Future Developments

For the latest information about developments related to Pub. 4681, such as legislation enacted after it was published, go to [IRS.gov/Pub4681](https://www.irs.gov/pub4681).

What's New

Discharge of qualified principal residence indebtedness before 2021. Qualified principal residence indebtedness can be excluded from income for discharges before January 1, 2021.

Reminder

Student loan indebtedness. If student loan indebtedness is discharged after 2017 on account of the student's death or disability, the discharged debt may not have to be included in income. See [Student loan cancellation](#), later, for more information.

Photographs of missing children. The Internal Revenue Service is a proud partner with the [National Center for Missing & Exploited Children® \(NCMEC\)](#). Photographs of missing children selected by the Center may appear in this publication on pages that would otherwise be blank. You can help bring these children home by looking at the photographs and calling 800-THE-LOST (800-843-5678) if you recognize a child.

Introduction

This publication explains the federal tax treatment of canceled debts, foreclosures, repossessions, and abandonments.

Generally, if you owe a debt to someone else and they cancel or forgive that debt for less than its full amount, you are treated for income tax purposes as having income and may have to pay tax on this income.

Note. This publication generally refers to debt that is canceled, forgiven, or discharged for less than the full amount of the debt as "canceled debt."

Sometimes a debt, or part of a debt, that you don't have to pay isn't considered canceled debt. These exceptions are discussed later under [Exceptions](#).

Sometimes a canceled debt may be excluded from your income. But if you do exclude canceled debt from income, you may be required to reduce your "tax attributes." These exclusions and the reduction of tax attributes associated with them are discussed later under [Exclusions](#).

Foreclosure and repossession are remedies that your lender may exercise if you fail to make payments on your loan and you have previously granted that lender a mortgage or other security interest in some of your property. These remedies allow the lender to seize or sell the property securing the loan. When your property is foreclosed upon or repossessed and sold, you are treated as having sold the property and you may recognize taxable gain. Whether you also recognize income from canceled debt depends in part on whether you are personally liable for the debt and in part on whether the outstanding loan balance is more than the fair market value (FMV) of the property. Figuring your gain or loss and income from canceled debt arising from a foreclosure or repossession is discussed later under [Foreclosures and Repossessions](#).

Generally, you abandon property when you voluntarily and permanently give up possession and use of property you own with the intention of ending your ownership but without passing it on to anyone else. Figuring your gain or loss and income from canceled debt arising from an abandonment is discussed later under [Abandonments](#).

Comments and suggestions. We welcome your comments about this publication and your suggestions for future editions.

You can send us comments through [IRS.gov/FormComments](#). Or, you can write to: Internal Revenue Service, Tax Forms and Publications, 1111 Constitution Ave. NW, IR-6526, Washington, DC 20224.

Although we can't respond individually to each comment received, we do appreciate your feedback and will consider your comments as we revise our tax forms, instructions, and publications. We can't answer tax questions sent to the above address.

Tax questions. If you have a tax question not answered by this publication or *How To Get Tax Help* section at the end of this publication, go to the IRS Interactive Tax Assistant page at [IRS.gov/Help/ITA](#) where you can find topics using the search feature or by viewing the categories listed.

Getting tax forms, instructions, and publications. Visit [IRS.gov/Forms](#) to download current and prior-year forms, instructions, and publications.

Ordering tax forms, instructions, and publications. Go to [IRS.gov/OrderForms](#) to order current forms, instructions, and publications; call 800-829-3676 to order prior-year forms and instructions. Your order should arrive within 10 business days.

Common Situations Covered In This Publication

The sections of this publication that apply to you depend on the type of debt canceled, the

tax attributes you have, and whether or not you continue to own the property that was subject to the debt. Some examples of common circumstances are provided in the following paragraphs to help guide you through this publication. These examples don't cover every situation but are intended to provide general guidance for the most common situations.

Nonbusiness credit card debt cancellation. If you had a nonbusiness credit card debt canceled, you may be able to exclude the canceled debt from income if the cancellation occurred in a title 11 bankruptcy case or you were insolvent immediately before the cancellation. You should read [Bankruptcy](#) or [Insolvency](#) under *Exclusions* in chapter 1 to see if you can exclude the canceled debt from income under one of those provisions. If you can exclude part or all of the canceled debt from income, you also should read [Bankruptcy and Insolvency](#) under *Reduction of Tax Attributes* in chapter 1.

Personal vehicle repossession. If you had a personal vehicle repossessed and disposed of by the lender during the year, you will need to determine your gain or nondeductible loss on the disposition. This is explained in [chapter 2](#). If the lender also canceled all or part of the remaining amount of the loan, you may be able to exclude the canceled debt from income if the cancellation occurred in a title 11 bankruptcy case or you were insolvent immediately before the cancellation. You should read [Bankruptcy](#) or [Insolvency](#) under *Exclusions* in chapter 1 to see if you can exclude the canceled debt from income under one of those provisions. If you can exclude part or all of the canceled debt from income, you also should read [Bankruptcy and Insolvency](#) under *Reduction of Tax Attributes* in chapter 1.

Main home foreclosure or abandonment. If a lender foreclosed on your main home during the year, you will need to determine your gain or loss on the foreclosure. Foreclosures are explained in [chapter 2](#) and abandonments are explained in [chapter 3](#).

Main home loan modification (workout agreement). If a lender agreed to a mortgage loan modification (a "workout") in 2018 that included a reduction in the principal balance of the loan in 2019, you should read [Qualified Principal Residence Indebtedness](#) under *Exclusions* in chapter 1 to see if you can exclude part or all of the canceled debt from income. If you can exclude part or all of the canceled debt from income, you also should read [Qualified Principal Residence Indebtedness](#) under *Reduction of Tax Attributes* in chapter 1.

1.

Canceled Debts

This chapter discusses the tax treatment of canceled debts.

General Rules

Generally, if a debt for which you are personally liable is forgiven or discharged for less than the full amount owed, the debt is considered canceled in whatever amount it remained unpaid. There are exceptions to this rule, discussed under [Exceptions](#), later. Generally, you must include the canceled debt in your income. However, you may be able to exclude the canceled debt. See [Exclusions](#), later.

Example. John owed \$1,000 to Mary. Mary agreed to accept and John paid \$400 in satisfaction of the entire debt. John has canceled debt of \$600.

Example. Margaret owed \$1,000 to Henry. Henry and Margaret agreed that Margaret would provide Henry with services (instead of money) in full satisfaction of the debt. Margaret doesn't have canceled debt. Instead, she has income from services.

A debt includes any indebtedness:

- For which you are liable, or
- Subject to which you hold property.

Debt for which you are personally liable is recourse debt. All other debt is nonrecourse debt.

If you aren't personally liable for the debt, you don't have ordinary income from the cancellation of debt unless you retain the collateral and either:

- The lender offers a discount for the early payment of the debt, or
- The lender agrees to a loan modification that results in the reduction of the principal balance of the debt.

See [Discounts and Loan Modifications](#), later.

However, upon the disposition of the property securing a nonrecourse debt, the amount realized includes the entire unpaid amount of the debt, not just the FMV of the property. As a result, you may realize a gain or loss if the outstanding debt immediately before the disposition is more or less than your adjusted basis in the property. For more details on figuring your gain or loss, see [chapter 2](#) of this publication or see Pub. 544, Sales and Other Dispositions of Assets.

There are several exceptions and exclusions that may result in part or all of a canceled debt being nontaxable. See [Exceptions](#) and [Exclusions](#) later. You must report any taxable canceled debt as ordinary income on:

- Schedule 1 (Form 1040 or 1040-SR), line 8, if the debt is a nonbusiness debt;
- Schedule C (Form 1040 or 1040-SR), line 6, if the debt is related to a nonfarm sole proprietorship;

- Schedule E (Form 1040 or 1040-SR), line 3, if the debt is related to nonfarm rental of real property;
- Form 4835, line 6, if the debt is related to a farm rental activity for which you use Form 4835 to report farm rental income based on crops or livestock produced by a tenant; or
- Schedule F (Form 1040 or 1040-SR), line 8, if the debt is farm debt and you are a farmer.

Form 1099-C

If you receive a Form 1099-C, that means an applicable entity has reported an identifiable event to the IRS regarding a debt you owe. For information on the reasons an applicable entity files Form 1099-C, see [Identifiable event codes](#), later. Unless you meet one of the exceptions or exclusions discussed later, this canceled debt is ordinary income and must be reported on the appropriate form discussed above.

An applicable entity includes:

1. A financial institution.
2. A credit union.
3. Any of the following, its successor, or subunit of one of the following:
 - a. The Federal Deposit Insurance Corporation (FDIC),
 - b. The Resolution Trust Corporation (RTC),
 - c. The National Credit Union Administration (NCUA), or
 - d. Any other federal executive agency, including government corporations, any military department, the U.S. Postal Service, or the Postal Rate Commission.
4. A corporate subsidiary of a financial institution or credit union (if the affiliation subjects the subsidiary to federal or state regulation).
5. A federal government agency, including a department, an agency, a court or court administrative office, or a judicial or legislative instrumentality.
6. Any organization of which lending money is a significant trade or business.

For more information on the applicable entities that must file a Form 1099-C, see the 2019 Instructions for Forms 1099-A and 1099-C, available at [IRS.gov/pub/irs-prior/i1099ac--2019.pdf](#).

Identifiable event codes. Box 6 of Form 1099-C should indicate the reason the creditor filed this form. The codes shown in box 6 are explained next. Also, see the chart after the explanation for a quick reference guide for the codes used in box 6.

Code A — Bankruptcy. Code A is used to identify cancellation of debt as a result of a title 11 bankruptcy case. See [Bankruptcy](#), later.

Code B — Other judicial debt relief. Code B is used to identify cancellation of debt as a result of a receivership, foreclosure, or

similar federal or state court proceeding other than bankruptcy.

Code C — Statute of limitations or expiration of deficiency period. Code C is used to identify cancellation of debt either when the statute of limitations for collecting the debt expires or when the statutory period for filing a claim or beginning a deficiency judgment proceeding expires. In the case of the expiration of a statute of limitations, an identifiable event occurs only if and when your affirmative defense of the statute of limitations is upheld in a final judgment or decision in a judicial proceeding, and the period for appealing the judgment or decision has expired.

Code D — Foreclosure election. Code D is used to identify cancellation of debt when the creditor elects foreclosure remedies that statutorily end or bar the creditor's right to pursue collection of the debt. This event applies to a mortgage lender or holder who is barred from pursuing debt collection after a power of sale in the mortgage or deed of trust is exercised.

Code E — Debt relief from probate or similar proceeding. Code E is used to identify cancellation of debt as a result of a probate court or similar legal proceeding.

Code F — By agreement. Code F is used to identify cancellation of debt as a result of an agreement between the creditor and the debtor to cancel the debt at less than full consideration.

Code G — Decision or policy to discontinue collection. Code G is used to identify cancellation of debt as a result of a decision or a defined policy of the creditor to discontinue collection activity and cancel the debt. For purposes of this identifiable event, a defined policy includes both a written policy and the creditor's established business practice.

Code H — Other actual discharge before identifiable event. Code H is used to identify an actual cancellation of debt that occurs before any of the identifiable events described in codes A through G.

