Corporation Income Tax Returns

This report contains data by industry on assets, liabilities, receipts, deductions, net income, income subject to tax, tax, and credits. Data are also classified by size of total assets, by size of business receipts, and by size of income tax after credits. Other classifications include returns with net income, return types, and other selected subjects. More detailed statistics for the industries shown in Table 1 are available in Publication 1053, *Corporation Source Book—2013*. The information in this publication and other products are available at <http://www.irs.gov/taxstats>.

For further information on products and services or for answers to questions on the availability of SOI data, other statistical services, or release dates for data, contact the Statistics of Income Division's Statistical Information Services (SIS) staff. SIS staff also act as a liaison between requesters and IRS analysts on technical questions relating to corporation and other data SOI produces. Additional unpublished information from corporate income tax returns may be available on a reimbursable basis. The SIS staff can be reached by email at sis@irs.gov.

Introduction

This report presents statistical estimates based on a stratified sample of more than 111,348 unaudited returns selected from the nearly 5.9 million active corporate returns filed for Tax Year 2013. This tax year includes accounting periods ending July 2013 through June 2014.

Six sections make up this report. Section 1 provides statistics summarizing overall corporate activity for Tax Year 2013. Section 2 discusses changes in laws and regulations between this report and that for Tax Year 2012. Section 3 describes, in detail, the sample of income tax returns, method of estimation used, sampling variability of the data, and other limitations. Section 4 presents tables containing detailed statistics on assets, liabilities, receipts, deductions, net income, income tax liability, tax credits, and other financial data for 2013. It also includes data submitted on Form 1120S, *U.S. Income Tax Return for an S Corporation*, unless specifically excluded by the table. Form 1120S data are also shown separately toward the end of the section. Statistics are presented by industry, asset size, business receipts size, tax form type, accounting period ended, and other selected classifiers. Section 5 explains the terms used throughout this report and includes the adjustments made in preparing the statistics and any limitations inherent in the data. Section 6 consists of the key corporation tax return forms.

The IRS Statistics of Income (SOI) Division classified the industries in this report according to the North American Industry Classification System (NAICS). This system replaced the Standard Industrial Classification (SIC) system used prior to 1998. Data are listed under 22 industrial sectors, 81 major industries, and 196 minor industries. Table 1 presents selected financial data for all minor industries.

William Rush was responsible for the overall production of this report and Sandy Jaipaul for this introduction, prepared under the direction of Marty Harris, Chief, Corporation Returns Analysis Section. Kim Doan and Maxine Li produced the table data under the direction of Kelly Luttrell, Chief, Corporation Operations Section.

The statistics are classified primarily by major industries, sectors, return types, and specific categories. The statistics in the *2013 Corporation Source Book* of Statistics of Income differ from this report by providing data by minor industry and size of total assets for balance sheet, income statement, tax, and selected other items.

Overall Corporate Summary

Figure A presents corporation summary statistics for Tax Years 2012 and 2013. These data includes the number of returns, total assets, total receipts, and net income (less deficit), income subject to tax, total income tax before credits, and total income tax after credits for active corporations.

The number of active corporate tax returns filed increased approximately 0.8 percent between 2012 and 2013. Approximately 4,080,293 corporations filed tax returns electronically in 2012. This number rose 8 percent in 2013, reaching an all-time high of 4,404,316 returns filed electronically.

Total assets reported for active corporations increased approximately 4 percent, from \$85 trillion in 2012 to \$88 trillion in 2013. By sector, Management of Holding Companies experienced the largest net decrease, down 4.8 percent from \$15.2 trillion in 2012 to \$14.5 trillion in 2013. In contrast, the Wholesale Trade sector shows the largest percentage increase of 12.76 percent from \$2.5 trillion in 2012 to \$2.9 trillion in 2013.

Total receipts from operations and investments increased 2.7 percent, from \$29.4 trillion in 2012 to \$30.2 trillion the following year. This was driven by a 3.1-percent increase in business receipts, from \$26 trillion in 2012 to \$27 trillion in 2013. Interest received also declined 8.3 percent, from \$1.2 trillion to \$1.1 trillion. In comparison, net capital gains rose 21 percent, from \$183.2 billion in 2012 to \$222.1 billion in 2013. By sector, Real Estate experienced the largest increase in total receipts up 14.9 percent from \$372.9 billion in 2012 to \$428.3 billion in 2013. In contrast, Education recorded a decrease of 3.1 percent from \$68.2 billion in 2012 to \$66.1 billion in 2013.

Total deductions increased 2.3 percent, from \$27.7 trillion in 2012 to \$28.4 trillion in 2013. The cost of goods sold, a component of total deductions, also rose 3.4 percent during the year, from \$16.6 trillion to \$17.1 trillion.

Corporate **pretax profits**, also known as, net income (less deficit), increased 8.7 percent, from \$1.8 trillion to \$1.9 trillion (Figure B). When excluding passthrough entities from the total, pretax profits increased from \$1.1 trillion in 2012 to \$1.2 trillion in 2013. In 2013, S corporations passthrough entities reported \$381 billion in pretax profits, regulated investment companies (RICs) reported \$322 billion and REITs reported \$65 billion (Figure C).

Income subject to tax (the tax base) increased 9.5 percent, from \$1.1 trillion in 2012 to \$1.3 trillion in 2013. Total income tax before credits rose 9.7 percent, from \$403 billion to \$442 billion. Income tax also increased (up 9.6 percent) during the year, from \$399.1 billion to \$437.4 billion. Total income tax after credits, the amount paid to the U.S. Government, rose

9.5 percent (or \$25 billion), from \$268 billion in 2012 to \$293 billion in 2013.

Of the 5.9 million active corporations for Tax Year 2013, approximately 4.3 million were passthrough entities. These entities include RICs, REITs and S corporations [1]. Passthrough entities pay little or no Federal income tax at the corporate level. By law, they are required to pass any profits or losses to their shareholders, where they are taxed at the individual rate. Pretax profits for passthrough entities increased 6.3 percent (or \$46 billion) during 2013.

The remaining 1.6 million non-passthrough corporate returns reported total receipts of \$23 trillion, an increase of 1.8 percent from 2012 to 2013. Approximately 819,000 reported

Figure A. Returns of Active Corporations: Number of Returns, Total Assets, Total Receipts, Net Income (Less Deficit), Income Subject to Tax, Total Income Tax Before Credits, Total Income Tax After Credits, by Size of Total Assets, Tax Years 2012 and 2013

[All figures are estimates based on samples—money amounts are in thousands of dollars and size of total assets is in whole dollars]

[1] Includes taxable income before net operating loss deduction and special deductions.

[2] Includes taxable income less net operating loss deduction and special deductions.

[3] Includes income tax, personal holding company tax, all recapture and other taxes, alternative minimum tax; excess net passive income tax (Form 1120S); branch tax (Form 1120-F); taxes from Parts II, III, and IV, and sections 856 & 857 (Form 1120-REIT); tax from Schedule J, line 3b (Form 1120-RIC); tax from page 1, line 5 (Form 1120-PC); and adjustments to income tax and total tax.

[4] Credits include foreign tax, U.S. possessions tax, nonconventional source fuel, qualified electric vehicle, general business, prior-year minimum tax, qualified zone academy bond, clean renewable energy bond, and gulf bond credit.

Notes: Detail may not add to total because of rounding. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

Figure B. Corporate Pretax Profits by North American Industry Classification System (NAICS) Sector, Tax Years 2012 and 2013

Not allocable.....	*-3,356	0	3,356	100

* Estimate should be used with caution because of the small number of sample returns on which it is based.

[1] Pretax profits are net income (less deficit) in the statistics. No returns were classified as Wholesale and Retail Trade Not Allocable.

[2] Excludes net long-term capital gain reduced by net short-term capital loss of regulated investment companies and portfolio income (including capital gains) for S corporations (qualifying corporations electing to be taxed through their shareholders).

NOTE: Detail may not add to totals because of rounding.

net income for 2013 [2]. Of these, 61 percent had a tax liability compared to 14.0 percent of all corporations with net income.

The number of returns with total assets of \$2.5 billion or more represented only 0.06 percent of total returns, but 81.3 percent of total assets (Figure A). These 3,266 returns for 2013 accounted for 51 percent of the total receipts; 67 percent of net income (less deficit); 76 percent of income subject to tax; 77 percent of total income tax before credits; and 70 percent of total income tax after credits. Approximately 44.4 percent of all returns with net income and total assets greater than \$2.5 billion had a tax liability for 2013. Excluding passthrough entities, this percentage increased to 89.0 percent for the year.

Activities Covered

The estimates include corporate business activities in the United States, certain foreign activities as reported on returns of domestic corporations, and foreign corporations with U.S. business activities. “Domestic corporations” refer to companies incorporated in the U.S., but this does not mean that all their activities are domestic. For instance, data for a U.S.

corporation conducting business abroad through foreign subsidiaries may include dividends remitted from those subsidiaries and, to a certain extent, their undistributed earnings. The effect of foreign activity on the statistics varies by industry type and asset size [3]. For foreign corporations (defined as those incorporated abroad) engaged in trade or business in the U.S., only the income considered effectively connected with conducting a trade or business in the U.S. was included in the statistics. Any investment income from U.S. sources was excluded. Most foreign corporations are concentrated in the “Finance and Insurance” and “Real Estate and Rental and Leasing” sectors. The estimates exclude other foreign corporations, incorporated abroad and not engaged in trade or business in the U.S., that were liable for tax only on investment income from U.S. sources.

IRC section 6012 requires all corporations in existence at any time during the tax year to file a tax return, regardless of whether they had income. This applies to active and inactive domestic corporations, unless expressly exempt from filing, and active foreign corporations with insufficient taxes withheld

at the source to satisfy their U.S. tax liability on income earned in the U.S. The statistics presented here include active domestic and foreign corporations and exclude inactive corporations. See Section 3 for more information on the sample.

In addition to those legally defined as corporations, the IRC recognizes businesses with characteristics typical of the corporate form as corporations. These include continuity of life, centralization of management apart from ownership, limited liability of owners, and transferability of shares of capital ownership. Some organizations recognized as corporations include joint stock companies and unincorporated associations, such as business trusts, savings and loan associations, certain partnerships, mutual savings banks, and cooperative banks.

Time Period Employed

SOI based the estimates on data from returns with accounting periods for: 1) the calendar year ending December 2013, and 2) noncalendar years ending July 2013 through June 2014. This span, in effect, defines the tax year so the accounting periods for noncalendar years are centered at the calendar year ending in December.

There are 12 accounting periods covered in this report. In general, IRC section 441 specifies that a taxpayer’s accounting period ends on the last day of the month. There is a span of 23

months between the first-included accounting period, which began on August 1, 2012, and closed on July 31, 2013, and the end of the last-included accounting period, which began on July 1, 2013, and closed on June 30, 2014. This report shows income received or expenses incurred during any or all of the months in this 23-month span. For balance sheet items, the report shows a corporation’s position only at the end of its accounting period. IRC section 441 requires corporations to file returns for the accounting period customarily used in keeping their books.

Calendar year returns made up 90.8 percent of all active corporate returns and 71.5 percent of net income (less deficit) for 2013 (Figure D). These returns accounted for 77 percent of total assets, 77.1 percent of total receipts, 74.1 percent of income subject to tax, 74.4 percent of total income tax before credits, and 69.4 percent of total income tax after credits. Corporations were usually required to file within two-and-one-half months after the corporate accounting period closed. However, most corporations could receive 6-month filing extensions in accordance with IRC section 6081. In addition to returns with 12-month accounting periods, the total number of active corporations includes “part-year returns,” or those with accounting periods of a shorter duration. Mainly corporations that changed their accounting periods, existed for less than 12 months, merged, or liquidated filed part-year returns.

Figure C. Pretax Profits and Pretax Profits with Certain Inclusions for All Corporations, Regulated Investment Companies, and S Corporations, Tax Years 2012 and 2013

[Money amounts are in thousands of dollars]

Item	Tax year	All corporations	Regulated investment companies	S corporations
	(1)	(2)	(3)	(4)
Pretax profits [1]	2013	1,928,855,261	321,926,393	380,943,324
	2012	1,774,273,534	299,026,074	378,357,265
Pretax profits with certain inclusions [2]	2013	2,291,445,036	619,273,918	446,185,574
	2012	1,983,194,402	410,306,157	475,998,050

[1] Pretax profits are net income (less deficit) in the statistics.

[2] The inclusions to pretax profits are: net long-term capital gain reduced by net short-term capital loss for regulated investment companies and investment, rental, and portfolio income (including capital gains) for S corporations. The amounts listed under “All corporations” include both aforementioned items.

Figure D. Returns of Active Corporations: Number of Returns, Total Assets, Total Receipts, Net Income (Less Deficit), Income Subject to Tax, Total Income Tax Before Credits, and Total Income Tax After Credits, by Ending Accounting Period for Tax Year 2013

[All figures are estimates based on samples—money amounts are in thousands of dollars]

[1] Includes full and part-year returns.

[2] Includes taxable income before net operating loss deduction and special deductions.

[3] Includes taxable income less net operating loss deduction and special deductions.

[4] Total income tax before credits includes: income tax, personal holding company tax, recapture and other taxes, alternative minimum tax, excess net passive income tax (Form 1120S), branch tax (Form 1120-F), tax from Internal Revenue Code Parts II, III, IV, and sections 856 and 857 (Form 1120-REIT), tax from Schedule J, line 2b (Form 1120-RIC), tax from page 1, line 5 (Form 1120-PC), and adjustments to income tax, and total tax, which may or may not be shown separately.

[5] Credits include foreign tax, credit to holders of tax credit bonds, qualified electric vehicle, general business, and prior year minimum tax. Credit may or may not be shown separately.

Notes: Detail may not add to total because of rounding. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

Section 2

Changes in Law and Regulations

The statistics in this report reflect, in general, changes in law and regulations that became effective during the 2013 accounting periods covered. Depending on the accounting period used and effective date of the change in law, the changes may have been fully applicable for some corporations, only partially applicable for others, and not applicable at all for still others

The following change affected the comparability of the relevant statistics in this report with those of prior years.

Biofuel Producer Credit

The cellulosic biofuel producer credit expired for fuel sold or used after January 2, 2013.

See Form 6478, *Biofuel Producer Credit*. The form was previously titled *Alcohol and Cellulosic Biofuels Credit*.

Section 3

Description of the Sample and Limitations of the Data

This section describes the sample design, sample selection, data capture, data cleaning, and data completion processes for the Statistics of Income (SOI) 2013 Corporation Statistics Program. It also presents the techniques used to produce estimates of the total number of corporations and associated variables as well as an assessment of the data limitations, including sampling and nonsampling errors.

Background

From Tax Years (TY) 1916 through 1950, SOI extracted data from each corporate return filed. Beginning with TY 1951, however, SOI introduced stratified probability sampling. Since that time, the sample size has generally decreased while the corporate tax return population has increased. For example, for 1951, the sample accounted for 41.5 percent of the entire population, or 285,000 of the 687,000 total returns filed. For 2013, the sample accounted for about 1.86 percent of the total population of just over 6.3 million returns. This population count differs from the estimated population count cited elsewhere in this publication because the sampling frame includes out-of-scope and duplicate returns.

For 1951, SOI stratified the sample by size of total assets and industry. However, from 1952 through 1967, SOI stratified the sample by a measure of size only. The size was measured by either business volume (1953–1958) or total assets (1952 and 1959–1967). Since 1968, SOI has stratified returns by both total assets and, for Forms 1120 and 1120S, a measure of income [1].

Target Population

The target population consists of all returns of active corporations organized for profit that are required to file one of the 1120 forms included in this study.

Bertrand Überall, Richard Collins, and Elliot Mountjoy were responsible for the sample design and estimation of the SOI 2013 Corporation Program under the direction of Tamara Rib, Chief, Mathematical Statistics Section, Corporation Statistics Branch.

Survey Population

The survey population includes corporate tax returns filed with one of the 1120 forms selected for the study and posted to the IRS Business Master File (BMF). Excluded are amended returns and returns for which the tax liabilities changed because of a tax audit. Figure E gives the number of corporate returns by form type that were subject to sampling during Tax Years 2010 through 2013.

Figure E. Population Counts by Corporate Form Type, Tax Years 2010–2013

Form type	Tax year			
	2010	2011	2012	2013
1120	1,867,941	1,835,482	1,800,426	1,785,481
1120S	4,336,365	4,367,077	4,409,276	4,484,612
1120-L	748	700	657	600
1120-PC	8,572	9,237	10,218	11,721
1120-RIC	13,385	14,193	15,612	16,379
1120-REIT	1,798	1,928	2,168	2,502
1120-F	32,414	35,149	38,065	40,923
Total	6,261,223	6,263,766	6,276,422	6,342,218

Sample Design

The current design is a probability sample stratified by form type and either by 1) size of total assets alone or 2) size of total assets and a measure of income. Form 1120 returns are stratified by size of total assets and size of “proceeds,” which is the measure of income for this form. Size of proceeds is defined as the larger of the absolute value of net income (or deficit) or the absolute value of “cash flow,” which is the sum of net income, several depreciation amounts, and depletion. Form 1120S is stratified by size of total assets and size of ordinary income. SOI stratified all other 1120 forms (1120-F, 1120-L, 1120-PC, 1120-RIC, and 1120-REIT) by size of total assets only.

SOI began the design process with projected population totals derived from IRS administrative workload estimates, adjusted according to the distribution by population strata from several previous survey years. Using projected population totals by sample strata, SOI carried out an optimal allocation based on stratum standard errors to assign sample sizes to each stratum such that the overall targeted sample size

was approximately 118,000 returns for 2013, an increase over the 2012 target because of overall population size increases. Mathematical statisticians selected a Bernoulli sample independently from each stratum, with sampling rates ranging from 0.25 percent to 100 percent. Figure F shows the stratum boundaries, sampling rates, frame population, and sample counts from the BMF for each type of 1120. This table also shows the population and sample counts after adjustments for missing returns, outliers, and weight trimming. The total realized sample for 2013, including inactive and noneligible corporations, is 118,105 returns.

Sample Selection

The IRS Cincinnati and Ogden Submission Processing Centers initially process all corporate returns to determine tax liability before transmitting the data daily to the IRS Business Master File (BMF). After error correction, these returns are said to “post” to the BMF, which serves as the SOI sampling frame. SOI selects the sample on a weekly basis.

Sample selection for TY 2013 occurred over the 24-month period, July 2013 through June 2015. SOI requires a 24-month sampling period for two reasons. First, just over 9 percent of all corporations use noncalendar-year accounting periods. To capture these returns, the 2013 statistics include all corporations filing returns with accounting periods ending between July 2013 and June 2014. Second, many corporations, including some of the largest corporations, request 6-month filing extensions. This combination of noncalendar-year accounting periods and filing extensions means that the last TY 2013 returns the IRS received had accounting periods ending in June 2014, and therefore, had to be filed by October 2014. However, taking into account the 6-month extension, these returns could have been filed as late as March 2015 and still be considered timely. To account for the normal processing time, the sample selection process remained open for the 2013 study until the end of June 2015. However, SOI added a few very large returns for TY 2013 to the sample as late as August 2015.

Each tax return in the survey population is assigned to a stratum and subject to sampling. Each filing corporation has a unique Employer Identification Number (EIN). An integer function of the EIN, called the Transformed Taxpayer Identification Number (TTIN), is computed. The number formed by the last four digits of the TTIN is a pseudo-random number. A return for which this pseudo-random number is less than the sampling rate multiplied by 10,000 is selected for the sample.

The algorithm for generating the TTIN does not change from year to year. Therefore, corporations selected for the sample in any given year may be selected the following year, providing the corporation files a return using the same EIN and it falls into a stratum with the same or higher sampling rate. If the corporation falls into a stratum with a lower rate, the probability of selection will be the ratio of the second year

sampling rate to the first year sampling rate. If the corporation files with a new EIN, the probability of selection will be independent from the prior-year selection [2].

Data Capture

Data processing for SOI begins with information already extracted for IRS administrative purposes; over 100 items available from the BMF system are checked and corrected as necessary. SOI extracts some 1,630 additional data items from the corporate tax returns during processing. This data-capture process can take as little as 15 minutes for a small, single-entity corporation filing Form 1120, or up to several weeks for a large, consolidated corporation filing several hundred attachments and schedules with the return. The process is further complicated by several factors:

- Over 1,630 separate data items may be extracted from any given tax return. This often requires constructing totals from various other items elsewhere on the return.
- Each 1120 form type has a different layout with different types of schedules and attachments, making data extraction less than uniform for the various forms.
- There is no legal requirement for a corporation to meet its tax return filing requirements by filling in, line by line, the entire U.S. tax return form. Therefore, many corporate taxpayers report financial details using schedules of their own design or using commercial tax-preparation software packages.
- There is no single accepted method of corporate tax accounting in the United States, but rather, several accepted “guidelines,” which can vary by geographic location. SOI staff attempt to standardize these differences during data abstraction and editing.
- Different companies may report the same data item, such as other current liabilities, on different lines of the tax form. SOI staff also attempt to standardize these differences.

To help staff overcome these complexities and differences in taxpayer reporting, for each tax year, SOI prepares detailed instructions for the editing units at the IRS Submission Processing Centers. For TY 2013, these instructions consisted of almost 1,000 pages, covering standard and straightforward procedures and instructions for addressing data exceptions.

Data Cleaning

SOI staff enter data directly into the database from the corporate tax returns selected for the sample. In this context, the term “editing” refers to the combined interactive processes of data extraction, consistency testing, and error resolution. SOI runs over 860 tests to check for inconsistencies, such as:

- Impossible conditions, such as incorrect tax data for a particular form type;

50	\$500,000,000 or more.....		100.00	4,365	4,365	4,373	4,373
51	Special Studies (All Form Types)		100.00	4,851	4,851	4,851	4,844†

* Proceeds is defined as the larger of absolute value of net income (deficit) or absolute value of cash flow (net income + depreciation + depletion).

** Includes adjustments for missing returns, undercoverage, outliers, and weight trimming.

*** Returns were classified according to either size of total assets or size of proceeds, whichever corresponded to the higher sample class.

Example: A Form 1120 return with total assets of \$750,000 and proceeds of \$75,000 is in sample class 5 (based on total assets), rather than in sample class 3 (based on proceeds).

† The adjusted sample count is lower than the adjusted population count due to returns unavailable for processing.

- Internal inconsistencies, such as items not adding to totals;
- Questionable values, such as a bank with an unusually large amount reported for cost of goods sold and/or operations; and
- Improper sample class codes, such as when a return has \$100 million in total assets, but was selected as though it had \$1 million because the last two digits of the total assets were keyed in as cents.

Data Completion

In addition to the tests mentioned above, SOI addresses missing data items and identifies returns to be excluded from the tabulations. The data completion process focuses on these issues.

Beginning with the TY 2012 sample, the criteria for imputing balance sheets for returns with incomplete balance sheets changed significantly. Now, only the largest returns with incomplete balance sheets are subject to SOI’s balance sheet imputation procedure. As a result, the number of returns with imputed balance sheets will be negligible, and SOI will perform imputation on an ad hoc basis only.

SOI uses various methods to impute data for some certainty returns unavailable for editing, depending on the information available at the time the return needs to be completed for the sample. These corporations are identified from the previous year’s sample using a combination of assets and receipts. Additional corporations may be identified to ensure industry coverage. SOI uses data filed electronically for those corporate returns selected for the sample, but unavailable for statistical processing. For TY 2013, there were 45 returns that met these criteria. For some returns not selected for the sample, if the current tax return was not located and no other current tax data were available, then SOI used data from the previous year’s return, with adjustments for tax law changes, if needed.

The data completion process also includes identifying returns not eligible for the sample as the BMF may have duplicate and other out-of-scope returns. These returns include those filed by nonprofit corporations, returns having neither current income nor deductions, and prior-year tax returns. Additionally, amended or tentative returns, nonresident foreign corporations having no effectively connected income with a trade or business located in the United States, fraudulent returns, and returns filed by tax-exempt corporations are not eligible for the sample. Figure G displays the number of inactive sampled returns excluded from the tabulations, as well as the percentages of the total sample size they represent for 2010 through 2013.

Figure G. Number of Inactive Sampled Returns for Tax Years 2010–2013

Type of inactive return	Tax year			
	2010	2011	2012	2013
No income or deductions	1,608	1,959	1,986	2,058
Other*	4,686	4,236	4,447	4,436
Total	6,294	6,195	6,433	6,494
Percent of sample	5.80	5.60	5.52	5.51

*Includes duplicate returns (returns that appear more than once in the sample) and prior-year returns.

Figure H provides estimates of the number of active corporations by form type for 2010 through 2013. For Forms 1120-L and 1120-PC, these estimates may differ from the population counts in Figure E due to changes made during the data capture and data cleaning processes.

Figure H. Estimated Number of Active Returns for Tax Years 2010–2013

Form type	Tax year			
	2010	2011	2012	2013
1120	1,649,285	1,624,888	1,591,973	1,582,809
1120S	4,127,554	4,158,572	4,205,452	4,257,909
1120-L	796	752	713	647
1120-PC	8,244	8,822	9,461	10,720
1120-RIC	13,256	14,120	15,484	16,297
1120-REIT	1,766	1,894	2,146	2,472
1120-F*	12,824	14,077	15,592	16,949
Total	5,813,725	5,823,126	5,840,821	5,887,804

*Foreign Insurance Companies file on Forms 1120-L and 1120-PC, but are counted in Form 1120-F Tables 10 and 11.
NOTE: Detail may not add to total due to rounding.

Estimation

SOI bases the estimates of the total number of corporations and associated variables produced in this report on weighted sample data using either a one-step or two-step process, depending on the form type filed. Under the one-step process, SOI assigns a weight for the return, which is the reciprocal of the realized sampling rate, adjusted for unavailable returns, outliers, weight trimming, and any other necessary adjustments. SOI used these weights, referred to as the “national weights,” to produce the estimates published in this report for Forms 1120-F, 1120-L, 1120-PC, 1120-RIC, and 1120-REIT, as well as Form 1120 and 1120S returns that were sampled with certainty.

The two-step process is used to improve the estimates by industry for returns filed on either Form 1120 or 1120S that are not selected in self-representing strata. The first stage of the two-step process is to assign an initial weight for the

return as described above. The second stage involves post-stratification by industry and sample selection class. SOI uses a bounded raking ratio estimation approach to determine the final weights because certain post-stratification cells may have small sample sizes [3]. SOI used these final weights to produce the aggregated frequency and money amount estimates that are published in this report for these forms.

