The 2017 Partnership Returns Line Item Estimates (Publication 5035) presents estimates of frequencies of taxpayer entries recorded on the applicable lines of the forms and schedules filed with partnership returns. This publication also contains corresponding population estimates of dollar amounts recorded on those lines (as applicable).

The Statistics of Income Division also makes the results of its studies available on the Internet. You can sample our products by visiting our Internet site at <http://www.irs.gov/taxstats>. Most of the tables included in the publication are available on the Internet site in Microsoft Excel format.

The Statistics of Income Division's Statistical Information Services (SIS) staff provides data, statistical analysis, and information in response to requests from customers. In addition, the SIS staff provides data referral services, acts as a liaison between requesters and IRS analysts on technical questions, and answers questions on the availability of SOI data. The SIS staff can be reached by e-mail at sis@irs.gov.

2017 Partnership Returns

Line Item Estimates

Estimates constructed from different samples usually vary. The standard error of an estimate is a measure of its variation among all possible samples. The standard error is used to measure the precision with which an estimate from a particular sample approximates the average result of all the possible samples. The sample estimate and an estimate of its standard error are used to construct an interval estimate with prescribed confidence that the interval includes the actual population value. The coefficients of variations (CV) allow for comparing sampling error across variables. The CV is often presented as a percentage, the ratio of the standard error of the estimate over the estimate itself and multiplied by 100.

The Statistics of Income (SOI) Division used the sample selected for its 2017 Partnership Returns Study to produce the line item estimates presented here. This sample is one of many possible samples that SOI could have randomly selected using the same design. As with any sample, it is subject to the data limitations that occur in statistical sampling. The estimates are not actual line item counts or money amounts. The table below shows the coefficients of variation (CV) and the lower and upper bounds of computed 95-percent confidence intervals for selected variable totals that SOI estimated from the 2017 sample.

SOI rounded all values on the money amount pages to the nearest \$1,000, and rounded amounts of \$500 or more to the next thousand. All money amounts and frequencies were subject to rounding errors.

To avoid disclosing information about specific partnerships, SOI deleted certain estimates and marked them with a [d]. SOI does not force all forms to balance; however, if a disclosed field could be calculated by subtraction from a total, SOI deleted a second value. An estimate based on fewer than 10 returns, and not selected at the 100-percent rate, was indicated by an asterisk (*) and considered statistically unreliable. Researchers should use these values in conjunction with other data sources due to the small sample size.

SOI excluded seven attachments to Form 1065, *U.S. Return of Partnership Income*, that were included in the 2017 Partnership Returns Study because the quantities represented in the sample were insufficient for this publication. These attachments are:

- Form 3468, *Investment Credit*;
- Form 8820, *Orphan Drug Credit*;
- Form 8864, *Biodiesel and Renewable Diesel Fuels Credit*;
- Form 8874, *New Markets Credit*
- Form 8881, *Credit for Small Employer Pension Plan Startup Costs*;
- Form 8896, *Low Sulfur Diesel Fuel Production Credit*;
- Form 8910, *Alternative Motor Vehicle Credit*; and

Data for Form 1065-B, *U.S. Return of Income for Electing Large Partnerships* is included where equivalent fields exist. They are not broken out separately.

General Instructions**Purpose of Form**

Use Form 1125-A to calculate and deduct cost of goods sold for certain entities.

Who Must File

Filers of Form 1120, 1120-C, 1120-F, 1120S, 1065, or 1065-B, must complete and attach Form 1125-A if the applicable entity reports a deduction for cost of goods sold.

Inventories

Generally, inventories are required at the beginning and end of each tax year if the production, purchase, or sale of merchandise is an income-producing factor. See Regulations section 1.471-1. If inventories are required, you generally must use an accrual method of accounting for sales and purchases of inventory items.

Exception for certain taxpayers. If you are a qualifying taxpayer or a qualifying small business taxpayer (defined below), you can adopt or change your accounting method to account for inventoriable items in the same manner as materials and supplies that are not incidental.

Under this accounting method, inventory costs for raw materials purchased for use in producing finished goods and merchandise purchased for resale are deductible in the year the finished goods or merchandise are sold (but not before the year you paid for the raw materials or merchandise, if you are also using the cash method).

If you account for inventoriable items in the same manner as materials and supplies that are not incidental, you can currently deduct expenditures for direct labor and all indirect costs that would otherwise be included in inventory costs. See the instructions for lines 2 and 7.

For additional guidance on this method of accounting, see Pub. 538, Accounting Periods and Methods. For guidance on adopting or changing to this method of accounting, see Form 3115, Application for Change in Accounting Method, and its instructions.

Qualifying taxpayer. A qualifying taxpayer is a taxpayer that, (a) for each prior tax year ending after December 16, 1998, has average annual gross receipts of \$1 million or less for the 3 prior tax years, and (b) its business is not a tax shelter (as defined in section 448(d)(3)). See Rev. Proc. 2001-10, 2001-2 I.R.B. 272.**Qualifying small business taxpayer.** A qualifying small business taxpayer is a taxpayer that, (a) for each prior tax year

ending on or after December 31, 2000, has average annual gross receipts of \$10 million or less for the 3 prior tax years, (b) whose principal business activity is not an ineligible activity, and (c) whose business is not a tax shelter (as defined in section 448(d)(3)). See Rev. Proc. 2002-28, 2002-18 I.R.B. 815.