Form 1099-C Reference Guide for Box 6 Identifiable Event Codes

A	Bankruptcy
B	Other judicial debt relief
C	Statute of limitations or expiration of deficiency period
D	Foreclosure election
E	Debt relief from probate or similar proceeding
F	By agreement
G	Decision or policy to discontinue collection
H	Other actual discharge before identifiable event

 **CAUTION** Even if you didn't receive a Form 1099-C, you must report canceled debt as gross income on your tax return unless one of the exceptions or exclusions described later applies.

Amount of canceled debt. The amount in box 2 of Form 1099-C may represent some or all of the debt that has been canceled. The amount in box 2 will include principal and may include interest and other nonprincipal amounts

(such as fees or penalties). Unless you meet one of the exceptions or exclusions discussed later, the amount of the debt that has been canceled is ordinary income and must be reported on the appropriate form, as discussed earlier.

Interest included in canceled debt. If any interest is included in the amount of canceled debt in box 2, it will be shown in box 3. Whether the interest portion of the canceled debt must be included in your income depends on whether the interest would be deductible if you paid it. See [Deductible Debt](#) under *Exceptions*, later.

Persons who each receive a Form 1099-C showing the full amount of debt. If you and another person were jointly and severally liable for a canceled debt, each of you may get a Form 1099-C showing the entire amount of the canceled debt. However, you may not have to report that entire amount as income. The amount, if any, you must report depends on all the facts and circumstances, including:

- State law,
- The amount of debt proceeds each person received,
- How much of any interest deduction from the debt was claimed by each person,
- How much of the basis of any co-owned property bought with the debt proceeds was allocated to each co-owner, and
- Whether the canceled debt qualifies for any of the exceptions or exclusions described in this publication.

See under *Insolvency* [Example 3](#), later.

Discounts and Loan Modifications

If a lender discounts (reduces) the principal balance of a loan because you pay it off early, or agrees to a loan modification (a “workout”) that includes a reduction in the principal balance of a loan, the amount of the discount or the amount of principal reduction is canceled debt. However, if the debt is nonrecourse and you didn’t retain the collateral, you don’t have cancellation of debt income. The amount of the canceled debt must be included in income unless one of the exceptions or exclusions described later applies. For more details, see [Exceptions](#) and [Exclusions](#) later.

Sales or Other Dispositions (Such as Foreclosures and Repossessions)

Recourse debt. If you owned property that was subject to a recourse debt in excess of the FMV of the property, the lender’s foreclosure or repossession of the property is treated as a sale or disposition of the property by you and may result in your realization of gain or loss. The gain or loss on the disposition of the property is measured by the difference between the FMV of the property at the time of the disposition and your adjusted basis (usually your cost) in the property. The character of the gain or loss (such as ordinary or capital) is determined by the character of the property. If the lender forgives all or part of the amount of the debt in excess of

the FMV of the property, the cancellation of the excess debt may result in ordinary income. The ordinary income from the cancellation of debt (the excess of the canceled debt over the FMV of the property) must be included in your gross income reported on your tax return unless one of the exceptions or exclusions described later applies. For more details, see [Exceptions](#) and [Exclusions](#), later.

Nonrecourse debt. If you owned property that was subject to a nonrecourse debt in excess of the FMV of the property, the lender’s foreclosure on the property doesn’t result in ordinary income from the cancellation of debt. The entire amount of the nonrecourse debt is treated as an amount realized on the disposition of the property. The gain or loss on the disposition of the property is measured by the difference between the total amount realized (the entire amount of the nonrecourse debt plus the amount of cash and the FMV of any property received) and your adjusted basis in the property. The character of the gain or loss is determined by the character of the property.

More information. See [chapter 2](#) of this publication and Pubs. 523, 544, and 551 for more details.

Abandonments

Recourse debt. If you abandon property that secures a debt for which you are personally liable (recourse debt) and the debt is canceled, you will realize ordinary income equal to the canceled debt. You must report this income on your tax return unless one of the exceptions or exclusions described later applies. For more details, see [Exceptions](#) and [Exclusions](#) later. This income is separate from any amount realized from the abandonment of the property. For more details, see [chapter 3](#).

Nonrecourse debt. If you abandon property that secures a debt for which you aren’t personally liable (nonrecourse debt), you may realize gain or loss but won’t have cancellation of indebtedness income.

Stockholder Debt

If you are a stockholder in a corporation and the corporation cancels or forgives your debt to it, the canceled debt is a constructive distribution. For more information, see Pub. 542, Corporations.

Exceptions

There are several exceptions to the requirement that you include canceled debt in income. These exceptions apply before the exclusions discussed later and don’t require you to reduce your tax attributes.

Gifts, Bequests, Devises, and Inheritances

In most cases, you don’t have income from canceled debt if the debt is canceled as a gift, bequest, devise, or inheritance.

Student Loans

Generally, if you are responsible for making loan payments, and the loan is canceled or repaid by someone else, you must include the amount that was canceled or paid on your behalf in your gross income for tax purposes. However, in certain circumstances, you may be able to exclude amounts from gross income as a result of:

- Student loan cancellation due to meeting certain work requirements,
- Student loan cancellation due to death or permanent and total disability, or
- Student loan repayment assistance.

Student loan cancellation. If your student loan is canceled in part or in whole in 2019, you may not have to include the canceled debt in your income. To exclude canceled student loan debt from your income, your loan must have been made by a qualified lender to assist you in attending an eligible educational institution. In addition, the cancellation must be due to death or permanent and total disability or pursuant to a provision in the loan that all or part of the debt will be canceled if you work:

- For a certain period of time,
- In certain professions, and
- For any of a broad class of employers.

 *The cancellation of your loan won’t qualify for tax-free treatment if it is canceled because of services you performed for the educational institution that made the loan or other organization that provided the funds. See [Exception](#), later.*

Eligible educational institution. This is an educational institution that maintains a regular faculty and curriculum and normally has a regularly enrolled body of students in attendance at the place where it carries on its educational activities.

Qualified lenders. These include the following.

1. The United States, or an instrumentality or agency thereof.
2. A state, territory, or possession of the United States; or the District of Columbia; or any political subdivision thereof.
3. A public benefit corporation that is tax exempt under section 501(c)(3); and that has assumed control of a state, county, or municipal hospital; and whose employees are considered public employees under state law.
4. An eligible educational institution, if the loan is made:
 - a. As part of an agreement with an entity described in (1), (2), or (3) under which the funds to make the loan

were provided to the educational institution; or

- b. Under a program of the educational institution that is designed to encourage its students to serve in occupations with unmet needs or in areas with unmet needs where the services provided by the students (or former students) are for or under the direction of a governmental unit or a tax-exempt section 501(c)(3) organization.

5. In addition to (1)–(4) above, for loans canceled on account of the death or total and permanent disability of the student only, the lender of a private education loan (as defined in section 140(7) of the Consumer Credit Protection Act).

Section 501(c)(3) organization. This is any corporation, community chest, fund, or foundation organized and operated exclusively for one or more of the following purposes.

- Charitable.
- Religious.
- Educational.
- Scientific.
- Literary.
- Testing for public safety.
- Fostering national or international amateur sports competition (but only if none of its activities involve providing athletic facilities or equipment).
- The prevention of cruelty to children or animals.

Exception. In most cases, the cancellation of a student loan made by an educational institution because of services you performed for that institution or another organization that provided the funds for the loan must be included in gross income on your tax return.

Refinanced loan. If you refinanced a student loan with another loan from an eligible educational institution or a tax-exempt organization, that loan also may be considered as made by a qualified lender. The refinanced loan is considered made by a qualified lender if it's made under a program of the refinancing organization that is designed to encourage students to serve in occupations with unmet needs or in areas with unmet needs where the services required of the students are for or under the direction of a governmental unit or a tax-exempt section 501(c)(3) organization.

Student Loan Repayment Assistance. Student loan repayments made to you are tax free if you received them for any of the following.

- The National Health Service Corps (NHSC) Loan Repayment Program.
- A state education loan repayment program eligible for funds under the Public Health Service Act.
- Any other state loan repayment or loan forgiveness program that is intended to provide for the increased availability of health services in underserved or health professional shortage areas (as determined by such state).

You can't deduct the interest you paid on a student loan to the extent payments were made through your participation in the above programs.

Deductible Debt

If you use the cash method of accounting, you don't realize income from the cancellation of debt if the payment of the debt would have been a deductible expense. This exception applies before the price reduction exception discussed next.

Example. In December 2018, you get accounting services for your farm on credit. In early 2019, you have trouble paying your farm debts and your accountant forgives part of the amount you owe for the accounting services. How you treat the canceled debt depends on your method of accounting.

- Cash method. You don't include the canceled debt in income because payment of the debt would have been deductible as a business expense in 2019.
- Accrual method. Unless another exception or exclusion applies, you must include the canceled debt in ordinary income because the expense was deductible in 2018 when you incurred the debt.

Price Reduced After Purchase

If debt you owe the seller for the purchase of property is reduced by the seller at a time when you aren't insolvent and the reduction doesn't occur in a title 11 bankruptcy case, the reduction doesn't result in cancellation of debt income. However, you must reduce your basis in the property by the amount of the reduction of your debt to the seller. The rules that apply to bankruptcy and insolvency are explained in [Exclusions](#), later.

Home Affordable Modification Program

Pay-for-Performance Success Payments and Principal Reduction Alternative (PRA) investor incentive payments that reduce the principal balance of your home mortgage under the Home Affordable Modification Program (HAMP) generally aren't taxable.

However, reductions of the principal balance of your home mortgage under HAMP's Principal Reduction Alternative may be taxable as cancellation of debt income. You may be able to recognize this income over a 3-year period.

More information. For more information, see www.irs.gov/uac/Principal-Reduction-Alternative-Under-the-Home-Affordable-Modification-Program and Revenue Procedure 2013-16, available at IRS.gov/irb/2013-07_IRB#RP-2013-16.

Exclusions

After you have applied any exceptions to the general rule that a canceled debt is included in your income, there are several reasons why you might still be able to exclude a canceled debt from your income. These exclusions are explained next. If a canceled debt is excluded from your income, it is nontaxable. In most cases, however, if you exclude canceled debt from income under one of these provisions, you also must reduce your tax attributes (certain credits, losses, and basis of assets) as explained later under [Reduction of Tax Attributes](#).

Bankruptcy

Debt canceled in a title 11 bankruptcy case isn't included in your income. A title 11 bankruptcy case is a case under title 11 of the United States Code (including all chapters in title 11 such as chapters 7, 11, and 13). You must be a debtor under the jurisdiction of the court and the cancellation of the debt must be granted by the court or occur as a result of a plan approved by the court.

You don't qualify for the bankruptcy exclusion by being an owner of, or a partner in a partnership that owns, a grantor trust or disregarded entity that is a debtor in a title 11 bankruptcy case. You must be a debtor in a title 11 bankruptcy case to qualify for this exclusion.

How to report the bankruptcy exclusion. To show that your debt was canceled in a bankruptcy case and is excluded from income, attach Form 982 to your federal income tax return and check the box on line 1a. Lines 1b through 1e don't apply to a cancellation that occurs in a title 11 bankruptcy case. Enter the total amount of debt canceled in your title 11 bankruptcy case on line 2. You also must reduce your tax attributes in Part II of Form 982 as explained under [Reduction of Tax Attributes](#), later.

