REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

ON THE

OPERATIONS OF THE INTERNAL REVENUE SYSTEM

FOR THE

YEAR ENDING JUNE 30, 1868

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1868.

REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, November 20, 1868.

SIR: The first measure adopted by Congress after the outbreak of the rebellion, providing revenue from internal taxation, was approved August 5, 1861. From that date until the summer of 1865 the costs of the war were annually increasing, and these costs, coupled with the interest on the rapidly augmenting public debt, and the necessity of preserving the national credit, made constantly increasing taxation absolutely indispensable.

During all that period the attention of the Treasury Department and of Congress was continually employed in the discovery of new objects of taxation and additional sources of revenue. That the people carried the burdens thus imposed upon them so universally, and carried them, too, so uncomplainingly, will forever be evidence to their posterity of their power and their loyalty. It was not until the authority of the government had been fully established, its liabilities determined, and its financial capacity and responsibility thoroughly proven to the world, that any relief from tax was furnished or even generally desired.

The largest receipts of internal revenue were during the fiscal year 1866, when taxation had reached its highest limits. The estimates of the reductions since that period, made from time to time, with reference to proposed legislation, were—

	Annually.
By statute of July 13, 1866	$65,000,000
By statute of March 2, 1867	40,000,000
By statute of February 3, 1868	23,000,000
By statute of March 31, 1868 By statute of July 20, 1868	45,000,000
Total	173,000,000

The two statutes last named swept away the tax upon manufactures, mineral oils and petroleum, and the estimate is without reference to the reduction of the rates upon distilled spirits.

The receipts for the last fiscal year were from the statutes existing July 1, 1867, modified by the act of March 31, 1868.

The statute of February relates to cotton, and relieved only that grown after the year 1867.

From the accounts kept in this office, as required by law, I herewith transmit tabular statements, which it is the duty of the Secretary of the Treasury to lay before Congress. They are:

Table A, showing the receipts from each specific source of revenue, and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ending June 30, 1868.

Table B, number and value of internal revenue stamps procured monthly by the Commissioner, and monthly receipts from purchasers of internal revenue stamps, the commissions allowed on the same, and the receipts from agents for the sale of stamps.

Table C, comparative table, showing the territorial distribution of internal revenue from various sources in the United States.

Table D, the ratio of the receipts from specific sources to the aggregate of all collections for the years 1865, 1866, 1867, and 1868.

Table E, the ratio of the gross collections from the several sources of revenue to the aggregate collections, exclusive of the receipts from passports, salaries, stamps, United States marshals, special agents of the treasury, and Solicitor of the Treasury, for the fiscal years ending June 30, 1864, 1865, 1866, 1867, and 1868, respectively.

Table F, total collections from each specific source of revenue for the fiscal years ending June 30, 1863, 1864, 1865, 1866, 1867, and 1868, respectively.

Table G, abstract of reports of district attorneys concerning suits and prosecutions under the internal revenue laws.

AGGREGATE RECEIPTS.

The aggregate receipts from internal revenue, exclusive of the direct tax upon lands and the duty upon the circulation and deposits of national banks, were for the year—

1866	$310,906,984 17
1867	265,920,474 65
1868	*191,180,564 28

These amounts include drawback upon goods exported and sums refunded as erroneously assessed and collected.

* The difference between the amounts here stated and those reported by the Treasurer is due to the fact that the same receipts are not entered upon the books of the two offices on the same day. The statistics of this office are based almost entirely upon the current collections, while the accounts of the Treasurer include such collections only when they are covered into the treasury.

The amounts of drawback and sums refunded were as follows:

	Drawback.	Amounts refunded.
1866	$798,866 73	$514,844 43
1867	1,864,631 68	706,581 69
1868	1,379,980 01	1,018,334 81

The increase of drawback in 1867 was due to the increased exportation of cotton goods and of spirits of turpentine, and the presentation of claims for taxes upon articles exported prior to June 30, 1864, which presentation was stimulated by the statute of limitations barring their payment unless presented before October, 1866.

During the last year this large exportation continued, and claims were multiplied by a new statute of limitations. Since October 1, 1868, no drawback has been allowed, except upon goods manufactured exclusively of tax-paid cotton, upon beer, and proprietary articles to which stamps had been attached.

About $300,000 of amounts refunded in 1867 and 1868 arose from the refunding to wholesale dealers, under direction of the act of July, 1866, so much of their license tax as was due to the excess of their estimated over their actual sales.

In many districts railroads were taxed upon their gross receipts from freight long after the repeal of the law imposing such tax, and the amount has been refunded, as has been also the sum of $52,856 42, illegally assessed, in the opinion of the Attorney General, upon cotton grown on the Indian reservations.

RECEIPTS FROM SEVERAL SOURCES.

Banks, trust companies, and savings institutions.

	1866.	1867.	1868.
Dividends and additions to surplus	$4,186,023 72	$3,774,975 32	$3,624,774 99
Circulation	990,328 11	208,276 07	26,901 99
Deposits	2,099,635 83	1,355,395 98	1,438,512 77
Capital	374,074 11	476,867 73	399,562 90

The tax upon the dividends and additions to surplus of all banks, trust companies, and saving institutions, is reported to this office through assessors and collectors, while that upon the circulation, deposits, and capital of national banks is paid to the Treasurer of the United States.