Data Limitations and Measures of Variability

SOI uses several extensive quality review processes to improve data quality. This starts at the sample selection stage with weekly monitoring to ensure the proper number of returns is selected, especially in the certainty strata. These processes continue through the data collection, data cleaning, and data completion procedures with consistency testing. Part of the review process includes extensive comparisons between the sample year (2013) and prior-year (2012) data. SOI designed each processing stage to ensure data integrity.

Sampling Error

Since the TY 2013 estimates are based on a sample, they may differ from population aggregates resulting from a complete census of all corporate income tax returns. The TY 2013 sample is one of many possible samples that could have been selected under the same sample design. Estimates derived from one possible sample could differ from those derived from another and also from the population aggregates. The deviation of a sample estimate from the average of all possible similarly selected samples is called the sampling error.

The standard error (SE), a measure of the average magnitude of the sampling errors over all possible samples, can be estimated from the realized sample. The estimated standard error is usually expressed as a percentage of the value being estimated. This is called the estimated coefficient of variation (CV) of the estimate, and it can be used to assess the reliability of an estimate. The smaller the CV, the more reliable the estimate is deemed to be.

SOI calculates the estimated coefficient of variation of an estimate by dividing the estimated standard error by the estimate itself and taking the absolute value of this ratio. Table 1 (see Section 4) shows the estimated coefficients of variation by industrial groupings for the estimated number of returns, as well as selected money amounts. Figure I shows estimated coefficients of variation for the number of returns, by asset size and sector. Table 4 (see Section 4) provides the corresponding estimates.

The estimated coefficient of variation, $CV(X)$, can be used to construct confidence intervals for the estimate X . The estimated standard error, which is required for the confidence

interval, must first be calculated. For example, the estimated number of companies in the manufacturing sector with net income and the corresponding estimated coefficient of variation can be found in Table 1 and used to calculate the estimated standard error:

$$\begin{aligned} SE(X) &= X \cdot CV(X) \\ &= 155,960 \times 3.47/100 \\ &= 5,412 \end{aligned}$$

A 95-percent confidence interval for the estimated number of returns in manufacturing is constructed as follows:

$$\begin{aligned} X \pm 2 \cdot SE(X) &= 155,960 \pm (2 \times 5,412) \\ &= 155,960 \pm 10,824 \end{aligned}$$

The interval estimate is 145,136 returns to 166,784 returns. This means that if all possible samples were selected under the same general conditions and sample design, and if an estimate and its estimated standard error were calculated from each sample, then approximately 95 percent of the intervals from two standard errors below the estimate to two standard errors above the estimate would include the average estimate derived from all possible samples. Thus, for a particular sample, it can be said with 95-percent confidence that the average of all possible samples is included in the constructed interval. This average of the estimates derived from all possible samples would be equal to or near the value obtained from a census.

Nonsampling Error

In addition to sampling error, nonsampling error can also affect the estimates. Nonsampling errors can be classified into two groups: random errors, whose effects may cancel out, and systematic errors, whose effects tend to remain somewhat fixed and result in bias.

Nonsampling errors include coverage errors, nonresponse errors, processing errors, or response errors. The inability to obtain information for all sampled returns, differing interpretations of tax concepts or taxpayer instructions, inability to provide accurate information at the time of filing (data are collected before auditing), and inability to obtain all tax schedules and attachments may cause these errors. These errors may also be caused by data recording or coding errors, data collecting or cleaning errors, estimation errors, and failure to represent all population units.

Coverage Errors: Coverage errors in the SOI corporation data can result from the difference between the time frame for sampling and the actual time needed for filing and processing the returns. Since many of the largest corporations receive

Figure I. Coefficients of Variation (CVs) for Number of Returns, by Asset Size and Sector, for Tax Year 2013

[Coefficients of variation are in percentages]

Sector	All asset sizes	Size of total assets			
		Zero assets	\$1 under \$500,000	\$500,000 under \$1,000,000	\$1,000,000 under \$5,000,000

[1] Includes returns not allocable by sector.

NOTE: Returns with assets of \$250,000,000 or more are self-representing and thus are not subject to sampling error.

extensions to their filing periods, they may file their returns after sample selection has ended for that tax year. However, any of the largest returns found are added into the file until the final file is produced.

Coverage problems within industrial groupings in the SOI Corporation study result from the way consolidated returns may be filed. The Internal Revenue Code permits a parent corporation to file a single return, which includes the combined financial data of the parent and all its subsidiaries. These data are not separated into the different industries but are entered into the industry with the largest receipts. Thus, there is undercoverage of financial data within certain industries and overcoverage in others. Coverage problems within industries present a limitation on any analysis of the sample results.

Nonresponse Errors: There are two types of nonresponse errors: unit and item. Unit nonresponse occurs when a sampled return is unavailable for SOI processing. For example, other areas of the IRS may have the return at the time it is needed for statistical processing. These returns are termed “unavailable returns.”

Item nonresponse occurs when certain items are unavailable for a return selected for SOI processing, even if the return itself is available. An example of item nonresponse would be items missing from the balance sheet, even though other items have been reported.

Processing Errors: Errors in recording, coding, or processing the data can cause a return to be sampled in the wrong sampling class. This type of error is called a misstratification error. One example of how a return might be misstratified is

the following: a corporation files a return with total assets of \$100,000,023 and net income of \$5,000. A processing error causes the last two digits of the total assets to be keyed in as cents, so that the return is classified according to total assets of \$1,000,000.23 and net income of \$5,000.00. The return would be misstratified according to the incorrect value of the total assets stratifier. To adjust for misstratification errors, only returns selected in a noncertainty stratum, that really belonged in a certainty stratum were moved to this certainty stratum.

Response errors: Response errors are due to data being captured before audit. Some purely arithmetical errors made by the taxpayer are corrected during the data capture and cleaning processes. Because of time constraints, SOI does not incorporate adjustments to a return during audit into the file.

Notes

All money amounts and frequencies in the tables in the following sections are subject to rounding errors. As a result, a row or column of frequencies or amounts may fail to add exactly to the corresponding total amount. Money amounts are rounded to the nearest \$1,000 at the table level. Amounts of \$500 or more were rounded up to the next thousand. Total amounts under \$500 were entered as zero and noted to indicate that an amount was present and greater than zero, but less than \$500.

Whenever a cell frequency was less than 3, the estimate was combined or deleted in order to avoid disclosure of information about specific corporations. A double asterisk (**) or a (d) indicates combinations or deletions respectively. In other cases, an estimate based on fewer than ten returns, not selected at the 100 percent rate, is indicated by an asterisk (*) and should be considered statistically unreliable. These estimates should typically be used in combination with other tabulated values due to the small sample size.

The statistical reliability of each cell in the tables was determined separately from all other cells. Thus, it is possible for a total figure to be marked with an asterisk (*), indicating statistical unreliability, while a subset of the total is not so marked. For example, a sector amount could be based on seven returns, three not sampled at the 100 percent rate. The amount would receive an asterisk. However, a major group within the sector may include all of the four returns sampled at the 100 percent rate and not receive an asterisk.

A dash (-) in place of a frequency or an amount can indicate one of two things. If the returns were sampled at the 100 percent rate, then no returns had that particular characteristic. If returns were sampled at less than the 100 percent rate, then either no return in the population had that characteristic, or the characteristic was so rare that it did not appear in any of the sampled returns.

RETURNS OF ACTIVE CORPORATIONS

Table 1. Number of Returns, Selected Receipts, Cost of Goods Sold, Net Income, Deficit, Income Subject to Tax, Total Income Tax Before Credits, Selected Credits, Total Income Tax After Credits, Total Assets, Net Worth, Depreciable Assets, Depreciation Deduction, and Coefficients of Variation, by Minor Industry [3]

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Minor industry	Number of returns		Total receipts		Business receipts	Cost of goods sold	Net income	Deficit	Income subject to tax
	Total	With net income	All returns	Returns with net income					
	(1)	(2)	(3)	(4)

RETURNS OF ACTIVE CORPORATIONS

Table 5. Selected Balance Sheet, Income Statement, and Tax Items, by Sector, by Size of Business Receipts [6]

[All figures are estimates based on samples—money amounts are in thousands of dollars and size of business receipts is in whole dollars]

Sector and item	Size of business receipts												
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
Total returns of active corporations	Under \$25,000	\$25,000 under \$100,000	\$100,000 under \$250,000	\$250,000 under \$500,000	\$500,000 under \$1,000,000	\$1,000,000 under \$2,500,000	\$2,500,000 under \$5,000,000	\$5,000,000 under \$10,000,000	\$10,000,000 under \$50,000,000	\$50,000,000 under \$100,000,000	\$100,000,000 under \$250,000,000	\$250,000,000 or more

Section 4

1120S Corporation Basic Tables

Income and Financial Data by Industry and Selected Tables by Size Category

Table 1 — Returns of Active Corporations, Form 1120S: Total receipts and deductions, portfolio income, rental income, and total net income, by major industry, **page 198**

Table 2 — Returns with Net Income, Form 1120S: Total receipts and deductions, portfolio income, rental income, and total net income, by major industry, **page 206**

Table 3 — Reserved

Table 4 — Returns of Active Corporations, Form 1120S: Total receipts and deductions, portfolio income, rental income, and total net income, by size of business receipts and sector, **page 214**

Table 5 — Returns of Active Corporations, Form 1120S: Rental real estate income, by sector and selected major industry, **page 233**

Table 6 — Returns of Active Corporations, Form 1120S: Total receipts and deductions, portfolio income, rental income, and total net income, by number of shareholders, **page 235**

Table 7 — Returns of Active Corporations, Form 1120S: Balance sheet and income statement items, by major industry, **page 236**

Table 8 — Returns with Net Income from a Trade or Business, Form 1120S: Balance sheet and income statement items, by major industry, **page 248**

Notes

All money amounts and frequencies in the tables in the following sections are subject to rounding errors. As a result, a row or column of frequencies or amounts may fail to add exactly to the corresponding total amount. Money amounts are rounded to the nearest \$1,000 at the table level. Amounts of \$500 or more were rounded up to the next thousand. Total amounts under \$500 were entered as zero and noted to indicate that an amount was present and greater than zero, but less than \$500.

Whenever a cell frequency was less than 3, the estimate was combined or deleted in order to avoid disclosure of information about specific corporations. A double asterisk (**) or a (d) indicates combinations or deletions respectively. In other cases, an estimate based on fewer than 10 returns, not selected at the 100 percent rate, is indicated by an asterisk (*) and should be considered statistically unreliable. These estimates should typically be used in combination with other tabulated values due to the small sample size.

The statistical reliability of each cell in the tables was determined separately from all other cells. Thus, it is possible for a total figure to be marked with an asterisk (*), indicating statistical unreliability, while a subset of the total is not so marked. For example, a sector amount could be based on 7 returns, 3 not sampled at the 100 percent rate. The amount would receive an asterisk. However, a major group within the sector may include all of the 4 returns sampled at the 100 percent rate and not receive an asterisk.

A dash (-) in place of a frequency or an amount can indicate one of two things. If the returns were sampled at the 100 percent rate, then no returns had that particular characteristic. If returns were sampled at less than the 100 percent rate, then either no return in the population had that characteristic, or the characteristic was so rare that it did not appear in any of the sampled returns.

Table 1. S Corporations: Total Receipts and Deductions, Portfolio Income, Rental Income, and Total Net Income, by Major Industry

Endnotes at end of table section. Detail may not add to total because of rounding. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

Endnotes to Basic Tables and 1120S Basic Tables

- [1] This amount is less than \$500.
- [2] Credits include foreign tax, credit to holders of tax credit bonds, qualified electric vehicle, general business, and prior-year minimum tax. Credits may or may not be shown separately.
- [3] Minor industry information is shown only in this table. More detailed data for all industry groupings can be found in the 2013 *Corporation Source Book*.
- [4] This estimate is based on returns sampled at a 100-percent rate and the coefficient of variation is zero.
- [5] The amount for total income tax before credits includes adjustments to income tax and to total tax, which are not shown separately.
- [6] Size of total receipts was used in lieu of size of business receipts to classify statistics for “Finance and Insurance,” and “Management of Companies (Holding Companies)” sectors.
- [7] The amount for total income tax before credits includes the following: income tax, personal holding company tax, recapture and other taxes, alternative minimum tax, excess net passive income tax (Form 1120S), branch tax (Form 1120 F), tax from Parts II, III, IV, and sections 856 & 857 (Form 1120-REIT), tax from Schedule J, line 2b (Form 1120-RIC), tax from page 1, line 5 (Form 1120-PC), and adjustments to income tax, and to total tax, which may or may not be shown separately.
- [8] The amount for total income tax before credits includes taxes listed in [7], except for Forms 1120S, 1120-REIT and 1120-RIC. Each tax may or may not be shown separately.
- [9] Tax from Section I is excluded from total income tax amounts since the income is not effectively connected with the conduct of a trade or business in the U.S.
- [10] Tax from Section II is the total tax from Schedule J, tax computation on effectively connected income with the conduct of a trade or business in the U.S.
- [11] The CV for this variable and industry is not stable because the denominator is relatively small due to a netting effect.
- [12] The amount for total income tax includes income tax, excess net passive income tax (Form 1120S), recapture taxes, and adjustments to income tax and to total tax, which are not shown separately.
- [13] This item includes full and part-year returns.
- [14] The amount for overpayments less refunds includes 2012 overpayments claimed as a credit, and 2013 estimated tax payments, less any refund of estimated tax payments.
- [15] All sectors may include “Not Allocable” which is not shown separately.
- [16] The Wholesale and Retail sector may include “Wholesale and Retail Trade not Allocable,” which is not shown separately.
- [17] Returns without net income includes adjustments to income tax that tax credits could be used against.
- [18] Reserved
- [19] Cost of goods sold includes death benefits filed by 1120-L returns, and losses incurred filed by 1120-PC returns, which are not shown separately.
- [20] Reserved
- [21] This amount includes returns with zero receipts and receipts not reported.
- [22] This item includes adjustments to amount owed or overpayments, which are not shown separately.
- [23] Coefficient of variation is greater than 0 and less than .005 percent.
- [24] Total statutory special deductions include other dividend deductions, which are not shown separately.
- [25] Reserved
- [26] Retained earnings unappropriated includes retained earnings from Form 1120S, which includes amounts for both appropriated and unappropriated. Unappropriated was usually the largest amount. Retained earnings, unappropriated, include adjustments to shareholders’ equity, which are not shown separately.
- [27] Tentative general business credit also includes the current year general credits from an electing large partnership which is not shown separately.
- [28] Reserved
- [29] Foreign insurance corporations are included in the number of returns, total for this table. Foreign insurance companies are included in the number of returns for Life Insurance Companies (filing on Form 1120-L) and Property and Casualty Companies (filing on Form 1120-PC).
- [30] Retained earnings unappropriated include adjustments to shareholders’ equity, which are not shown separately.
- [31] Statistics include: (a) income and deduction amounts from a trade or business, (b) amounts other than from trade or business, i.e., portfolio and rental income, reported by S corporations, and (c) net long-term capital

gain reduced by net short-term capital loss reported by Regulated Investment Companies.

[32] The amount for total income tax before credits includes taxes listed in [7], except for Forms 1120S. Each tax may or may not be shown separately.

[33] Includes interest on State and local Government obligations, which is not reflected in net income (less deficit) from a trade or business.

[34] Includes amounts of portfolio income that are not net of related deductions.

[35] In years prior to 2008, the total line of Form 8844 took into account limitations for net income tax and AMT.

[36] Total includes S corporations for which neither a number of shareholders was reported nor was a Schedule K-1, *Shareholders' Share of Income, Credits, Deductions, etc.*, filed.

Section 5

Explanation of Terms

This section defines the terms used in the tables, including adjustments made in preparing the statistics and limitations in the data. Explanations are designed to aid the user with interpreting the report's statistical content and should not be construed as interpretations of the Internal Revenue Code or policies of the Internal Revenue Service. Code sections cited are those in effect for the tax years covered in this report. The tax year refers to the calendar year, unless otherwise stated. The line references given for the terms correspond to Form 1120, *U.S. Corporation Income Tax Return*, unless otherwise indicated. In most tables, items taken from other forms (1120-L, 1120-F, etc.) and attached schedules conform to Form 1120 format. Although many standardizing adjustments were made, the data presented are unaudited as reported by taxpayers and are, therefore, subject to taxpayer errors and misinterpretations, as well as statistical variability and any errors that may have arisen during processing. (See "Data Limitations and Measures of Variability," page 13 in Section 3.) Definitions marked with the symbol Δ have been revised for 2013 to reflect changes in the law.

Accounting Periods

In some tables, the data were classified according to the ending dates of the accounting periods covered by the corporations' returns. Returns were generally filed covering an annual accounting period; most larger corporations filed returns for accounting periods ending in December (a calendar year period). Some corporations filed "part-year returns," which have a shorter accounting period (less than 1 year). Corporations filed part-year returns because of business organizations or reorganizations, mergers, liquidations, or changes to accounting periods. The statistics include income and tax data from part-year returns, but not balance sheet data. (See "Balance Sheets.")

Figure D in Section 1 shows the number of returns filed for each accounting period covered in this report. For a discussion of this classification, see "Time Period Employed" in Section 1, Introduction.

Accounts Payable

[Page 5, Schedule L, Line 16(d)]

This balance sheet account consists of relatively short-term liabilities arising from the conduct of trade or business and not secured by promissory notes.

Additional Section 263A (Inventory) Costs

[Form 1125-A, Line 4]

This component of cost of goods sold includes certain inventory costs capitalized by taxpayers using a simplified method of accounting under the uniform capitalization rules of Code section 263A. However, the statistics found here do not follow the uniform capitalization rules with respect to several deduction items. These rules require certain accrued expenses, such as depreciation, to be capitalized. These accrued expenses are included as current deductions whenever they could be identified. (See "Cost of Goods Sold.")

Additional Paid-In Capital

[Page 5, Schedule L, Line 23(d)]

This corporate balance sheet item consists of additions to capital from sources other than earnings. These sources include receipts from the sale of capital stock in excess of stated value, stock redemptions or conversions, and similar transactions. The amounts shown are after any negative amounts were deducted.

Adjustments to Shareholders' Equity

[Page 5, Schedule L, Line 26(d)]

See "Retained Earnings, Unappropriated."

Advertising

[Page 1, Line 22]

Code section 263(b) allowed advertising expenses as a deduction if they were ordinary, necessary, and bore a reasonable relationship to the corporation's trade or business. Under Code section 263A, these expenses include advertising identified as part of the cost of goods sold or capitalized, and advertising reported separately as a business deduction. Also included are combined advertising expenses, such as advertising and promotion, and advertising and publicity. Excluded from the data were the costs incurred by publishers, broadcasters, and similar businesses in preparing advertisements for others. These were generally treated as part of the cost of goods sold.

Biofuel Producer Fuels Credit Δ

[Form 6478]

A credit was allowed and cellulosic biofuel production. The alcohol mixture, alcohol, and small ethanol producer credit expired for fuels sold or used after 2011. The cellulosic biofuel producer credit was extended through January 2, 2013. The credit also includes second generation cellulosic biofuel used. The American Jobs Creation Act of 2004 requires that the alternative minimum tax rules be applied to the credit so Form 6478 is not filed with Form 3800, *General Business Credit*. Form 6478 now accommodates the passive activity rules and carryback of any unused credit allowed that previously would have been reported on Form 3800. Also, this means that any credit carried forward from Tax Years beginning before 2005, cannot be shown on Form 6478. Such “carry forwards” must be shown on Form 3800.

Allowance for Bad Debts

[Page 5, Schedule L, Line 2b(c)]

This balance sheet account was the allowance or reserve set aside to cover uncollectable or doubtful notes, accounts, and loans usually shown on Form 1120 as an adjustment to notes and accounts receivable. A few corporations, however, reported only net receivables and thus did not show their allowance for bad debts. Many banks and savings and loan associations included reserves for uncollectable mortgages and real estate loans in the allowance for bad debts. These amounts were transferred to this item if they were identified on supporting schedules during statistical processing.

The allowance for bad debts was a book account not necessarily related to the deduction for bad debts allowed for tax purposes. (See “Bad Debts.”)

Alternative Minimum Tax

[Form 4626, Line 14]

The alternative minimum tax (AMT) was designed to ensure that a minimum amount of income tax is paid, regardless of the legitimate use of exclusions, deductions, and credits. In effect, the AMT provides a second tax system by curtailing or eliminating many of the means of reducing taxes allowed in the regular tax system, and taxes the resulting “alternative” taxable income at a reduced rate. Small corporations (as defined in the Form 4626 instructions) were not subject to the AMT.

Table 23 shows the basic computation of the AMT. This computation involves recomputing taxable income from the regular tax by adding or subtracting items allowable in both systems, but in different tax years or under different rules (“adjustment items”), adding back deductions not allowed under the minimum tax (“tax preference items”), and adding or subtracting items from the corporation’s books that had not been accounted for elsewhere (the “adjusted current earnings” computation). A net operating loss deduction,

computed using the AMT rules for what constitutes a loss, was allowed.

Most of the following adjustment and preference items could be either additions or subtractions in computing alternative minimum taxable income. The few exceptions are noted.

- (1) **Depreciation of property placed in service after 1986.** This was the difference between the accelerated depreciation allowed under the regular tax rules and the slower depreciation allowed under the AMT. Generally, the adjustment increased AMTI in the early years of a property’s life, and decreased it in later years. Certain types of property were exempt from refiguring depreciation for AMT purposes.
- (2) **Amortization of certified pollution control facilities.** This was the difference between the rapid amortization of pollution control facilities allowed under the regular tax, and the deduction under the depreciation system used for the AMT.
- (3) **Amortization of mining exploration and development costs.** This was the difference between the regular tax deduction allowed for these expenses and by AMT rules, which required expenses to be capitalized and amortized over 10 years.
- (4) **Amortization of circulation expenses.** This applies to personal holding companies only and was the difference between the regular tax deduction, which allowed these expenses, and the AMT requirement that they be capitalized and deducted ratably over a 3-year period.
- (5) **Adjusted gain or loss.** Because many of the differences between the regular tax and the AMT affect the calculation of property’s basis for determining gain or loss from its sale or exchange, gain or loss had to be recomputed for AMT purposes. This item is the difference (positive or negative) between the two, gains or losses.
- (6) **Long-term contracts.** Long-term contracts, except some home construction contracts, were required to use the percentage-of-completion method to determine current income for the AMT. This item was the difference between the current year’s income from the contract under this method, and the methods allowed for the regular tax.
- (7) **Merchant marine capital construction funds.** For the regular tax, some maritime companies were allowed to deduct profits deposited in a fund for constructing new ships. Neither the fund nor the interest

it earned was taxed until the money was withdrawn. This deferral was not allowed under the AMT and any such deductions or interest had to be included in AMTI.

- (8) **Section 833(b) deduction.** Under this section of the Internal Revenue Code, certain health insurers were allowed a special deduction from regular taxable income that was not allowed for AMT purposes and was, therefore, added into the AMT calculation. This item was a current-year deduction.
- (9) **Tax shelter farm activities.** This applied only to personal service corporations with nonpassive farming operations that were “tax shelters,” and was the difference between farm gains and losses computed under the regular tax rules and those computed using all the AMT accounting rules.
- (10) **Passive activities.** This applied to closely held and personal service corporations only and was the difference between gains and losses from passive activities as reported for regular tax purposes and as recomputed using AMT accounting rules.
- (11) **Loss limitations.** This is the difference between gains and losses computed under the different rules of the regular tax and AMT systems, where the at-risk and partnership limitations applied in the regular tax.
- (12) **Depletion.** The depletion deduction under both the regular tax and the AMT was limited by the net income from the depletable property if percentage depletion was used. In addition, depletion under the AMT was limited to a taxpayer’s basis in the property. This item is the difference between depletion figured under the regular tax rules and depletion limited by AMT net income and the AMT basis limitation.
- (13) **Tax-exempt interest from private activity bonds.** Interest from private activity bonds issued after August 7, 1986, used to finance private activity that was still tax exempt under the special exceptions in the regular tax was subject to the AMT and so was an addition to AMTI. There are various bonds excluded from this rule. Those bonds are defined in the instructions for Form 4626.
- (14) **Intangible drilling costs.** Generally, some of the intangible drilling costs for oil, gas, and geothermal wells deductible as current expenses for the regular tax, had to be capitalized and written off over 10 years for the AMT. If the difference between the two systems exceeded 65 percent of the net income from the properties, the excess was included in AMTI.

- (15) **Other adjustments.** This item covered necessary adjustments to allow for changes made to limitation amounts by AMT calculations. The various allowable entries are defined in the Form 4626 instructions.

After all adjustments and preferences had been included in AMTI, a catchall adjustment, called the “**Adjusted current earnings (ACE) adjustment after excess**” was added to or subtracted from the income base. The ACE adjustment took into account those items for which tax treatment offered tax advantages, but were not otherwise included in the AMT (such as tax-exempt interest). The “excess” (if any) was the corporation’s total increase in AMTI from the prior year ACE adjustment over its total reductions in AMTI from prior ACE adjustments.

Alternative Fuel Vehicle Refueling Property Credit Δ

[Form 8911, Page 1, Line 8]

The Alternative Fuel Vehicle Refueling Property Credit is known as the credit for all property placed in service during the tax year. The current year’s maximum credit per location is \$30,000. The credit covers property placed in service in 2012 and 2013. Each property’s cost must first be reduced by any section 179 expense deduction taken for the property. The credit is scheduled to expire for nonhydrogen refueling properties placed in service after 2013.

Alternative Motor Vehicle Credit Δ

[Form 8910]

The Alternative Motor Vehicle Credit was enacted by the Energy Policy Act of 2005 and included separate credits for four distinct categories of vehicles: 1) Qualified Hybrid Vehicles, 2) Qualified Fuel Cell Vehicles, 3) Qualified Alternative Fuel Motor Vehicles (QAFMV), Heavy Hybrids, and 4) Advanced Lean-Burn Technology Vehicles.

To qualify for this credit, the taxpayer should have had an Alternative Motor Vehicle placed in service during the tax year, and/or attributable to depreciable property, such as vehicles used for business or investment purposes. The plug-in conversion credit expired for conversions made after 2011.

Amortization

Amortization is a deduction for the recovery of the costs of long-lived intangible assets similar to the depreciation deduction to recover the costs of tangible assets. It is also used in the IR Code for recovering the costs of some tangible assets, usually as a tax preference for those assets. Most amortization is calculated on a straight-line basis over recovery periods specified in the Code. Although amortization is not a line item on the corporation income tax return, for statistical purposes, specific types of amortization were edited from attached schedules (for other costs or other deductions, for example) and included in this item in the tables. Because it is not a separate line item,

the statistics for this item may be less reliable than for other deduction items.