Insolvency

Don't include a canceled debt in income to the extent that you were insolvent immediately before the cancellation. You don't qualify for the insolvency exclusion by being an owner of, or a partner in a partnership that owns, a grantor trust or disregarded entity that is insolvent. You must be insolvent to qualify for this exclusion. You were insolvent immediately before the cancellation to the extent that the total of all of your liabilities was more than the FMV of all of your assets immediately before the cancellation. For purposes of determining insolvency, assets include the value of everything you own (including assets that serve as collateral for debt and exempt assets, which are beyond the reach of your creditors under the law, such as your interest in a pension plan and the value of your retirement account). Liabilities include:

- The entire amount of recourse debt,
- The amount of nonrecourse debt that isn't in excess of the FMV of the property that is security for the debt, and

Insolvency Worksheet

Keep for Your Records

Date debt was canceled (mm/dd/yy)		
Part I. Total liabilities immediately before the cancellation (don't include the same liability in more than one category)		
Liabilities (debts)	Amount Owed Immediately Before the Cancellation	
1. Credit card debt	\$	
2. Mortgage(s) on real property (including first and second mortgages and home equity loans) (mortgage(s) can be on main home, any additional home, or property held for investment or used in a trade or business)	\$

33. Interests in partnerships	\$	
34. Value of investment in a business	\$	
35. Other investments (for example, annuity contracts, guaranteed investment contracts, mutual funds, commodity accounts, interests in hedge funds, and options)	\$	
36. Other assets not included above	\$	
37. FMV of total assets immediately before the cancellation. Add lines 16 through 36.	\$	
Part III. Insolvency		
38. Amount of Insolvency. Subtract line 37 from line 15. If zero or less, you aren't insolvent.	\$	

- The amount of nonrecourse debt in excess of the FMV of the property subject to the nonrecourse debt, to the extent nonrecourse debt in excess of the FMV of the property subject to the debt is forgiven.

You can use the [Insolvency Worksheet](#), to help calculate the extent that you were insolvent immediately before the cancellation.

Other exclusions must be applied before the insolvency exclusion. This exclusion doesn't apply to a cancellation of debt that occurs in a title 11 bankruptcy case. It also doesn't apply if the debt is qualified principal residence indebtedness (defined in this section under [Qualified Principal Residence Indebtedness](#), later) unless you elect to apply the insolvency exclusion instead of the qualified principal residence indebtedness exclusion.

How to report the insolvency exclusion. To show that you are excluding canceled debt from income under the insolvency exclusion, attach Form 982 to your federal income tax return and check the box on line 1b. On line 2, include the smaller of the amount of the debt canceled or the amount by which you were insolvent immediately before the cancellation. You can use the [Insolvency Worksheet](#) to help calculate the extent that you were insolvent immediately before the cancellation. You also must reduce your tax attributes in Part II of Form 982 as explained under [Reduction of Tax Attributes](#), later.

Example 1—amount of insolvency more than canceled debt. In 2019, Greg was released from his obligation to pay his personal credit card debt in the amount of \$5,000. Greg received a 2019 Form 1099-C from his credit card lender showing the entire amount of discharged debt of \$5,000 in box 2. None of the exceptions to the general rule that canceled debt is included in income apply. Greg uses the [Insolvency Worksheet](#) to determine that his total liabilities immediately before the cancellation were \$15,000 and the FMV of his total assets immediately before the cancellation was \$7,000. This means that immediately before the cancellation, Greg was insolvent to the extent of \$8,000 (\$15,000 total liabilities minus \$7,000 FMV of his total assets). Because the amount by which Greg was insolvent immediately before the cancellation was more than the amount of his debt canceled, Greg can exclude the entire \$5,000 canceled debt from income.

When completing his tax return, Greg checks the box on line 1b of Form 982 and enters \$5,000 on line 2. Greg completes Part II to reduce his tax attributes as explained under [Reduction of Tax Attributes](#), later. Greg doesn't include any of the \$5,000 canceled debt on Schedule 1 (Form 1040 or 1040-SR), line 8. None of the canceled debt is included in his income.

Example 2—amount of insolvency less than canceled debt. The facts are the same as in *Example 1* except that Greg's total liabilities immediately before the cancellation were \$10,000 and the FMV of his total assets immediately before the cancellation was \$7,000. In this case, Greg is insolvent to the extent of

\$3,000 (\$10,000 total liabilities minus \$7,000 FMV of his total assets) immediately before the cancellation. Because the amount of the canceled debt was more than the amount by which Greg was insolvent immediately before the cancellation, Greg can exclude only \$3,000 of the \$5,000 canceled debt from income under the insolvency exclusion.

Greg checks the box on line 1b of Form 982 and includes \$3,000 on line 2. Also, Greg completes Part II to reduce his tax attributes as explained under [Reduction of Tax Attributes](#), later. Additionally, Greg must include \$2,000 of canceled debt on Schedule 1 (Form 1040 or 1040-SR), line 8 (unless another exclusion applies).

Example 3—joint debt and separate returns. In 2019, James and his wife Robin were released from their obligation to pay a debt of \$10,000 for which they were jointly and severally liable. None of the exceptions to the general rule that canceled debt is included in income apply. They incurred the debt (originally \$12,000) to finance James's purchase of a \$9,000 motorcycle and Robin's purchase of a laptop computer and software for personal use for \$3,000. They each received a 2019 Form 1099-C from the bank showing the entire canceled debt of \$10,000 in box 2. Based on the use of the loan proceeds, they agreed that James was responsible for 75% of the debt and Robin was responsible for the remaining 25%. Therefore, James's share of the debt is \$7,500 (75% of \$10,000), and Robin's share is \$2,500 (25% of \$10,000). By completing the [Insolvency Worksheet](#), James determines that, immediately before the cancellation of the debt, he was insolvent to the extent of \$5,000 (\$15,000 total liabilities minus \$10,000 FMV of his total assets). He can exclude \$5,000 of his \$7,500 canceled debt. Robin completes a separate insolvency worksheet and determines she was insolvent to the extent of \$4,000 (\$9,000 total liabilities minus \$5,000 FMV of her total assets). She can exclude her entire canceled debt of \$2,500.

When completing his separate tax return, James checks the box on line 1b of Form 982 and enters \$5,000 on line 2. He completes Part II to reduce his tax attributes as explained under [Reduction of Tax Attributes](#), later. He must include the remaining \$2,500 (his \$7,500 share of the canceled debt minus the \$5,000 extent to which he was insolvent) of canceled debt on Schedule 1 (Form 1040 or 1040-SR), line 8 (unless another exclusion applies).

When completing her return, Robin checks the box on line 1b of Form 982 and enters \$2,500 on line 2. She completes Part II to reduce her tax attributes as explained under [Reduction of Tax Attributes](#), later. She doesn't include any of the canceled debt on Schedule 1 (Form 1040 or 1040-SR), line 8. None of the canceled debt has to be included in her income.

Qualified Farm Indebtedness

You can exclude canceled farm debt from income on your 2019 return if all of the following apply.

- The debt was incurred directly in connection with your operation of the trade or business of farming.

- Fifty percent or more of your total gross receipts for 2016, 2017, and 2018 were from the trade or business of farming.
- The cancellation was made by a qualified person. A qualified person is an individual, organization, partnership, association, corporation, or other person who is actively and regularly engaged in the business of lending money. A qualified person also includes any federal, state, or local government or agency or instrumentality of one of those governments. For example, the U.S. Department of Agriculture is a qualified person. A qualified person can't be related to you, can't be the person from whom you acquired the property (or a person related to this person), and can't be a person who receives a fee due to your investment in the property (or a person related to this person).

For the definition of the term "related person," see *Related persons* under *At-Risk Amounts* in Pub. 925, *Passive Activity and At-Risk Rules*.

Other exclusions must be applied before the qualified farm indebtedness exclusion.

This exclusion doesn't apply to a cancellation of debt in a title 11 bankruptcy case or to the extent you were insolvent immediately before the cancellation. If qualified farm debt is canceled in a title 11 case, you must apply the bankruptcy exclusion rather than the exclusion for canceled qualified farm debt. If you were insolvent immediately before the cancellation of qualified farm debt, you must apply the insolvency exclusion before applying the exclusion for canceled qualified farm debt.

Exclusion limit. The amount of canceled qualified farm debt you can exclude from income under this exclusion is limited. It can't be more than the sum of:

1. Your adjusted tax attributes, and
2. The total adjusted basis of qualified property you held at the beginning of 2020.

If you excluded canceled debt under the insolvency exclusion, the adjusted basis of any qualified property and adjusted tax attributes are determined after any reduction of tax attributes required under the insolvency exclusion.

Any canceled qualified farm debt that is more than this limit must be included in your income.

For more information about the basis of property, see Pub. 551, *Basis of Assets*.

Adjusted tax attributes. Adjusted tax attributes means the sum of the following items.

1. Any net operating loss (NOL) for 2019 and any NOL carryover to 2019.
2. Any net capital loss for 2019 and any capital loss carryover to 2019.
3. Any passive activity loss carryover from 2019.
4. Three times the sum of any:
 - a. General business credit carryover to or from 2019,
 - b. Minimum tax credit available as of the beginning of 2020,

- c. Foreign tax credit carryover to or from 2019, and
- d. Passive activity credit carryover from 2019.

Qualified property. This is any property you use or hold for use in your trade or business or for the production of income.

How to report the qualified farm indebtedness exclusion. To show that all or part of your canceled debt is excluded from income because it is qualified farm debt, check the box on line 1c of Form 982 and attach it to your Form 1040 or 1040-SR. On line 2 of Form 982, include the amount of the qualified farm debt canceled, but not more than the exclusion limit (explained earlier). You also must reduce your tax attributes in Part II of Form 982 as explained under [Reduction of Tax Attributes](#), later.

Example 1—only qualified farm indebtedness exclusion applies. In 2019, Chuck was released from his obligation to pay a \$10,000 debt that was incurred directly in connection with his trade or business of farming. Chuck received a Form 1099-C from the qualified lender showing discharged debt of \$10,000 in box 2. For his 2016, 2017, and 2018 tax years, at least 50% of Chuck's total gross receipts were from the trade or business of farming. Chuck's adjusted tax attributes are \$5,000 and Chuck has \$3,000 total adjusted basis in qualified property at the beginning of 2020. Chuck had no other debt canceled during 2019 and no other exception or exclusion relating to canceled debt income applies.

Chuck can exclude \$8,000 (\$5,000 of adjusted tax attributes plus \$3,000 total adjusted basis in qualified property at the beginning of 2020) of the \$10,000 canceled debt from income. Chuck checks the box on line 1c of Form 982 and enters \$8,000 on line 2. Also, Chuck completes Part II to reduce his tax attributes as explained under [Reduction of Tax Attributes](#), later. The remaining \$2,000 of canceled qualified farm debt is included in Chuck's income on Schedule F, line 8.