The reduction of receipts reported from capital and circulation is due to the conversion of State banks into national associations, and that from deposits is due to the same cause and to the relief by the act of July, 1866, to all sums of less than $500 deposited in the name of any one person in savings institutions having no capital stock. The receipts from capital are variable, as in determining the taxable capital of any institution its average investment in United States bonds is deductible.

Railroads.

	1866.	1867.	1868.
Dividends and profits	$2,205,804 45	$3,379,262 19	$2,630,174 08
Interest on bonds	1,255,916 98		1,259,155 80
Gross receipts	7,614,448 13	4,128,255 24	3,134,337 19

The collectors' monthly abstracts for 1867 did not give the receipts from interest upon bonds separate from those upon dividends and profits. During the fiscal year 1866 and two months of 1867 the tax collected was from assessments upon the gross receipts for the transportation of property as well as of persons.

Insurance companies.

	1866.	1867.	1868.
Dividends and additions to surplus	$767,231 12	$563,473 93	$605,489 78
Premiums and assessments	1,169,722 23	1,326,014 38	1,288,745 79

Dividends of insurance companies, railroads, and banks have been taxed five per cent. during the three years, while the tax upon premiums and assessments has been one and a half per cent.

Gross receipts of telegraph companies.

1866	$308,437 52
1867	239,594 93
1868	214,699 18

The receipts of the fiscal year 1866 were from the tax of five per cent., as were those of two months of 1867. After that time the rate was three per cent. The reduction in the rates of companies for the transmission of despatches has, it is believed, contributed to the reduction of receipts by the government.

Gross receipts of express companies.

1866	$645,769 02
1867	558,359 28
1868	671,949 62

The rate during the three years remained unchanged from three per cent.

Revenue stamps.

1866	$15,044,373 18
1867	16,094,718 00
1868	14,852,252 02

By the act of March 2, 1867, receipts for the delivery of property, affidavits, appeals, confessions of judgment, writs, and other original processes, canned and preserved meats and shell-fish, vegetables, and fruits, were exempted from stamp duty. Beer stamps are not included in the above.

In 1867 $1,927,117 56, and in 1868 $2,026,823, were received from the sale of one cent stamps.

The sum of $3,231,247 27 in 1867, and of $3,549,177 32 in 1868, was received for stamps from special dies for matches, perfumery, cosmetics, medicines, and other proprietary articles.

Legacies and successions.

1866	$1,168,765 59
1867	1,861,429 16
1868	2,813,751 97

Special attention during the past year has been devoted to the assessment of legacies and successions both on the part of this office and that of assessors and their assistants, and to this fact, in no small degree, is due the increase of receipts from these sources.

Income.

1866	$60,894,135 85
1867	57,040,640 67
1868	32,027,610 78

The amount collected in the fiscal year 1866, and four-fifths of that collected in 1867, were assessed at the highest war rates, and the increase of exemption appeared for the first time in the returns for 1868. The assessments on the incomes for the calendar year cannot all be collected in the same fiscal year, although great progress towards this end was made with the last annual list. The total amount thus far reported from the tax on incomes of the calendar year 1866 is $27,417,956 65, and from that of 1867 $22,236,381 79; of the former amount $9,773,858 were collected in the fiscal year 1867, and $17,644,098 in 1868. Of the tax on incomes of 1867 $14,389,781 were collected in the fiscal year 1868, and but $7,846,600 in 1869. There remain several districts from which full returns have not been received, and it is believed that the amount actually collected upon the incomes of 1867 exceeds $23,000,000.

The number of persons assessed for an income tax on the annual list of 1866, before the increased exemption, was 460,170. In 1867 the number was 259,385, and in 1868 in 222 districts, from which reports have been received, the number was 222,775. In the 18 missing districts the number in 1867 was 20,948.

Articles in schedule A.

1866	$1,692,791 65
1867	2,116,495 22
1868	1,134,105 88

The change from May to March, in 1867, of the time for making the annual assessment of articles in schedule A, as in the case of income and special taxes, makes the collections of the fiscal year 1867 disproportionate to those of 1866 or 1868. The receipts during that year by this change embraced an unusual amount of two annual assessments.

For the last two years, yachts, piano-fortes, and musical instruments, and carriages of less value than $300, have not been taxed. The receipts from the annual list of 1867 were $939,654 71; and the total amount thus far reported from the list of 1868 is $804,437 92.

Special taxes.

1866	$18,015,743 32
1867	18,103,615 69
1868	15,966,313 26

The reduction in the receipts of the last fiscal year is only apparent, and arises from the change of the tax upon wholesale dealers from an annual one collected at the beginning of the year to a monthly tax upon sales.

The collections of special taxes, like those for income and articles named in schedule A, cannot all be made in the fiscal year of their assessment.

The receipts from the assessment of 1867 were $14,136,459 18; those already reported from the assessment of 1868 are $10,779,599 08, which amount will be considerably increased when the collectors' abstracts are all received.