Amortization of the following types was included in this heading when identifiable on tax returns:

- (1) **Section 197 intangibles.** Purchased goodwill and other “going concern” intangibles, customer-based intangibles, licenses, franchises, and most other purchased intangible assets not included elsewhere were amortizable over a 15-year life.
- (2) **Pollution control facilities (section 169).** Twenty percent of the basis of depreciable property used to reduce pollution could be written off over 5 years instead of being depreciated.
- (3) **Bond premiums (section 171).** Premiums on bonds acquired before 1988 were amortized over the life of the bond. For bonds acquired after 1987, the pro-rata bond premium was an offset to the interest earned and was not included here.
- (4) **Research and experimental expenditures (section 174).** Taxpayers can elect to amortize their research and experimental costs, deduct them as current business expenses, or write them off over a 10-year period. If they elect to amortize these costs, the taxpayer should deduct them in equal amounts over 5 years or more.
- (5) **Lease acquisition costs (section 178).** Such costs could be amortized over the term of the lease.
- (6) **Qualified reforestation expenses (section 194).** Taxpayers can elect to amortize up to \$10,000 (or \$5,000 if married and filing separately) of reforestation costs either paid or incurred before October 22, 2004, for qualified timber property over a 7-year period.
- (7) **Qualified revitalization expenditures (section 1400I).** Certain capital expenditures related to a qualified revitalization building, which is located in an area designated as a renewal community.
- (8) **Business start-up expenditures (section 195).** For costs either paid or incurred before October 23, 2004, taxpayers could elect an amortization period of 5 years or more. For costs paid or incurred after October 22, 2004, taxpayers could elect to deduct a limited amount of start-up costs. Costs not deducted currently could be amortized ratably over a 15-year period.
- (9) **Organizational expenditures of corporations (section 248).** As with business start-up expenditures, for costs paid or incurred before October 23,

2004, taxpayers could elect an amortization period of 5 years or more. For costs paid or incurred after October 22, 2004, taxpayers could elect to deduct a limited amount of organizational costs. Costs not deducted currently could be amortized ratably over a 15-year period.

- (10) **Optional write-off of certain tax preferences (section 59(e)).** Taxpayers could avoid including some tax preference items in the minimum tax by electing to capitalize and amortize rather than deduct expenses. These options included 3-year amortization of circulation expenses (Code section 173), 10-year amortization of research and experimental expenditures (Code section 174), 5-year amortization of intangible drilling costs (section 263) (but, see below), and 10-year amortization of mining exploration and development expenses (sections 616 and 617).

Amortization of intangible drilling costs was excluded from this heading when it could be identified; instead, it was included in “Other deductions” in the statistics.

Amount Owed at Time of Filing

[Page 1, Line 34]

See “Overpayment or Amount Owed.”

Bad Debts

[Page 1, Line 15]

Bad debts occurring during the year were allowed as a deduction under Code section 166. For most businesses, the deduction was allowed only for debts written off as uncollectable. Additions to reserves, even as the taxpayer’s normal method of accounting for bad debts, were not deductible. However, “small” banks with total assets of \$500,000,000 or less were allowed to deduct additions to bad debt reserves under Code section 585 based on their own experience of bad debt losses.

Balance Sheets

[Page 5, Schedule L]

Balance sheet data are the amounts reported by the taxpayer (when available) as of the end of the taxpayer’s accounting year. Taxpayers were instructed to provide data that agreed with their books of account, but were given few other guidelines. Thus, the statistics for balance sheets contain considerably more reporting variability than those for income statement and tax computation items. These were the subject of more detailed instructions and more intense scrutiny during IRS processing. Beginning in Tax Year 2002, corporations with less than \$250,000 in total receipts, and less than \$250,000 in total assets at the end of the tax year, were not required to file Schedule L.

Since balance sheet data were from the taxpayers’ books, they were generally governed by general accounting principles rather than the special rules of tax accounting. Where these

rules diverged significantly, balance sheet statistics could show little relationship to the income statement accounts. Inventories, accumulated depletion, depreciation, amortization, accrued tax, other liability accounts, and other capitalized items were often recorded on different bases for tax and book purposes.

A number of steps were taken during statistical processing to reduce the variability due to taxpayer reporting practices. Misreported amounts were transferred to their proper accounts; amounts from attached schedules were edited into the Schedule L format; and missing balance sheets were either supplied from reference books (if possible), or statistically imputed based on other data on the return and the company's characteristics.

Some balance sheets were suppressed (or not imputed) during statistical processing. (These companies appear in the tables in the "zero-assets" category.) With the exception of foreign insurance companies, which are required to report U.S. assets segregated from foreign ones, the balance sheets of foreign corporations were excluded from the data because it is not possible to separate U.S. assets from foreign ones. Final returns of corporations going out of existence were not permitted balance sheets, because they should have either had zero assets (if liquidating) or assets included in some other corporation's return (if merging). And, balance sheet data were not included from most part-year returns, because the same company's end-of-year data could have been subject to inclusion from its complete return.

Biodiesel and Renewable Diesel Fuels Credit

[Form 8864]

The biodiesel and renewable diesel fuels credit was created to encourage the production and use of biodiesel fuels. The credit consists of the biodiesel credit, renewable diesel credit, biodiesel mixture credit, renewable diesel mixture credit, and small agri-biodiesel producer credit. The Energy Tax Incentive Act of 2005 amended section 40A to add credits for renewable diesel fuel sold after December 31, 2005. The Act also added the small agri-biodiesel producer credit for tax years ending after August 8, 2005. The credit is scheduled to expire in 2013. The tax liability for this credit is no longer computed on Form 8864, *Biodiesel and Renewable Diesel Fuels Credit*. Instead it is computed on Form 3800, *General Business Credit*.

Branch Profits Tax

[Form 1120-F, Page 1, Line 3]

This was an additional tax imposed under Code section 884 on after-income-tax U.S. earnings and profits of a foreign corporation that were not invested in a U.S. trade or business. The tax also applied to certain interest payments from income earned in U.S. operations. The provisions were designed to impose a tax on foreign companies' branches similar to the withholding tax on dividends and interest imposed on foreign-owned subsidiaries incorporated in the U.S. Like the withholding tax, the rate was set in the law at 30 percent, but that rate

was only applicable if the U.S. had no tax treaty setting a different rate (which could be zero) with the companies' home country.

The branch profits tax was imposed on the "dividend equivalent" amount of earnings and profits of a U.S. branch of a foreign corporation that was attributable to its income effectively connected (or treated as effectively connected under Code section 897) with a U.S. trade or business. The effectively connected earnings and profits were: (1) reduced to reflect any reinvestment of the branch's earnings in assets in the U.S. trade or business (or reduce liabilities in the U.S. trade or business), and (2) increased to reflect any prior reinvested earnings considered remitted to the home office of the foreign corporation.

Certain earnings and profits attributable to income effectively connected with a U.S. trade or business were exempt from the branch profits tax. These tax-exempt earnings included: (1) certain earnings under Code sections 921(d) and 926(B) of a foreign sales corporation; (2) foreign transportation carriers (such as ships and aircraft) exempt from U.S. tax by reciprocal exemption; (3) earnings derived from the sale of any interest in U.S. real property holding corporations; (4) interest income derived by a possession bank from U.S. obligations as described in Code section 882(e); (5) earnings derived by certain insurance companies electing to treat income as effectively connected income; and (6) foreign governments and international organizations exempt under Code section 892.

The branch profits tax is the sum of the tax imposed on the earnings, profits, and interest payments of the foreign corporation. The branch tax was reported on Form 1120-F, *U.S. Income Tax Return of a Foreign Corporation*. The tax was included in total income tax in the statistics. It is also shown separately for foreign corporations with U.S. business operations in Tables 10 and 11.

Business Receipts

[Page 1, Line 1(c)]

Business receipts are the gross operating receipts of the corporation reduced by the cost of returned goods and allowances. Generally, they represent all of a corporation's receipts except investment and incidental income. Business receipts may also include sales and excise taxes that were included in the sales price of products; some corporations reported this way, while others reported their receipts after adjustment for these taxes.

Business receipts include rents reported by real estate operators and other corporations for which rent made up a significant portion of income. The latter included manufacturers that rented their products, lessors of docks, warehouses, pipelines, and other public utility facilities, and companies engaged in rental services, such as providing lodging places and automobile or clothing rentals.

For banks and other financial institutions whose principal income was interest, business receipts, consisting of fees, commissions, credit card income, and other operating receipts as principal income, was reported under that heading and included in the statistics. Banks' business receipts also included profit from Federal funds transactions. If the bank reported gross sales and purchases, the amounts were netted during statistical processing. Likewise, security dealers included profit from security trades in business receipts. If the gross amounts were reported, costs and sales proceeds were netted during statistical processing. Regulated investment companies and real estate investment trusts did not report business receipts; all of their income was included in the investment income categories in the statistics.

Business receipts for insurance companies consisted of premium income. Some small property and casualty insurance companies, however, could elect to be taxed only on investment income and thus would have reported no business receipts. Other, smaller companies were exempt from tax altogether. Property and casualty insurance companies with premium income of \$1,200,000 or less could elect (under Code section 831(b)(2)) to be taxed on only investment income. Companies with premiums of \$600,000 or less were exempt from tax under Code section 501(c)(15).

For all industries, business receipts excluded gains from the sale of assets. See "Net Gain (or Loss), Noncapital Assets" and "Net Capital Gains."

Capital Gains Tax (1120-RIC)

[Form 1120-RIC, Page 2, Schedule J, Line 2b]

Regulated investment companies (RIC) that did not distribute all capital gains to shareholders were taxed at the regular corporate rates of 35 percent only on the undistributed gain for nonqualified timber gain. If the RIC was in a partnership with a net gain, and also received a distributive share of a qualified timber gain from the partnership for the period before May 2009, then the RIC may be eligible for an alternative tax rate on the portion of taxable income attributable to the qualified timber gain. This tax is a component of "Total Income Tax Before Credits."

Capital Stock

[Page 5, Schedule L, Line 22(d)]

This end-of-year balance sheet equity item includes amounts shown for outstanding shares of both common and preferred stock.

Cash

[Page 5, Schedule L, Line 1(d)]

This balance sheet asset item includes the amount of actual money or instruments and claims that were usable and acceptable as money on hand at the end of the taxable year, including certificates of deposit.

Cash and Property Distributions

[Page 5, Schedule M-2, Lines 5(a) & 5(c)]

Cash distributions are distributions from the earnings and profits of the distributing corporation, made in cash, to shareholders outside the consolidation. Property distributions, other than a corporation's own stock, are distributions made to shareholders outside the consolidation. These distributions consist of the actual property of the distributing corporation, other than cash or shares of the distributing corporation's own stock.

Charitable Contributions

[Page 1, Line 19]

Contributions or gifts to charitable, religious, educational, and similar organizations were deductible under Code section 170(c). In general, the deduction was limited to 10 percent of taxable income computed without regard to:

- (1) the deduction for contributions;
- (2) special deductions for dividends received and for dividends paid on certain preferred stock of public utilities;
- (3) any net operating loss carryback under Code section 172;
- (4) any capital loss carryback to the tax year under Code section 1212(a)(1); and
- (5) the deduction of bond premium on repurchase under Code section 249.

Charitable contributions over the 10-percent limitation could be carried forward to the next 5 tax years; however, the carryover was not allowed if it increased a net operating loss carryover.

A corporation could receive a larger deduction for contributing scientific property used for the care of the ill, needy or infants, for research to an institution of higher education. These applied to all except personal holding companies and corporations whose businesses were the performance of services, and for contributions of computer technology and equipment to schools (under section 170(e)). Regulated investment companies and real estate investment trusts did not report contributions. Contributions made by S corporations were passed through to the shareholders to be deducted on the shareholders' returns.

The amount shown in the statistics includes contributions identified as part of cost of goods sold or capitalized under section 263A. It also includes contributions reported as a business deduction.

Compensation of Officers

[Page 1, Line 12]

Salaries, wages, stock bonuses, bonds, and other forms of compensation were included in this deduction item if they

were identified as having been paid to officers for personal services rendered. It did not include qualified deferred compensation, such as contributions to a 401(k) plan or a salary reduction agreement, which were included in the statistics for pensions and profit-sharing plans. The item included amounts reported as a part of cost of goods sold or capitalized under section 263A.

The deductible compensation of certain officers of publicly held corporations was limited under Code section 162(m) to \$1,000,000 or less. However, the limit did not apply to commissions or other compensation based on performance, or if the officer worked under a binding contract in effect on February 17, 1993.

Consolidated Returns

Consolidated income tax returns contained combined financial data for two or more corporations. All corporations on the return had to meet the following requirements: (1) a common parent corporation owned at least 80 percent of the voting power of all classes of stock, and at least 80 percent of each class of nonvoting stock (except stock which was limited and preferred as to dividends) of at least one member of the group, and (2) these same proportions of stock of each group member were owned within the group.

Corporations electing to file consolidated returns in one year had to also file consolidated returns in subsequent years, with certain exceptions. The consolidated filing privilege could be granted to all affiliated domestic corporations connected through stock ownership with a common parent corporation except: (1) regulated investment companies (RICs); (2) real estate investment trusts (REITs) that did not consolidate with qualified REIT subsidiaries; (3) corporations designated tax-exempt under Code section 501; (4) Interest Charge Domestic International Sales Corporations (IC-DISCs), and (5) S Corporations.

Under Code section 1504(c), life insurance companies could file consolidated returns with other life insurance companies without restriction. Also, a nonlife insurance parent could include a life insurance subsidiary subject to certain restrictions (e.g., the insurance company must have been a member of the controlled group for at least 5 years).

A consolidated return filed by the common parent company was treated as a unit and each statistical classification was determined on the basis of the combined data of the affiliated group. Therefore, filing changes to or from a consolidated return basis affected year-to-year comparability of certain statistics, including data classified by industry and size of total assets. Data on consolidated returns are shown in Table 19.

Constructive Taxable Income from Related Foreign Corporations

This item was the sum of (1) includable income from controlled foreign corporations (CFC) and (2) foreign dividend gross-up. Includable income was the income of U.S.-owned foreign corporations that was taxable to their U.S. shareholders under Code sections 951-964 ("Subpart F"). Foreign dividend gross-up was an amount equal to the foreign tax deemed paid by the foreign corporation that U.S. shareholders could claim as a foreign tax credit. A CFC was one in which more than 50 percent of the voting stock was controlled by U.S. persons, including domestic corporations, with ownership of at least 10 percent of the voting stock. Any U.S. shareholder owning 10 percent or more of the stock was required to include a share of the includable income and dividend gross-up in taxable income.

Data from foreign dividend gross-up and includable income from controlled foreign corporations were combined into constructive taxable income from related foreign corporations. These components are presented separately in Table 20. Neither includable income from controlled foreign corporations nor foreign dividend gross-up was included in the statistics for Total Receipts.

Includable Income

[Page 2, Schedule C, Line 14(a)]

Generally, the earnings and profits of a controlled foreign corporation (CFC) were subject to U.S. taxation only when the income was actually distributed to U.S. shareholders or repatriated to the United States. The Subpart F provisions of the Code created an exception to this general rule by requiring that some types of foreign income be included in the income of the U.S. shareholders even if not distributed. The types of income involved are either passive investment income, income from sources thought especially easy to shift between tax jurisdictions, or income from sources contrary to public policy.

Includable income consisted of:

- (1) Subpart F income, defined below;
- (2) any previously excluded Subpart F income which had been invested in qualified assets in less developed countries, and which was either withdrawn from those countries or repatriated to the U.S. shareholders and therefore became taxable;
- (3) any previously excluded Subpart F income which had been withdrawn from foreign base company shipping operations;
- (4) any increase in Controlled Foreign Corporation earnings due to investment in U.S. property; and
- (5) factoring income, or income that arose from the sale or transfer of a receivable.

Subpart F income, defined in Code section 952, included:

- (1) income from issuing (or reinsuring) an insurance or annuity contract that would otherwise be taxed under Subchapter L of the IR code if that income had been from a domestic insurance company;
- (2) “foreign base company income,” which included several types of income derived from passive investments or from transactions outside the CFC’s country of incorporation;
- (3) income from participation in international boycotts not sanctioned by the United States;
- (4) illegal bribes, kickbacks, or other payments to a government official; and
- (5) income derived from any foreign country during any period for which a foreign tax credit would be denied for taxes paid to those countries, as described in Code section 901(j) (i.e., a government that was not recognized by the United States, with which the United States severed or did not conduct diplomatic relations, or which provided support for international terrorism).

Foreign Dividend Income Resulting from Foreign Taxes Deemed Paid

[Page 2, Schedule C, Line 15(a)]

This item, also called “foreign dividend gross-up,” was constructive taxable income to corporations that claimed a foreign tax credit. A U.S. corporation could claim a foreign tax credit for a share of the foreign taxes actually paid by its related foreign corporations, including its controlled foreign corporations. The U.S. corporation’s share of the foreign taxes depended on the ratio of the dividends and includable income it received to the total earnings and profits of the related foreign corporation. The foreign taxes were treated as deemed paid by the U.S. corporation. In order to receive credit against U.S. tax, the foreign taxes deemed paid needed to be included in the corporation’s worldwide income as well. They were included in income as an increase to foreign dividends, called a dividend gross-up. The dividend gross-up was the equivalent amount of the foreign taxes deemed paid by the U.S. corporation.

Controlled Plan and Apportionment Schedule for a Controlled Group

[Schedule O]

This schedule was required to be completed by members of a Controlled Group beginning in Tax Year 2006. Controlled Group members were required to report the apportionment of taxable income, income tax, and certain tax benefits between group members, as well as identifying the type of controlled

group to which they belong. Group types identified in the instructions are Parent-subsidiary, Brother-sister, and combined groups. Life insurance companies in a group of their own were separately identified, but as part of a life, non-life group, they were identified as one of the other groups. This form was also used for indicating the group member’s consent to the adoption of a new apportionment plan, the amendment or termination of an existing plan, whether they already have a plan in effect, and even if they are not planning to adopt an apportionment plan. This schedule was required to be filed by all corporations in each year that they are a member of a controlled group. Controlled group members were entitled to one \$50,000, one \$25,000, and one \$9,925,000 taxable income bracket amount (in that order). Additional income tax was apportioned at a 5-percent rate, up to \$11,750, if the taxable income of the group was over \$100,000, and at a 3-percent rate, up to \$100,000, if the taxable income of the group was over \$15 million.

Corporation’s Own Stock Distributions

[Page 5, Schedule M-2, Line 5(b)]

Distributions of a corporation’s own stock were distributions made to shareholders outside the consolidation that consisted of shares of the distributing corporation’s own stock, in lieu of cash or other property.

Cost of Goods Sold

[Form 1125-A, Line 8]

Cost of goods sold represented the costs incurred by the corporation in producing the goods or providing the services that generated the corporation’s business receipts. Included were costs of materials used in manufacturing, costs of goods purchased for resale, direct labor, and a share of overhead expenses, such as rent, utilities, supplies, maintenance, and repairs. (Overhead expenses, however, were not included in these statistics as the taxpayers reported them; see “Uniform Capitalization Rules” below.)

The basic cost of goods sold calculation, shown in Form 1125-A, consisted of adding beginning inventory to the current-year purchases, labor, additional inventory costs (section 263a), and other costs and subtracting ending inventory. Each of the individual items included in cost of goods sold is shown separately in Table 2.

Cost of goods sold was imputed for those companies engaged in manufacturing or trade activities that reported gross receipts, but not the cost of goods sold. This was done by using the attachments for “Other Deductions.” For other nonfinance industries, a cost was imputed only for companies that reported gross receipts and included inventories on the balance sheet.

Generally, returns of corporations in the finance sector were not expected to have cost of goods sold unless they

were consolidated returns including nonfinance subsidiaries. Security dealers sometimes reported the cost of securities traded on their own accounts as cost of goods sold (and reported the gross sales proceeds as business receipts). Such amounts were netted during statistical processing, with the net gain reported as receipts and cost of goods made zero. The same handling was given to bank returns reporting gross receipts and costs from Federal funds transactions.

Insurance companies were made to conform to Form 1120 format using premium income as gross business receipts and showing benefits paid as cost of goods sold. For most life insurance companies, cost of goods sold was equal to death benefits. For other insurance companies, it was equal to losses incurred. These items are shown separately in Table 26.

Uniform Capitalization Rules

A taxpayer reporting of cost of goods sold was governed by the “uniform capitalization rules” of Code section 263A. Most companies producing goods for sale were required to capitalize inventory costs under the uniform capitalization rules. Corporations subject to the rules were required to capitalize direct costs and an allocable portion of most indirect costs that related to the goods produced or acquired for resale. Some of the indirect costs that were required to be allocated to capital accounts were administration expenses, taxes, depreciation, insurance costs, compensation of officers, and contributions to pension, stock bonus, profit sharing, and deferred compensation plans. Special rules were provided for the capitalization of interest expense paid or incurred in the course of production. The rules did not apply to personal property acquired for resale for corporations with annual average gross receipts of \$10,000,000 or less. Special rules were provided for farmers and for timber property.

For statistical purposes, many components of cost of goods sold were moved to the equivalent deduction item. For this reason, these appear in the tables as current deductions rather than components of cost of goods sold. Expenses for advertising, amortization, bad debts, compensation of officers, and contributions to charitable organizations, employee benefit programs, and pension plans were transferred to their respective deduction categories when identified on the attachments for cost of goods sold. Also transferred were depletion, depreciation, interest, rent of buildings or real estate, and taxes. Intangible drilling costs were removed from cost of goods sold and included in other deductions.

In this report, therefore, cost of goods sold appears smaller, and many deduction accounts larger, than reported by taxpayers. However, those listed above were the only accounts affected. Inventories were not adjusted; net income or deficit and taxable income were not affected.

Cost of Labor

[Form 1125-A, Line 3]

This component of cost of goods sold included the portions of the company’s payroll representing direct labor costs, and some indirect costs allocated to inventory under the uniform capitalization rules. Some labor costs were reported in other accounts, such as Other Costs. (See “Cost of Goods Sold.”)

Cost of Treasury Stock

[Page 5, Schedule L, Line 27(d)]

This item was the total value of issued common or preferred stock that had been reacquired and was held at the end of the accounting year by issuing corporations. The stock, which was available for resale or cancellation, may have been purchased by the corporation or acquired through donation or as settlement of a debt. Treasury stock was a part of capital stock outstanding; it did not include unissued capital stock.

Credit by Reciprocal

[Form 1120-PC, Page 1, Line 14(h)]

See “Reciprocal Tax.”

Credit for Employer-Provided Child Care Facilities and Services

[Form 8882]

The purpose of this credit is to encourage more businesses to provide child care services for their employees. The amount of the credit for a given tax year is the sum of 25 percent of the qualified childcare expenditures and 10 percent of the qualified resource and referral expenditures. The maximum amount of credit allowed in any given year is \$150,000. The credit is part of and subject to the limitations and carryover rules of the general business credit. The components of the general business credit are shown separately in Table 21.

Credit for Employer Social Security and Medicare Taxes Paid on Certain Employee Tips

[Form 8846]

Food and beverage establishments that paid the employer’s social security and Medicare tax on employee tip income in excess of the minimum wage were allowed to receive a refund of the excess in the form of a credit against income tax. This credit was a component of the “General Business Credit” and was subject to the limitations and carryover provisions discussed under that heading. The components of the general business credit are shown separately in Table 21.

Credit for Federal Tax Paid on Fuels

[Page 3, Schedule J, Line 19b]

Code section 34 allowed a credit in full or in stated amounts for excise taxes on:

- (1) gasoline used on farms for farming purposes (Code section 6420);
- (2) gasoline used for nonhighway purposes or by local transit systems (Code section 6421); and
- (3) fuel not used for taxable purposes (Code section 6427), such as on the sale of fuel when tax was imposed under section 4041(a) or (e), and the purchaser used such fuel other than for the use for which it sold or resold such fuel.

This credit was also used to claim the credit for purchase of qualified diesel-powered highway vehicles.

Credit for Small Employer Health Insurance Premiums

[Form 8941]

The purpose of this credit is to encourage small businesses to offer health coverage to their employees. This form is used to figure the credit for tax years beginning after 2009. Small businesses that paid a total percentage of 35 percent in premiums, employed fewer than 25 full-time employees, and paid less than \$50,000 on average in annual wages per full-time employee during the tax year are eligible to claim this credit. The credit for small employer health insurance premiums was established due to the Affordable Care Act of 2009 and is claimed as a part of the *General Business Credit*, Form 3800.

Credit for Small Employer Pension Plan Startup Costs

[Form 8881]

The purpose of this credit is to encourage small businesses to establish and maintain retirement savings accounts for their employees. The credit equals 50 percent of the startup costs incurred to create or maintain a new employee retirement plan. The credit is limited to \$500 in any tax year and may be claimed for qualified costs incurred in each of the 3 years beginning with the tax year in which the plan becomes effective. The credit is part of and subject to the limitations and carryover rules of the general business credit. The components of the general business credit are shown separately in Table 21.

Credit for Tax Paid on Undistributed Capital Gains

[Page 3, Schedule J, Part II, Line 19a]

Regulated investment companies (RIC) and real estate investment trusts (REIT) were required to pay tax on amounts of undistributed net long-term capital gain less net short-term capital loss at the regular corporate tax rate of 35 percent. Stockholder corporations, for their part, were required to include in the computation of their long-term capital gains any such gains designated by the parent as undistributed dividends. The stockholder corporations were then deemed to have paid the tax on the undistributed long-term capital gain dividends

and were allowed a credit for the tax they were deemed to have paid.

Credit to 2013 Estimated Tax

[Page 1, Line 36a]

This item was the amount of the taxpayer's 2012 overpayment applied to the firm's estimated tax for the 2013 Tax Year. See also "Overpayment or Amount Owed."

Credit to Holders of Tax Credit Bonds

[Page 3, Schedule J, line 5e]

Form 8912, *Credit to Holders of Tax Credit Bonds*, is used to claim credit for the following tax credit bonds: clean renewable energy bond (CREB); new clean renewable energy bond (NCREB); qualified energy conservation bond (QECB); qualified zone academy bond (QZAB); qualified school construction bond (QSCB), and build America bond (BAB). Holders of qualified zone academy bonds now also use Form 8912. The Energy Improvement and Extension Act of 2008 added the new clean renewable energy bonds and the qualified energy conservation bonds. The Tax Extenders and Alternative Minimum Tax Relief Act of 2008 added the Midwestern tax credit bonds. The Food, Conservative, and Energy Act of 2008 added the qualified forestry conservative bonds. The American Recovery and Reinvestment Tax Act of 2009 added the qualified school construction bonds and build America bonds.