Example 2—both insolvency and qualified farm indebtedness exclusions apply. On March 2, 2019, Bob was released from his obligation to pay a \$10,000 business credit card debt that was used directly in connection with his farming business. For his 2016, 2017, and 2018 tax years, at least 50% of Bob's total gross receipts were from the trade or business of farming. Bob received a 2019 Form 1099-C from the qualified lender showing discharged debt of \$10,000 in box 2. The FMV of Bob's total assets on March 2, 2019 (immediately before the cancellation of the credit card debt), was \$7,000 and Bob's total liabilities at that time were \$11,000. Bob's adjusted tax attributes (a 2019 NOL) are \$7,000 and Bob has \$4,000 total adjusted basis in qualified property at the beginning of 2020.

Bob qualifies to exclude \$4,000 of the canceled debt under the insolvency exclusion because he is insolvent to the extent of \$4,000 immediately before the cancellation (\$11,000 total liabilities minus \$7,000 FMV of total assets).

Bob must reduce his tax attributes under the insolvency rules before applying the rules for qualified farm debt.

Bob also qualifies to exclude the remaining \$6,000 of canceled qualified farm debt. The limit on Bob's exclusion from income of canceled qualified farm debt is \$7,000, the sum of:

1. His adjusted tax attributes of \$3,000 (the \$7,000 NOL minus the \$4,000 reduction of tax attributes required because of the \$4,000 exclusion of canceled debt under the insolvency exclusion), and
2. His total adjusted basis of \$4,000 in qualified property he held at the beginning of 2020.

Bob checks the boxes on lines 1b and 1c of Form 982 and enters \$10,000 on line 2. Bob completes Part II to reduce his tax attributes as explained under [Reduction of Tax Attributes](#), later. Bob doesn't include any of his canceled debt in income.

Example 3—no qualified farm indebtedness exclusion when insolvent to the extent of canceled debt. The facts are the same as in *Example 2* except that immediately before the cancellation Bob was insolvent to the extent of the full \$10,000 canceled debt. Because the exclusion for qualified farm debt doesn't apply to the extent that Bob's insolvency (immediately before the cancellation) was equal to the full amount of the canceled debt, he checks only the box on line 1b of Form 982 and enters \$10,000 on line 2. Bob completes Part II to reduce his tax attributes based on the insolvency exclusion as explained under [Reduction of Tax Attributes](#), later. Bob doesn't include any of the canceled debt in income.

Qualified Real Property Business Indebtedness

You can elect to exclude canceled qualified real property business indebtedness from income. Qualified real property business indebtedness is debt (other than qualified farm debt) that meets all of the following conditions.

1. It was incurred or assumed in connection with real property used in a trade or business. Real property used in a trade or business doesn't include real property developed and held primarily for sale to customers in the ordinary course of business.
2. It is secured by that real property. As long as certain other requirements are met, indebtedness that is secured by 100% of the ownership interest in a disregarded entity holding real property will be treated as indebtedness that is secured by real property. For more information, and for the requirements that must be met, see Revenue Procedure 2014-20 available at [IRS.gov/irb/2014-9_IRB#RP-2014-20](https://www.irs.gov/irb/2014-9_IRB#RP-2014-20).
3. It was incurred or assumed:
 - a. Before 1993, or
 - b. After 1992, if the debt is either (i) qualified acquisition indebtedness (defined next), or (ii) debt incurred to refinance qualified real property

business debt incurred or assumed before 1993 (but only to the extent the amount of such debt doesn't exceed the amount of debt being refinanced).

4. It is debt to which you elect to apply these rules.

Residential rental property generally qualifies as real property used in a trade or business unless you also use the dwelling as a home. For more information, see Dwelling Unit Used as a Home in Pub. 527.

Definition of qualified acquisition indebtedness.

Qualified acquisition indebtedness is:

- Debt incurred or assumed to acquire, construct, reconstruct, or substantially improve real property that is used in a trade or business and secures the debt, or
- Debt resulting from the refinancing of qualified acquisition indebtedness, to the extent the amount of the debt doesn't exceed the amount of debt being refinanced.

Other exclusions must be applied before the qualified real property business indebtedness exclusion. This exclusion doesn't apply to a cancellation of debt in a title 11 bankruptcy case or to the extent you were insolvent immediately before the cancellation. If qualified real property business debt is canceled in a title 11 bankruptcy case, you must apply the bankruptcy exclusion rather than the exclusion for canceled qualified real property business debt. If you were insolvent immediately before the cancellation of qualified real property business debt, you must apply the insolvency exclusion before applying the exclusion for canceled qualified real property business debt.

Exclusion limit. The amount of canceled qualified real property business debt you can exclude from income under this exclusion has two limits. The amount you can exclude can't be more than either:

1. The excess (if any) of the outstanding principal amount of the qualified real property business debt (immediately before the cancellation) over the FMV (immediately before the cancellation) of the business real property securing the debt, or
2. The total adjusted basis of depreciable real property you held immediately before the cancellation of the qualified real property business debt (other than depreciable real property acquired in contemplation of the cancellation).

Note. When figuring the first limit in (1) above, reduce the FMV of the business real property securing the debt (immediately before the cancellation) by the outstanding principal amount of any other qualified real property business debt secured by that property (immediately before the cancellation). When figuring the second, (overall) limit in (2) above, use the adjusted basis of the depreciable real property after any reductions in basis required because of the exclusion of debt canceled under the bankruptcy, insolvency, or farm debt provisions described in this publication or because of other basis adjustments that may apply to that depreciable property.

For more information about the basis of property, see Pub. 551.

How to elect the qualified real property business debt exclusion. You must make an election to exclude canceled qualified real property business debt from gross income. The election must be made on a timely filed (including extensions) federal income tax return for 2019 and can be revoked only with IRS consent. The election is made by completing Form 982 in accordance with its instructions. Attach Form 982 to your federal income tax return for 2019 and check the box on line 1d. Include the amount of canceled qualified real property business debt (but not more than the amount of the exclusion limit, explained earlier) on line 2 of Form 982. You also must reduce your tax attributes in Part II of Form 982 as explained under [Reduction of Tax Attributes](#), later.

If you timely filed your tax return without making this election, you can still make the election by filing an amended return within 6 months of the due date of the return (excluding extensions). Enter "Filed pursuant to section 301.9100-2" on the amended return and file it at the same place you filed the original return.

Example—full qualified real property business indebtedness exclusion. In 2013, Curt bought a retail store for use in a business he operated as a sole proprietorship. Curt made a \$20,000 down payment and financed the remaining \$200,000 of the purchase price with a bank loan. The bank loan was a recourse loan and was secured by the property. Curt used the property in his business continuously since he bought it. He had no other debt secured by that depreciable real property. In addition to the retail store, Curt owned depreciable equipment and furniture with an adjusted basis of \$50,000.

Curt's business encountered financial difficulties in 2019. On September 20, 2019, the bank financing the retail store loan entered into a workout agreement with Curt under which it canceled \$20,000 of the debt. Immediately before the cancellation, the outstanding principal balance on the retail store loan was \$185,000, the FMV of the store was \$165,000, and the adjusted basis was \$210,000 (\$220,000 cost minus \$10,000 accumulated depreciation).

The bank sent him a 2019 Form 1099-C showing discharged debt of \$20,000 in box 2. Curt had no tax attributes other than basis to reduce and didn't qualify for any exception or exclusion other than the qualified real property business debt exclusion.

Curt elects to apply the qualified real property business debt exclusion to the canceled debt. The amount of canceled qualified real property business debt that he can exclude from income is limited. The amount he can exclude can't be more than either:

1. \$20,000 (the excess of the \$185,000 outstanding principal amount of his qualified real property business debt immediately before the cancellation over the \$165,000 FMV of the business real property securing the debt), or
2. \$210,000 (the total adjusted basis of the depreciable real property he held immediately before the cancellation).

Thus, Curt can exclude the entire \$20,000 of canceled qualified real property business debt from income. Curt checks the box on line 1d of Form 982 and enters \$20,000 on line 2. Curt also must use line 4 of Form 982 to reduce his basis in depreciable real property by the \$20,000 of canceled qualified real property business debt excluded from his income as explained under [Reduction of Tax Attributes](#), later.

Qualified Principal Residence Indebtedness

Qualified principal residence indebtedness is any mortgage you took out to buy, build, or substantially improve your main home. It also must be secured by your main home. Qualified principal residence indebtedness also includes any debt secured by your main home that you used to refinance a mortgage you took out to buy, build, or substantially improve your main home, but only up to the amount of the old mortgage principal just before the refinancing.

Example 1—qualified principal residence indebtedness amount after refinancing. In 2018, Becky bought a main home for \$315,000. She took out a \$300,000 mortgage loan to buy the home and made a down payment of \$15,000. The loan was secured by the home. Later that year, Becky took out a second mortgage loan in the amount of \$50,000 that she used to add a garage to her home.

In 2019, when the outstanding principal of her first and second mortgage loans was \$325,000, Becky refinanced the two loans into one loan in the amount of \$400,000. The FMV of the home at the time of the refinancing was \$430,000. She used the additional \$75,000 debt proceeds (\$400,000 new mortgage loan minus \$325,000 outstanding principal balances of her first and second mortgage loans immediately before the refinancing) to pay off personal credit cards and to pay college tuition for her daughter.

After the refinancing, Becky's qualified principal residence indebtedness is \$325,000 because the \$400,000 debt resulting from the refinancing is qualified principal residence indebtedness only to the extent it isn't more than the old mortgage principal just before the refinancing (the \$325,000 of outstanding principal on Becky's first and second mortgages, which both qualified as principal residence indebtedness).

Example 2—refinancing home equity loan used for other purposes. In 2018, Steve acquired his main home for \$200,000, subject to a mortgage of \$175,000. Later that year, he took out a home equity loan for \$10,000, secured by his main home, which he used to pay off personal credit cards.

In 2019, when the outstanding principal on his mortgage was \$170,000, and the outstanding principal on his home equity loan was \$9,000, he refinanced the two loans into one loan in the amount of \$200,000. The FMV of the home at the time of refinancing was \$210,000. He used the additional \$21,000 (\$200,000 new mortgage loan minus \$179,000 outstanding

principal balances on the mortgage and home equity loan) to cover medical expenses.

After refinancing, Steve's qualified principal residence indebtedness is \$170,000 because the debt resulting from the refinancing is qualified principal residence indebtedness only to the extent it refinances debt that had been secured by the main home and was used to buy, build, or substantially improve the main home.

Main home. Your main home is the one in which you live most of the time. You can have only one main home at any one time.

Other exclusions must be applied before the qualified principal residence indebtedness exclusion. This exclusion doesn't apply to a cancellation of debt in a title 11 bankruptcy case. If qualified principal residence indebtedness is canceled in a title 11 bankruptcy case, you must apply the bankruptcy exclusion rather than the exclusion for qualified principal residence indebtedness. If you were insolvent immediately before the cancellation, you can elect to apply the insolvency exclusion (as explained under [Insolvency](#), earlier) instead of applying the qualified principal residence indebtedness exclusion. To do this, check the box on line 1b of Form 982 instead of the box on line 1e.

Exclusion limit. The maximum amount you can treat as qualified principal residence indebtedness is \$2 million (\$1 million if married filing separately). You can't exclude canceled qualified principal residence indebtedness from income if the cancellation was for services performed for the lender or on account of any other factor not directly related to a decline in the value of your home or to your financial condition.