The comparative receipts from several sources during the last three years are presented in the following table:

	1866.	1867.	1868.
Apothecaries	$43,712 86	$55,447 42	$58,377 46
Auctioneers	89,721 42	98,084 86	97,448 14
Bankers	1,262,649 05	1,433,715 79	1,490,383 95
Brewers	105,412 23	238,155 14	270,205 22
Brokers of various sorts	673,260 30	598,854 94	538,417 43
Claim agents	70,637 39	84,627 49	63,149 99
Dealers, retail	1,949,017 04	2,047,860 77	2,163,632 00
wholesale	5,428,344 86	3,880,281 13	1,854,387 80
retail liquor	2,807,225 59	2,966,683 73	3,242,915 31
wholesale liquor	801,531 32	982,134 94	592,045 72
Distillers, coal oil	17,350 12	21,809 32	19,629 66
spirituous liquors	81,295 06	174,445 71	121,868 92
apples, grapes or peaches	20,239 31	57,332 15	74,188 45
Hotels	580 021 56	663,656 32	656,795 41
Insurance agents	104 ·66 83	148,647 85	152,143 51
Lawyers	264,836 75	357,648 41	383,030 95
Manufacturers	1,043,030 78	1,296,487 27	1,427,688 52
Peddlers	679,013 63	708,113 28	724,210 29
Physicians and surgeons	425,596 66	549,368 64	580,566 31
Rectifiers	61,300 91	80,470 06	87,770 28

Under the law existing prior to that of July, 1866, brewers paid an annual tax of $25, and when their product was more than 500 barrels

per year $25 additional. By the act of July, 1866, this tax was doubled, as was that upon distillers of spirituous liquors. The act of July, 1868, will very largely increase the receipts from rectifiers and distillers.

Cotton.

1866	$18,409,654 90
1867	23,769,078 80
1868	22,500,947 77

During the fiscal year 1866 the tax was two cents per pound. From August 1, 1866, until September 1, 1867, it was three cents, and after that date two and a half cents per pound. As the removal of cotton from the districts of its growth is limited during the months of July and August, and the tax for ten months of the last fiscal year was at the reduced rate, it is evident that the amount brought to charge during that year was greater than in any year preceding, and considerably in excess of two millions of bales.

Cigars, cigarettes, and cheroots.

1866	$3,476,236 86
1867	3,661,984 39
1868	2,951,675 26

During the fiscal year 1866 the tax upon cigars was $10 per thousand. From August 1, 1866, to March, 1867, the rate was partly specific and in part ad valorem. After the last-named date the tax was uniform, and at $5 per thousand. Since the act of 1862 the rate upon cigars has been frequently changed; but as their number has always been an element in determining the amount of tax, it has been practicable every year to compute from the returns of the local officers the number of cigars upon which the tax has been collected.

From these it appears that the number in the fiscal years

1863 was	199,288,284
1864 "	492,780,700
1865 "	693,230,989
1866 "	347,443,894
1867 "	483,806,456
1868 "	590,335,052

The act of June 30, 1864, taking effect at the beginning of the fiscal year 1865, had long been before Congress, and as it provided, among other things, a large increase of tax upon cigars, their manufacture for several months was very largely stimulated; and of the number which paid tax in 1865, 160,304,197 were returned to the assessors at the close of the year preceding, and paid the lower rates.

This increase of stock in the market accounts in some measure for the small returns in 1866. The reduction of the rate to $5 enhanced the production during 1868.

Chewing and smoking tobacco.

1866	$12,339,921 93
1867	15,245,477 81
1868	14,947,107 53

The receipts for 1866 were unfavorably affected by the accumulation of tobacco in the south before the close of the rebellion, much of which came to market untaxed. The amount received during the last fiscal year was somewhat prejudiced by the anticipation of reduced rates under the revenue bill for several months pending in Congress.

The product brought to charge in 1866 was 35,748,351 pounds; in 1867, 45,635,581 pounds; in 1868, 44,900,880 pounds.

The reduction of the consumption of tobacco during the past year is compensated by its increased use in the manufacture of cigars consequent upon their reduced taxation.

The amount stored in bonded warehouse on the 1st day of July, 1866, was 4,123,631 pounds; 1867, 7,625,001 pounds; 1868, 8,280,253 pounds.

The amount exported in bond during 1867 was 11,075,568 pounds; 1868, 11,962,670 pounds.

Fermented liquors.

1866	$5,115,140 49
1867	5,819,345 49
1868	5,685,663 70

The tax at $1 per barrel has been uniform during the year.

Distilled spirits and brandy.

	Distilled spirits.	Brandy.
1866	$29,198,578 15	$283,499 84
1867	28,296,264 31	868,145 03
1868	13,419,092 74	871,638 24

The falling off of receipts in 1868 resulted in some degree from the general expectation that the tax would be reduced, and the consequent unwillingness to withdraw spirits from bond at the higher rate, but mainly from the frauds which made such reduction indispensably necessary. In my last annual report I discussed at so great length the nature and extent of these frauds, and that, too, after so long and so careful attention to the subject, that it is unnecessary for me further to discuss them. Their remedy lies in the improved character of the officers of the revenue and of the courts, rather than in the increased stringency of the law or improved regulations and requirements of the department. The above figures do not include the receipts from forfeitures.