Death Benefits

[Form 1120-L, Page 1, Line 9]

See "Cost of Goods Sold."

Deficit

See "Net Income (or Deficit)."

Depletable Assets and Accumulated Depletion

[Page 5, Schedule L, Lines 11a and b]

Depletable assets represented, in general, the gross end-of-year value of mineral property, oil and gas wells, other natural deposits, standing timber, intangible development and drilling costs capitalized, and leases and leaseholds, each subject to depletion. Accumulated depletion represented the cumulative adjustment to these assets shown on the corporation's books of account.

The value of depletable assets and accumulated depletion may not be closely related to the current year depletion deduction. The depletable assets and accumulated depletion balance sheet accounts reflected book values; the depletion deduction reflected the amount claimed for tax purposes.

Depletion

[Page 1, Line 21]

This deduction was allowed for the exhaustion of mines, oil and gas wells, other natural deposits, and timber. The Code

provided two methods for computing the deduction: (1) cost depletion, in which a share of the cost of acquiring or developing a property was written off each year; and (2) percentage depletion, which involved simply deducting a fixed percentage of the gross income from the property each year. For standing timber, depletion was computed on the basis of cost. In the case of most natural deposits, the depletion was computed either on a cost or percentage basis. For oil and gas wells, however, percentage depletion was allowed only to “independent” producers (producing less than 50,000 barrels of oil or an equivalent amount of gas a day) and then only for the first 1,000 barrels produced each day. All other oil and gas producers were required to use cost depletion.

Generally, for gas and oil wells, the gross income was the actual sales price, or representative market or field price, if the gas or oil were later converted or manufactured prior to sale. For other natural deposits, gross income was defined to include income from mining or extraction and certain treatment processes. Percentage rates for each type of natural deposit were listed in Code section 613 and ranged from 5 to 25 percent of gross income. However, percentage depletion generally could not exceed 50 percent of the taxable income from the property computed without the depletion deduction.

The depletion deduction for natural deposits other than oil and gas could also have been limited by provisions designed to recapture previously deducted mine exploration and development costs. These capital expenditures were deductible when incurred, but had to be recaptured if the mine became productive or was sold. One method taxpayers could elect to recapture these deductions was to forego percentage depletion deductions on the mine until recapture was complete.

The statistics for depletion also did not include amounts shown by the corporation as a deduction in computing net gain or loss from sale of depletable assets under sections 631(a) or 1231. Regulated investment companies and real estate investment trusts did not report depletion.

The amounts shown in the statistics included any identifiable depletion reported as part of the cost of goods sold or capitalized under Code section 263A. Amortization of intangible drilling costs was not included in the statistics for depletion, but was included in “Other Deductions.”

Depreciable Assets and Accumulated Depreciation

[Page 5, Schedule L, Lines 10a and b]

Depreciable assets from the corporation’s end-of-year balance sheet were the book value of tangible property subject to depreciation (such as buildings and equipment with a useful life of 1 year or more). This item could include fully depreciated assets still in use and partially completed assets for which no deduction was yet allowed if the corporation reported them as

depreciable on its balance sheet. The amounts shown as accumulated depreciation represented the portion of the assets that were written off in the current year and all prior years.

In general, depreciable assets were the gross amounts before adjustment for accumulated depreciation. Some corporations reported only the net amount of depreciable assets after deducting accumulated depreciation. Certain insurance companies were included among the corporations which reported only a net amount of depreciable assets. Life insurance companies and some property and casualty insurance companies reported their balance sheet information in the format required by State insurance regulations. This format usually provided for the reporting of only net depreciable assets and only the home and branch office buildings and equipment were included. Other real estate holdings of these corporations were reported as “Other Investments.”

The statistics for depreciable assets excluded depletable and intangible assets, which were reported in their respective items, and accumulated amortization.

Generally, the value of depreciable assets and accumulated depreciation were not closely related to the current-year depreciation deduction. The depreciable assets and accumulated depreciation balance sheet accounts reflected book values; the depreciation deduction reflected the amount claimed in the current year for tax purposes.

Depreciation

[Page 1, Line 20]

Depreciation is a method of recovering the cost of investments in tangible assets that lose value as they are used to produce income. The depreciation deduction allowed under Code sections 167 and 168 approximated this loss in value by prescribing the rates at which various types of assets could be depreciated and the period over which the investment could be recovered. The depreciation rules in effect for property placed in service in 2013 were basically the same as those enacted in 1986; however, the tax depreciation rules were changed many times over the years, and some assets were still in use in 2013 that were originally placed in service under prior-year rules. So the depreciation claimed on 2013 returns included in these statistics could have represented amounts computed by several different sets of rules.

In 2013, the basic depreciation system was the “Modified Accelerated Cost Recovery System,” or MACRS, that provided two systems for computing the depreciation deduction. The “General Depreciation System,” or GDS, specified recovery periods of 3, 5, 7, or 10 years for livestock, fruit trees, most machinery, equipment, and tangible personal property, and prescribed the 200-percent declining balance method of determining the amount to be written off each year. Public utility property, water transportation equipment, and farm buildings

were placed in the 15-year, 20-year, or 25-year category and were to be depreciated by the 150-percent declining balance method. Buildings were to be depreciated by the straight-line method and over recovery periods of 27.5 years for residential buildings, 31.5 years for nonresidential buildings placed in service before May 13, 1993, and 39 years for nonresidential buildings placed in service after May 12, 1993. Railroad roadbeds and tunnels were prescribed a recovery period of 50 years and the straight-line depreciation method.

MACRS also provided for an “Alternative Depreciation System,” or ADS, that was less accelerated than GDS and thus could help avoid the alternative minimum tax. Under ADS, the recovery period was generally based on the old “class life” system, which was a set of lives prescribed by IRS and based on studies of actual asset lives. The depreciation method was straight-line. Some types of property could only be depreciated using ADS. These were (1) tangible property used predominantly outside the U.S., (2) tax-exempt property, (3) property financed by tax-exempt bonds, (4) imported property covered by a Presidential order, or (5) farm property placed in service in a year in which the taxpayer had elected to expense preproduction period costs under section 263A.

Also included here were amounts the corporation elected to expense under section 179. For 2013, the maximum deduction was \$500,000 (\$535,000 for qualified enterprise zone businesses, renewal community businesses and qualified Liberty Zone property). In 2003, the definition of section 179 property was expanded to include computer software.

Amounts for special depreciation allowance and other depreciation were also included in this item. Beginning in 2001, certain qualified property placed in service after September 10, 2001, could have an additional 30 percent special depreciation allowance. Qualified property acquired and placed in service after May 5, 2003, and before January 1, 2005, may have an additional 50-percent depreciation allowance. Qualified property for the 30-percent or 50-percent special allowance includes, but is not limited to, tangible property depreciated under MACRS with a 20-year-or-less recovery period and computer software. But, it is important to note that the 30-percent and 50-percent special depreciation allowances will not apply to most property placed in service after 2004.

This item included amounts of depreciation reported as a part of cost of goods sold or capitalized under section 263A.

Disabled Access Credit

[Form 8826]

The credit was allowed to small businesses that incurred expenses to make their business accessible to disabled individuals. An eligible small business was one with either gross receipts (less returns and allowances) of less than \$1 million

for the preceding tax year or not more than 30 full-time employees in the preceding tax year.

An eligible expenditure was one paid or incurred by an eligible small business to comply with the requirements of the Americans with Disabilities Act of 1990. Expenditures included: (1) removing architectural, communication, physical, or transportation barriers; (2) providing qualified interpreters or other methods of delivering materials to individuals with hearing impairments; (3) providing qualified readers, taped texts, or other methods of delivering materials to individuals with visual impairments; (4) acquiring or modifying equipment or devices for individuals with disabilities; or (5) providing other similar services, modifications, materials or equipment. The amount of the credit was 50 percent of the amount of the eligible expenditures for a year that exceeded \$250 but did not exceed \$10,000.

The disabled access credit was claimed as one of the components of the general business credit. For a discussion of the income tax limitations and carryback and carryforward provisions of the credit, see “General Business Credit,” in this section. The components of the general business credit are shown separately in Table 21.

Dividends Received from Domestic Corporations

Dividends received from domestic corporations was a statistic computed from amounts reported on Schedule C. The amounts making up this statistic are shown in detail in Table 20 and represent most distributions from the earnings and profits of companies incorporated in the United States. Dividends received from domestic corporations were generally those used in computing the special deduction from net income for dividends received. This is discussed under “Statutory Special Deductions” in this section.

Deductible dividends from Interest Charge Domestic International Sales Corporations (IC-DISCs) and from former Domestic International Sales Corporations (DISCs) were included as domestic dividends received. Dividends from foreign sales corporation’s (FSCs) and foreign subsidiaries were included under “Dividends Received from Foreign Corporations.”

Dividend distributions among member corporations electing to file a consolidated return were eliminated from the statistics as part of the consolidated reporting of tax accounts. For tax purposes, dividends reported on these returns represented amounts outside the tax-defined affiliated group.

If portfolio stock was wholly or partially financed by debt, no dividend-received deduction was allowed on the debt-financed portion of the stock. There was a separate line item and a separate deduction calculation for dividends on debt-financed portfolio stock. This amount was included as part

of domestic dividends even though it also represented debt-financed stock of foreign corporations.

Dividends or other distributions other than those detailed in Table 20 were included in "Other Receipts."

Dividends received by S corporations were passed through to shareholders and reported on Form 1120S, Schedule K-1, *Shareholders' Shares of Income, Credits, Deductions, etc.* and are not included in the statistics for this item in the Basic Tables section. These statistics are presented in the 1120S Basic Tables section as "Dividend Income" under "Portfolio Income (less deficit) Distributed to Shareholders."

Dividends Received from Foreign Corporations

These were dividends paid from the earnings and profits of companies incorporated in foreign countries.

Dividends received from foreign corporations out of U.S. source earnings and profits or from Foreign Sales Corporations (FSCs) were usually eligible for the dividends received deduction, described in "Statutory Special Deductions," below. Not eligible were dividends out of foreign earnings and profits and certain gains from the sale, exchange, or redemption of Controlled Foreign Corporation stock.

Because foreign dividend gross-up and includable income from controlled foreign corporations were not actual receipts, for statistical purposes they were excluded from dividends received. Both were combined and presented in the statistics as "Constructive Taxable Income from Related Foreign Corporations," discussed above.

Dividends received from foreign corporations by S corporations were not included in these statistics.

Domestic Production Activities Deduction

[Page 1, Line 25]

The Domestic Production Deduction (DPD) was added as part of the American Jobs Creation Act and is available for tax years beginning after December 31, 2004. By keeping manufacturing and software development activities in the United States, exporters may claim a deduction for a percent of their income from qualified exports. The provision, which can be found under Code section 199, was largely written to satisfy WTO objections to Extraterritorial Income (ETI) and Foreign Sales Corporation provisions. The credit is figured on Form 8903.

Effectively Connected Income (ECI) Deduction

[Form 1120-F, Page 3, Line 26]

Home office deductions allocated and apportioned to effectively connected income from Schedule H.

Employee Benefit Programs

[Page 1, Line 24]

Contributions made by employers to employee plans, such as death benefits, insurance, health, accident, sickness, and other welfare plans were deductible under Code sections 419 and 419A. Generally, such programs were not an incidental part of a pension, profit sharing, or other-funded deferred compensation plan. Deductions for a welfare benefit fund were limited to the qualified cost of the fund for the taxable year, as described under Code section 419. Direct payments for employees' welfare were not included as employee benefits; only payments into a fund for employee benefits were included.

Included in the statistics for this item were amounts identified as part of the cost of goods sold, or capitalized under section 263A. Regulated investment companies and real estate investment trusts do not report employee benefits. Some mining companies could have reported an amount for a combination of welfare/retirement plans. When identified, the combined amount was included in the statistics for contributions to employee benefit plans.

Empowerment Zone Employment Credit Δ

[Form 8844, line 4]

Although the EZE credit was a component of the general business credit, it had a special tax liability limitation. A qualified zone employee was any employee who performed substantially all of the services for an employer within an empowerment zone in the employer's trade or business, and had his or her principal residence within that empowerment zone while performing those services. Both full and part-time employees could be qualified zone employees. Qualified zone wages were any wages paid or incurred for services performed by a qualified zone employee. Although a qualified zone employee could earn any amount of wages, only the first \$15,000 of qualified zone wages paid or incurred was taken into account for the credit. The \$15,000 limit was reduced by the amount of wages paid or incurred during the year that was used in figuring the work opportunity credit for that employee. With certain exceptions, amounts paid or incurred by an employer for the education or training of the employee were treated as wages paid to an employee. In general, any individual employed for less than 90 days was not a qualified zone employee. However, there were exceptions to this for an employee who was terminated because of misconduct, who became disabled, or who was acquired by another empowerment zone corporation and who continued to be employed by that corporation.

Estimated Tax Penalty

See "Overpayment or Amount Owed."

Excess Net Passive Income Tax

[Form 1120S, Page 1, Line 22a]

A Subchapter S corporation that had accumulated earnings and profits from a prior subchapter C status and also had net passive income greater than 25 percent of its gross receipts was taxed on the excess (net of related expenses) at the regular corporate tax rate. Passive investment income, in general, was gross receipts derived from rents, royalties, dividends, interest, annuities, or the sales or exchanges of stock or securities.

Foreign Dividend Income Resulting from Foreign Taxes Deemed Paid

[Page 2, Schedule C, Line 15(a)]

See “Constructive Taxable Income from Related Foreign Corporations.”

Foreign Tax Credit

[Page 3, Schedule J, Line 5a]

Code section 901 allowed a credit against U.S. income tax for income taxes paid to foreign countries or U.S. possessions. The credit could be claimed by domestic corporations, except S corporations, and by foreign corporations engaged in trade or business in the United States for foreign taxes paid on income effectively connected with the U.S. business. The U.S. income tax that could be reduced by the credit excluded the recapture taxes and the personal holding company tax. The credit was not allowed for S corporations because their income was primarily taxed through their shareholders; any creditable foreign taxes were also passed through to their shareholders. Regulated investment companies could elect under Code section 853 to allow their shareholders to claim any credit for the foreign taxes paid. However, if the election was not made, the regulated investment company could claim the tax credit.

The foreign tax credit was subject to a limitation that prevented the corporations from using foreign tax credits to reduce U.S. tax liability on U.S.-sourced income. The credit was limited to a percentage of total U.S. income tax equal to the ratio of taxable income from foreign sources to worldwide taxable income. Previously this limitation was computed separately for foreign taxes paid or accrued with respect to nine categories of income. In 2006 the categories changed to four. These are (1) Passive Income; (2) General Category Income; (3) Section 901 (j) Income (Sanction Country Income); and (4) Income Re-sourced by Treaty. Foreign taxes in excess of the limitation for any 1 year could be carried back 1 year (2 years for credits arising in a tax year beginning before October 23, 2004) and forward 10 years (5 years for credits that can be carried forward to any tax year ending before October 23, 2004). The carryover periods (1 year back and 10 years forward) were modified by the American Jobs Creation Act of 2004.

A corporation that claimed (or passed through) the foreign tax credit could not also claim a business deduction for the same foreign taxes paid. The credit could be reduced for taxes paid on foreign income from operations involving participation or cooperation with an international boycott. The

foreign tax credit was not allowed for taxes paid to certain foreign countries whose government was not recognized by the United States, with which the United States severed or did not conduct diplomatic relations, or which supported international terrorism.

General Business Credit

[Form 3800, Line 38]

The general business credit consisted of a combination of several individual credits* of which the following are edited by SOI: investment credit (Form 3468), research credit (Form 6765), low-income housing credit (Form 8586), disabled access credit (Form 8826), renewable electricity production credit (Form 8835), Indian employment credit (Form 8845), orphan drug credit (Form 8820), new markets credit (Form 8874), credit for small employer pension plan startup costs (Form 8881), credit for employer-provided child care facilities and services (Form 8882), biodiesel fuels credit (Form 8864), low sulfur diesel fuel production credit (Form 8896), alternative motor vehicle credit (Form 8910), alternative fuel vehicle refueling property credit (Form 8911), qualified plug-in electric drive motor vehicle credit (Form 8936), qualified plug-in electric vehicle credit (Form 8834, Part I), investment credit (Form 3468), work opportunity credit (Form 5884), alcohol and cellulosic biofuel fuels credit (Form 6478), low-income housing credit (Form 8586, Part II), renewable electricity, refined coal, and Indian coal production credit (Form 8835), credit for employer social security and Medicare taxes paid on certain employee tips (Form 8846), credit for small employer health insurance premiums (Form 8941), and the empowerment zone employment credit (Form 8844). If a corporation claimed more than one of these credits, reported a carryforward, had credits from a passive activity, or had the Trans-Alaska pipeline liability fund credit, or had the general credits from an electing large partnership (Schedule K-1, Form 1065-B), Form 3800 was to be filed with the income tax return. The separate components of the general business credit are shown in Table 21.

*The following general business credit forms are not edited: Forms 8900, 8906, 8907, 8908, 8909, 8923, 8931, 8932, 8933, 5884-A and 5884-B. However, the current-year amount is displayed on the appropriate line of Form 3800 and included in the “credit allowed for the current year” (line 32).

The purpose of the general business credit was to provide a uniform limitation on the amount that could be used to reduce tax liability and to establish uniform rules for carrybacks and carryforwards. Each of the credits was computed separately. Total credits became the general business credit for the purpose of applying the maximum tax liability rules and the carryback and carryforward rules.

Except for the investment credits, S corporations computed these credits at the corporate level; the credits were then

passed through to the shareholders. For the investment credits, the S corporation reported the basis in the qualifying property to each shareholder. The shareholders themselves computed the credits. However, S corporations that were previously C corporations could use business credit carryforwards from their C-corporation status to reduce tax on their net recognized built-in gains.

According to Code section 38(c), the general business credit shall not exceed the excess of the taxpayer’s net income tax over the greater of (1) the tentative income tax, or (2) 25 percent of so much of the taxpayer’s net regular tax liability as it exceeds \$25,000.

When the credit exceeded the limitation in any year, the excess became an unused business credit that could be carried back 1 year and forward 20 years. (For tax years beginning before December 31, 1997, the carryback period was 3 years and 15 years forward). Carryforwards of the general business credit from prior years are shown separately in Table 21.

Income Subject to Tax

[Page 1, Line 30]

This was generally the amount of income subject to tax at the corporate level. For most corporations, income subject to tax consisted of net income minus the “Statutory Special Deductions” described in this section. However, there were certain exceptions. S corporations were usually not taxable at the corporate level and so did not have income subject to tax. Some, however, had a limited tax liability on capital gains and so were included in the statistics for this item. Likewise, regulated investment companies and real estate investment trusts generally passed their net income on to be taxed at the shareholder level; but any taxable amounts not distributed were included in income subject to tax. Because insurance companies were permitted to use reserve accounting for tax purposes, insurance income subject to tax was based on changes in reserve accounts; life insurance companies could also have been allowed an additional special deduction (discussed in “Statutory Special Deductions”). Consolidated returns that contain life insurance subsidiaries were not allowed to offset all of the life insurance subsidiary’s gains by losses from nonlife companies, so it was possible for such a consolidated return to show no net income but still have a positive amount of income subject to tax.

Income Tax

[Page 3, Schedule J, Line 2]

Income tax was the amount of a corporation’s total tax liability calculated at the regular corporate tax rates in Code section 11 (or substitutes for section 11).

The rates of tax on taxable incomes below \$18,333,333 were graduated (with some exceptions). Corporations other than members of a controlled group or personal service corporations used the following tax rate schedule. If taxable income is:

Over:	But not over:	Tax is:	Of the amount over:
\$0	\$50,000	15%	\$0
50,000	75,000	\$7,500 +25%	50,000
75,000	100,000	13,750 +34%	75,000
100,000	335,000	22,250 +39%	100,000
335,000	10,000,000	113,900 +34%	335,000
10,000,000	15,000,000	3,400,000 +35%	10,000,000
15,000,000	18,333,333	5,150,000 +38%	15,000,000
18,333,333	-----	35%	0

The 39-percent and 38-percent rates were imposed to phase out the benefits of the lower brackets for high-income corporations.

Beginning with the 2006 Tax Year, members of controlled groups were required to complete the new Schedule O, *Consent Plan and Apportionment Schedule for a Controlled Group*, to delineate the shared apportionment of their tax liability. See “Consent Plan and Apportionment Schedule for a Controlled Group” in this section for details. Personal service corporations (qualified under section 448 to use cash accounting) were taxed at a flat 35 percent on all of their taxable income.

Most income of S corporations was taxed only at the shareholder level. However, for S corporations that had once been C corporations, the corporate income tax was imposed on certain long-term capital gains, recognized built-in gains, and excess net passive income. The taxes paid on capital gains or recognized built-in gains by S corporations were included in the corporate statistics as “Income Tax.”

The taxes paid on excess net passive income were excluded from “Income Tax” but were included in “Total Income Tax.”

A small number of corporations without net income had an income tax liability. These were corporations reporting all or part of their income under special life insurance rules, including consolidated returns filing a life insurance subsidiary.

See also, “Total Income Tax Before Credits” and “Total Income Tax After Credits.”

Indian Employment Credit

[Form 8845]

This component of the general business credit was for employing members of American Indian tribes on Indian

reservations. The credit was equal to 20 percent of the excess of wages and health benefits for such employees over the amount paid such employees in 1993, limited to \$20,000 per employee.

For the income tax limitations and carryback and carry-forward provisions that apply, see “General Business Credit” in this section.

Intangible Assets and Accumulated Amortization

[Page 5, Schedule L, Line 13a(c)]

Intangible assets represented the total gross value of goodwill, contracts, formulas, licenses, patents, registered trademarks, franchises, covenants not to compete, and similar assets that were amortizable for tax purposes. Thus, specific intangible asset items were included in this category only if amortization (or depreciation) actually had been taken against them.

The amounts shown as accumulated amortization represent the portion of these intangible assets that were written off in the current year as well as in prior years. In general, intangible assets were the gross amounts before adjustments for amounts of accumulated amortization. Some corporations, however, reported only the net amount of intangible assets after adjusting for amortization charges.

Interest

[Page 1, Line 5]

Taxable interest, a component of total receipts, included interest on U.S. government obligations, loans, notes, mortgages, nonexempt private activity bonds, corporate bonds, bank deposits, and tax refunds. The statistics also included dividends from savings and loans and mutual savings banks, federal funds sold, finance charges, and sinking funds. The interest received was reduced by the amortizable bond premium under Code section 171.

Interest received from tax-exempt State or municipal bonds and ESOP loans was not included in this item. Corporations were not allowed to offset any interest expense against interest income. However, if the corporation reported only a net amount, this figure was used in the statistics. See also, “Interest Paid.”

Interest received by S corporations was passed through to shareholders and reported on Form 1120S, Schedule K-1, *Shareholders' Shares of Income, Credits, Deductions, etc.*, and are not included in the statistics for this item in the Basic Tables section. These statistics are presented in the 1120S Basic Tables section as “Interest Income” under “Portfolio Income (less deficit) Distributed to Shareholders.”

Interest on Government Obligations: State and Local

[Page 5, Schedule M-1, Line 7, and Page 2, Form 8916-A, Part II, Line 1, column (c), or Page 3, Form 1120, Schedule K, Line 9, or Page 3, Form 1120S, Schedule K, Line 16a]

The interest received from certain government obligations was not subject to U.S. income tax. These tax-exempt obligations included those issued by States, municipalities, and other local governments, the District of Columbia, and U.S. possessions, including Puerto Rico.

For statistical presentation, this interest was included in total receipts. However, it was not included in net income (less deficit) or income subject to tax.

Interest Paid

[Page 1, Line 18]

These amounts consisted of interest paid by corporations on all business indebtedness. For banking and savings institutions, the statistics also included interest paid on deposits and withdrawable shares. For mutual savings banks, building and loan associations, and cooperative banks, interest paid included amounts paid or credited to the accounts of depositors as dividends, interest, or earnings under Code section 591. Interest identified as part of the cost of goods sold or capitalized under section 263A was excluded from cost of goods sold and included in the statistics as interest paid.

Inventories

[Page 5, Schedule L, Line 3(d)]

These were the corporations' end-of-year inventories as reported on their balance sheets. Inventories included such items as finished goods, partially finished goods (work in progress), new materials and supplies acquired for sale, merchandise on hand or in transit, and growing crops reported as assets by agricultural concerns. Inventories reported on balance sheets were book accounts and would not necessarily have corresponded to those reported for tax purposes in cost of goods sold.

Inventories reported on the returns of companies in financial industries were transferred during statistical processing to other balance sheet accounts (unless reported on a consolidated return with nonfinancial subsidiaries). For security brokers and dealers, commodity brokers and dealers, and holding and other investment companies (except bank holding companies), inventories were included in “Other Investments.” For the rest of the “Finance and Insurance” and “Management of Holding Companies” sectors, inventories were included in “Other Current Assets.” Inventories shown in the statistics for the “Finance and Insurance” and “Management of Holding Companies” sectors were those reported by consolidated financial companies with diversified nonfinancial subsidiaries.

See also “Cost of Goods Sold.”

Inventory, Beginning of Year

[Form 1125-A, Line 1]

Closing inventories from the end of the previous year.

See also “Inventory, End of Year.”

Inventory, End of Year

[Form 1125-A, Line 7]

These were ending inventories as calculated for tax purposes. Inventories included the portion of its raw materials and merchandise purchased for resale and not sold during the year. Statistical adjustments made to the current-year components of cost of goods sold were not carried over into the capitalized inventory accounts, which were shown as reported by taxpayers (except for necessary corrections).

See “Cost of Goods Sold.”

Investment Credit

[Form 3468]

This credit was composed of five separate, unrelated credits: the rehabilitation investment credit, the energy credit, the qualifying advanced coal project credit, qualifying gasification project credit, and qualifying advanced energy project credits.

The **energy credit** was allowed for equipment that used solar, geothermal, qualified fuel cell, and qualified micro-turbine property to generate electricity, heat or cool a building or provide heat for a process.

The **qualifying advanced coal project credit** was allowed on investments in qualifying advanced coal projects. This project must be located in the United States and should be used to power a new electric generation unit or to refit to repower an existing electric generation unit.