Ordering rule. If only a part of a loan is qualified principal residence indebtedness, the exclusion applies only to the extent the amount canceled is more than the amount of the loan (immediately before the cancellation) that isn't qualified principal residence indebtedness. The remaining part of the loan may qualify for another exclusion.

Example 3—ordering rule on cancellation of nonqualified principal residence debt. Ken incurred recourse debt of \$800,000 when he bought his main home for \$880,000. When the FMV of the property was \$1 million, Ken refinanced the debt for \$850,000. At the time of the refinancing, the principal balance of the original mortgage loan was \$740,000. Ken used the \$110,000 he obtained from the refinancing (\$850,000 minus \$740,000) to pay off his credit cards and to buy a new car.

About 2 years after the refinancing, Ken lost his job and was unable to get another job paying a comparable salary. Ken's home had declined in value to between \$600,000 and \$650,000. Based on Ken's circumstances, the lender agreed to allow a short sale of the property for \$620,000 and to cancel the remaining \$115,000 of the outstanding \$735,000 debt. Under the ordering rule, Ken can exclude only \$5,000 of the canceled debt from his income under the exclusion for canceled qualified principal residence indebtedness (\$115,000 canceled debt minus the \$110,000 amount of the

debt that wasn't qualified principal residence indebtedness). Ken must include the remaining \$110,000 of canceled debt in income on Schedule 1 (Form 1040 or 1040-SR), line 8 (unless another exclusion applies).

How to report the qualified principal residence indebtedness exclusion. To show that all or part of your canceled debt is excluded from income because it is qualified principal residence indebtedness, attach Form 982 to your federal income tax return and check the box on line 1e. On line 2 of Form 982, include the amount of canceled qualified principal residence indebtedness, but not more than the amount of the exclusion limit (explained earlier). If you continue to own your home after a cancellation of qualified principal residence indebtedness, you must reduce your basis in the home as explained under [Reduction of Tax Attributes](#) next.

Reduction of Tax Attributes

If you exclude canceled debt from income, you must reduce certain tax attributes (but not below zero) by the amount excluded. Use Part II of Form 982 to reduce your tax attributes. The order in which the tax attributes are reduced depends on the reason the canceled debt was excluded from income. If the total amount of canceled debt excluded from income (line 2 of Form 982) was more than your total tax attributes, the total reduction of tax attributes in Part II of Form 982 will be less than the amount on line 2.

Qualified Principal Residence Indebtedness

If you exclude canceled qualified principal residence indebtedness from income and you continue to own the home after the cancellation, you must reduce the basis of the home (but not below zero) by the amount of the canceled qualified principal residence indebtedness excluded from income. Enter the amount of the basis reduction on line 10b of Form 982.

For more details on determining the basis of your main home, see Pub. 523, *Selling Your Home*.

Bankruptcy and Insolvency

No tax attributes other than basis of personal-use property. If the canceled debt you are excluding isn't excluded as qualified principal residence indebtedness and you have no tax attributes other than the adjusted basis of personal-use property (see the list of seven tax attributes, later), you must reduce the basis of the personal-use property you held at the beginning of 2020 (in proportion to adjusted basis). Personal-use property is any property that isn't used in your trade or business or held for investment (such as your home, home furnishings, and car). Include on line 10a of Form 982 the smallest of:

1. The basis of your personal-use property held at the beginning of 2020,
2. The amount of canceled nonbusiness debt (other than qualified principal residence indebtedness) that you are excluding from income on line 2 of Form 982, or
3. The excess of the total basis of the property and the amount of money you held immediately after the cancellation over your total liabilities immediately after the cancellation.

For more information about the basis of property, see Pub. 551.

Example. In 2018, Mya bought a car for personal use. The cost of the car was \$12,000. Mya put down \$2,000 and took out a loan of \$10,000 to buy the car. The loan was a recourse loan, meaning that Mya was personally liable for the full amount of the debt.

On December 7, 2019, when the balance of the loan was \$8,500, the lender repossessed and sold the car because Mya had stopped making payments on the loan. The FMV of the car was \$7,000 at the time the lender repossessed and sold it. The lender applied the \$7,000 it received on the sale of the car against Mya's loan and forgave the remaining loan balance of \$1,500 (\$8,500 outstanding balance immediately before the repossession minus the \$7,000 FMV of the car).

Mya's only other assets at the time of the cancellation are the furniture in her apartment which has a basis of \$5,000 and an FMV of \$3,000, jewelry with a basis of \$500 and an FMV of \$1,000, and a \$600 balance in her savings account. Thus, the FMV of Mya's total assets immediately before the cancellation was \$11,600 (\$7,000 car plus \$3,000 furniture plus \$1,000 jewelry plus \$600 savings). Mya also had an outstanding student loan balance of \$6,000 immediately before the cancellation, bringing her total liabilities at that time to \$14,500 (\$8,500 balance on car loan plus \$6,000 student loan balance). Other than the car, which was repossessed, Mya held all of these assets at the beginning of 2020. The FMV and basis of the assets remained the same at the beginning of 2020.

Mya received a 2019 Form 1099-C showing \$1,500 in box 2 (amount of debt that was canceled) and \$7,000 in box 7 (FMV of the property). Mya can exclude all \$1,500 of canceled debt from income because at the time of the cancellation, she was insolvent to the extent of \$2,900 (\$14,500 of total liabilities immediately before the cancellation minus \$11,600 FMV of total assets at that time).

Mya checks box 1b on Form 982 and enters \$1,500 on line 2. She enters \$100 on line 10a, the smallest of:

1. The \$5,500 basis of her personal-use property held at the beginning of 2020 (\$5,000 furniture plus \$500 jewelry),
2. The \$1,500 nonbusiness debt she is excluding from income on line 2 of Form 982, or
3. The \$100 excess of the total basis of the property and the amount of money Mya held immediately after the cancellation over her total liabilities at that time (\$5,500

basis of property held immediately after the cancellation plus \$600 savings minus \$6,000 student loan).

Mya must reduce (by one dollar for each dollar of excluded canceled debt) her basis in each item of property she holds at the beginning of 2020 in proportion to her total adjusted basis in all her property. The total reduction, however, can't be more than (3) above—the \$100 excess of her total adjusted basis and the money she held after the cancellation over her total liabilities after the cancellation. See the basis attribute under *All other tax attributes* next.

Thus, she reduces her basis as follows.

1. The furniture's basis is 91% of her total adjusted basis (\$5,000 divided by \$5,500), so she reduces it by \$91 (the \$100 excess in (3) multiplied by 0.91).
2. The jewelry's basis is 9% of her total adjusted basis (\$500 divided by \$5,500), so she reduces it by \$9 (the \$100 excess in (3) multiplied by 0.09).

All other tax attributes. If the canceled debt is excluded by reason of the bankruptcy or insolvency exclusions, you must use the excluded debt to reduce the following tax attributes (but not below zero) in the order listed unless you elect to reduce the basis of depreciable property first, as explained later. Reduce your tax attributes after you figure your income tax liability for 2019.

1. **Net operating loss (NOL).** First reduce any 2019 NOL and then reduce any NOL carryover to 2019 (after taking into account any amount used to reduce 2019 taxable income) in the order of the tax years from which the carryovers arose, starting with the earliest year. Reduce the NOL or carryover by one dollar for each dollar of excluded canceled debt.
2. **General business credit carryover.** Reduce the credit carryover to or from 2019. Reduce the credit carryovers to 2019 in the order in which they are taken into account for 2019. For more information on the credit ordering rules for 2019, see the Instructions for Form 3800, *General Business Credit*. Reduce the carryover by 33 $\frac{1}{3}$ cents for each dollar of excluded canceled debt.
3. **Minimum tax credit.** Reduce the minimum tax credit available at the beginning of 2020. Reduce the credit by 33 $\frac{1}{3}$ cents for each dollar of excluded canceled debt.
4. **Net capital loss and capital loss carryovers.** First reduce any 2019 net capital loss and then any capital loss carryover to 2019 (after taking into account any amount used to reduce 2019 taxable income) in the order of the tax years from which the carryovers arose, starting with the earliest year. Reduce the net capital loss or carryover by one dollar for each dollar of excluded canceled debt.
5. **Basis.** Reduce the basis of the property you hold at the beginning of 2020 in the following order (and, within each category, in proportion to adjusted basis).

- a. Real property used in your trade or business or held for investment (other than real property held for sale to customers in the ordinary course of business) if it secured the canceled debt.
- b. Personal property used in your trade or business or held for investment (other than inventory and accounts and notes receivable) if it secured the canceled debt.
- c. Any other property used in your trade or business or held for investment (other than inventory, accounts receivable, notes receivable, and real property held for sale to customers in the ordinary course of business).
- d. Inventory, accounts receivable, notes receivable, and real property held primarily for sale to customers in the ordinary course of business.
- e. Personal-use property (property not used in your trade or business nor held for investment).

Reduce the basis by one dollar for each dollar of excluded canceled debt. However, the reduction can't be more than the excess of the total basis of the property and the amount of money you held immediately after the debt cancellation over your total liabilities immediately after the cancellation.

For allocation rules that apply to basis reductions for multiple canceled debts, see Regulations section 1.1017-1(b)(2). Also see [Election to reduce the basis of depreciable property before reducing other tax attributes](#), later.

6. **Passive activity loss and credit carryovers.** Reduce the passive activity loss and credit carryovers from 2019. Reduce the loss carryover by one dollar for each dollar of excluded canceled debt. Reduce the credit carryover by 33 $\frac{1}{3}$ cents for each dollar of excluded canceled debt.
7. **Foreign tax credit.** Reduce the credit carryover to or from 2019. Reduce the credit carryovers to 2019 in the order in which they are taken into account for 2019. Reduce the carryover by 33 $\frac{1}{3}$ cents for each dollar of excluded canceled debt.

Election to reduce the basis of depreciable property before reducing other tax attributes. You can elect to reduce the basis of depreciable property you held at the beginning of 2020 before reducing other tax attributes. You can reduce the basis of this property by all or part of the canceled debt. Basis of property is reduced in the following order.

1. Depreciable real property used in your trade or business or held for investment that secured the canceled debt.
2. Depreciable personal property used in your trade or business or held for investment that secured the canceled debt.
3. Other depreciable property used in your trade or business or held for investment.

4. Real property held primarily for sale to customers if you elect to treat it as if it were depreciable property on Form 982.

Basis reduction is limited to the total adjusted basis of all your depreciable property. Depreciable property for this purpose means any property subject to depreciation or amortization, but only if a reduction of basis will reduce the depreciation or amortization otherwise allowable for the period immediately following the basis reduction. If the amount of canceled debt excluded from income is more than the total basis in depreciable property, you must use the excess to reduce the other tax attributes in the order described earlier under *All other tax attributes*. In figuring the limit on the basis reduction in (5), *Basis*, use the remaining adjusted basis of your properties after making this election. See Form 982 for information on how to make this election. The election can be revoked only with IRS consent.

Recapture of basis reductions. If you reduce the basis of property under these provisions and later sell or otherwise dispose of the property at a gain, the part of the gain due to this basis reduction is taxable as ordinary income under the depreciation recapture provisions. Treat any property that isn't section 1245 or section 1250 property as section 1245 property. For section 1250 property, determine the depreciation adjustments that would have resulted under the straight line method as if there were no basis reduction for debt cancellation. See Pub. 544, *Sales and Other Dispositions of Assets*, or Pub. 225, *Farmer's Tax Guide*, for more details on sections 1245 and 1250 property and the recapture of gain as ordinary income.