The amount of spirits in bonded warehouse July 1, 1866, was 6,081,551 gallons; in 1867, 17,887,272 gallons; in 1868, 27,278,420 gallons.

The quantity out of warehouse under transportation bonds at the beginning of the fiscal year 1867 and of 1868 was at each date considerably in excess of 3,000,000 gallons. There was none at the commencement of 1869. The quantity exported in bond in 1867 was 4,654,816 gallons, and in 1868, 4,128,188 gallons. The number of gallons removed to "Class 2 warehouses," in 1867, for the manufacture of cosmetics, medicines, cordials, &c., for exportation, was 892,727; while in 1868, allowed by law during only a portion of the time, it was 98,213 gallons.

EXPENSES OF COLLECTING THE REVENUE.

The major part of the cost of assessing and collecting the revenue is the compensation of local officers, including assistant assessors and assessors' clerks, who are paid a fixed and definite sum per day or year, regardless of the amount accruing to the treasury through their services.

Until the statute of March, 1868, and the close of the last fiscal year, it was found necessary to retain in most of the collection districts the full number of subordinate officers, and the effect of the reduction since that time will not appear until the next annual report of this office.

Expense of assessing and collecting internal revenue for the fiscal years ending June 30, 1866, 1867, *and* 1868.

	1866.	1867.	1868.
Compensation and expenses to assessors and assistant assessors	$4,034,043 09	$4,811,665 62	$5,181,179 97
Compensation and expenses to collectors	2,161,710 14	2,453,050 89	2,262,231 69
Superintendents of exports	16,714 00	15,434 71	20,385 97
Revenue agents	35,455 79	45,541 85	61,210 32
Special agents to this office	17,226 82	39,812 00	94,650 99
Revenue inspectors	121,078 70	189,271 84	374,518 73
Special revenue commission	22,080 60	1,228 85	.....
Officers and clerks of this bureau	277,672 71	296,909 75	316,769 82
Stamps and cotton tags	177,089 55	186,234 61	139,365 71
Other incidental expenses of this office	40,093 02	87,999 69	71,349 85
Commissions on sale of stamps	786,536 04	855,536 22	805,638 69
Total	7,689,700 46	8,982,686 03	9,327,301 74

These statements comprise the accounts adjusted and passed by the accounting officers of the department, and appear more in detail in the report of the Fifth Auditor.

The expenses for the year 1867, as presented in my last annual report, did not include unadjusted claims, amounting to $961,751 80 for assessing, and $308,845 21 for collecting.

These amounts in the above statement have been charged to their appropriate year. The increased cost for assessing for 1867 over that for 1866 arose from the increased number of collection districts in the south, and the employment of a larger number of officers. The excess of 1868 above the expenses of 1867 was occasioned mainly by the increase of the pay of assistant assessors from $4 to $5 per day. A much larger number of special agents and inspectors were in service during the last year than in any year preceding, but these were all retired by the act of July 20, 1868. The number of assistant assessors in commission on the 1st day of November, 1867, was 3,180. This number, with the sources of revenue diminished by the act of March last, has been largely reduced, and on the first day of the present month but 2,284 were in service.

The allowance to assessors for clerical service is, under the terms of the statute, made by "the proper officers of the treasury." This language has been construed to mean the accounting officers, and the Commissioner has no voice in determining the amount; but it is understood that it is being gradually reduced.

The receipts of internal revenue for the fiscal years 1866, 1867, and 1868, respectively, and the ratio thereto of the expenses during the same periods, were as follows:

Years.	Gross collections.	Refunded.	Drawback.	Net collections.	Expenses.	Per cent. gross collections.	Per cent. net collections.
1866	$310,906,984 17	$514,844 43	$798,866 73	$309,593,273 01	$7,689,700 46	2.47	2.49
1867	265,920,474 65	706,581 69	1,864,631 68	263,349,261 28	8,982,686 03	3.38	3.41
1868	191,180,564 28	1,018,334 81	1,379,980 01	188,782,249 46	9,327,301 74	4.88	4.94

The ratio of costs to collections has increased, of course, with the reduction of the latter. It has required the same machinery and the same number of officers to collect taxes at two or three per centum as at five per centum, and until the passage of the statutes of the present calendar year it was necessary to keep the officers substantially to their maximum number.

PROBABLE RECEIPTS FOR THE PRESENT FISCAL YEAR.

It has always been difficult to make any accurate estimate of the receipts for the future from internal taxation. The frequent modifications of the laws themselves, the varying condition of different manufacturing interests, the shifting values consequent upon paper currency, together with other disturbing elements, have materially affected the worth of data collected at this office from which otherwise the receipts for any fiscal year could be foreshadowed with considerable accuracy.

The reduction of the sources of revenue has now, however, somewhat diminished these embarrassments, and the collections for the current year can be calculated with reasonable certainty.

The following tabular statement presents the aggregate of certificates of deposits by collectors received at this office during July, August, September, and October, for the fiscal years 1867, 1868, and 1869, respectively:

	1867.	1868.	1869.
July	$27,079,103 38	$24,734,656 14	$16,989,649 92
August	38,043,340 81	17,848,051 29	13,900,385 70
September	33,714,718 66	13,183,606 99	9,760,796 29
October	26,414,430 29	14,486,636 44	10,092,335 24

Of the amount collected in 1867 there was from income $43,463,655 45; in 1868 $17,733,714 04, and in 1869 $8,365,817 68.