The **qualifying gasification project credit** was allowed on qualified investments that employ gasification technology, carried out by an eligible entity. This credit was not allowed on any investments already claimed under the qualifying advanced coal project credit.

The **qualifying advanced energy project credit** is a credit based off a project that re-equips, expands, or establishes a manufacturing facility for the production of property, fuel cells, and electric. The property must be used to produce energy from the sun, wind, geothermal deposits, or other renewable resources.

The **rehabilitation tax credit** offsets the cost of rehabilitating a certified historic structure or the rehabilitation costs for any nonresidential building originally placed in service before 1936. The rehabilitation had to be “substantial” and meet strict criteria for how much of the original structure was retained.

The rehabilitation of historic structures had to be approved by an appropriate State or Federal official.

The investment credit was subject to recapture if the property was sold or converted to other uses. For S corporations, the investment credit was computed at the shareholder, not the corporate, level. The S corporation reported the basis in the qualifying property to each shareholder for this purpose.

For a discussion of the income tax limitations and carry-back and carryforward provisions of the credit, see “General Business Credit” in this section. The components of the general business credit were shown separately in Table 21.

Investments in Government Obligations

[Page 5, Schedule L, Line 4(d)]

This balance sheet asset item comprised U.S. obligations, including those of instrumentalities of the Federal Government. State and local government obligations, the interest on which was excluded from gross income under section 103(a), were included in “Tax-Exempt Securities.”

Some property and casualty insurance companies included investments in government obligations within other investments on the income tax return, Form 1120-PC. When identified, the amounts were included in the statistics for investments in government obligations and excluded from other investments.

Land

[Page 5, Schedule L, Line 12(d)]

Land, which was reported as a separate capital asset on the balance sheet, may be understated in this report because it could not always be identified. Some corporations may have included land as part of depreciable or depletable assets or included it in other investments. Whenever corporations included and identified land as part of depreciable assets, the amount was reclassified as land, but land improvements remained as depreciable assets.

Loans from Shareholders

[Page 5, Schedule L, Line 19(d)]

This balance sheet liability item was regarded as long term in duration and included loans to the company from holders of the company’s stock.

Loans to Shareholders

[Page 5, Schedule L, Line 7(d)]

This balance sheet asset item was regarded as long term in duration and included loans to persons who held stock in the corporation.

Losses Incurred

[Form 1120-PC, Schedule A, Line 26]

See “Cost of Goods Sold.”

Low-Income Housing Credit

[Form 8586]

The low-income housing credit was a credit for the acquisition of housing units rented to low-income persons allowed over 10 years. The annual credit was designed so that the taxpayer taking it received over the 10 years the present value of 70 percent of the basis of the low-income units in a residential building (30 percent in the case of certain federally subsidized new buildings or rehabilitated existing buildings).

The low-income housing credit could only be claimed if allocated to a residential rental project by a State housing authority and if it met the strict requirements for rental to low-income renters. If the project was sold or ceased to qualify in the first 15 years, the owner was required to repay a portion of the credit previously taken.

Part I is used to calculate the credit for buildings placed in service before January 1, 2008.

Part II is used to calculate the credit for buildings placed in service after 2007. The taxpayer can enter the current year LIHC from the 8609-A and also make adjustments to carryforwards and carrybacks of the LIHC credit. The Part II portion serves the same function as the lines on other general business credit forms whose credit is not subject to alternative minimum tax limitations.

The low-income housing credit was claimed as one of the components of the general business credit. For a discussion of the income tax limitations and carryback and carryforward provisions of the credit, see "General Business Credit." The components of the general business credit are shown separately in Table 21.

Low Sulfur Diesel Fuel Production Credit

[Form 8896]

Qualified small business refiners may claim a credit for qualified expenditures to produce low sulfur diesel fuel (Code section 45H). Beginning in 2006, taxpayers that were not partnerships, S corporations, or cooperatives were allowed to claim this credit directly on Form 3800, eliminating the need for those taxpayers to file Form 8896. The tax liability for this credit is not computed on Form 8896, instead it is computed as part of the General Business Credit on Form 3800. The Low Sulfur Diesel Fuel credit was claimed as one of the components of the general business credit. For a discussion of the income tax limitations and carryback and carryforward provisions of the credit, see "General Business Credit" in this section. The components of the general business credit are shown separately in Table 21.

Mortgage and Real Estate Loans

[Page 5, Schedule L, Line 8(d)]

In general, mortgage and real estate loans were the total amount a corporation loaned on a long-term basis, accepting mortgages, deeds of trust, land contracts, or other liens on real estate as security.

Because the return form did not provide a separate place for reporting any reserve for uncollectable mortgage and real estate loan accounts, such reserves may have been included in the allowance for bad debts, shown in this report as an adjustment to notes and accounts receivable. If a corporation reported an uncollectable mortgage and real estate loan reserve on a separate schedule, that amount was moved during statistical processing to allowance for bad debts.

Mortgages, Notes, and Bonds Payable

[Page 5, Schedule L, Lines 17(d) and 20(d)]

Mortgages, notes, and bonds payable were separated on the balance sheet according to the length of time to maturity of the obligations. The length of time to maturity was based on the date of the balance sheet rather than on the date of issue of the obligations. Accordingly, long-term obligations maturing within the coming year were reportable with short-term obligations as having a maturity of less than 1 year. Deposits and withdrawable shares may have been reported in mortgages, notes, and bonds payable by banks and savings institutions. When identified, such amounts were transferred to "Other Current Liabilities."

Net Capital Gains

[Schedule D, Lines 16 and 17]

In the tables in this report, capital gains net of capital losses were presented divided into two data items: "Net Short-Term Capital Gain Reduced by Net Long-Term Capital Loss" and "Net Long-Term Capital Gain Reduced by Net Short-Term Capital Loss." A gain or loss from the sale or exchange of capital assets was short term if the assets had been held for 1 year or less and long term if they had been held for longer than 1 year. The distinction between long-term and short-term assets was maintained in the Code and in the reporting forms even though it did not affect tax liability.

For corporations, capital losses were generally deductible only from capital gains, so only net gains were included in the statistics. Excess net losses could be carried back as short-term losses to be applied against the net capital gains of the 3 preceding years; any losses remaining after carryback were carried over the 5 succeeding years. A net capital loss for a regulated investment company could be carried forward 8 years instead of 5 years. If the unused capital loss carryover was not eliminated within the prescribed span of years, it could not be taken. Regardless of origin, all carrybacks and carryovers were treated as short-term capital losses for carryback and carryover purposes.

In general, capital assets for tax purposes meant property regarded or treated as an investment, such as stocks and bonds. Code section 1221 defined the capital assets as all property held by the corporation except:

- (1) stock in trade or other property included in inventory or held mainly for sale to customers;
- (2) notes and accounts receivable acquired in the ordinary course of business;
- (3) depreciable or real property used in the trade or business;
- (4) copyrights, literary, musical, or artistic compositions, or similar properties not acquired by purchase;
- (5) publications of the United States Government not acquired by purchase;
- (6) certain commodities derivative financial instruments held by a dealer;
- (7) certain hedging transactions entered into in the normal course of trade or business; and
- (8) supplies regularly used in the trade or business.

Gains from constructive ownership transactions entered into after July 11, 1999, that involved any equity interest in passthrough entities such as partnerships, S corporations, trusts, regulated investment companies, and real estate investment trusts that would otherwise be treated as capital gains could be treated instead as ordinary income. Constructive ownership transactions included gains from notional principal contracts with the right to receive substantially all of the investment yield of an equity interest and the obligation to reimburse substantially all of any decline in value of the interest; a forward or futures contract to acquire an equity interest; and the holding of a call option and writing of a put option at substantially the same strike price and maturity date. A net underlying long-term capital gain had to be established by computing a net capital gain as though the asset were acquired at its fair market value when the transaction was opened and sold at its fair market value when the transaction was closed. If not established, the net underlying long-term capital gain was treated as zero. Any long-term capital gain that exceeded the net underlying long-term capital gain was treated as ordinary income. Gains from constructive ownership transactions that were marked to market were excluded from this provision to be treated as ordinary income.

Although depreciable and real property used in the trade or business was defined as not a capital asset, gain on such

property held for more than 1 year could be treated as long-term capital gain. See “Net Gain (or Loss), Noncapital Assets” below.

The capital gains of S corporations were passed through to their shareholders and not included in the corporations’ ordinary income (loss) from trade or business activities but were reported on Form 1120S, Schedule K-1, *Shareholders’ Shares of Income, Credits, Deductions, etc.* These statistics are presented in the 1120S Basic Tables Section as “Net Short-Term Capital Gain (less loss)” and “Net Long-Term Capital Gain (less loss)” under “Portfolio Income (less deficit) Distributed to Shareholders.”

Net Gain (or Loss), Noncapital Assets

[Page 1, Line 9]

This item includes all losses from the sale or exchange of noncapital assets, but only those gains that were not treated as long-term capital gains. Noncapital assets included property used in a trade or business plus certain other transactions given special treatment by statute. After December 16, 1999, noncapital assets were expanded to also include certain financial assets such as:

- (1) certain commodities derivative financial instruments held, acquired, or entered into by commodities derivatives dealers;
- (2) any hedging transaction clearly identified as a hedging transaction before the close of the day on which it was acquired, originated, or entered into; and
- (3) supplies regularly used or consumed in the ordinary course of a trade or business.

A commodities derivative financial instrument is a commodities contract or other financial instrument with respect to commodities, for which the value or settlement price is calculated or determined by reference to a specified index as defined in Code section 1221(b). A commodities derivative dealer is an entity which regularly offers to enter into, assume, offset, assign, or terminate positions in commodities derivative financial instruments with customers in the ordinary course of a trade or business. A hedging transaction is any transaction entered into in the normal course of a trade or business primarily to manage one of the following: 1) risk of price changes or currency fluctuations involving ordinary property held (or to be held) and 2) risk of interest rate or price changes, or currency fluctuations, involving borrowed funds or ordinary obligations incurred (or to be incurred).

Rules governing the computation of a net gain or loss from noncapital assets were provided under Code section 1231. Transactions treated under these special provisions included:

- (1) the sale or exchange of real or depreciable property used in a trade or business;
- (2) the cutting or disposal of timber treated as a sale or exchange under Code sections 631(a) and (b);
- (3) the disposal of coal or iron ore treated as a sale under Code section 631(c);
- (4) the sale or exchange of livestock (excluding poultry) used in a trade or business for draft, breeding, dairy, or sporting purposes, if held for at least 12 months (24 months for horses and cattle);
- (5) the sale or exchange of unharvested crops sold with the land; and
- (6) the involuntary conversion of property or capital assets due to partial or total destruction, theft, seizure, requisition, or condemnation.

Long-term gains from section 1231 transactions were treated as long-term capital gains for tax purposes and were included in “Net Capital Gains” in these statistics. Losses under section 1231 were treated as ordinary losses, i.e., fully deductible from ordinary income. Amounts treated as long-term gains were reduced by a number of provisions designed to recapture (as ordinary income) previous benefits. These provisions included: sections 1245 and 1250, recapturing some depreciation taken previously; section 1252, recapturing conservation and land clearing expenses upon the sale of some farmland; section 1254, recapturing certain depletion, intangible drilling, and mine development expenses; and section 1255, recapturing some crop-sharing payments if a farm is sold within 20 years of receiving the payments.

Statutory provisions allow that recognition of a gain or loss may be postponed under certain circumstances. The postponement of gain recognition accounts for some differences in tax versus book income. This difference is not presented in these statistics.

Gains and losses resulting from involuntary conversions, due mostly to casualty and theft, received special treatment. Such losses were to be included in the computation of net gain or loss, noncapital assets. However, some corporations reported them in other deductions, in which case, the losses were included in the statistics for other deductions. No attempt was made to recompute the net gain or loss from noncapital assets or the carryover of losses subject to recapture rules for such returns.

Although this item was a part of corporate-level income for S corporations, the portion of gain treated as long-term capital gain under section 1231 was not a part of the

corporations’ ordinary income (loss) from trade or business activities but rather was reported on Form 1120S, Schedule K-1, *Shareholders’ Shares of Income, Credits, Deductions, etc.*

Net Income (or Deficit)

[Page 1, Line 28]

This was net profit or loss from taxable sources of income reduced by allowable deductions. It differed from “Total Receipts Less Total Deductions” because it included “Constructive Taxable Income from Related Foreign Corporations” and excluded “Interest on Government Obligations: State and Local.” Net income generally differed from “Income Subject to Tax” by the “Statutory Special Deductions” allowed corporations. More information can be found under all these headings in this section.

Net income included income from the trade or business activities of S corporations, including ordinary gain from the sale of business property. Although the income was taxable to the shareholders, it was used for the statistics as a measure of corporate business activity for these companies. For tax purposes, net income for S corporations excluded passive income, which was passed through to the shareholders and reported on Form 1120S, Schedule K-1, *Shareholders’ Share of Income, Credits, Deductions, etc.* Statistics on these items are presented in the 1120S Basic Tables as “Net income (less deficit) from a trade or business.” Although certain long-term capital gains were taxable to S corporations before the gains were passed through to the shareholders, these gains were excluded from net income.

The statistics for net income (or deficit) also included the “effectively connected income” of foreign corporations operating in the United States. Generally, income was considered effectively connected if the foreign corporation conducted a trade or business in the United States and the income was attributable to that business.

Property and casualty insurance companies with premium income of \$1,200,000 or less could elect to compute income tax on their taxable investment income only, deducting only expenses related to that income. Therefore, the statistics for net income included only net investment income for those companies. (Such a company with premiums of \$600,000 or less was exempt from tax and so does not appear in these statistics.)

Net Long-Term Capital Gain Reduced by Net Short-Term Capital Loss

See “Net Capital Gains.”

Net Operating Loss Deduction

See “Statutory Special Deductions.”

Net Short-Term Capital Gain Reduced by Net Long-Term Capital Loss

See “Net Capital Gains.”

Net Worth

Net worth represented the shareholders’ equity in the corporation (total assets minus the claims of creditors). In the statistics, net worth comprised the net sum of the following items:

- (1) capital stock;
- (2) additional paid-in capital;
- (3) retained earnings, appropriated;
- (4) retained earnings, unappropriated;
- (5) adjustments to shareholders’ equity;
- (6) less the cost of treasury stock.

New Markets Credit

[Form 8874]

The New Markets tax credit has been created to increase investments in low-income communities. The credit was equal to 5 percent of the investment in a qualified community development entity for the first 3 allowance dates and 6 percent of the investment for the next 4 allowance dates. The total credit available was equal to 39 percent of the investment over 7 years.

The New Markets tax credit is a part of and subject to the limitations and carryover rules of the general business credit. The credit may not be carried back to tax years ending before January 1, 2001. Any unused credit at the end of the carryforward period will be allowed as a deduction in the following tax year. The components of the general business credit are shown separately in Table 21.

Nonconventional Source Fuel Credit

[Form 3800, Page 3, Line 10]

The amount of the Nonconventional Source Fuel Credit is figured on Form 8907. This credit is allowed for the production of qualified fuel that was sold by a taxpayer to an unrelated person during the tax year. In general, the amount of the credit is \$3 (adjusted for inflation) per barrel of oil-equivalent fuel, and production must occur within the U.S. or a U.S. Possession. Qualified fuels include the following if sold before 2008:

- (1) Gas produced from biomass; and
- (2) Liquid, gaseous, or solid synthetic fuels produced from coal.

It also includes coke and coke gas (if sold after December 31, 2005) produced in a facility where the original use began with the taxpayer and is not produced from petroleum-based products.

For tax years after December 31, 2005, the Energy Tax Incentive Act of 2005 made the nonconventional source fuel credit part of the general business credit, and will be subject to the limitation and carryforward rules of the general business credit.

Notes and Accounts Receivable

[Page 5, Schedule L, Line 2a(c)]

In general, notes and accounts receivable were the gross amounts arising from business sales or services to customers on credit during the ordinary course of trade or business. These current assets would normally be converted to cash within 1 year. This category included commercial paper, charge accounts, current intercompany receivables, property improvement loans, and trade acceptances. Current nontrade receivables were generally included in other current assets.

Certain savings and loan associations reported loans and mortgages as notes and accounts receivable. When identified, such mortgage loans were included in the statistics for mortgage and real estate loans, rather than notes and accounts receivable.

The gross amount of the receivables and the corresponding adjustment account, allowance for bad debts, were reported on the balance sheets of most corporation income tax forms. For an explanation of the adjustment account, see “Allowance for Bad Debts.” Some corporations, however, reported only the net amount of the accounts receivable.

Number of Returns

This was a count of the returns filed by active corporations on one of Form 1120-series returns. It included ordinary for-profit C corporations filing Form 1120 or its simplified version, S corporations electing to be taxed through their shareholders filing Form 1120S, foreign corporations with U.S.-source income filing Form 1120-F, life insurance companies filing Form 1120-L, property and casualty insurance companies filing Form 1120-PC, Real Estate Investment Trusts filing Form 1120-REIT, and Regulated Investment Companies filing Form 1120-RIC. It did not include nonprofit corporations, exempt farmers’ cooperatives, and many other incorporated organizations that did not file corporation income tax returns. It also did not include the returns of inactive corporations, defined as those reporting no item of income or deductions.

See Section 3, Description of the Sample and Limitations of the Data.

Consolidated groups could file a single return covering many corporations, so the number of returns was not a count of the number of active corporations.

See “Consolidated Returns.”

Orphan Drug Credit

[Form 8820]

This was a credit for 50 percent of the costs of testing drugs to be used for treating rare diseases, defined as those affecting fewer than 200,000 people or those occurring so infrequently that developing a drug to treat them would not be economical. This had been one of the “sunset” provisions (regularly reviewed and extended), but the Taxpayer Relief Act of 1997 made it a permanent part of the tax law.

The orphan drug credit was claimed as one of the components of the general business credit. For a discussion of the income tax limitations and carryback and carryforward provisions of the credit, see “General Business Credit.” The components of the general business credit are shown separately in Table 21.

Other Assets

[Page 5, Schedule L, Line 14(d)]

In general, other assets comprised noncurrent assets, which were not allocable to a specific account on the balance sheet, and certain assets not identified as current or noncurrent. Both tangible and intangible assets were included in this category. Also included were assets such as: deposits on contracts, interest discounts, and guaranty deposits, when reported as noncurrent assets.

Other assets of life insurance companies included the market value of real estate and that portion of stock and bond holdings in excess of book value. For statistical purposes, negative balance sheet asset accounts have been moved to, and included in, the computation of other assets. This procedure was adopted to address the increased usage of negative items being reported on corporate balance sheets. This process may cause other assets to become negative in certain situations. When identified on the tax return, assets held for investment were not included in other assets.

Other Costs

[Form 1125-A, Line 5]

See “Cost of Goods Sold.”

Other Credits and Payments

[Form 1120-PC, Page 1, Line 14i]

See “Overpayment or Amount Owed.”

Other Current Assets

[Page 5, Schedule L, Line 6(d)]

Other current assets included assets not allocable to a specific current account listed on the balance sheet of the tax form and assets reported as short term, but without identification of a specific current account.

Marketable securities, prepaid expenses (unless reported as long term), nontrade receivables, coupons and dividends receivable, and similar items were included in this asset account. Deposits were included here for banks and deposit institutions. Also included were amounts in excess of billings for contract work in progress reported as current by construction corporations.

When reported by certain nonconsolidated financial companies, inventories were included in the statistics for other current assets, rather than for inventories. Those nonconsolidated financial companies included banks, credit agencies, insurance companies, insurance agents, brokers, real estate operators, lessors, and condominium management and cooperative housing associations. Inventories were included in other current assets if reported by bank holding companies, whether consolidated or nonconsolidated. However, if consolidated with nonfinancial subsidiaries, then inventories were not moved to other current assets to the extent they were attributable to the nonfinance subsidiaries.

Some property and casualty insurance companies included investments in government obligations and tax-exempt securities with other current assets on the income tax return, Form 1120-PC. When identified, the amounts were included in the statistics for investments in government obligations and tax-exempt securities and excluded from other current assets.

Other Current Liabilities

[Page 5, Schedule L, Line 18(d)]

Other current liabilities included certain amounts due and payable within the coming year. The account was comprised of accrued expenses, as well as current payables not arising from the purchase of goods and services. Examples of other current liabilities were taxes accrued or payable, accrued employee accounts such as for payrolls and contributions to benefit plans, dividends payable, overdrafts, accrued interest or rent, and deposits and withdrawable shares of banking and savings institutions, if not reported as long-term by the corporation. For construction corporations, amounts for uncompleted contracts or jobs in progress were included in this item, if reported as current.

Other Deductions

[Page 1, Line 26]

Other deductions comprised: (1) business expenses which were not allocable to a specific deduction item on the tax return, or which were not included elsewhere on the tax return, and (2) certain amounts which were given special treatment in the course of statistical processing. It also included adjustments reported as deductions.

The first category included such items as administrative, general, and selling expenses; commissions (unless reported as cost of goods or salaries and wages); delivery, freight, and shipping expenses; sales discounts; travel and entertainment expenses; utility expenses not reported as part of the cost of goods sold; and similar items. For meal and entertainment expenses, generally only 50 percent was deductible.

The second category included intangible drilling costs, direct pensions (paid by a company to an individual but not to pension plans), employee welfare (but not payments to welfare or benefit plans), moving expenses (for employees), partnership net losses, and patronage dividends paid. Also included were itemized business deductions and other deductions unique to life and property and casualty insurance companies.

Losses from involuntary conversions which were reported as ordinary losses on Form 4797, *Supplemental Schedule of Gains and Losses*, were included in the statistics for "Net Gain (or Loss), Noncapital Assets." However, some taxpayers reported such amounts as deduction items; if so, they were included in the statistics for "Other Deductions." Also included were net foreign currency losses for regulated investment companies, life insurance increases in reserves, and policyholder dividends paid by insurance companies on participating policies (after certain adjustments).

The statistics for other deductions excluded amounts for amortization and from specified policy acquisition expenses of life insurance companies (IR Code section 848) (except amortization of intangible drilling costs), which were moved during statistical processing to "Amortization."

Other Investments

[Page 5, Schedule L, Line 9(d)]

This category generally included long-term nongovernment investments and certain investments for which no distinction could be made as to their current or long-term nature. Examples of nongovernment investments included stocks, bonds, loans to subsidiaries, treasury stock reported as assets, and other types of financial securities.

Real estate not reported as a fixed asset could also be included. In certain instances, land and buildings owned by real estate operators (except lessors of real property other than buildings) were reported as other investments. Certain insurance carriers also included their real estate holdings (other than their home and branch office buildings) in this asset category.

When inventories were reported by companies in certain financial industries, the amounts were included in the statistics for other investments and excluded from inventories. For security brokers and dealers, commodity brokers, dealers, and exchanges, and holding and other investment companies (except bank holding companies), inventories were included in other

investments unless the return was consolidated and included nonfinance subsidiaries. Inventories attributable to the nonfinance subsidiaries were not moved to other investments.

The statistics may be somewhat overstated by amounts that should have been reported for treasury stock. When treasury stock held for resale or for future distribution was reported as an asset, rather than as an offset to capital stock, the treasury stock was included in the statistics for other investments.

Some property and casualty insurance companies included investments in government obligations and tax-exempt securities in other investments on the income tax return, Form 1120-PC. When identified, these amounts were transferred to the appropriate accounts.

Other Liabilities

[Page 5, Schedule L, Line 21(d)]

Other liabilities were obligations which were not allocable to a specific account on the balance sheet and which were either noncurrent accounts, in general not due within 1 year, or accounts which could not be identified as either current or long term. The excess of reserves for amortization, depreciation, and depletion over the respective asset accounts was included in this balance sheet account.

Examples of other liabilities were deferred or unearned income not reported as part of a current account, provisions for future or deferred taxes based on the effects of either accelerated depreciation or possible income tax adjustments, and principal amounts of employee and similar funds. Accounts and notes payable, borrowed securities, commissions, intercompany accounts, loans, overdrafts, and unearned income were also included. For statistical purposes, negative balance sheet liability accounts have been moved to, and included in, the computation of other liabilities. This procedure was adopted to address the increased usage of negative items being reported on corporate balance sheets. This process may cause other liabilities to become negative in certain situations.

Other Receipts

[Page 1, Line 10]

Other receipts included amounts not reported elsewhere on the return form. These included income from minor operations; cash discounts; income from claims, license rights, judgments, and joint ventures; net amount earned under operating agreements; profit from commissaries; profit on prior-years' collections (installment basis); profit on the purchase of a corporation's own bonds; recoveries of losses and bad debts previously claimed for tax purposes; refunds for the cancellation of contracts; auto lease inclusion income; and income from sales of scrap, salvage, or waste.

Unidentified and certain dividends received were also regarded as "other receipts." For example, those from Federal

Reserve and Federal Home Loan Banks and the following special classes of corporations: corporations deriving a large percent of their gross income from sources within a U.S. possession, when they did not provide detailed attachments; tax-exempt charitable, educational, religious, scientific and literary organizations, and mutual and cooperative societies including farmers' cooperatives. Also included were any adjustment items reported by corporations and listed in other income, payments with respect to security loans, foreign currency gains for regulated investment companies, and life insurance decreases in reserves. See also "Business Receipts."

Overpayment or Amount Owed

[Page 1, Line 35]

All corporations with more than minimal tax liability were required to have settled their liability by the time their returns were due for their accounting year, within specified tolerances. They were required to estimate their liability at the beginning of their tax year and make payments on this estimated tax liability at least quarterly. If estimated tax payments were less than final tax liability for the year, within the allowed tolerances, the corporation was assessed a penalty. The corporation could count as tax payments its "Credit for Tax Paid on Undistributed Capital Gains," "Credit for Federal Tax on Fuels," and "Refundable Credits" (see these headings, above). A property and casualty insurance company could also claim a credit for taxes paid by a reciprocal (see "Reciprocal Tax") and for certain other payments and credits it could have been required to make. A corporation that requested an extension of time to file its tax return was required to pay any final estimated tax liability not already covered (see "Tax Deposited with Form 7004"). When the corporation finally filed its return for the year, it would seldom have paid exactly the final liability; most corporations would have had either an overpayment or an amount owed.

Estimated tax payments were required of any corporation expecting to owe a tax liability of \$500 or more for the year. The payments had to be made quarterly, on the fifteenth day of the fourth, sixth, ninth, and twelfth months of the company's accounting year. If the total payments for the year were greater than the liability shown on the return, the overpayment could be either refunded or applied to next year's estimated tax liability. If a corporation realized before it filed its return that it had overpaid, and the overpayment was at least \$500 and at least 10 percent of tax liability for the year, it could apply for an immediate refund of the excess payment. The application had to be made within 2-1/2 months of the close of its taxable year.