Qualified Farm Indebtedness

If you exclude canceled debt from income under both the insolvency exclusion and the exclusion for qualified farm indebtedness, you must first reduce your tax attributes by the amount excluded under the insolvency exclusion. Then reduce your remaining tax attributes (but not below zero) by the amount of canceled debt that qualifies for the farm debt exclusion.

In most cases, when reducing your tax attributes for canceled qualified farm indebtedness excluded from income, reduce them in the same order explained under [Bankruptcy and Insolvency](#), earlier. However, don't follow the rules in item (5), *Basis*. Instead, reduce only the basis of qualified property. Qualified property is any property you use or hold for use in your trade or business or for the production of income. Reduce the basis of qualified property in the following order.

1. Depreciable qualified property. You can elect on Form 982 to treat real property held primarily for sale to customers as if it were depreciable property.
2. Land that is qualified property and is used or held for use in your farming business.
3. Other qualified property.

Qualified Real Property Business Indebtedness

If you make an election to exclude canceled qualified real property business debt from income, you must reduce the basis of your depreciable real property (but not below zero) by the amount of canceled qualified real property business debt excluded from income. The basis reduction is made at the beginning of 2020. However, if you dispose of your depreciable real property before the beginning of 2020, you must reduce its basis (but not below zero) immediately before the disposition. Enter the amount of the basis reduction on line 4 of Form 982.

Example 1—qualified real property business indebtedness and insolvency with reduction in basis. In 2014, Curt bought a retail store for use in a business he operated as a sole proprietorship. Curt made a \$20,000 down payment and financed the remaining \$200,000 of the purchase price with a bank loan. The bank loan was a recourse loan and was secured by the property. He used the property in his business continuously since he bought it and had no other debt secured by that depreciable real property. In addition to the retail store, Curt owned depreciable equipment and furniture with an adjusted basis of \$50,000. His tax attributes included the basis of depreciable property, a net operating loss, and a capital loss carryover to 2019.

Curt's business encountered financial difficulties in 2019. On September 20, 2019, the bank financing the retail store loan entered into a workout agreement with him under which it canceled \$20,000 of the principal amount of the debt. Immediately before the bank entered into the workout agreement, he was insolvent to the extent of \$12,000. At that time, the outstanding principal balance on the retail store loan was \$185,000, the FMV of the store was \$165,000, and the adjusted basis was \$210,000 (\$220,000 cost minus \$10,000 accumulated depreciation). The bank sent him a 2019 Form 1099-C showing canceled debt of \$20,000 in box 2.

Curt must apply the insolvency exclusion before applying the exclusion for canceled qualified real property business indebtedness. Under the insolvency exclusion rules, he can exclude \$12,000 of the canceled debt from income. Curt elects to reduce his basis of depreciable property before reducing other tax attributes. Under that election, he must first reduce his basis in the depreciable real property used in his trade or business that secured the canceled debt. After the basis reduction, his adjusted basis in that property is \$198,000 (\$210,000 adjusted basis before entering into the workout agreement minus \$12,000 of canceled debt excluded from income under the insolvency exclusion).

Curt may be able to exclude the remaining \$8,000 of canceled debt from income under the exclusion for qualified real property business indebtedness, if he elects to apply it. The amount he can exclude is limited. It can't be more than:

1. \$20,000 (the excess of the \$185,000 outstanding principal amount of his qualified real property business debt (immediately

before the cancellation) over the \$165,000 FMV (immediately before the cancellation) of the qualified real property, which secured the debt), or

2. \$198,000 (the total adjusted basis of depreciable real property he held immediately before the cancellation determined after reductions for accumulated depreciation and canceled debt excluded under the insolvency exclusion (\$220,000 minus \$10,000 minus \$12,000)).

Since both limits are more than the \$8,000 of remaining canceled debt (\$20,000 minus \$12,000), Curt can exclude \$8,000 under the qualified real property business indebtedness exclusion.

Curt checks the boxes on lines 1b and 1d of Form 982. He completes Part II of Form 982 to reduce his basis in the depreciable real property by \$20,000, the amount of the canceled debt excluded from income. He enters \$8,000 on line 4 and \$12,000 on line 5.

Example 2—qualified real property business indebtedness with insolvency and reduction in NOL. Bob owns depreciable real property used in his retail business. His adjusted basis in the property is \$145,000. The FMV of the property is \$120,000. The property is subject to \$134,000 of recourse debt which is secured by the property. Bob had no other debt secured by that depreciable real property. Bob also had a \$15,000 NOL in 2019.

During 2019, Bob entered into a workout agreement with the lender under which the lender canceled \$14,000 of the debt on the real property used in his business. Immediately before the cancellation, Bob was insolvent to the extent of \$10,000. He excludes \$10,000 of the canceled debt from income under the insolvency exclusion. As a result of that exclusion, he reduced his NOL by \$10,000.

Bob may be able to exclude the remaining \$4,000 of canceled debt from income under the qualified real property business indebtedness exclusion, if he elects to apply it. The amount he can exclude is limited. It can't be more than:

1. \$14,000 (the excess of the \$134,000 outstanding principal amount of his qualified real property business debt (immediately before the cancellation) over the \$120,000 FMV (immediately before the cancellation) of that qualified real property, which secured the debt), or
2. \$145,000 (the total adjusted basis of depreciable real property held immediately before the cancellation of debt).

Since both limits (\$14,000 and \$145,000) are more than the remaining \$4,000 of canceled debt, Bob also can exclude the remaining \$4,000 of canceled debt.

Bob checks the boxes on lines 1b and 1d of Form 982 and enters \$14,000 on line 2. Bob completes Part II of Form 982 to reduce his basis of depreciable real property and his 2019 NOL by entering \$4,000 on line 4 and \$10,000 on line 6. None of the canceled debt is included in his income.

2.

Foreclosures and Repossessions

If you don't make payments you owe on a loan secured by property, the lender may foreclose on the loan or repossess the property. The foreclosure or repossession is treated as a sale from which you may realize gain or loss. This is true even if you voluntarily return the property to the lender. If the outstanding loan balance was more than the FMV of the property and the lender cancels all or part of the remaining loan balance, you also may realize ordinary income from the cancellation of debt. You must report this income on your return unless certain exceptions or exclusions apply. See [chapter 1](#) for more details.

Borrower's gain or loss. You figure and report gain or loss from a foreclosure or repossession in the same way as gain or loss from a sale. The gain is the difference between the amount realized and your adjusted basis in the transferred property (amount realized minus adjusted basis). The loss is the difference between your adjusted basis in the transferred property and the amount realized (adjusted basis minus amount realized). For more information on figuring gain or loss from the sale of property, see *Gain or Loss From Sales and Exchanges* in Pub. 544.

You can use Table 1-1 to figure your ordinary income from the cancellation of debt and your gain or loss from a foreclosure or repossession.

Amount realized and ordinary income on a recourse debt. If you are personally liable for the debt, the amount realized on the foreclosure or repossession includes the smaller of:

1. The outstanding debt immediately before the transfer reduced by any amount for which you remain personally liable immediately after the transfer, or
2. The FMV of the transferred property.

The amount realized also includes any proceeds you received from the foreclosure sale. If the FMV of the transferred property is less than the total outstanding debt immediately before the transfer reduced by any amount for which you remain personally liable immediately after the transfer, the difference is ordinary income from the cancellation of debt. You must report

this income on your return unless certain exceptions or exclusions apply. See [chapter 1](#) for more details.

Example 1. In 2018, Lili paid \$200,000 for her home. She made a \$15,000 down payment and borrowed the remaining \$185,000 from a bank. Lili is personally liable for the mortgage loan and the house secures the loan. In 2019, the bank foreclosed on the mortgage because Lili stopped making payments. When the bank foreclosed the mortgage, the balance due was \$180,000, the FMV of the house was \$170,000, and Lili's adjusted basis was \$175,000 due to a casualty loss she had deducted. At the time of the foreclosure, the bank forgave \$2,000 of the \$10,000 debt in excess of the FMV (\$180,000 minus \$170,000). She remained personally liable for the \$8,000 balance.

In this case, Lili has ordinary income from the cancellation of debt in the amount of \$2,000. The \$2,000 income from the cancellation of debt is figured by subtracting the \$170,000 FMV of the house from the \$172,000 difference between her total outstanding debt immediately before the transfer of property and the amount for which she remains personally liable immediately after the transfer (\$180,000 minus \$8,000). She is able to exclude the \$2,000 of canceled debt from her income under the qualified principal residence indebtedness rules discussed earlier.

Lili also must determine her gain or loss from the foreclosure. In this case, the amount that she realizes is \$170,000. This is the smaller of:

1. \$172,000 (the \$180,000 of outstanding debt immediately before the transfer minus \$8,000 for which she remains personally liable immediately after the transfer), or
2. \$170,000 (the FMV of the house).

Lili figures her gain or loss on the foreclosure by comparing the \$170,000 amount realized with her \$175,000 adjusted basis. She has a \$5,000 nondeductible loss.

Example 2. Tara bought a new car for \$15,000. She made a \$2,000 down payment and borrowed the remaining \$13,000 from the dealer's credit company. Tara is personally liable for the loan (recourse debt) and the car is pledged as security for the loan. On August 1, 2019, the credit company repossessed the car because Tara had stopped making loan payments. The balance due after taking into account the payments Tara made was \$10,000. The FMV of the car when it was repossessed was \$9,000. On November 16, 2019, the credit company forgave the remaining \$1,000 balance on the loan due to insufficient assets.

In this case, the amount Tara realizes is \$9,000. This is the smaller of:

1. \$9,000 (the \$10,000 outstanding debt immediately before the repossession minus the \$1,000 for which she remains personally liable immediately after the repossession), or
2. \$9,000 (the FMV of the car).

Tara figures her gain or loss on the repossession by comparing the \$9,000 amount

Table 1-1. Worksheet for Foreclosures and Repossessions

Keep for Your Records

Part 1. Complete Part 1 only if you were personally liable for the debt (even if none of the debt was canceled). Otherwise, go to Part 2.	
1. Enter the amount of outstanding debt immediately before the transfer of property reduced by any amount for which you remain personally liable immediately after the transfer of property	_____
2. Enter the fair market value of the transferred property	_____
3. Ordinary income from the cancellation of debt upon foreclosure or repossession.* Subtract line 2 from line 1. If less than zero, enter zero. Next, go to Part 2	=====
Part 2. Gain or loss from foreclosure or repossession.	
4. Enter the smaller of line 1 or line 2. If you didn't complete Part 1 (because you weren't personally liable for the debt), enter the amount of outstanding debt immediately before the transfer of property	_____
5. Enter any proceeds you received from the foreclosure sale	_____
6. Add line 4 and line 5	_____
7. Enter the adjusted basis of the transferred property	_____
8. Gain or loss from foreclosure or repossession. Subtract line 7 from line 6	=====

* The income may not be taxable. See [chapter 1](#) for more details.

realized with her \$15,000 adjusted basis. She has a \$6,000 nondeductible loss. After the cancellation of the remaining balance on the loan in November, Tara also has ordinary income from cancellation of debt in the amount of \$1,000 (the remaining balance on the \$10,000 loan after the \$9,000 amount satisfied by the FMV of the repossessed car). Tara must report this \$1,000 on her return unless one of the exceptions or exclusions described in [chapter 1](#) applies.