I herewith present, also, the collections from the several sources of revenue during the first quarter of the present fiscal year in comparison with those of like character during the corresponding period of the fiscal year 1868.

The monthly abstract of the collector of the 5th district of North Carolina for August, 1868, and of the collector of the 3d district of Louisiana for September, have not been received, and the collections in their districts for the months stated are not included in the receipts for 1869.

	July, August, and September of fiscal year 1868.	July, August, and September of fiscal year 1869.
SPIRITS.		
Spirits, distilled from whatever materials	$3,726,352 03	$6,021,629 14
Spirits in bond July 20, 1868, tax of four dollars per barrel	----------	1,071,898 56
Distilleries, per diem tax	----------	572 00
Distillers, special tax	65,270 42	66,479 78
Rectifiers, special tax	29,456 88	73,573 24
Compounders of liquors, special tax	----------	7,348 95
Dealers, retail liquor, special tax	1,217,999 22	1,007,971 61
Dealers, wholesale liquor, special tax	254,842 43	215,969 81
Total	5,293,920 98	8,465,443 09
TOBACCO.		
Cigars, cheroots, and cigarettes	$654,163 21	$847,306 24
Snuff and snuff flour sold for use	172,566 59	142,859 55
Tobacco, chewing, &c.	3,724,423 85	2,709,251 40
Tobacco, smoking, all stems, &c.; fine cut shorts, &c.	454,957 18	465,610 73
Dealers in leaf tobacco, special tax	----------	16,634 15
Dealers in manufactured tobacco, special tax	----------	89,431 13
Manufacturers of tobacco and cigars, special tax	23,695 64	24,580 46
Total	5,029,806 47	4,295,673 66
FERMENTED LIQUORS.		
Fermented liquors	$1,619,615 92	$1,722,018 36
Brewers, special tax	96,877 02	68,583 52
Total	1,716,492 94	1,790,601 88
GROSS RECEIPTS.		
Canals, ferries, ships, barges, &c., and steamboats	$134,124,58	$100,894 10
Express companies	146,398 89	159,282 47
Insurance companies	293,019 14	292,992 06
Railroads, stage coaches, &c	873,100 33	827,325 57
All other collections from gross receipts	129,570 99	134,262 31
Total	1,576,213 93	1,514,756 51
SALES.		
Brokers	$91,319 87	$93,989 09
Dealers	795,498 25	759,052 28
Manufacturers of articles not otherwise specifically taxed	----------	849,729 99
All other collections from sales	37,384 93	36,741 47
Total	924,203 05	1,739,512 83

Collections of revenue, &c.—Continued.

	July, August, and September of fiscal year 1868.	July, August, and September of fiscal year 1869.
INCOME.		
Income over $1,000	$14,631,978 77	$8,189,870 65
Bank dividends, profits, &c	1,021,994 38	1,166,446 99
Railroad companies' dividends and undistributed profits	664,455 65	966,164 59
All other collections from income	552,433 38	650,637 19
Total	16,870,862 18	10,973,119 42
Banks and bankers, special tax, and tax on capital, circulation, and deposits	$1,090,661 26	$886,078 06
Special taxes not before enumerated	4,053,221 87	2,969,427 27
Legacies	320,277 97	278,590 36
Successions	230,730 38	254,065 55
Articles in schedule A	497,900 34	300,842 69
Passports	14,695 00	8,665 00
Gas	318,076 70	341,127 72
Sources not otherwise herein specially enumerated, including cotton and manufactured articles	11,866,928 49	874,430 98
Penalties, &c	250,150 69	306,402 45
Stamps, other than those for spirits, tobacco, and fermented liquors	3,122,970 23	3,393,471 73
Salaries of United States officers and employees	220,850 53	228,689 55
Grand total	$53,397,963 01	$38,620,898 75

The principal cause of the reduction in the aggregate receipts of 1869 below those of 1868, as shown above, is the repeal of the tax upon manufactures.

The sum of $5,359,492 80 was received in the fiscal year 1869 from the tax of 50 cents per gallon upon spirits in bond July 20, and withdrawn therefrom after that date. The sum of $662,136 34 was either collected prior to the act of July 20, 1868, and at the rate of $2 per gallon, or from spirits distilled after that date and removed from warehouse at 50 cents per gallon. Of the spirits in bond at the passage of the act in July last, 14,676,298 gallons were remaining on the 1st of November. This by the requirements of law must all be withdrawn on or before the 20th day of April next, and with the tax of 50 cents per gallon and $4 per barrel of forty proof gallons will yield a revenue of $8,805,779.

The assessment of the annual list, including income, special taxes and schedule A, was made earlier in 1868 than in 1867, and more of the collections of the former year than of the latter were made prior to the month of July and appear in the receipts of the last fiscal year.

The receipts from snuff and tobacco were smaller in 1869 because of the reduction from 40 cents to 32 cents upon chewing tobacco and snuff by the act of July last, and because of the anticipated use of stamps and the subjection to tax in January next of unstamped stock on hand on which one tax may have already been paid.