If a corporation had \$500 or more of tax liability on the due date of its return and had not made quarterly estimated tax payments of at least 25 percent (each quarter) of the liability shown on its return or 25 percent of the tax it paid in

the previous year, it was liable for a penalty for underpayment of estimated tax. This penalty, which was calculated at the current interest rate prescribed by IRS, became a part of the amount owed when the corporation filed its return. However, the penalty did not apply if there was a legitimate reason for the underpayment.

Foreign insurance companies with effectively connected income (as filed on Form 1042-S) may have reported U.S. income tax paid or withheld at source, which would be considered in their tax liability computation. These amounts are included in "Overpayment or Amount Owed." The components of the tax payment schedule are shown in Tables 18 and 20.

Overpayments Less Refund

[Page 3, Line 12]

These were the net estimated tax payments, after deducting any amount previously refunded, remaining to be credited when the corporation's tax return was filed. See "Overpayment or Amount Owed."

Passive Activity Credits

[Form 3800, Lines 2 and 3]

The General Business Credit that could be claimed by personal service corporations and closely held corporations was subject to an additional limitation if the component credits were generated in a passive activity. The total amount of such credits and the amount allowed in 2013 are shown in the computation of the general business credit in Table 21. Passive activities generally included trade or business activities in which the corporation did not materially participate for the tax year and, with exceptions, rental activities regardless of the corporation's participation.

Penalty for Underpayment of Estimated Tax

[Page 1, Line 33]

See "Overpayment or Amount Owed."

Pension, Profit-Sharing, Stock Bonus, and Annuity Plans

[Page 1, Line 23]

This deduction was the current year's deductible contributions to qualified pension, profit-sharing, or other funded deferred compensation plans. Contributions made by employers to these plans were deductible under Code section 404 subject to limits on contributions for owners, officers, and highly paid employees. For defined-benefit plans, contributions were also limited based on actuarial computations of the amount necessary to fund the promised benefits.

The statistics included amounts from "Cost of Goods Sold" and "Other Deductions" identified as pensions (unless clearly direct pensions), annuity plans, 401(k) plans, profit-sharing plans, retirement plans, and stock bonus plans. Any amounts identified as part of cost of goods sold or capitalized

under section 263A were excluded from cost of goods sold and included in these statistics. The combined amount for companies other than mining companies that reported an amount for a combination of welfare/retirement plans was included in the statistics for contributions to pension and profit-sharing plans.

This item was not reported for regulated investment companies and real estate investment trusts.

Portfolio Income (Less Deficit)

Portfolio income (less deficit) is interest, dividends, annuities and royalties, as well as gain or loss from the disposition of income-producing or investment property that is not derived in the ordinary course of trade or business.

Prior Year Minimum Tax Credit

[Form 8827, Line 8]

Corporations received a credit against their regular income tax liability for alternative minimum taxes paid in prior years to prevent double taxation of the same income. The minimum tax was imposed on income for which tax liability was only deferred under the regular tax; when the deferral ended and the income became taxable under the regular tax, credit was given for the taxes already paid on that income. The minimum tax credit thus acted as a mechanism to coordinate the two tax systems. The credit was limited to the excess of regular tax after credits over the current year tentative minimum tax. Any unused portion of the prior year minimum tax credit could be carried forward indefinitely to reduce the regular tax. The credit was not designed to reduce any minimum tax liability. There were no carryback provisions for this tax credit.

See also, "Alternative Minimum Tax."

Purchases

[Form 1125-A, line 2]

This is the total of items purchased during the year for resale or to become a part of goods manufactured or prepared for sale. See "Cost of Goods Sold."

Qualified Electric Vehicle Credit

[Form 8834, Line 7]

A qualified electric vehicle was a vehicle manufactured primarily for use on public roads, having at least four wheels, and powered primarily by an electric motor drawing current from rechargeable batteries, fuel cells, or other portable sources of electrical current. In addition, the original use of the vehicle must begin with the taxpayer, acquired for taxpayer's own use, and not for resale. A credit can be claimed for certain two- or three-wheeled vehicles acquired after 2011 on Form 8936. The credit was equal to the lesser of \$2,500 or 10 percent of the cost of the vehicle (after reduction by any Section 179 deduction) for vehicles placed in service after February 17, 2009, and before January 1, 2012. The basis of each vehicle must be reduced by the amount of the credit.

Vehicles qualifying for this credit were not eligible for the deduction for clean-fuel vehicles under Section 179A. If the vehicle no longer qualifies for the credit within 3 years of the date placed in service, part or all of the credit must be recaptured.

Qualified Plug-In and Electric Drive Motor Vehicle Credit Δ

[Form 8936, Line 13]

A qualified plug-in electric drive motor vehicle was a new vehicle having at least four wheels, with a gross vehicle weight of less than 14,000 pounds and powered primarily by an electric motor drawing electricity from a rechargeable battery that has a capacity of not less than 4 kilowatt hours. A credit can be claimed for certain two- or three-wheeled vehicles acquired after 2011 and before 2014. In addition, the original use of the vehicle must begin with the taxpayer, acquired for taxpayer's own use, and not for resale. The credit was equal to the allowable credit for the year, make, and model of the vehicle multiplied by the percentage of business use for each vehicle. The basis of each vehicle must be reduced by the amount of the credit. If the vehicle no longer qualifies for the credit within 3 years of the date placed in service, part or all of the credit must be recaptured.

Reciprocal Tax

[Form 1120PC, Page 1, Line 5]

A property and casualty insurance company with reciprocal or interinsurance arrangements with another entity (an "attorney-in-fact") could elect to allocate to the other entity deductions equal to those actually claimed by the other entity for the allocated insurance. In effect, this caused the net income from the transaction to be taxable to both entities, but since both might not have been taxable at the same rate, Code section 835 taxed the income to the insurance company at the highest corporate rate and allowed the company to take a credit for any taxes paid by the other entity. The "Reciprocal Tax" and the "Credit by Reciprocal" were included in "Total Income Tax After Credits" in the general tables and were shown separately in Table 20.

Refundable Credits

[Page 3, Schedule J, Line 19c]

These credits are from Form 8827, line 8c. Form 8827, line 8c, is the refundable amount for a corporation electing to accelerate the minimum tax credit.

Renewable Electricity Production Credit

[Form 8835]

Form 8835 was used to claim the renewable electricity, refined coal, and Indian coal production credit. This credit is allowed only for the sale of electricity, refined coal, or Indian coal produced in the United States (or U.S. possessions) from qualified energy resources at a qualified facility. The credit includes the following qualifying resources and facilities for the

production of electricity: wind, closed-loop biomass (generally organic plants grown for the sole purpose of being used to generate electricity), poultry waste, open-loop biomass (agricultural livestock waste nutrients and solid wood waste materials), geothermal energy, solar energy, small irrigation power, municipal solid waste, and qualified hydropower production. The credit period for electricity produced from renewable energy sources could be claimed over a 5- or 10-year period, depending on the facility.

The renewable electricity production credit was included in the general business credit shown in the tables. For a discussion of the income tax limitations and carryback and carryforward provisions of the credit, see “General Business Credit.” The components of the general business credit are shown separately in Table 21.

Rent Paid on Business Property

[Page 1, Line 16]

This deduction consisted of rents paid for the use of land, buildings or structures, and rents paid for leased roads, and work equipment for railroad companies. Also included in rents paid was the leasing of vehicles. Auto lease inclusion income, required by law to offset this deduction for businesses that lease luxury automobiles, was reported in other receipts. Some corporations reported taxes paid and other specific expenses with rents paid. When identified, those items were included in the statistics for the respective deductions and excluded from rents paid.

Rent identified as part of the cost of goods sold, or capitalized under section 263A, was excluded from cost of goods sold and included in the statistics as rent paid on business property.

Gross Rents

[Page 1, Line 6]

These were the gross amounts received for the use or occupancy of property by corporations whose principal activities did not involve operating rental properties. Expenses related to rental property, such as depreciation, repairs, interest paid, and taxes paid, were not deducted directly from the rental income, but were reported as business deductions.

When rents were a significant portion of a corporation’s operating income, they were included in the statistics for business receipts rather than in rents. These corporations included some manufacturers and public utility companies, as well as businesses whose principal operating income was expected to be rents, such as hotels, motels, and other lodging places. For real estate operators, rental income was included in business receipts if the expense schedule indicated that the owner operated the building rather than leased it. No rent was reported for regulated investment companies (RICs). S corporations reported income from rents on Form 1120S, Schedule K-1,

Shareholders’ Shares of Income, Credits, Deductions, etc. and are not included in the statistics for this item in the Basic Tables section. These statistics are presented in the 1120S Basic Tables section.

Repairs

[Page 1, Line 14]

Repairs reported as an ordinary and necessary business expense were the costs of maintenance and incidental repairs that did not add to the value or appreciably prolong the life of the property. Expenditures for permanent improvements, which increased the basis of the property, were required to be capitalized and depreciated rather than deducted currently. Regulated investment companies did not report repairs.

Research Activities Credit

[Form 6765]

The research activities tax credit is a credit for qualified research expenses and basic research payments to universities and other qualified organizations. The research credit is a credit taken upon expenses paid or incurred for qualified research as defined by section 174 of the Internal Revenue Code. The methods to calculate the credit are the Regular Credit and Alternative Simplified Credit.

Research is limited to research undertaken to discover information that is technological in nature and useful in the development of a new or improved business component. The research had to be conducted within the United States and could not involve the social sciences, arts, or humanities. Research funded by another person, a grant, or a government agency was also ineligible for the credit. For qualified clinical testing expenses relating to drugs for certain rare diseases, taxpayers can elect to claim the credit using Form 8820, *Orphan Drug Credit*.

For a discussion of the income tax limitations and carryback and carryforward provisions of the credit, see “General Business Credit.” The components of the general business credit are shown separately in Table 21.

Retained Earnings, Appropriated

[Page 5, Schedule L, Line 24(d)]

Earnings set aside for specific purposes and not available for distribution to shareholders were included under this heading. Included were guaranty funds (for certain finance companies), reserves for plant expansion, bond retirements, contingencies for extraordinary losses, and general loss reserves. Also included was the total amount of all reserves not defined as valuation reserves or reserves included in other liabilities. Specifically excluded were the reserves for bad debts, depreciation, depletion, and amortization, which were shown separately in this report. Unrealized appreciation was included in retained earnings unappropriated. Unrealized profits were included in other liabilities. Unearned income, if not current,

was also included in other liabilities. Any amount of retained earnings not identified as appropriated or unappropriated was considered unappropriated for purposes of these statistics.

Retained Earnings, Unappropriated

[Page 5, Schedule L, Line 25(d)]

Retained earnings, unappropriated, consisted of the retained earnings and profits of the corporation less any reserves (these reserves were shown in the statistics as Retained Earnings, Appropriated). Dividends and distributions to shareholders were paid from this account. These accumulated earnings included income from normal and discontinued operations, extraordinary gains or losses, and prior period adjustments. Also included were undistributed or undivided earnings (income or profits), and earned surplus. For railroads, unappropriated retained earnings included additions to property and funded debt retired through income and surplus. The statistics presented here are net amounts after reduction for negative amounts reported and include adjustments to shareholders equity reported by the taxpayer.

Adjustments reported by the taxpayers primarily consisted of unrealized gains and losses from securities held “available for sale.” Also included in adjustments, guarantees of employee stock ownership plan debt, and compensation related to employee stock award plans.

Returns of Active Corporations

These returns were the basis for all financial statistics presented in the report. They comprised the vast majority of the returns filed, and were defined for the statistics as returns of corporations reporting any income or deduction items, including tax-exempt interest. Although corporations in existence during any portion of the taxable year were required to file a return whether or not they had income and deductions (Code section 6012(a)(2)), inactive corporations’ returns were excluded from the statistics. See Section 3, Description of the Sample and Limitations of the Data.

Returns With Net Income

See “Net Income (or Deficit).”

Royalties

[Page 1, Line 7]

Royalties were gross payments received, generally on an agreed percentage basis, for the use of property rights before taking deductions for depletion, taxes, etc. Included were amounts received from such properties as copyrights, patents, and trademarks; and from natural resources such as timber, mineral mines, and oil wells. Expenses relating to royalties, depletion or taxes, were not deducted directly from this income, but were reported among the various business deductions from total gross income. No royalties were included in the statistics for regulated investment companies and real estate investment trusts.

S corporations reported this item on the Form 1120S, Schedule K-1, *Shareholders’ Shares of Income, Credits, Deductions, etc.* and are not included in the statistics for this item in the Basic Tables section. These statistics are presented in the 1120S Basic Tables section as “Royalty Income (less loss)” under “Portfolio Income (less deficit) Distributed to Shareholders.”

Excluded from the statistics were certain royalties received under a lease agreement on timber, coal deposits, and domestic iron ore deposits, that were allowed special tax treatment. Under elective provisions of Code section 631, the net gain or loss on such royalties was included in the computation of net gain or loss on sales or exchanges of certain business property under Code section 1231. If the overall result of this computation was a net gain, it was treated as a long-term capital gain. If the overall result was a net loss, it was fully deductible in the current year as an ordinary noncapital loss. See also, the discussions of “Net Capital Gains” and “Net Gain (or Loss), Noncapital Assets.”

S Corporation Returns

Form 1120S, *U.S. Income Tax Return for an S Corporation*, was filed by corporations electing to be taxed through their shareholders under Internal Revenue Code section 13612. These companies reported corporate income and deductions from their conduct of trade or business, but generally allocated any income or loss to their shareholders to be taxed only at the individual level. Portfolio income (loss), net rental real estate income (loss), net income (loss) from other rental activities, and other income (loss) were not included in net income (loss) from ordinary trade or business but were allocated to shareholders to be reported on their returns.

Only corporate-level income of S corporations are included in the Basic Tables section of this report. S corporation trade or business income and deductions are included in the general tables and also shown separately in 1120S Basic Tables 7 and 8. Data on rental and investment income allocated to shareholders is presented in 1120S Basic Tables 1 through 6 and is also available in the *Corporation Source Book* (Publication 1053).

Subchapter S of the Internal Revenue Code, from which these corporations take their name, provided a set of restrictive criteria which a company had to meet in order to qualify. For tax years beginning after 2004, S corporations had to meet the following criteria:

- (1) no more than 100 shareholders;
- (2) only individuals as shareholders (with an exception for estates and trusts, including charitable remainder trusts);
- (3) no nonresident alien shareholders; and
- (4) only one class of stock.

For tax years beginning after 1997, certain tax-exempt organizations can be S corporation shareholders. These are qualified pension, profit-sharing, and stock bonus plans; charitable organizations; and Code section 501(c)(3) organizations.

Corporations that were ineligible to be treated as S corporations were:

- (1) banks or similar financial institutions using the reserve method of accounting for bad debts under section 585;
- (2) life insurance companies;
- (3) corporations electing to take the U.S. possessions tax credit;
- (4) Interest-Charge Domestic International Sales Corporations (IC-DISC) or former DISCs; and
- (5) affiliated group members eligible for inclusion on a consolidated return.

The Small Business Job Protection Act of 1996 provided significant reform for S corporations. This legislation contained 17 provisions relating to S corporations. For more information on the impact of this legislation on S corporations see Wittman, Susan, "S Corporation Returns, 1997," *Statistics of Income Bulletin*, Spring 2000, Volume 19, Number 4.

Some S corporations were subject to certain special taxes at the corporate level. See "Excess Net Passive Income Tax" and "Income Tax" in this section.

Salaries and Wages

[Page 1, Line 13]

Salaries and wages included the amount paid for the tax year, less any amounts paid for the work opportunity credit, empowerment zone employment credit, Indian employment credit, or welfare-to-work credit. Also included were expenses, such as bonuses, directors' fees, wages, payroll, and salaries listed in the other deductions schedule. Excluded were items deductible elsewhere on the return, such as contributions to a 401(k) plan, amounts contributed under a salary reduction agreement, or amounts included in the cost of goods sold. Also excluded was compensation of officers since it was listed as a separate deduction item on the return.

Section 857(b)(5) Tax

[Form 1120-REIT, Page 3, Schedule J, Line 2(c)]

Real estate investment trusts were required to derive at least 95 percent of their income from portfolio investments (dividends, interest, capital gains) and real estate and at least 75 percent of their income from real estate investments (rents, interest on mortgage bonds, sales of rental or foreclosure

property). If these limits were not met, the shortfall was subject to a special tax under Code section 857(b)(5). This tax is a component of "Total Income Tax Before Credits" and is shown separately in Table 20.

Size of Business Receipts

Returns for nonfinance industries were classified by size of gross receipts from sales and operations. Returns of industries within the "Finance and Insurance" and "Management Holding Companies" sectors were classified by size of total receipts (the sum of business receipts and investment income). See also, "Business Receipts" and "Total Receipts."

Statutory Special Deductions

[Page 1, line 29c]

Statutory special deductions in the tables was the sum of the deductions for net operating loss carryovers from prior years and the special deductions for dividends and other corporate attributes allowed by the Code. These deductions were in addition to ordinary and necessary business deductions and were shown in the statistics as deductions from net income. In general, net income less statutory special deductions equaled income subject to tax. The following components of "Statutory Special Deductions" are shown separately in Table 20.

Net operating loss deduction. This deduction was the result of prior-year net operating losses. For large and mid-sized corporations, net operating losses (NOLs) could have been carried back to reduce any taxes paid in the 3 years previous to the loss year (2 years for NOLs incurred in tax years beginning after August 5, 1997), and any remaining amounts carried forward for 15 years (20 years for NOLs incurred in tax years beginning after August 5, 1997). A new provision added in the American Recovery and Reinvestment Act of 2009 allows small businesses to carry back losses incurred in 2008 up to 5 prior years. Amounts carried back, however, would not have appeared on the returns used for the statistics in this report. This item represents amounts carried forward from previous years and applied to reduce taxable income in the current year.

ΔTotal special deductions was the sum of the following deductions:

- (1) **Dividends received deduction.** This deduction was based on the type of stock owned and the extent of ownership. Generally, dividends from other domestic members of a company's affiliated group were deducted 100 percent, those from other domestic companies owned 20 percent or more were allowed an 80-percent deduction, and those owned less than 20 percent were allowed a 70-percent deduction. These percentages were reduced if the stock was debt financed or if it was preferred stock of public utilities that were allowed a deduction for dividends paid. In

the case of life insurance companies, the dividend received deduction (other than the 100-percent deduction) was further reduced by the share of the company's investment income attributed to policyholders.

A deduction for dividends received from a foreign corporation was allowed if the foreign corporation had been engaged in a trade or business within the United States for at least 3 years and if at least 50 percent of its gross income was effectively connected U.S. trade or business income. The deduction was allowed only for dividends attributable to income earned in the United States, and only if the U.S. corporation owned at least 10 percent of the stock of the foreign corporation.

The total dividends received deduction was further limited based on net income. Generally, the 70- and 80-percent deductions could not exceed 70 and 80 percent of net income less the 100-percent deductions for dividends received from affiliated groups, foreign sales corporations, and small business investment companies. This limitation did not apply if the corporation had a net operating loss (even if the loss was caused by the dividends received deduction). The various categories of stock ownership and the percentages that were deductible are shown on Form 1120, Schedule C (reproduced in Section 6). See also, "Dividends Received from Domestic Corporations" and "Dividends Received from Foreign Corporations" in this section.

- (2) **Deduction for dividends paid on certain public utility stock.** This special deduction was for dividends paid on preferred stock issued by regulated telephone, electric, gas, or water companies before October 1, 1942, or issued to replace such stock. Companies were allowed to deduct 40 percent of the smaller of such dividends or taxable income computed without this deduction.
- (3) **Deduction for dividends paid (Forms 1120-RIC and 1120-REIT).** Regulated investment companies (RICs) and real estate investment trusts (REITs) were required to distribute virtually all (90 percent for both return types) of their taxable income to their shareholders in the form of dividends to qualify for their special status. Their taxable income was reduced by the dividends they paid (which were taxable to the recipients), and they generally paid no corporate tax. This special deduction represented those required distributions.
- (4) **Section 857(b)(2)(E) deduction (Form 1120-REIT).** This deduction was equivalent to the tax imposed on real estate investment trusts (REITs) that failed

to meet the restrictions imposed on their sources of income. Generally, at least 75 percent of their income had to come from real estate investments and at least 95 percent from investment sources of all kinds. A tax of 100 percent was imposed on the net income attributable to the greater of the amounts by which the trust failed to meet the 75- or 95-percent income test, and a deduction was allowed to prevent the same income from being taxed under the income tax.

- (5) **Section 806(a) small life insurance company deduction.** This item is included in "Statutory Special Deductions, Total," but is not shown separately in Table 20.

Tax Deposited with Form 7004

[Page 3, Schedule J, Line 16]

This is the amount of the corporation's estimated tax liability deposited with the filing of Form 7004, *Application for Automatic Extension of Time to File Certain Business Income Tax, Information, and Other Returns*, as reported on the corporation's income tax return for the year. The automatic extension of time to file a corporate tax return was 6 months, and any remaining tax liability was required to be paid with the request for an extension. See "Overpayment or Amount Owed."

Tax-Exempt Securities

[Page 5, Schedule L, Line 5(d)]

This balance sheet asset item comprised: (1) State and local government obligations, the interest on which was excludable from gross income under section 103(a); and (2) stock in a mutual fund or other regulated investment company that distributed exempt-interest dividends during the tax year of the corporation. Examples included bond anticipation notes, project notes, Public Housing Authority bonds, and State and local revenue bonds.

Tax from Section I and Tax from Section II

[Form 1120-F, Page 1, Lines 1 and 2]

Foreign corporations with income effectively connected to a trade or business conducted in the U.S. were taxable at U.S. corporation income tax rates on that income, but they could also have been taxable on income not "effectively connected" with a U.S. trade or business (generally, portfolio investment and certain transportation income) just as nonresident foreign corporations were. On Form 1120-F, the tax on income not effectively connected with a U.S. trade or business was called "Tax from Section I" and the tax on effectively connected income was called "Tax from Section II." Only the "Tax from Section II" is included as a component of "Income Tax" and "Total Income Tax" in the general tables in this report. It is also shown as a separate item in the tables devoted to foreign corporations, Tables 10 and 11.

“Tax from Section II” included income tax calculated at the U.S. corporate tax rates on effectively connected income, recapture taxes, and the alternative minimum tax. It was reduced by the foreign tax credit, nonconventional source fuel credit, qualified electric vehicle credit, general business credit, and credit for prior-year minimum tax.

The “Tax from Section I” from returns that also had effectively connected income is shown as a separate item in Tables 10 and 11, but is excluded from all other tables in the report. (Returns of foreign corporations that had no income effectively connected with a U.S. trade or business were excluded from the statistical sample.)

Tax on Net Income from Foreclosure Property

[Form 1120-REIT, Page 3, Schedule J, Line 2(b)]

Real estate investment trusts that met the income requirements to qualify as REITs (see “Section 857(b)(5) Tax”) were generally taxable at the shareholder rather than at the corporate level. An exception was sales of certain property they had acquired by foreclosure; the REIT could elect to be taxed at the top corporate rate of 35 percent on any gain from such transactions. This tax is included as a component of “Total Income Tax” (before and after credits) and is shown separately in Table 20.

Tax on Net Income from Prohibited Transactions

[Form 1120-REIT, Page 3, Schedule J, Line 2(d)]

Real estate investment trusts were forbidden to engage in real estate development or sales (except in the course of their rental or financing business). Any profit made in such transactions was subject to a 100-percent tax. This tax is included as a component of “Total Income Tax” (before and after credits) and is shown separately in Table 20.

Tax Refund

[Page 1, Line 36]

See “Overpayment or Amount Owed.”

Tax Year

Tax year (income year) in this publication refers to the year covering accounting periods ending July 2013 through June 2014. The corporation returns included a span of over 23 months between the first-included accounting period, which began on August 1, 2012, and closed on July 31, 2013, and the end of the last-included accounting period, which began on July 1, 2013, and closed on June 30, 2014. Therefore, this report shows income received or expenses incurred during any or all of the months in the 23-month span. This span, in effect defines the tax year in such a way that the noncalendar year ended accounting periods are centered by the calendar year ended accounting period. The calendar year made up 91 percent of the number of returns for Tax Year 2013. (See “Introduction” in Section I.)

Taxable Income

[Page 1, Line 30]

This line item from Form 1120 is called “Income Subject to Tax” in this report.

Taxes Paid

[Page 1, Line 17]

Taxes paid included the amounts reported as an ordinary and necessary business deduction as well as identifiable amounts reported in the cost of goods sold schedules or capitalized under section 263A. Included among the deductible taxes were ordinary State and local taxes paid or accrued during the year; Social Security and payroll taxes; unemployment insurance taxes; excise taxes, import and tariff duties; and business, license, and privilege taxes. Income and profit taxes paid to foreign countries or U.S. possessions were also deductible unless claimed as a credit against income tax. However, S corporations excluded any foreign taxes from the deduction for taxes paid, instead allocating them to their shareholders (who might either deduct them or take a foreign tax credit for them). Regulated investment companies also had to exclude those foreign taxes from the deduction for taxes when they elected under Code section 853 to allow their shareholders to claim a foreign tax credit (or a deduction) for the foreign taxes paid. See also “Foreign Tax Credit.”

Taxes not deductible generally included Federal income and excess profits taxes, gift taxes, taxes assessed against local benefits, taxes not imposed on the corporation, and certain other taxes, including State or local taxes that were paid or incurred in connection with an acquisition or disposition of property. Taxes related to the acquisition of property were to be treated as part of the cost of the property, while taxes related to the disposition of property were to be treated as a reduction in the amount realized from the disposition.

Some corporations included sales, excise, and related taxes, which were part of the sales price of their products, as receipts. When this occurred, an equal and offsetting amount was usually included in the cost of goods sold or as part of the separate deduction for taxes paid. When included in the cost of goods sold, these taxes were included in the statistics for taxes paid when they could be identified.

Tentative Minimum Tax

[Form 4626, Line 12]

The tentative minimum tax was determined by applying a 20-percent tax rate to the alternative minimum taxable income after applying the reduction for the alternative tax NOLD and the income exemption. The tentative minimum tax could be reduced by an AMT foreign tax credit and carryover of unused empowerment zone credit. The foreign tax credit was computed under the AMT system and could not become part of that credit allowed under the regular tax system. The carryover of empowerment zone credit could reduce up to 25 percent of

the tentative minimum tax remaining after applying the AMT foreign tax credit.