Amount realized on a nonrecourse debt.

If you aren't personally liable for repaying the debt secured by the transferred property, the amount you realize includes the full amount of the outstanding debt immediately before the transfer. This is true even if the FMV of the property is less than the outstanding debt immediately before the transfer.

Example 1. Lili paid \$200,000 for her home. She made a \$15,000 down payment and borrowed the remaining \$185,000 from a bank. She isn't personally liable for the loan, but grants the bank a mortgage.

The bank foreclosed on the mortgage because Lili stopped making payments. When the bank foreclosed on the mortgage, the balance due was \$180,000, the FMV of the house was \$170,000, and Lili's adjusted basis was \$175,000 due to a casualty loss she had deducted.

The amount Lili realized on the foreclosure is \$180,000, the outstanding debt immediately before the foreclosure. She figures her gain or loss by comparing the \$180,000 amount realized with her \$175,000 adjusted basis. Lili has a \$5,000 realized gain. See Pub. 523, *Selling Your Home*, to figure and report any taxable amount.

Example 2. Tara bought a new car for \$15,000. She made a \$2,000 down payment and borrowed the remaining \$13,000 from the

dealer's credit company. Tara isn't personally liable for the loan (nonrecourse), but pledged the new car as security for the loan.

On August 1, 2019, the credit company repossessed the car because Tara had stopped making loan payments. The balance due after taking into account the payments Tara made was \$10,000. The FMV of the car when it was repossessed was \$9,000.

The amount Tara realized on the repossession is \$10,000. That is the outstanding amount of debt immediately before the repossession, even though the FMV of the car is less than \$10,000. Tara figures her gain or loss on the repossession by comparing the \$10,000 amount realized with her \$15,000 adjusted basis. Tara has a \$5,000 nondeductible loss.

Forms 1099-A and 1099-C. A lender who acquires an interest in your property in a foreclosure or repossession should send you Form 1099-A, Acquisition or Abandonment of Secured Property, showing information you need to figure your gain or loss. However, if the lender also cancels part of your debt and must file Form 1099-C, the lender can include the information about the foreclosure or repossession on that form instead of on Form 1099-A. The lender must file Form 1099-C and send you a copy if the amount of debt canceled is \$600 or more and the lender is a financial institution, credit union, federal government agency, or other [applicable entity](#) as discussed earlier in [chapter 1](#). For foreclosures or repossessions occurring in 2019, these forms should be sent to you by January 31, 2020.

3.

Abandonments

You abandon property when you voluntarily and permanently give up possession and use of the property with the intention of ending your ownership but without passing it on to anyone else. Whether an abandonment has occurred is determined in light of all the facts and circumstances. You must both show an intention to abandon the property and affirmatively act to abandon the property.

A voluntary conveyance of the property in lieu of foreclosure isn't an abandonment and is treated as the exchange of property to satisfy a debt. For more information, see *Sales and Exchanges* in Pub. 544.

The tax consequences of abandonment of property that secures a debt depend on whether you were personally liable for the debt (recourse debt) or weren't personally liable for the debt (nonrecourse debt).

TIP See Pub. 544 if you abandoned property that didn't secure debt. This publication only discusses the tax consequences of abandoning property that secured a debt.

Abandonment of property securing recourse debt. In most cases, if you abandon property that secures debt for which you are personally liable (recourse debt), you don't have gain or loss until the later foreclosure is completed. For details on figuring gain or loss on the foreclosure, see [chapter 2](#).

Example 1—abandonment of personal-use property securing recourse debt. In 2015, Anne purchased a home for \$200,000. She borrowed the entire purchase price, for which she was personally liable, and gave the bank a mortgage on the home. In 2019, Anne lost her job and was unable to continue making her mortgage loan payments. Because her mortgage loan balance was \$185,000 and the FMV of her home was only \$150,000, Anne decided to abandon her home by permanently moving out on August 1, 2019. Because Anne was personally liable for the debt and the bank didn't complete a foreclosure of the property in 2019, Anne has neither gain nor loss in tax year 2019 from abandoning the home. If the bank sells the house at a foreclosure sale in 2020, Anne will have to figure her gain or nondeductible loss for tax year 2020 as discussed earlier in [chapter 2](#).

Example 2—abandonment of business or investment property securing recourse debt. In 2015, Sue purchased business property for \$200,000. She borrowed the entire purchase price, for which she was personally liable, and gave the lender a security interest in the property. In 2019, Sue was unable to continue making her loan payments. Because her loan balance was \$185,000 and the FMV of the property was only \$150,000, Sue abandoned

the property on August 1, 2019. Because Sue was personally liable for the debt and the lender didn't complete a foreclosure of the property in 2019, Sue has neither gain nor loss in tax year 2019 from abandoning the property. If the lender sells the property at a foreclosure sale in 2020, Sue will have to figure her gain or deductible loss for tax year 2020 as discussed earlier in [chapter 2](#).

Abandonment of property securing nonrecourse debt. If you abandon property that secures debt for which you aren't personally liable (nonrecourse debt), the abandonment is treated as a sale or exchange.

The amount you realize on the abandonment of property that secured nonrecourse debt is the amount of the nonrecourse debt. If the amount you realize is more than your adjusted basis, then you have a gain. If your adjusted basis is more than the amount you realize, then you have a loss. For more information on how to figure gain and loss, see *Gain or Loss From Sales and Exchanges* in Pub. 544.

Loss from abandonment of business or investment property is deductible as a loss. The character of the loss depends on the character of the property. The amount of deductible capital loss may be limited. For more information, see *Treatment of Capital Losses* in Pub. 544. You can't deduct any loss from abandonment of your home or other property held for personal use.

Example 1—abandonment of personal-use property securing nonrecourse debt. In 2015, Timothy purchased a home for \$200,000. He borrowed the entire purchase price, for which he wasn't personally liable, and gave the bank a mortgage on the home. In 2019, Timothy lost his job and was unable to continue making his mortgage loan payments. Because his mortgage loan balance was \$185,000 and the FMV of his home was only \$150,000, Timothy decided to abandon his home by permanently moving out on August 1, 2019. Because Timothy wasn't personally liable for the debt, the abandonment is treated as a sale or exchange of the home in tax year 2019. Timothy's amount realized is \$185,000 and his adjusted basis in the home is \$200,000. Timothy has a \$15,000 nondeductible loss in tax year 2019. (Had Timothy's adjusted basis been less than the amount realized, Timothy would have had a gain that he would have to include in gross income.) The bank sells the house at a foreclosure sale in 2020. Timothy has neither gain nor loss from the foreclosure sale. Because he wasn't personally liable for the debt, he also has no cancellation of debt income.

Example 2—abandonment of business or investment property securing nonrecourse debt. In 2015, Robert purchased business property for \$200,000. He borrowed the entire purchase price, for which he wasn't personally liable, and gave the lender a security interest in the property. In 2019, Robert was unable to continue making his loan payments. Because his loan balance was \$185,000 and the FMV of the property was only \$150,000, Robert decided to abandon the property on August 1, 2019. Because Robert wasn't personally liable for the debt, the abandonment is treated

as a sale or exchange of the property in tax year 2019. Robert's amount realized is \$185,000 and his adjusted basis in the property is \$180,000 (as a result of \$20,000 of depreciation deductions on the property). Robert has a \$5,000 gain in tax year 2019. (Had Robert's adjusted basis been greater than the amount realized, he would have had a deductible loss.) The lender sells the property at a foreclosure sale in 2020. Robert has neither gain nor loss from the foreclosure sale. Because he wasn't personally liable for the debt, he also has no cancellation of debt income.

Canceled debt. If the abandoned property secures a debt for which you are personally liable and the debt is canceled, you will realize ordinary income equal to the canceled debt. This income is separate from any amount realized from abandonment of the property. You must report this income on your return unless one of the exceptions or exclusions described in [chapter 1](#) applies.

Forms 1099-A and 1099-C. In most cases, if you abandon:

- real property (such as a home),
- intangible property, or
- tangible personal property held (wholly or partly) for use in a trade or business or for investment

that secures a loan and the lender knows the property has been abandoned, the lender should send you Form 1099-A showing information you need to figure your gain or loss from the abandonment. Also, if your debt is canceled and the lender must file Form 1099-C, the lender can include the information about the abandonment on that form instead of on Form 1099-A. The lender must file Form 1099-C and send you a copy if the amount of debt canceled is \$600 or more and the lender is a financial institution, credit union, federal government agency, or other [applicable entity](#) as discussed earlier in [chapter 1](#).

For abandonments of property and debt cancellations occurring in 2019, these forms should be sent to you by January 31, 2020.

4.

How To Get Tax Help

If you have questions about a tax issue, need help preparing your tax return, or want to download free publications, forms, or instructions, go to [IRS.gov](#) and find resources that can help you right away.

Preparing and filing your tax return. After receiving your wage and earning statements (Form W-2, W-2G, 1099-R, 1099-MISC) from all employers and interest and dividend statements from banks (Forms 1099), you can find

free options to prepare and file your return on [IRS.gov](#) or in your local community if you qualify.

The Volunteer Income Tax Assistance (VITA) program offers free tax help to people with low-to-moderate incomes, persons with disabilities, and limited-English-speaking taxpayers who need help preparing their own tax returns. The Tax Counseling for the Elderly (TCE) program offers free tax help for all taxpayers, particularly those who are 60 years of age and older. TCE volunteers specialize in answering questions about pensions and retirement-related issues unique to seniors.

You can go to [IRS.gov](#) to see your options for preparing and filing your return, which include the following.

- **Free File.** Go to [IRS.gov/FreeFile](#) to see if you qualify to use brand-name software to prepare and *e-file* your federal tax return for free.
- **VITA.** Go to [IRS.gov/VITA](#), download the free IRS2Go app, or call 800-906-9887 to find the nearest VITA location for free tax return preparation.
- **TCE.** Go to [IRS.gov/TCE](#), download the free IRS2Go app, or call 888-227-7669 to find the nearest TCE location for free tax return preparation.

Employers can register to use Business Services Online. The SSA offers online service for fast, free, and secure online W-2 filing options to CPAs, accountants, enrolled agents, and individuals who process Forms W-2, Wage and Tax Statement, and Forms W-2c, Corrected Wage and Tax Statement. Employers can go to [SSA.gov/employer](#) for more information.

 **Getting answers to your tax questions.** On [IRS.gov](#), get answers to your tax questions anytime, anywhere.

- Go to [IRS.gov/Help](#) for a variety of tools that will help you get answers to some of the most common tax questions.
- Go to [IRS.gov/ITA](#) for the Interactive Tax Assistant, a tool that will ask you questions on a number of tax law topics and provide answers. You can print the entire interview and the final response for your records.
- Go to [IRS.gov/Forms](#) to search for our forms, instructions, and publications. You will find details on 2019 tax changes and hundreds of interactive links to help you find answers to your questions.
- You may also be able to access tax law information in your electronic filing software.