The increase from cigars is due in part to the tax imposed upon imported cigars by the act of July. Under this act dealers in leaf tobacco pay a special tax of $25 and two dollars per thousand on their sales in excess of $10,000 per annum. By the former law they were taxed as dealers and paid $1 per thousand on sales above $25,000.

Dealers in manufactured tobacco were first taxed as such in July; prior to that time the payment of special tax as dealers covered sales of tobacco, snuff, and cigars, as well as merchandise.

Manufacturers' sales were made liable by the act of March, 1868, and the tax is returned and paid quarterly. The first return was in July following.

The tax upon rectifiers and wholesale liquor dealers is now very largely increased, and the receipts from the various forms of stamps for spirits, aside from that denoting the payment of tax, will be of no inconsiderable amount.

From a careful consideration of the above, and of other data which the proper limits of my report will not allow me to present, I confidently believe that the receipts for the present fiscal year will reach the sum of $145,000,000.

STAMPS AND THEIR MANUFACTURE.

All adhesive revenue stamps are manufactured by Messrs. Butler & Carpenter, of Philadelphia, for 20 cents per thousand. This price includes the cost of packing in a manner suitable for transportation, and of delivery to an agent of the government in that city upon the requisitions of this office in favor of purchasers and others ordering stamps in different parts of the country.

The number of stamps covered by these requisitions during the last three years is as follows:

	1866.	1867.	1868.
General stamps	162,814,377	140,592,294	118,696,255
Stamps for proprietary articles	236,192,746	233,300,300	248,840,077

The American Phototype Company, of New York city, imprint internal revenue stamps upon checks, drafts, receipts, and other instruments furnished them by the parties who desire such stamps. The cost of these stamps to the government is 12½ cents per thousand; all additional cost, which in no case is to exceed one cent for each impression containing not more than six stamps, is paid to the company by the parties who order the stamps. Messrs. Butler & Carpenter also print similar stamps from steel plates at the same cost to the government as that of the adhesive stamps. The extra expense is arranged between them and the purchasers, subject to the decision of the Commissioner in case of dissatisfaction with the rates charged.

Stamps imprinted upon instruments are not kept on hand for general

sale, like adhesive stamps, but are printed only upon order and prepayment by purchasers; and no stamp is imprinted upon any particular form of instrument until the Commissioner has decided concerning the propriety of such imprinting, and the extent of the liability of the instrument.

The number of stamps imprinted by the American Phototype Company was, during the fiscal years—

1866	20,541,690
1867	15,469,504
1868	21,133,556

The stamps for use upon packages of distilled spirits are manufactured by the Note-printing Bureau of the Treasury Department, as were the cigar stamps required by the amendatory act of March 3, 1865.

The number of stamps in their various forms for distilled spirits ordered from the Note-printing Bureau is 839,000 tax-paid stamps; 2,000,000 rectifiers' stamps; 2,000,000 wholesale dealers' stamps; 1,000,000 stock-on-hand stamps; 2,000,000 warehouse stamps.

At the date of this report (November 20) there had been sent to collectors tax-paid stamps 460,800; rectifiers' stamps, 284,400; wholesale dealers' stamps, 245,600; stock-on-hand stamps, 433,600; warehouse stamps, 304,000.

The stamps for tobacco, snuff, and cigars, under the act of July 20, 1868, are furnished by the Continental Bank Note Company, of New York, at prices varying with the kinds and amounts required. Their use is to be commenced on the 23d of the present month.

Stamps are printed upon tin-foil wrappers for ounce and half-ounce packages of fine-cut chewing tobacco, by Mr. Henry Skidmore, of New York, the only printer upon tin-foil in the United States, at a charge of 14 cents per thousand.

All stamps made outside the Treasury building are prepared under written contracts and the direct inspection of an agent of this bureau. The performance of the work in accordance with the terms of the contracts is duly secured in each case; in that of Butler & Carpenter by a deposit of United States securities with the United States Treasurer, and in other cases by bonds with approved sureties.

UNITED STATES COURTS AND ATTORNEYS.

It is the duty of district attorneys, under the act of March, 1867, to make report to this office, at the close of every term of court, of suits brought and the condition of all suits or proceedings in which the United States is a party. The times and character of these reports prevent the distribution of the suits through different fiscal years with positive accuracy, but the following statements are believed to be measurably correct for the year 1868:

Number of suits brought in federal courts	5,305
Of these the number of proceedings *in rem* was	2,294

Number of indictments found and filed	1,981
Number of other proceedings *in personam*	1,030
Judgments recovered in proceedings for forfeiture	1,261
Convictions on indictment, some including more than one person	749
Number of acquittals	219
Number of suits decided in favor of United States	2,532
Number of suits decided against United States	382
Number of suits settled or dismissed	624
Number of suits pending July 1, 1868	2,905
Amount of judgments recovered in suits *in personam*	$741,797 47
Amount collected from judgments and paid into courts	127,810 94
Proceeds of forfeitures paid into courts	1,136,150 73

With the exception of a division of the southern judicial district of New York, and the formation of the eastern as a new judicial district, the federal courts remain as they were before the outbreak of the rebellion. The proceedings growing out of the organization of the national banks and the issue of national currency would alone have almost clogged the already scarcely adequate judicial machinery in some localities; and since revenue cases and proceedings in bankruptcy have been added, the calendars have been so enlarged that in the principal business centres a speedy determination of a contested cause has been hardly expected.