The alternative minimum tax was the amount by which the remaining tentative minimum tax exceeded the regular tax after reduction by the foreign tax credit under the regular system.

Total Assets and Total Liabilities

[Page 5, Schedule L, Lines 15(d) and 28(d)]

Total assets and total liabilities were those reported in the end-of-year balance sheet in the corporations' books of account. Total assets were net amounts after reduction by accumulated depreciation, accumulated amortization, accumulated depletion, and the reserve for bad debts. If these reserve accounts were reported as liabilities, they were treated as reductions from the asset accounts to which they related and total assets and liabilities were adjusted accordingly.

When used in this report, the term total liabilities included both the claims of creditors and shareholders' equity (see also "Net Worth"). In addition, total liabilities were net amounts after reduction by the cost of treasury stock. See also "Balance Sheets" in this section.

Total Deductions

As presented in this publication, total deductions comprised: (1) the cost of goods sold; (2) the ordinary and necessary business deductions from gross income; and (3) net loss from sales of noncapital assets. Components of total deductions were shown in the income statement segment of various tables throughout this report. See also "Total Receipts."

Total Income Tax After Credits

[Page 3, Schedule J, Line 21]

Income tax after credits in the statistics equals "Total Income Tax Before Credits" less the sum of the "Foreign Tax Credit," "Qualified Electric Vehicle Credit," "General Business Credit," "Prior Year Minimum Tax Credit," and the "Credit to Holders of Tax Credit Bonds." Many of these items are discussed under their own headings.

Total Income Tax Before Credits

Total income tax before credits was the sum of the following taxes:

- (1) income tax;
- (2) personal holding company tax;
- (3) recapture and other taxes;
- (4) alternative minimum tax;
- (5) excess net passive income tax;
- (6) capital gains tax of regulated investment companies;

- (7) tax on net income from foreclosure property;
- (8) tax on net income from prohibited transactions;
- (9) branch tax of foreign corporations;
- (10) reciprocal tax;
- (11) Code section 856 tax (includes 856(c)(7) and 856(g)(5)); and
- (12) Code section 857 tax (includes 857(b)(5) and 857(b)(7)(A)).

Other tax and interest amounts were either included in or subtracted from the total income tax. Amounts included were tax and interest on a nonqualified withdrawal from a capital construction fund (section 7518), interest due on deferred gain (section 1260(b), interest on deferred tax attributable to installment sales of certain timeshares and residential lots (section 453(l)(3)), certain non-dealer installment obligations (section 453A(c)), interest due under the look-back method, and deferred tax due upon the termination of a section 1294 election for shareholders in qualified electing funds. Amounts subtracted were deferred tax on the corporation's share of the undistributed earnings of a qualified electing fund, recapture of new markets credit, recapture of employer-provided childcare facilities and services credit, and deferred LIFO recapture tax (Code section 1363(d)). These amounts were included in the statistics as adjustments to total income tax.

Total Income Tax (S Corporations)

Total income tax for S corporations (1120S Basic Tables 7 and 8) was the sum of the following taxes, each discussed under its own heading:

- (1) income tax;
- (2) income tax adjustments;
- (3) excess net passive income tax;
- (4) recapture taxes; and
- (5) adjustments to total tax.

Total Net Income (Less Deficit) (S Corporations)

Since the Tax Reform Act of 1986, total net income (less deficit) is defined as the sum of: ordinary income (loss), ordinary dividends, interest income, royalty income, net income (loss) from rental real estate activities, net income (loss) from other rental activities, total net long-term capital gain (loss), and net short-term capital gain (loss). Prior to 1987, S corporation net income (less deficit) included most of the components of total net income (less deficit) above. The sum of the above components is a comprehensive measure of S corporation profits and losses that enables comparisons to be made with years prior to 1987.

Total Receipts

Total receipts equal the sum of the following items, each discussed under its own heading:

- (1) business receipts;
- (2) interest;
- (3) interest on Government obligations: State and local;
- (4) rents;
- (5) royalties;
- (6) net capital gains (excluding long-term gains from regulated investment companies);
- (7) net gain, noncapital assets;
- (8) dividends received from domestic corporations;
- (9) dividends received from foreign corporations (excluding certain taxable income from related foreign corporations only constructively received), and
- (10) other receipts.

Total receipts for S corporations equal the sum of the following items, each discussed under its own heading:

- (1) business receipts;
- (2) interest on Government obligations: State and local;
- (3) net gain, noncapital assets, and
- (4) other receipts.

S corporations reported receipts for interest, rents, royalties, net capital gains, and dividends on Form 1120S, Schedule K-1, *Shareholders' Shares of Income, Credits, Deductions, etc.* These are not included in the statistics for this item in the Basic Tables section. Instead, they are presented in the 1120S Basic Tables section.

Total Receipts Less Total Deductions

This item differed from net income (less deficit) for tax purposes in that it included nontaxable interest on State and local Government obligations and excluded constructive taxable income from related foreign corporations.

Total Special Deductions

[Page 1, line 29c]

See "Statutory Special Deductions."

U.S. Government Obligations

[Page 5, Schedule L, Line 4(d)]

See "Investments in Government Obligations."

U.S. Tax Paid or Withheld at Source

[Form 1120-F, Page 1, Line 5i]

Foreign corporations with income related to a U.S. business activity (i.e., effectively connected income) often had U.S. income tax withheld at the source for portfolio or transportation income not effectively connected to their U.S. operations. Also withheld was certain effectively connected income, such as gains from the disposition of U.S. real property reported on Form 8288-A or income allocable to foreign partners reported on Form 8805. This withholding is shown separately for effectively connected income and noneffectively connected income in Tables 10 and 11.

U.S. taxes paid or withheld by resident foreign corporations on income effectively connected to a U.S. trade or business are included in the statistics for "Overpayment or Amount Owed." Taxes withheld at the source on effectively connected income for foreign insurance companies are not included in Tables 10 and 11, but are included in "Overpayment or Amount Owed." Taxes withheld at the source on noneffectively connected income are only included as a separate item in Tables 10 and 11.

Work Opportunity Credit

[Form 5884]

This credit is the successor to the jobs credit allowed in prior years. It was allowed to taxpayers who hired individuals from certain targeted groups to work at least 120 hours during the year. These groups were:

- (1) members of families receiving benefits under the Temporary Assistance to Needy Families (TANF) program;
- (2) certain disabled veterans in families receiving food stamps;
- (3) newly released, economically disadvantaged ex-felons;
- (4) high-risk youth, ages 18–24, from disadvantaged areas;
- (5) vocational rehabilitation referrals;
- (6) qualified summer youth, ages 16–17, from disadvantaged areas;
- (7) youth, ages 18–24, from families receiving food stamps and SSI hired after September 30, 1997;
- (8) recipients of supplemental security income;

(9) Hurricane Katrina employees, and

(10) ARRA of 2009 added disconnected youth who begin work after 2008 and before 2011.

Only the first \$6,000 (\$3,000 for qualified summer youth) of qualified first-year wages paid or incurred for each employee during the tax year is taken into account. The credit was limited to 25 percent if the employee worked at least 120 hours, but less than 400 hours, and 40 percent if the employee worked 400 hours or more during the year.

The work opportunity credit was claimed as one of the components of the general business credit. For a discussion of the income tax limitations and carryback and carryforward provisions of the credit, see “General Business Credit.” The components of the general business credit are shown separately in Table 21.

3	Is the corporation a subsidiary in an affiliated group or a parent-subsubsidiary controlled group? If "Yes," enter name and EIN of the parent corporation ▶ _____		
4	At the end of the tax year:		
a	Did any foreign or domestic corporation, partnership (including any entity treated as a partnership), trust, or tax-exempt organization own directly 20% or more, or own, directly or indirectly, 50% or more of the total voting power of all classes of the corporation's stock entitled to vote? If "Yes," complete Part I of Schedule G (Form 1120) (attach Schedule G)		
b	Did any individual or estate own directly 20% or more, or own, directly or indirectly, 50% or more of the total voting power of all classes of the corporation's stock entitled to vote? If "Yes," complete Part II of Schedule G (Form 1120) (attach Schedule G)		

Schedule K Other Information continued (see instructions)

				Yes	No
5 At the end of the tax year, did the corporation:					
a Own directly 20% or more, or own, directly or indirectly, 50% or more of the total voting power of all classes of stock entitled to vote of any foreign or domestic corporation not included on Form 851 , Affiliations Schedule? For rules of constructive ownership, see instructions. If "Yes," complete (i) through (iv) below.					
(i) Name of Corporation	(ii) Employer Identification Number (if any)	(iii) Country of Incorporation	(iv) Percentage Owned in Voting Stock		
b Own directly an interest of 20% or more, or own, directly or indirectly, an interest of 50% or more in any foreign or domestic partnership (including an entity treated as a partnership) or in the beneficial interest of a trust? For rules of constructive ownership, see instructions. If "Yes," complete (i) through (iv) below.					
(i) Name of Entity	(ii) Employer Identification Number (if any)	(iii) Country of Organization	(iv) Maximum Percentage Owned in Profit, Loss, or Capital		
6 During this tax year, did the corporation pay dividends (other than stock dividends and distributions in exchange for stock) in excess of the corporation's current and accumulated earnings and profits? (See sections 301 and 316.) If "Yes," file Form 5452 , Corporate Report of Nondividend Distributions. If this is a consolidated return, answer here for the parent corporation and on Form 851 for each subsidiary.					
7 At any time during the tax year, did one foreign person own, directly or indirectly, at least 25% of (a) the total voting power of all classes of the corporation's stock entitled to vote or (b) the total value of all classes of the corporation's stock? For rules of attribution, see section 318. If "Yes," enter: (i) Percentage owned ▶ _____ and (ii) Owner's country ▶ _____ (c) The corporation may have to file Form 5472 , Information Return of a 25% Foreign-Owned U.S. Corporation or a Foreign Corporation Engaged in a U.S. Trade or Business. Enter the number of Forms 5472 attached ▶ _____					
8 Check this box if the corporation issued publicly offered debt instruments with original issue discount <input type="checkbox"/>					
9 Enter the amount of tax-exempt interest received or accrued during the tax year ▶ \$ _____					
10 Enter the number of shareholders at the end of the tax year (if 100 or fewer) ▶ _____					
11 If the corporation has an NOL for the tax year and is electing to forego the carryback period, check here <input type="checkbox"/> If the corporation is filing a consolidated return, the statement required by Regulations section 1.1502-21(b)(3) must be attached or the election will not be valid.					
12 Enter the available NOL carryover from prior tax years (do not reduce it by any deduction on line 29a.) ▶ \$ _____					
13 Are the corporation's total receipts (page 1, line 1a, plus lines 4 through 10) for the tax year and its total assets at the end of the tax year less than \$250,000? If "Yes," the corporation is not required to complete Schedules L, M-1, and M-2. Instead, enter the total amount of cash distributions and the book value of property distributions (other than cash) made during the tax year ▶ \$ _____					
14 Is the corporation required to file Schedule UTP (Form 1120), Uncertain Tax Position Statement (see instructions)? If "Yes," complete and attach Schedule UTP.					
15a Did the corporation make any payments in 2013 that would require it to file Form(s) 1099?					
b If "Yes," did or will the corporation file required Forms 1099?					
16 During this tax year, did the corporation have an 80% or more change in ownership, including a change due to redemption of its own stock?					
17 During or subsequent to this tax year, but before the filing of this return, did the corporation dispose of more than 65% (by value) of its assets in a taxable, non-taxable, or tax deferred transaction?					
18 Did the corporation receive assets in a section 351 transfer in which any of the transferred assets had a fair market basis or fair market value of more than \$1 million?

▶ **Information about Schedule N (Form 1120) and its instructions is available at www.irs.gov/form1120.**

2013

Name

Employer identification number (EIN)

Foreign Operations Information

	Yes	No
1a During the tax year, did the corporation own (directly or indirectly) any foreign entity that was disregarded as an entity separate from its owner under Regulations sections 301.7701-2 and 301.7701-3 (see instructions)? If "Yes," you are generally required to attach Form 8858 , Information Return of U.S. Persons With Respect to Foreign Disregarded Entities, for each foreign disregarded entity (see instructions).		
b Enter the number of Forms 8858 attached to the tax return ▶ -----		
2 Enter the number of Forms 8865 , Return of U.S. Persons With Respect to Certain Foreign Partnerships, attached to the corporation's income tax return ▶ -----		
3 Excluding any partnership for which a Form 8865 is attached to the tax return, did the corporation own at least a 10% interest, directly or indirectly, in any other foreign partnership (including an entity treated as a foreign partnership under Regulations section 301.7701-2 or 301.7701-3)? If "Yes," see instructions for required statement.		
4a Was the corporation a U.S. shareholder of any controlled foreign corporation (CFC)? (See sections 951 and 957.) If "Yes," attach Form 5471 , Information Return of U.S. Persons With Respect to Certain Foreign Corporations, for each CFC.		
b Enter the number of Forms 5471 attached to the tax return ▶ -----		
5 During the tax year, did the corporation receive a distribution from, or was it the grantor of, or transferor to, a foreign trust? If "Yes," the corporation may have to file Form 3520 , Annual Return To Report Transactions With Foreign Trusts and Receipt of Certain Foreign Gifts.		
6a At any time during the 2013 calendar year, did the corporation have an interest in or a signature or other authority over a financial account (such as a bank account, securities account, or other financial account) in a foreign country? See the instructions for exceptions and filing requirements for FinCEN Form 114 , Report of Foreign Bank and Financial Accounts (FBAR) (formerly Form TD F 90-22.1).		
b If "Yes," enter the name of the foreign country ▶ -----		
7a Is the corporation claiming the extraterritorial income exclusion? If "Yes," attach a separate Form 8873 , Extraterritorial Income Exclusion, for each transaction or group of transactions.		
b Enter the number of Forms 8873 attached to the tax return ▶ -----		
c Enter the total of the amounts from line 52 (extraterritorial income exclusion (net of disallowed deductions)) of all Forms 8873 attached to the tax return ▶ \$		

Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Who Must File

Corporations that, at any time during the tax year, had assets in or operated a business in a foreign country or a U.S. possession may have to file Schedule N. If the corporation answers "Yes" to any of the questions above, attach Schedule N and the applicable forms and schedules to the corporation's income tax return.

Question 1a

Check the "Yes" box if the corporation is the "tax owner" (defined below) of a foreign disregarded entity (FDE) or it is required to file Form 5471 or Form 8865 with respect to a CFC or a CFP that is the tax owner of an FDE.

Tax owner of an FDE. The tax owner of an FDE is the person that is treated as owning the assets and liabilities of the FDE for purposes of U.S. income tax law.

A corporation that is the tax owner of an FDE is generally required to attach Form 8858 to its return. However, if the **Exception** below applies, the corporation should attach a statement (described below) in lieu of Form 8858.

Form 1120-F

U.S. Income Tax Return of a Foreign Corporation

OMB No. 1545-0126

For calendar year 2013, or tax year beginning ... 2013, and ending ... 2013

2013

Name, Employer identification number, Check box(es) if: Initial return, Name or address change, etc.

A Country of incorporation, B Foreign country under whose laws the income reported on this return is also subject to tax, C Date incorporated, D (1) Location of corporation's primary books and records, H Did the corporation's method of accounting change from the preceding tax year?, I Did the corporation's method of determining income change from the preceding tax year?, J Did the corporation file a U.S. income tax return for the preceding tax year?, K (1) At any time during the tax year, was the corporation engaged in a trade or business in the United States?, L Did the corporation have a permanent establishment in the United States for purposes of any applicable tax treaty between the United States and a foreign country?, M Did the corporation have any transactions with related parties?

Computation of Tax Due or Overpayment

Table with columns for tax amounts and rows for: 1 Tax from Section I, line 11, page 2; 2 Tax from Section II, Schedule J, line 9, page 4; 3 Tax from Section III (add lines 6 and 10 on page 5); 4 Total tax; 5a 2012 overpayment credited to 2013; 5b 2013 estimated tax payments; 5c Less 2013 refund applied for on Form 4466; 5d Combine lines 5a through 5c; 5e Tax deposited with Form 7004; 5f Credit for tax paid on undistributed capital gains; 5g Credit for federal tax paid on fuels; 5h Refundable credit from Form 8827, line 8c; 5i U.S. income tax paid or withheld at source; 5j Total payments; 6 Estimated tax penalty; 7 Amount owed; 8a Overpayment; 8b Amount of overpayment on line 8a resulting from tax deducted and withheld under Chapter 3; 9 Enter portion of line 8a you want Credited to 2014 estimated tax; 9 Refunded

Schedule J Tax Computation (see instructions)

1 Check if the corporation is a member of a controlled group (attach Schedule O (Form 1120))	<input type="checkbox"/>		
2 Income tax. Check if a qualified personal service corporation (see instructions)	<input type="checkbox"/>	2	
3 Alternative minimum tax (attach Form 4626)		3	
4 Add lines 2 and 3		4	
5a Foreign tax credit (attach Form 1118)		5a	
b General business credit (attach Form 3800)		5b	
c Credit for prior year minimum tax (attach Form 8827)		5c	
d Bond credits from Form 8912		5d	
6 Total credits. Add lines 5a through 5d		6	
7 Subtract line 6 from line 4		7	
8 Other taxes. Check if from: <input type="checkbox"/> Form 4255 <input type="checkbox"/> Form 8611 <input type="checkbox"/> Form 8697 <input type="checkbox"/> Form 8866 <input type="checkbox"/> Form 8902 <input type="checkbox"/> Other (attach statement)		8	
9 Total tax. Add lines 7 and 8. Enter here and on line 2, page 1		9	

SECTION III—Branch Profits Tax and Tax on Excess Interest

Part I—Branch Profits Tax (see instructions)

1	Enter the amount from Section II, line 29	1		
2	Enter total adjustments to line 1 to get effectively connected earnings and profits. (Attach required statement showing the nature and amount of adjustments.) (See instructions.)	2		
3	Effectively connected earnings and profits. Combine line 1 and line 2	3		
4a	Enter U.S. net equity at the end of the current tax year. (Attach required statement.)	4a		
b	Enter U.S. net equity at the end of the prior tax year. (Attach required statement.)	4b		
c	Increase in U.S. net equity. If line 4a is greater than or equal to line 4b, subtract line 4b from line 4a. Enter the result here and skip to line 4e	4c		
d	Decrease in U.S. net equity. If line 4b is greater than line 4a, subtract line 4a from line 4b	4d		
e	Non-previously taxed accumulated effectively connected earnings and profits. Enter excess, if any, of effectively connected earnings and profits for preceding tax years beginning after 1986 over any dividend equivalent amounts for those tax years	4e		
5	Dividend equivalent amount. Subtract line 4c from line 3. If zero or less, enter -0-. If no amount is entered on line 4c, add the lesser of line 4d or line 4e to line 3 and enter the total here	5		
6	Branch profits tax. Multiply line 5 by 30% (or lower treaty rate if the corporation is a qualified resident or otherwise qualifies for treaty benefits). (See instructions.) Enter here and include on line 3, page 1. Also complete item W on page 2	6		

Part II—Tax on Excess Interest (see instructions for this Part and for Schedule I (Form 1120-F))

7a	Enter the interest from Section II, line 18	7a		
b	Enter the inverse of the total amount deferred, capitalized, and disallowed from Schedule I, line 24d (i.e., if line 24d is negative, enter as a positive number; if line 24d is positive, enter as a negative number)	7b		
c	Combine lines 7a and 7b (amount must equal Schedule I, line 23)	7c		
8	Branch interest (see instructions for definition): Enter the sum of Schedule I, line 9, column (c), and Schedule I, line 22. If the interest paid by the foreign corporation's U.S. trade or business was increased because 80% or more of the foreign corporation's assets are U.S. assets, check this box <input type="checkbox"/>	8		
9a	Excess interest. Subtract line 8 from line 7c. If zero or less, enter -0-	9a		
b	If the foreign corporation is a bank, enter the excess interest treated as interest on deposits (see instructions for rules for computing this amount). Otherwise, enter -0-	9b		
c	Subtract line 9b from line 9a	9c		
10	Tax on excess interest. Multiply line 9c by 30% or lower treaty rate (if the corporation is a qualified resident or otherwise qualifies for treaty benefits). (See instructions.) Enter here and include on line 3, page 1. Also complete item W on page 2	10		

Part III—Additional Information

		Yes	No
11	Is the corporation claiming a reduction in, or exemption from, the branch profits tax due to:		
a	A complete termination of all U.S. trades or businesses?		
b	The tax-free liquidation or reorganization of a foreign corporation?		
c	The tax-free incorporation of a U.S. trade or business?		
If 11a or 11b applies and the transferee is a domestic corporation, attach Form 8848. If 11c applies, attach the statement required by Temporary Regulations section 1.884-2T(d)(5).			

Note: Check if completing on U.S. basis or Worldwide basis.

Under penalties of perjury, I declare that I have examined this return, including accompanying schedules and statements, and to the best of my knowledge and belief, it is true, correct, and complete. Declaration of preparer (other than taxpayer) is based on all information of which preparer has any knowledge.

Sign Here section with fields for Signature of officer, Date, Title, and a box for 'May the IRS discuss this return with the preparer shown below (see instructions)? Yes No'.

Paid Preparer Use Only section with fields for Print/Type preparer's name, Preparer's signature, Date, Check if self-employed, PTIN, Firm's name, Firm's EIN, Firm's address, and Phone no.

For Paperwork Reduction Act Notice, see separate instructions.

Cat. No. 11480E

Form 1120-L (2013)

Schedule A Dividend Income and Dividends-Received Deduction (see instructions)

Dividends subject to proration		(a) Dividends received	(b) %	(c) Deduction (a times b)
1	Domestic corporations, less-than-20%-owned (other than debt-financed stock)	1		
2	Domestic corporations, 20%-or-more-owned (other than debt-financed stock)	2		
3	Debt-financed stock of domestic and foreign corporations	3		
4	Public utility corporations, less-than-20%-owned	4		
5	Public utility corporations, 20%-or-more-owned	5		
6	Foreign corporations, less-than-20%-owned, and certain FSCs	6		
7	Foreign corporations, 20%-or-more-owned, and certain FSCs	7		
8	Wholly owned foreign subsidiaries and certain FSCs	8		
9	Certain affiliated company dividends	9		
10	Gross dividends-received deduction. Add lines 1 through 9	10		
11	Company share percentage (Schedule F, line 32)	11		
12	Prorated amount. Line 10 times line 11	12		
Dividends not subject to proration				
13	Affiliated company dividends	13		
14	Other corporate dividends	14		
15	Total dividends. Add lines 1 through 14, column (a). Enter here and on Schedule B, line 2	15		
16	Total deductions. Add lines 12 and 13, column (c). Reduce the deduction as provided in section 805(a)(4)(D)(ii). Enter here and on page 1, line 21a and on Schedule J, Part I, line 2c	16		

Schedule B Gross Investment Income (section 812(d)) (see instructions)

1	Interest (excluding tax-exempt interest)	1		
2	Gross taxable dividends (Schedule A, line 15, column (a))	2		
3	Gross rents	3		
4	Gross royalties	4		
5	Leases, terminations, etc.	5		
6	Excess of net short-term capital gain over net long-term capital loss (Schedule D (Form 1120), line 16)	6		
7	Gross income from trade or business other than an insurance business (attach statement)	7		
8	Investment income. Add lines 1 through 7. Enter here and on page 1, line 4	8		
9	Tax-exempt interest. Enter here and on Schedule F, line 13 and Schedule J, Part I, line 2d	9		
10	Increase in policy cash value of section 264(f) policies as defined in section 805(a)(4)(F). Enter here and include on Schedule F, line 13	10		
11	Add lines 8, 9, and 10	11		
12	100% qualifying dividends	12		
13	Gross investment income. Subtract line 12 from line 11. Enter here and on Schedule F, line 9	13		

Schedule F Increase (Decrease) in Reserves (section 807) and Company/Policyholder Share Percentage (section 812) (see instructions)

		(a) Beginning of tax year	(b) End of tax year
1	Life insurance reserves	1	
2	Unearned premiums and unpaid losses	2	
3	Supplementary contracts	3	
4	Dividend accumulations and other amounts	4	
5	Advance premiums	5	
6	Special contingency reserves	6	
7	Add lines 1 through 6	7	
8	Increase (decrease) in reserves under section 807. Subtract line 7, column (a) from line 7, column (b)	8	
9	Gross investment income (Schedule B, line 13)	9	
10a	Required interest on reserves under sections 807(c)(1), (3), (4), (5), and (6) (attach statement)	10a	
b	Deductible excess interest. Enter here and on lines 18b and 19 below	10b	
c	Deductible amounts credited to employee pension funds	10c	
d	Deductible amounts credited to deferred annuities	10d	
e	Deductible interest on amounts left on deposit	10e	
f	Total policy interest. Add lines 10a through 10e. Enter here and on line 26 below	10f	
11	Subtract line 10f from line 9	11	
12	Life insurance company gross income (see instructions)	12	
13	Tax-exempt interest and the increase in policy cash value of section 264(f) policies as defined in section 805(a)(4)(F). (Enter the sum of Schedule B, line 9 and line 10.)	13	
14	Add lines 12 and 13	14	
15	Increase in reserves from line 8. (If a decrease in reserves, enter -0-.)	15	
16	Subtract line 15 from line 14	16	
17	Investment income ratio. Divide line 11 by line 16. If zero or less, enter -0-	17	
18a	Policyholder dividends paid or accrued	18a	
b	Excess interest from line 10b	18b	
c	Premium adjustments	18c	
d	Experience-rated refunds	18d	
e	Deductible policyholder dividends. Add lines 18a through 18d. Enter here and on page 1, line 12	18e	
19	Deductible excess interest from line 10b	19	
20	Deductible dividends on employee pension funds	20	
21	Deductible dividends on deferred annuities	21	
22	Deductible premium and mortality charges for contracts paying excess interest	22	
23	Add lines 19 through 22	23	
24	Subtract line 23 from line 18e	24	
25	Investment portion of dividends. Line 17 times line 24	25	
26	Policy interest from line 10f	26	
27	Policyholder share amount. Add lines 25 and 26	27	
28	Net investment income (see instructions)	28	
29	Policyholder share amount from line 27	29	
30	Company share of net investment income. Subtract line 29 from line 28	30	
31	Total share percentage	31	
32	Company share percentage. Divide line 30 by line 28. Enter here and on Schedule A, line 11	32	%
33	Policyholders' share percentage. Subtract line 32 from line 31	33	%
34	Policyholders' share of tax-exempt interest and the increase in policy cash value of section 264(f) policies as defined in section 805(a)(4)(F). Multiply line 13 by line 33	34	
35	Net increase (decrease) in reserves. Subtract line 34 from line 8. If an increase, enter here and on page 1, line 10. If a (decrease), enter here and on page 1, line 2	35	

Schedule G Policy Acquisition Expenses (section 848) (see instructions)

	(a) Annuity	(b) Group life insurance	(c) Other
1 Gross premiums and other consideration	1		
2 Return premiums and premiums and other consideration incurred for reinsurance	2		
3 Net premiums. Subtract line 2 from line 1	3		
4 Net premium percentage	4		
5 Multiply line 3 by line 4	5		
6 Combine line 5, columns (a), (b), and (c), and enter here. If zero or less, enter -0- on lines 7 and 8			6
7 Unused balance of negative capitalization amount from prior years			7 ()
8 Combine lines 6 and 7. If zero or less, enter -0-			8
9 General deductions (attach statement)			9
10 Enter the lesser of line 8 or line 9			10
11 Deductible general deductions. Subtract line 10 from line 9. Enter here and include on page 1, line 18			11
12 If the amount on line 6 is negative, enter it as a positive amount. If the amount on line 6 is positive, enter -0-			12
13 Unamortized specified policy acquisition expenses from prior years			13
14 Deductible negative capitalization amount. Enter the lesser of line 12 or line 13			14
15a Tentative 60-month specified policy acquisition expenses. Enter amount from line 10, but not more than \$5 million	15a		
b Limitation	15b		
16 Phase-out amount. Subtract line 15b from line 10. If zero or less, enter -0-	16		
17a Current year 60-month specified policy acquisition expenses. Subtract line 16 from line 15a. If zero or less, enter -0-	17a		
b Enter 10% of line 17a		17b	
18a Current year 120-month specified policy acquisition expenses. Subtract line 17a from line 10	18a		
b Enter 5% of line 18a		18b	
19 Enter the applicable amount of amortization from specified policy acquisition expenses capitalized in prior years and deductible this year. Attach statement			19
20 Deductible policy acquisition expenses. Add lines 14, 17b, 18b, and 19. Enter here and on page 1, line 16			20

Schedule H Small Life Insurance Company Deduction (section 806(a)) (see instructions)

Part I—Controlled Group Information

	Name of company	Tentative LICIT	
		(a) Income	(b) (Loss)
1			
2			
3			
4			
5			
6	Add lines 1 through 5 in both columns		
7	Net controlled group tentative LICIT. Subtract line 6, column (b) from line 6, column (a). Enter here and on line 11 below		

Part II—Small Life Insurance Company Deduction If total assets (Schedule L, Part I, line 6, column (b)), are \$500 million or more, complete lines 8 through 12, line 16, and enter -0- on line 17 (see instructions).