Uniform capitalization rules. The uniform capitalization rules of section 263A generally require you to capitalize, or include in inventory, certain costs incurred in connection with the following.

- The production of real property and tangible personal property held in inventory or held for sale in the ordinary course of business.
- Real property or personal property (tangible and intangible) acquired for resale.
- The production of real property and tangible personal property by a corporation for use in its trade or business or in an activity engaged in for profit.

See the discussion on section 263A uniform capitalization rules in the instructions for your tax return before completing Form 1125-A. Also see Regulations sections 1.263A-1 through 1.263A-3. See Regulations section 1.263A-4 for rules for property produced in a farming business.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

Employers use Form 8882 to claim the credit for qualified childcare facility and resource and referral expenditures. The credit is part of the general business credit. You may claim the credit any time within 3 years from the due date of your return on either an original or amended return.

Taxpayers, other than partnerships, S corporations, estates, or trusts, whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on Form 3800.

How To Figure the Credit

The credit is 25% of the qualified childcare facility expenditures plus 10% of the qualified childcare resource and referral expenditures paid or incurred during the tax year. The credit is limited to \$150,000 per tax year.

Qualified childcare expenditures are amounts paid or incurred:

- To acquire, construct, rehabilitate, or expand property that:
 1. Is to be used as part of a qualified childcare facility of the taxpayer,
 2. Is depreciable (or amortizable) property, and
 3. Is not part of the principal residence of the taxpayer or any employee of the taxpayer;
- For the operating expenses of a qualified childcare facility of the taxpayer, including expenses for training of employees, scholarship programs, and providing

increased compensation to employees with higher levels of childcare training; or

- Under a contract with a qualified childcare facility to provide childcare services to employees of the taxpayer.

Note. Any expenses for childcare included in qualified childcare facility expenditures may not exceed the fair market value of such care.

A *qualified childcare facility* is a facility that meets the requirements of all applicable laws and regulations of the state or local government in which it is located, including the licensing of the facility as a childcare facility. The following conditions must also be met.

- The principal use of the facility must be to provide childcare (unless the facility is also the personal residence of the person operating the facility).
- Enrollment in the facility must be open to employees of the taxpayer during the tax year.
- If the facility is the principal trade or business of the taxpayer, at least 30% of the enrollees of the facility must be dependents of employees of the taxpayer.
- The use of the facility (or the eligibility to use the facility) must not discriminate in favor of highly compensated employees.

Qualified childcare resource and referral expenditures are amounts paid or incurred under a contract to provide childcare resource and referral services to employees of the taxpayer. The provision of the services (or the eligibility to use the services) must not discriminate in favor of highly compensated employees.

Employer-owned life insurance contract. For purposes of Form 8925, an insurance contract is an employer-owned life insurance contract if it is owned by a policyholder as defined below, and covers the life of the policyholder's employee(s) on the date the life insurance contract is issued. If you have master contracts, see section 101(j)(3) for additional information.

Policyholder. For purposes of Form 8925 and these instructions, a policyholder is an "applicable policyholder" as defined in section 101(j)(3)(B). Generally, a policyholder is the person who owns the employer-owned life insurance contract, and who is (a) engaged in a trade or business that employs the person insured under the employer-owned life insurance contract and (b) the direct or indirect beneficiary of the employer-owned life insurance contract.

Related person. A related person is considered a policyholder if that person is (a) related to the policyholder (defined earlier) under sections 267(b) or 707(b) (1), or (b) engaged in a trade or business under common control with the policyholder. See sections 52(a) and (b).

Employee. Employee includes an officer, director, or highly compensated employee under section 414(q).

Insured. An individual must be a U.S. citizen or resident to be considered insured under an employer-owned life insurance contract. Both individuals covered by a contract covering the joint lives of two individuals are considered insured.

Notice and consent requirements. To qualify as an employer-owned life insurance contract, the policyholder must meet the notice and consent requirements listed below before the issuance of the contract.

1. Provide written notification to the employee stating the policyholder intends to insure the employee's life and the maximum face amount for which the employee could be insured at the time the contract was issued.

The written notification must include a disclosure of the face amount of life insurance, either in dollars or as a multiple of salary, that the policyholder reasonably expects to purchase with regard to the employee during the course of the employee's tenure. Additional notice and consent are required if the aggregate face amount of the employer-owned life insurance contracts with regard to an employee exceeds the amount of which the employee was given notice and to which the employee consented. See Q&A-9 and Q&A-12 in Notice 2009-48.

2. Provide written notification to the employee that the policyholder will be a beneficiary of any proceeds payable upon the death of the employee.

3. Receive written consent from the employee. See *Valid consent* under the instructions for line 4a.

Electronic notification and consent. The written notification and consent requirement can be met electronically only if the system for electronic notification and consent meets requirements 1 through 3, above. See Q&A-11 in Notice 2009-48 for more information.

Issue date of contract. Generally, the issue date of a life insurance contract is the date on the policy assigned by the insurance company on or after the date of application. For purposes of meeting the notice and consent requirements, the issue date of the employer-owned life insurance contract is the later of (1) the date of application of coverage, (2) the effective date of coverage, or (3) the formal issuance of the contract. See Q&A-4 in Notice 2009-48 for more information.