Considerable relief was formerly obtained through terms which were held by judges from adjoining districts, whose own dockets were comparatively light. Payment by the government of expenses incurred by a judge while sitting outside his own district is now prohibited, and judges naturally decline to undertake extra labor at increased cost to themselves. Although the old system may have been liable to some abuses, I respectfully submit that the advantages to the government far outweighed the pecuniary loss, and that, unless some radical change in the organization of the courts be made, it will be wise to return to the system under which judges were willing to relieve each other.

As stated in my last report, the statutes should be amended so as to require the clerks of courts, as well as the attorneys and marshals, to report to this office, that among other things it may learn of the distribution of the proceeds of every suit. The fee-bill of district attorneys, I believe, should be modified so as to give larger compensation than now for the faithful prosecution of criminal proceedings. It is through these, and the imprisonment of offenders, rather than from penalties and forfeitures, that the laws can be successfully vindicated and the revenue more fully collected.

COMPROMISES.

The power of compromise has been exercised with great care, and only upon the recommendation of the local revenue officers or district attorneys, and the approval of the Secretary of the Treasury. No alleged

violation by distillers has been compromised except upon the opinion of the government attorney that the offence was technical, or could not be proved to the jury.

The number of cases compromised during the year was 536.

From these there was received as tax	$419,043 57
Assessed penalties, fixed by law	142,003 56
In lieu of fines, penalties, and forfeitures	592,027 68
Total	1,154,027 61

By the statute of July last, in every case where a compromise is made, it is provided that there shall be placed on file in the office of the Commissioner the opinion of the solicitor of internal revenue, or officer acting as such, with his reasons therefor, and after a suit or proceeding in court has been commenced, it can be compromised only with the recommendation also of the Attorney General.

DISTILLED SPIRITS—OPERATIONS OF THE NEW LAW.

The remodelling of distilleries to conform to the law and the regulations, and the erection of distillery warehouses, have been the occasion of great expense and delay to their proprietors, while the survey of distilleries, the procurement and distribution of stamps, the preparation of forms and regulations, aud the greatly increased correspondence consequent upon the inauguration of the new law, have imposed an immense labor upon this office and upon the local officers of the district where distilleries are situated. The nature and extent of this work will be best exhibited by a brief reference to some of the most important requirements of the statute.

Every distillery, whether intended for use or otherwise, must be registered with the assessor of its district. Its owner must file with that officer notice of its location, description and boundaries, its mashing, fermenting, and distilling capacity, and its fermenting period, together with the number, kinds, and contents of the stills, boilers, tubs, and cisterns employed. An accurate plan of the distillery and its apparatus, showing the relative location of every still, boiler, doubler, worm-tub, cistern, pipe-valve, and other parts of the machinery, must be displayed upon the premises, and a copy filed with the assessor. With the aid of a person skilful and competent for such purpose, the assessor is required to make a survey of every distillery, and to estimate and determine its true producing capacity, for the purpose of assessment in case of deficient returns. Copies of all the papers above referred to are sent to this office, where a full and complete record is kept of every distillery.

A warehouse must be established for every distillery, and, under the direction and control of the collector of the district, placed in charge of a storekeeper appointed by the Secretary of the Treasury. A bond in the penal sum of double the tax upon the possible production of the distillery for fifteen days must be given by the distiller, with at least two sureties approved by the assessor, conditioned, among other things, to a faithful compliance with all the provisions of the law.

All this must be done before a distillery is allowed to commence operations. Afterwards daily reports to this office are made by its storekeeper of all spirits entered and withdrawn from warehouse, and monthly reports of materials used, beer made, and spirits produced at the distillery.

Reports of like character are made each month by the assessors, based upon the tri-monthly reports to them from distillers, and including also their assessments of deficiencies, and of the per diem and per barrel taxes imposed by law. These various reports when received here, compared with and checked by each other, are duly recorded and filed.

The number of distilleries registered and thus far reported to this office, including those not intended for present use and those for the distillation of fruit, is 1,990.

The plans of 316 distilleries, other than of fruit, have been received and filed, as in accordance with the law and regulations, and others have been returned for correction. Of these, 64 are in Pennsylvania, 51 in Ohio, 41 in New York, 35 in Illinois, 26 in Kentucky, 16 in Indiana, 14 in Virginia, 10 in Tennessee, 10 in Missouri, 10 in Maryland, 7 in Massachusetts, 7 in Wisconsin, 6 in Louisiana, 6 in Iowa, 3 in West Virginia, 2 in Connecticut, and 1 in each of the States of Alabama, Arkansas, Delaware, Minnesota, New Hampshire, New Jersey, and 1 in Utah, and 1 in Montana.

No plans have been received from the Pacific coast, although distilleries there have probably been put in operation.

Distillery warehouses have been established to the number of 459.

From the reports of the storekeepers it appears that 204 distilleries are in operation, with an aggregate daily producing capacity of 227,758 gallons.