8	Gain or (loss) from operations from page 1, line 22	8		
9a	Noninsurance income	9a		
b	Noninsurance deductions	9b		
10a	Gain or (loss) on insurance operations. Subtract line 9a from line 8 and add line 9b	10a		
b	Adjustments (attach statement)	10b		
c	Tentative LICIT. Combine lines 10a and 10b	10c		
11	Net controlled group tentative LICIT from line 7	11		
12	Combined tentative LICIT. Add line 10c and line 11. If \$15 million or more, skip lines 13 through 15 and enter -0- on line 17 below and on page 1, line 23	12		
13	Enter 60% of line 12, but not more than \$1,800,000		13	
14a	Maximum statutory amount	14a		
b	Subtract line 14a from line 12. If zero or less, enter -0-	14b		
c	Enter 15% of line 14b, but not more than \$1,800,000		14c	
15	Tentative small life insurance company deduction. Subtract line 14c from line 13		15	
16	Taxpayer's share. Divide line 10c by the total of line 6, column (a) and line 10c. If line 10c is zero or less, enter -0- on this line		16	
17	Small life insurance company deduction. Multiply line 15 by line 16. Enter here and on page 1, line 23, and on Schedule J, Part I, line 2b		17	

Schedule I Limitation on Noninsurance Losses (section 806(b)(3)(C)) (see instructions)

1	Noninsurance income (attach statement)	1		
2	Noninsurance deductions (attach statement)	2		
3	Noninsurance operations loss deductions	3		
4	Add lines 2 and 3	4		
5	Noninsurance loss. Subtract line 1 from line 4. If line 1 is greater than line 4, skip lines 5 through 8 and enter -0- on line 9	5		
6	Enter 35% of line 5	6		
7	Enter 35% of the excess of LICIT (page 1, line 24) over any noninsurance loss included on page 1	7		
8	Enter the lesser of line 6 or line 7	8		
9	Limitation on noninsurance losses. Subtract line 8 from line 5. Enter here and on page 1, line 25	9		

Schedule J Part I—Shareholders Surplus Account (Stock Companies Only) (section 815(c)) (see instructions)

1a	Balance at the beginning of the tax year	1a		
b	Transfers under pre-1984 sections 815(d)(1) and (4) for the preceding year	1b		
c	Balance at the beginning of the tax year. Add lines 1a and 1b	1c		
2a	LICTI. Add lines 24 and 25, page 1. If zero or less, enter -0-	2a		
b	Small life insurance company deduction (Schedule H, line 17)	2b		
c	Dividends-received deduction (Schedule A, line 16, column (c))	2c		
d	Tax-exempt interest (Schedule B, line 9) (see instructions)	2d		
3	Add lines 1c through 2d	3		
4	Tax liability without regard to section 815. Figure the tax on line 2a as if it were total taxable income	4		
5	Subtract line 4 from line 3. If zero or less, enter -0-	5		
6	Direct or indirect distributions in the tax year but not more than line 5	6		
7	Balance at the end of the tax year. Subtract line 6 from line 5	7		

Part II—Policyholders Surplus Account (Stock Companies Only) (section 815(d)) (see instructions)

8	Balance at the beginning of the tax year	8		
9a	Direct or indirect distributions in excess of the amount on line 5, Part I above	9a		
b	Tax increase on line 9a	9b		
c	Subtractions from account under pre-1984 sections 815(d)(1) and (4)	9c		
d	Tax increase on line 9c	9d		
e	Subtraction from account under pre-1984 sections 815(d)(2)	9e		
10	Add lines 9a through 9e, but not more than line 8. Enter here and on page 1, line 26	10		
11	Balance at the end of the tax year. Subtract line 10 from line 8	11		

Schedule K Tax Computation (see instructions)

1	Check if the corporation is a member of a controlled group (attach Schedule O (Form 1120)) <input type="checkbox"/>			
2	Income tax	2		
3	Alternative minimum tax (attach Form 4626)	3		
4	Add lines 2 and 3	4		
5a	Foreign tax credit (attach Form 1118)	5a		
b	Credit from Form 8834, line 7 (attach Form 8834)	5b		
c	General business credit (attach Form 3800)	5c		
d	Credit for prior year minimum tax (attach Form 8827)	5d		
e	Bond credits from Form 8912	5e		
6	Total credits. Add lines 5a through 5e	6		
7	Subtract line 6 from line 4	7		
8	Foreign corporations—tax on income not effectively connected with U.S. business	8		
9	Other taxes. Check if from: <input type="checkbox"/> Form 4255 <input type="checkbox"/> Form 8611 <input type="checkbox"/> Other (attach statement)	9		
10	Total tax. Add lines 7 through 9. Enter here and on page 1, line 28	10		

Schedule L Part I—Total Assets (section 806(a)(3)(C)) (see instructions)

	(a) Beginning of tax year		(b) End of tax year	
1 Real property	1			
2 Stocks	2			
3 Proportionate share of partnership and trust assets	3			
4 Other assets (attach statement)	4			
5 Total assets of controlled groups	5			
6 Total assets. Add lines 1 through 5	6			

Part II—Total Assets and Total Insurance Liabilities (section 842(b)(2)(B)(i)) (see instructions)

Line references below are to the "Assets" (lines 1 and 2) and "Liabilities, Surplus, and Other Funds" (lines 3 through 13) sections of the NAIC Annual Statement.

	(a) Beginning of tax year		(b) End of tax year	
1 Subtotals for assets (line 26)	1			
2 Total assets (line 28)	2			
3 Reserve for life policies and contracts (line 1)	3			
4 Reserve for accident and health policies (line 2)	4			
5 Liability for deposit-type contracts (line 3)	5			
6 Life policy and contract claims (line 4.1)	6			
7 Accident and health policy and contract claims (line 4.2)	7			
8 Policyholder's dividend and coupon accumulations (line 5)	8			
9 Premiums and annuity considerations received in advance less discount (line 8)	9			
10 Surrender values on canceled policies (line 9.1)	10			
11 Part of other amounts payable on reinsurance assumed (line 9.3)	11			
12 Part of aggregate write-ins for liabilities (line 25). (Only include items or amounts includible in "total insurance liabilities on U.S. business" as defined in section 842(b)(2)(B)(i))	12			
13 Separate accounts statement (line 27)	13			
14 Total insurance liabilities. Add lines 3 through 13	14			

Schedule M Other Information (see instructions)

	Yes	No		Yes	No
1 Check method of accounting: a <input type="checkbox"/> Accrual b <input type="checkbox"/> Other (specify) _____			8 At any time during the year, did one foreign person own, directly or indirectly, at least 25% of (a) the total voting power of all classes of stock of the corporation entitled to vote or (b) the total value of all classes of stock of the corporation? If "Yes," enter: a Percentage owned ▶ _____ and b Owner's country ▶ _____

	14 Interest			14	
	15 Other capital losses (Schedule G, line 12, column (g))			15	
	16 Total. Add lines 9 through 15			16	
	17 Investment expenses (attach statement)			17	
	18 Total deductions. Add lines 16 and 17			18	
	19 Subtract line 18 from line 8			19	
20 Dividends-received deduction (Schedule C, line 25)			20		
21 Taxable investment income. Subtract line 20 from line 19. Enter here and on page 1, line 2			21		

Part II—Invested Assets Book Values

(Complete only if claiming a deduction for general expenses allocated to investment income.)

		(a) Beginning of tax year	(b) End of tax year		
22	Real estate	22			
23	Mortgage loans	23			
24	Collateral loans	24			
25	Policy loans, including premium notes	25			
26	Bonds of domestic corporations	26			
27	Stock of domestic corporations	27			
28	Government obligations, etc.	28			
29	Bank deposits bearing interest	29			
30	Other interest-bearing assets (attach statement)	30			
31	Total. Add lines 22 through 30	31			
32	Add columns (a) and (b), line 31			32	
33	Mean of invested assets for the tax year. Enter one-half of line 32			33	
34	Multiply line 33 by .0025			34	
35	Income base. Line 1b, column (a) plus line 8 less the sum of line 1b, column (b) and line 16	35			
36	Multiply line 33 by .0375	36			
37	Subtract line 36 from line 35. Do not enter less than zero	37			
38	Multiply line 37 by .25			38	
39	Limitation on deduction for investment expenses. Add lines 34 and 38			39	

Schedule C Dividends and Special Deductions (see instructions)		Dividends-Received	
		(a) Subject to section 832(b)(5)(B)	(b) Total dividends-received
Income			
1	Dividends from less-than-20%-owned domestic corporations (other than debt-financed stock)	1	
2	Dividends from 20%-or-more-owned domestic corporations (other than debt-financed stock)	2	
3	Dividends on debt-financed stock of domestic and foreign corporations	3	
4	Dividends on certain preferred stock of less-than-20%-owned public utilities	4	
5	Dividends on certain preferred stock of 20%-or-more-owned public utilities	5	
6	Dividends on stock of certain less-than-20%-owned foreign corporations and certain FSCs	6	
7	Dividends on stock of certain 20%-or-more-owned foreign corporations and certain FSCs	7	
8	Dividends from wholly owned foreign subsidiaries and certain FSCs	8	
9	Dividends from affiliated companies	9	
10	Other dividends from foreign corporations not included on lines 3, 6, 7, or 8	10	
11	Income from controlled foreign corporations under subpart F (attach Forms 5471)	11	
12	Foreign dividend gross-up (section 78)	12	
13	Other dividends (attach statement)	13	
14	Total dividends. Add lines 1 through 13. Enter here and on Schedule A, line 2, or Schedule B, line 2, whichever applies	14	
Deduction		Dividends-Received Deduction	
		(a) Subject to section 832(b)(5)(B)	(b) Total dividends-received deduction
15	Multiply line 1 by 70%	15	
16	Multiply line 2 by 80%	16	
17	Deduction for line 3 (see instructions)	17	
18	Multiply line 4 by 42%	18	
19	Multiply line 5 by 48%	19	
20	Multiply line 6 by 70%	20	
21	Multiply line 7 by 80%	21	
22	Enter the amount from line 8	22	
23	Total. Add lines 15 through 22. (See instructions for limitation.)	23	
24	Total. Add line 23, column (a), and line 9, column (a). Enter here and on Schedule F, line 10	24	
25	Total deductions. Add line 23, column (b), and line 9, column (b). Enter here and on Schedule A, line 36a, or Schedule B, line 20, whichever applies	25	

Schedule E Premiums Earned—Section 832 (see instructions)

1	Net premiums written			1	
2	Unearned premiums on outstanding business at the end of the preceding tax year:				
a	Enter 100% of life insurance reserves included in unearned premiums (section 832(b)(7)(A)) and unearned premiums of section 833 organizations (see instructions)	2a			
b	Enter 90% of unearned premiums attributable to insuring certain securities	2b			
c	Discounted unearned premiums attributable to title insurance	2c			
d	Enter 80% of all other unearned premiums (see instructions)	2d			
e	Total. Add lines 2a through 2d			2e	
3	Total. Add lines 1 and 2e			3	
4	Unearned premiums on outstanding business at the end of the current tax year:				
a	Enter 100% of life insurance reserves included in unearned premiums (section 832(b)(7)(A)) and unearned premiums of section 833 organizations (see instructions)	4a			
b	Enter 90% of unearned premiums attributable to insuring certain securities	4b			
c	Discounted unearned premiums attributable to title insurance	4c			
d	Enter 80% of all other unearned premiums (see instructions)	4d			
e	Total. Add lines 4a through 4d			4e	
5	Subtract line 4e from line 3			5	
6	Transitional adjustments under section 832(b)(7)(D) (see instructions)			6	
7	Premiums earned. Add lines 5 and 6. Enter here and on Schedule A, line 1			7	

Schedule F Losses Incurred—Section 832 (see instructions)

1	Losses paid during the tax year (attach statement)			1	
2	Balance outstanding at the end of the current tax year for:				
a	Unpaid losses on life insurance contracts	2a			
b	Discounted unpaid losses	2b			
c	Total. Add lines 2a and 2b			2c	
3	Add lines 1 and 2c			3	
4	Balance outstanding at the end of the preceding tax year for:				
a	Unpaid losses on life insurance contracts	4a			
b	Discounted unpaid losses	4b			
c	Total. Add lines 4a and 4b			4c	
5	Subtract line 4c from line 3			5	
6	Estimated salvage and reinsurance recoverable at the end of the preceding tax year			6	
7	Estimated salvage and reinsurance recoverable at the end of the current tax year			7	
8	Losses incurred (line 5 plus line 6 less line 7)			8	
9	Tax-exempt interest subject to section 832(b)(5)(B)	9			
10	Dividends-received deduction subject to section 832(b)(5)(B) (Schedule C, line 24)	10			
11	The increase in policy cash value of section 264(f) policies as defined in section 805(a)(4)(F)	11			
12	Total. Add lines 9, 10, and 11			12	
13	Reduction of deduction under section 832(b)(5)(B). Multiply line 12 by .15			13	
14	Losses incurred deductible under section 832(c)(4). Subtract line 13 from line 8. Enter here and on Schedule A, line 26			14	

Schedule G Other Capital Losses (see instructions)

(Capital assets sold or exchanged to meet abnormal insurance losses and to pay dividends and similar distributions to policyholders.)

1	Dividends and similar distributions paid to policyholders									1		
2	Losses paid									2		
3	Expenses paid									3		
4	Total. Add lines 1, 2, and 3									4		
Note. Adjust lines 5 through 8 to cash method if necessary.												
5	Interest received									5		
6	Dividends-received (Schedule C, line 14)									6		
7	Gross rents, gross royalties, lease income, etc., and gross income from a trade or business other than an insurance business including income from Form 4797 (include gains for invested assets only)									7		
8	Net premiums received									8		
9	Total. Add lines 5 through 8									9		
10	Limitation on gross receipts from sales of capital assets. Line 4 less line 9. If zero or less, enter -0-									10		
	(a) Description of capital asset	(b) Date acquired	(c) Gross sales price	(d) Cost or other basis	(e) Expense of sale	(f) Depreciation allowed (or allowable)	(g) Loss ((d) plus (e) less the sum of (c) and (f))					
11												
12	Totals—column (c) must not be more than line 10. (Enter amount from column (g) in Schedule A, line 28, or Schedule B, line 15, whichever applies)											

Schedule H Special Deduction And Ending Adjusted Surplus for Section 833 Organizations (see instructions)

1	Health care claims incurred during the tax year and liabilities incurred during the tax year under cost-plus contracts									1		
2	Expenses incurred during the tax year in connection with the administration, adjustment, or settlement of health care claims or in connection with the administration of cost-plus contracts									2		
3	Total. Add lines 1 and 2									3		
4	Multiply line 3 by .25									4		
5	Beginning adjusted surplus									5		
6	Special deduction. If you checked "No" on line 14 of Schedule I, enter -0- here, you cannot take the special deduction. All others subtract line 5 from line 4. If zero or less, enter -0-. Enter amount here and on Schedule A, line 34a. (See instructions for limitation.)									6		
7	Net operating loss deduction (Schedule A, line 36b)									7		
8	Net exempt income:											
a	Adjusted tax-exempt income									8a		
b	Adjusted dividends-received deduction									8b		
9	Taxable income (Schedule A, line 37)									9		
10	Ending adjusted surplus. Add lines 5 through 9									10		

Schedule I Other Information (see instructions)

May the IRS discuss this return with the preparer shown below (see instructions)? Yes No

Paid Preparer Use Only section with fields for preparer's name, signature, date, firm's name, address, EIN, and phone number.

For Paperwork Reduction Act Notice, see separate instructions.

Cat. No. 64114F

Form 1120-REIT (2013)

Part II—Tax on Net Income From Foreclosure Property (Section 856(e)) (see instructions)

1	Net gain or (loss) from the sale or other disposition of foreclosure property described in section 1221(a)(1) (attach statement)	1		
2	Gross income from foreclosure property (see instructions—attach statement)	2		
3	Total income from foreclosure property. Add lines 1 and 2	3		
4	Deductions directly connected with the production of income shown on line 3 (attach statement)	4		
5	Net income from foreclosure property. Subtract line 4 from line 3	5		
6	Tax on net income from foreclosure property. Multiply line 5 by 35%. Enter here and on Schedule J, line 2b	6		

Part III—Tax for Failure To Meet Certain Source-of-Income Requirements (Section 857(b)(5)) (see instructions)

1a	Enter total income from Part I, line 8	1a			
b	Enter total income from foreclosure property from Part II, line 3	1b			
c	Total. Add lines 1a and 1b			1c	
2a	Enter income from hedging transactions referred to in section 856(c)(5)(G)	2a			
b	Subtract line 2a from line 1c	2b			
c	Multiply line 2b by 95%			2c	
3	Enter income on line 1c from sources referred to in section 856(c)(2)			3	
4	Subtract line 3 from line 2c. (If zero or less, enter -0-.)			4	
5	Multiply line 1c by 75%			5	
6	Enter income on line 1c from sources referred to in section 856(c)(3)			6	
7	Subtract line 6 from line 5. (If zero or less, enter -0-.)			7	
8	Enter the greater of line 4 or line 7. (If line 8 is zero, do not complete the rest of Part III.)			8	
9	Enter the amount from Part I, line 20			9	
10	Enter the net capital gain from Schedule D (Form 1120), line 17			10	
11	Subtract line 10 from line 9			11	
12a	Enter total income from Part I, line 8	12a			
b	Enter the net short-term capital gain from Schedule D (Form 1120), line 7. (If line 7 is a loss, enter -0-.)	12b			
c	Add lines 12a and 12b			12c	
13	Enter capital gain net income from Part I, line 5			13	
14	Subtract line 13 from line 12c			14	
15	Divide line 11 by line 14. Carry the result to five decimal places			15	
16	Section 857(b)(5) tax. Multiply line 8 by line 15. Enter here and on Schedule J, line 2c			16	

Part IV—Tax on Net Income From Prohibited Transactions (see instructions)

1	Gain from sale or other disposition of section 1221(a)(1) property (other than foreclosure property)	1		
2	Deductions directly connected with the production of income shown on line 1	2		
3	Tax on net income from prohibited transactions. Subtract line 2 from line 1. Enter here and on Schedule J, line 2d	3		

Schedule A Deduction for Dividends Paid (see instructions)

1	Dividends paid (other than dividends paid after the end of the tax year). Do not include dividends considered paid in the preceding tax year under section 857(b)(9) or 858(a), or deficiency dividends as defined in section 860	1		
2	Dividends paid in the 12-month period following the close of the tax year under a section 858(a) election to treat the dividends as paid during the tax year	2		
3	Dividends declared in October, November, or December deemed paid on December 31 under section 857(b)(9)	3		
4	Consent dividends (attach Forms 972 and 973)	4		
5	Deficiency dividends (section 860) (Attach Form 976)	5		
6	Total dividends paid. Add lines 1 through 5	6		
7	Total deduction for dividends paid. If there is net income from foreclosure property on Part II, line 5, see instructions for limitation on the deduction for dividends paid. Otherwise, enter the total dividends paid from line 6 here and on line 21b of page 1	7		

Schedule J Tax Computation (see instructions)

1 Check if the REIT is a member of a controlled group (attach Schedule O (Form 1120)) <input type="checkbox"/>					
Important: Members of a controlled group, see instructions.					
2a	Tax on REIT taxable income	2a			
b	Tax from Part II, line 6	2b			
c	Tax from Part III, line 16	2c			
d	Tax from Part IV, line 3	2d

Attachment
Sequence No. **22**

Name(s) shown on return

Identifying number

Part I Current Year Credit for Credits Not Allowed Against Tentative Minimum Tax (TMT)
(See instructions and complete Part(s) III before Parts I and II)

1	General business credit from line 2 of all Parts III with box A checked		1	
2	Passive activity credits from line 2 of all Parts III with box B checked	2		
3	Enter the applicable passive activity credits allowed for 2013 (see instructions)		3	
4	Carryforward of general business credit to 2013. Enter the amount from line 2 of Part III with box C checked. See instructions for statement to attach		4	
5	Carryback of general business credit from 2014. Enter the amount from line 2 of Part III with box D checked (see instructions)		5	
6	Add lines 1, 3, 4, and 5		6	

Part II Allowable Credit

7	Regular tax before credits: • Individuals. Enter the amount from Form 1040, line 44, or Form 1040NR, line 42 • Corporations. Enter the amount from Form 1120, Schedule J, Part I, line 2; or the applicable line of your return • Estates and trusts. Enter the sum of the amounts from Form 1041, Schedule G, lines 1a and 1b; or the amount from the applicable line of your return		7	
8	Alternative minimum tax: • Individuals. Enter the amount from Form 6251, line 35 • Corporations. Enter the amount from Form 4626, line 14 • Estates and trusts. Enter the amount from Schedule I (Form 1041), line 56		8	
9	Add lines 7 and 8		9	
10a	Foreign tax credit	10a		
b	Certain allowable credits (see instructions)	10b		
c	Add lines 10a and 10b		10c	
11	Net income tax. Subtract line 10c from line 9. If zero, skip lines 12 through 15 and enter -0- on line 16		11	
12	Net regular tax. Subtract line 10c from line 7. If zero or less, enter -0-	12		
13	Enter 25% (.25) of the excess, if any, of line 12 over \$25,000 (see instructions)	13		
14	Tentative minimum tax: • Individuals. Enter the amount from Form 6251, line 33 • Corporations. Enter the amount from Form 4626, line 12 • Estates and trusts. Enter the amount from Schedule I (Form 1041), line 54	14		
15	Enter the greater of line 13 or line 14		15	
16	Subtract line 15 from line 11. If zero or less, enter -0-		16	
17	Enter the smaller of line 6 or line 16 C corporations: See the line 17 instructions if there has been an ownership change, acquisition, or reorganization.		17	

For Paperwork Reduction Act Notice, see separate instructions.

Cat. No. 12392F

Form **3800** (2013)

Part II Allowable Credit (Continued)

Note. If you are not required to report any amounts on lines 22 or 24 below, skip lines 18 through 25 and enter -0- on line 26.

18	Multiply line 14 by 75% (.75) (see instructions)	18		
19	Enter the greater of line 13 or line 18	19		
20	Subtract line 19 from line 11. If zero or less, enter -0-	20		
21	Subtract line 17 from line 20. If zero or less, enter -0-	21		
22	Combine the amounts from line 3 of all Parts III with box A, C, or D checked	22		
23	Passive activity credit from line 3 of all Parts III with box B checked	23		
24	Enter the applicable passive activity credit allowed for 2013 (see instructions)	24		
25	Add lines 22 and 24	25		
26	Empowerment zone and renewal community employment credit allowed. Enter the smaller of line 21 or line 25	26		
27	Subtract line 13 from line 11. If zero or less, enter -0-	27		
28	Add lines 17 and 26	28		
29	Subtract line 28 from line 27. If zero or less, enter -0-	29		
30	Enter the general business credit from line 5 of all Parts III with box A checked	30		
31	Reserved	31		
32	Passive activity credits from line 5 of all Parts III with box B checked	32		
33	Enter the applicable passive activity credits allowed for 2013 (see instructions)	33		
34	Carryforward of business credit to 2013. Enter the amount from line 5 of Part III with box C checked and line 6 of Part III with box G checked. See instructions for statement to attach	34		
35	Carryback of business credit from 2014. Enter the amount from line 5 of Part III with box D checked (see instructions)	35		
36	Add lines 30, 33, 34, and 35	36		
37	Enter the smaller of line 29 or line 36	37		
38	Credit allowed for the current year. Add lines 28 and 37. Report the amount from line 38 (if smaller than the sum of Part I, line 6, and Part II, lines 25 and 36, see instructions) as indicated below or on the applicable line of your return: <ul style="list-style-type: none"> • Individuals. Form 1040, line 53, or Form 1040NR, line 50 • Corporations. Form 1120, Schedule J, Part I, line 5c • Estates and trusts. Form 1041, Schedule G, line 2b 	38
