent are required if the aggregate face amount of the employer-owned life insurance contracts with regard to an employee exceeds the amount of which the employee was given notice and to which the employee consented. See Q&A-9 and Q&A-12 in Notice 2009-48.

- **2.** Provide written notification to the employee that the policyholder will be a beneficiary of any proceeds payable upon the death of the employee.
- **3.** Receive written consent from the employee. See *Valid consent* under the instructions for line 4a.

Electronic notification and consent. The written notification and consent requirement can be met electronically only if the system for electronic notification and consent meets requirements 1 through 3, above. See Q&A-11 in Notice 2009-48 for more information.

Issue date of contract. Generally, the issue date of a life insurance contract is the date on the policy assigned by the insurance company on or after the date of application. For purposes of meeting the notice and consent requirements, the issue date of the employer-owned life insurance contract is the later of (1) the date of application of coverage, (2) the effective date of coverage, or (3) the formal issuance of the contract. See Q&A-4 in Notice 2009-48 for more information.

For the latest information about developments related to Form 8925 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/Form8925.

# General Instructions Purpose of Form

Use Form 8925 to report the number of employees covered by employer-owned life insurance contracts issued after August 17, 2006, and the total amount of employer-owned life insurance in force on those employees at the end of the tax year. Policyholders must also indicate whether a valid consent has been received from each covered employee, and the number of covered employees for which a valid consent has not been received.

For more information, see sections 101(j) and 6039I, and Notice 2009-48, 2009-24 I.R.B. 1085, available at www.irs.gov/irb/2009-24 IRB/ar11.html.

#### **Definitions**

Employer-owned life insurance contract. For purposes of Form 8925, an insurance contract is an employer-owned life insurance contract if it is owned by a policyholder as defined below, and covers the life of the policyholder's employee(s) on the date the life insurance contract is issued. If you have master contracts, see section 101(j)(3) for additional information.

Policyholder. For purposes of Form 8925 and these instructions, a policyholder is an "applicable policyholder" as defined in section 101(j)(3)(B). Generally, a policyholder is the person who owns the employerowned life insurance contract, and who is (a) engaged in a trade or business that employs the person insured under the employer-owned life insurance contract and (b) the direct or indirect beneficiary of the employer-owned life insurance contract.

Related person. A related person is considered a policyholder if that person is (a) related to the policyholder (defined earlier) under sections 267(b) or 707(b) (1), or (b) engaged in a trade or business under common control with the policyholder. See sections 52(a) and (b).

**Employee.** Employee includes an officer, director, or highly compensated employee under section 414(q).

Insured. An individual must be a U.S. citizen or resident to be considered insured under an employer-owned life insurance contract. Both individuals covered by a contract covering the joint lives of two individuals are considered insured.

Notice and consent requirements. To qualify as an employer-owned life insurance contract, the policyholder must meet the notice and consent requirements listed below before the issuance of the contract.

1. Provide written notification to the employee stating the policyholder intends to insure the employee's life and the maximum face amount for which the employee could be insured at the time the contract was issued.

The written notification must include a disclosure of the face amount of life insurance, either in dollars or as a multiple of salary, that the policyholder reasonably expects to purchase with regard to the employee during the course of the employee's tenure. Additional notice and consent are required if the aggregate face amount of the employer-owned life insurance contracts with regard to an employee exceeds the amount of which the employee was given notice and to which the employee consented. See Q&A-9 and Q&A-12 in Notice 2009-48.

- 2. Provide written notification to the employee that the policyholder will be a beneficiary of any proceeds payable upon the death of the employee.
- **3.** Receive written consent from the employee. See *Valid consent* under the instructions for line 4a.

Electronic notification and consent. The written notification and consent requirement can be met electronically only if the system for electronic notification and consent meets requirements 1 through 3, above. See Q&A-11 in Notice 2009-48 for more information.

Issue date of contract. Generally, the issue date of a life insurance contract is the date on the policy assigned by the insurance company on or after the date of application. For purposes of meeting the notice and consent requirements, the issue date of the employer-owned life insurance contract is the later of (1) the date of application of coverage, (2) the effective date of coverage, or (3) the formal issuance of the contract. See Q&A-4 in Notice 2009-48 for more information.