Tax reform. Tax reform legislation affects individuals, businesses, and tax-exempt and government entities. Go to [IRS.gov/TaxReform](#) for information and updates on how this legislation affects your taxes.

IRS social media. Go to [IRS.gov/SocialMedia](#) to see the various social media tools the IRS uses to share the latest information on tax changes, scam alerts, initiatives, products, and services. At the IRS, privacy and security are paramount. We use these tools to share public information with you. **Don't** post your social security number or other confidential information

on social media sites. Always protect your identity when using any social networking site.

The following IRS YouTube channels provide short, informative videos on various tax-related topics in English, Spanish, and ASL.

- [Youtube.com/irs/videos](https://www.youtube.com/irs/videos).
- [Youtube.com/irs/videos/multilingua](https://www.youtube.com/irs/videos/multilingua).
- [Youtube.com/irs/videosASL](https://www.youtube.com/irs/videos/asl).

Watching IRS videos. The IRS Video portal ([IRSVideos.gov](https://www.irs.gov/irs/videos)) contains video and audio presentations for individuals, small businesses, and tax professionals.

Getting tax information in other languages.

For taxpayers whose native language isn't English, we have the following resources available. Taxpayers can find information on [IRS.gov](https://www.irs.gov) in the following languages.

- [Spanish \(IRS.gov/Spanish\)](https://www.irs.gov/spanish).
- [Chinese \(IRS.gov/Chinese\)](https://www.irs.gov/chinese).
- [Korean \(IRS.gov/Korean\)](https://www.irs.gov/korean).
- [Russian \(IRS.gov/Russian\)](https://www.irs.gov/russian).
- [Vietnamese \(IRS.gov/Vietnamese\)](https://www.irs.gov/vietnamese).

The IRS Taxpayer Assistance Centers (TACs) provide over-the-phone interpreter service in over 170 languages, and the service is available free to taxpayers.

Getting tax forms and publications.

Go to [IRS.gov/Forms](https://www.irs.gov/forms) to view, download, or print all of the forms, instructions, and publications you may need. You can also download and view popular tax publications and instructions (including the 1040 and 1040-SR instructions) on mobile devices as an eBook at no charge at [IRS.gov/eBooks](https://www.irs.gov/ebooks). Or you can go to [IRS.gov/OrderForms](https://www.irs.gov/orderforms) to place an order and have them mailed to you within 10 business days.

Access your online account (individual taxpayers only). Go to [IRS.gov/Account](https://www.irs.gov/account) to securely access information about your federal tax account.

- View the amount you owe, pay online, or set up an online payment agreement.
- Access your tax records online.
- Review the past 24 months of your payment history.
- Go to [IRS.gov/SecureAccess](https://www.irs.gov/secureaccess) to review the required identity authentication process.

Using direct deposit. The fastest way to receive a tax refund is to combine direct deposit and IRS e-file. Direct deposit securely and electronically transfers your refund directly into your financial account. Eight in 10 taxpayers use direct deposit to receive their refund. The IRS issues more than 90% of refunds in less than 21 days.

Getting a transcript or copy of a return. The quickest way to get a copy of your tax transcript is to go to [IRS.gov/Transcripts](https://www.irs.gov/transcripts). Click on either "Get Transcript Online" or "Get Transcript by Mail" to order a copy of your transcript. If you prefer, you can order your transcript by calling 800-908-9946.

Using online tools to help prepare your return. Go to [IRS.gov/Tools](https://www.irs.gov/tools) for the following.

- The [Earned Income Tax Credit Assistant \(IRS.gov/EITCAssistant\)](https://www.irs.gov/itcassistant) determines if you're eligible for the EIC.

- The [Online EIN Application \(IRS.gov/EIN\)](https://www.irs.gov/ein) helps you get an employer identification number.
- The [Tax Withholding Estimator \(IRS.gov/W4app\)](https://www.irs.gov/w4app) makes it easier for everyone to pay the correct amount of tax during the year. The Estimator replaces the Withholding Calculator. The redesigned tool is a convenient, online way to check and tailor your withholding. It's more user-friendly for taxpayers, including retirees and self-employed individuals. The new and improved features include the following.
 - Easy to understand language;
 - The ability to switch between screens, correct previous entries, and skip screens that don't apply;
 - Tips and links to help you determine if you qualify for tax credits and deductions;
 - A progress tracker;
 - A self-employment tax feature; and
 - Automatic calculation of taxable social security benefits.
- The [First Time Homebuyer Credit Account Look-up \(IRS.gov/HomeBuyer\)](https://www.irs.gov/firsttimehomebuyer) tool provides information on your repayments and account balance.
- The [Sales Tax Deduction Calculator \(IRS.gov/SalesTax\)](https://www.irs.gov/salestax) figures the amount you can claim if you itemize deductions on Schedule A (Form 1040 or 1040-SR), choose not to claim state and local income taxes, and you didn't save your receipts showing the sales tax you paid.

Resolving tax-related identity theft issues.

- The IRS doesn't initiate contact with taxpayers by email or telephone to request personal or financial information. This includes any type of electronic communication, such as text messages and social media channels.
- Go to [IRS.gov/IDProtection](https://www.irs.gov/idprotection) for information.
- If your SSN has been lost or stolen or you suspect you're a victim of tax-related identity theft, visit [IRS.gov/IdentityTheft](https://www.irs.gov/identitytheft) to learn what steps you should take.

Checking on the status of your refund.

- Go to [IRS.gov/Refunds](https://www.irs.gov/refunds).
- The IRS can't issue refunds before mid-February 2020 for returns that claimed the EIC or the ACTC. This applies to the entire refund, not just the portion associated with these credits.
- Download the official IRS2Go app to your mobile device to check your refund status.
- Call the automated refund hotline at 800-829-1954.

Making a tax payment. The IRS uses the latest encryption technology to ensure your electronic payments are safe and secure. You can make electronic payments online, by phone, and from a mobile device using the IRS2Go app. Paying electronically is quick, easy, and faster than mailing in a check or money order. Go to [IRS.gov/Payments](https://www.irs.gov/payments) to make a payment using any of the following options.

- [IRS Direct Pay](https://www.irs.gov/directpay): Pay your individual tax bill or estimated tax payment directly from your checking or savings account at no cost to you.

- [Debit or Credit Card](https://www.irs.gov/debitcreditcard): Choose an approved payment processor to pay online, by phone, and by mobile device.
- [Electronic Funds Withdrawal](https://www.irs.gov/electronicfundswithdrawal): Offered only when filing your federal taxes using tax return preparation software or through a tax professional.
- [Electronic Federal Tax Payment System](https://www.irs.gov/electronicfederaltaxpaymentsystem): Best option for businesses. Enrollment is required.
- [Check or Money Order](https://www.irs.gov/checkormoneyorder): Mail your payment to the address listed on the notice or instructions.
- [Cash](https://www.irs.gov/cash): You may be able to pay your taxes with cash at a participating retail store.
- [Same-Day Wire](https://www.irs.gov/samedaywire): You may be able to do same-day wire from your financial institution. Contact your financial institution for availability, cost, and cut-off times.

What if I can't pay now? Go to [IRS.gov/Payments](https://www.irs.gov/payments) for more information about your options.

- Apply for an [online payment agreement \(IRS.gov/OPA\)](https://www.irs.gov/opa) to meet your tax obligation in monthly installments if you can't pay your taxes in full today. Once you complete the online process, you will receive immediate notification of whether your agreement has been approved.
- Use the [Offer in Compromise Pre-Qualifier](https://www.irs.gov/offerincompromiseprequalifier) to see if you can settle your tax debt for less than the full amount you owe. For more information on the Offer in Compromise program, go to [IRS.gov/OIC](https://www.irs.gov/oic).

Checking the status of an amended return.

Go to [IRS.gov/WMAR](https://www.irs.gov/wmar) to track the status of Form 1040-X amended returns. Please note that it can take up to 3 weeks from the date you mailed your amended return for it to show up in our system, and processing it can take up to 16 weeks.

Understanding an IRS notice or letter. Go to [IRS.gov/Notices](https://www.irs.gov/notices) to find additional information about responding to an IRS notice or letter.

Contacting your local IRS office. Keep in mind, many questions can be answered on [IRS.gov](https://www.irs.gov) without visiting an IRS Taxpayer Assistance Center (TAC). Go to [IRS.gov/LetUsHelp](https://www.irs.gov/letushelp) for the topics people ask about most. If you still need help, IRS TACs provide tax help when a tax issue can't be handled online or by phone. All TACs now provide service by appointment so you'll know in advance that you can get the service you need without long wait times. Before you visit, go to [IRS.gov/TACLocator](https://www.irs.gov/taclocator) to find the nearest TAC, check hours, available services, and appointment options. Or, on the IRS2Go app, under the Stay Connected tab, choose the Contact Us option and click on "Local Offices."

The Taxpayer Advocate Service (TAS) Is Here To Help You

What Is TAS?

TAS is an *independent* organization within the IRS that helps taxpayers and protects taxpayer rights. Their job is to ensure that every taxpayer is treated fairly and that you know and understand your rights under the [Taxpayer Bill of Rights](#).

How Can You Learn About Your Taxpayer Rights?

The Taxpayer Bill of Rights describes 10 basic rights that all taxpayers have when dealing with the IRS. Go to [TaxpayerAdvocate.IRS.gov](#) to help you understand [what these rights mean to you](#) and how they apply. These are *your* rights. Know them. Use them.

What Can TAS Do For You?

TAS can help you resolve problems that you can't resolve with the IRS. And their service is

free. If you qualify for their assistance, you will be assigned to one advocate who will work with you throughout the process and will do everything possible to resolve your issue. TAS can help you if:

- Your problem is causing financial difficulty for you, your family, or your business;
- You face (or your business is facing) an immediate threat of adverse action; or
- You've tried repeatedly to contact the IRS but no one has responded, or the IRS hasn't responded by the date promised.

How Can You Reach TAS?

TAS has offices [in every state, the District of Columbia, and Puerto Rico](#). Your local advocate's number is in your local directory and at [TaxpayerAdvocate.IRS.gov/Contact-Us](#). You can also call them at 877-777-4778.

How Else Does TAS Help Taxpayers?

TAS works to resolve large-scale problems that affect many taxpayers. If you know of one of these broad issues, please report it to them at [IRS.gov/SAMS](#).

TAS also has a website, [Tax Reform Changes](#), which shows you how the new tax

law may change your future tax filings and helps you plan for these changes. The information is categorized by tax topic in the order of the IRS Form 1040 or 1040-SR. Go to [TaxChanges.us](#) for more information.

TAS for Tax Professionals

TAS can provide a variety of information for tax professionals, including tax law updates and guidance, TAS programs, and ways to let TAS know about systemic problems you've seen in your practice.

Low Income Taxpayer Clinics (LITCs)

LITCs are independent from the IRS. LITCs represent individuals whose income is below a certain level and need to resolve tax problems with the IRS, such as audits, appeals, and tax collection disputes. In addition, clinics can provide information about taxpayer rights and responsibilities in different languages for individuals who speak English as a second language. Services are offered for free or a small fee. To find a clinic near you, visit [IRS.gov/LITC](#) or see IRS Pub. 4134, [Low Income Taxpayer Clinic List](#).