The number of Class B warehouses existing on the 1st day of July last was 779. Their number was gradually and rapidly reduced until the 1st instant, when the number was 172, containing manufactured tobacco and most of the spirits distilled prior to the act of July 20 and still in warehouse.

The statute now in operation contains many improvements upon that of 1866, is fuller and more definite in its exactions, places the distilleries and their operations more completely in the hands of the government, and is more rigorous in its punishment of offenders, but its successful operation after all must depend upon the vigilance and fidelity of the local officers. The corruption of storekeepers, gaugers, and assistant assessors, even when assessors and collectors are above suspicion, will always open sources of ruin to honest tax-payers and loss to the treasury, which neither the wisest legislation nor the most stringent regulations of the department can close.

Since the date of the present statute, however, there has been a large

reduction in the number of illicit stills in most parts of the country. Those properly registered and authorized have paid, it is believed, a greater proportion of their liability than under the previous law, and the receipts have been in marked and favorable contrast to those of the corresponding time last year.

SPIRIT METERS.

It will be remembered that the joint resolution of February 3, 1868, providing for the appointment of a commission to examine and test spirit meters, further provided that, until the report of the commission and additional legislation upon the subject, all work on the construction of meters under direction of the department should be suspended. Although this report was laid before Congress in March following, no action was taken thereon until the act of July 20, by which the Commissioner of Internal Revenue was authorized to adopt and prescribe for use such meters as he should deem necessary.

The meters adopted by the Secretary of the Treasury on the 16th of April, 1867, and in progress of construction at the date of the joint resolution above referred to, were those of Mr. Isaac P. Tice, of New York. That no injustice should be done distillers who were required by law and regulation to purchase these meters, it was stipulated with Mr. Tice that their price should be fixed by a committee of three—one named by the Secretary of the Treasury, one by the Commissioner of Internal Revenue, and one by the manufacturer.

When I had concluded, in accordance with the recommendation of the commission, to adopt and prescribe the Tice meters, it seemed advisable, for similar reasons, that the prices of meters of different sizes should be properly determined; and after considerable delay in finding suitable persons whose engagements would allow their rendering the service, Messrs. W. T. Duvall, of Georgetown, D. C., Levi J. Knowles, of Warren, Massachusetts, and William P. Trowbridge, of New York city, all skilful and competent machinists, were selected for that purpose. This committee made its report on the 8th day of September, and on the 16th day of the same month Mr. Tice was directed to proceed with the manufacture and attachment.

Under the joint resolution of February 3, he had discharged his employees, closed his manufactory, and when his meter was again adopted he was delayed by the necessity of reorganizing his business and procuring competent workmen.

For the purpose of bringing the meters to as early use as possible, I directed that they should be first attached in New York city, the place of their manufacture, and in Brooklyn, and instructed the collectors of the eighth and ninth districts to notify their distillers that meters were ready for attachment, and subsequently gave like notice to the collectors in the other districts. On the 19th of November meters had been placed in 11 distilleries, and their attachment to others is being prosecuted as

rapidly as circumstances, including the opposition of distillers, will allow. I am advised that several distilleries have been closed by their proprietors to prevent the application of meters.

The revenue officers and the manufacturer have been earnestly urged to complete the work in New York and Brooklyn at the earliest moment that it may be prosecuted in other districts of the country.

I am advised that Mr. Tice now has about 125 workmen employed in his factory, and others engaged in the attachment of meters at distilleries.

All meters are attached under the immediate direction of a government officer, by whom the accuracy of each instrument is tested.

DIRECT TAX.

Under the authority of the 14th section of the act of July 28, 1866, the Secretary of the Treasury suspended, until January 1, 1868, the collection of the direct tax in the States heretofore in insurrection, and a like extension until January 1, 1869, was authorized by the joint resolution of July 23, 1868.

The loyal States, with the single exception of Delaware, assumed the amounts apportioned them, and paid the same from their treasuries. After several years of delay, the State of Delaware continuing to refuse such assumption and payment, the assessment and collection of the tax were commenced by the officers of internal revenue, and are now nearly completed. Indeed, the full assessment of $74,683 33, the tax assigned, has been made, and $64,924 42 have been collected.

The total amount of tax apportioned to the 11 insurrectionary States was $5,153,981 28. Of this there have been collected $2,270,608 23, at an expense of $243,451 47, inclusive of expenses of sales, and exclusive of salaries of commissioners.

The total amount reported to this office as proceeds of sales in the States of Virginia, South Carolina, Florida, Tennessee, and Arkansas, is $450,419 73. Of this the sum of $128,029 88 consists of lands purchased by the commissioners on behalf of the government when the same were sold for taxes.

Purchases of lands to the cost value of $77,561 18 were made in South Carolina. A part of the lands so purchased has been leased, and a part, by order of the President, resold for educational purposes. The unsold tracts in South Carolina, not under lease, have passed into the custody of the Freedmen's Bureau by force of the act relating to this subject passed July 16, 1866.

The uncollected tax of the insurrectionary States, amounting to nearly $3,000,000, is a lien upon all the real estate upon which the same is assessable. Every parcel in each State is charged with such distributive share of that State's apportionment as shall be determined by its comparative value on the 1st day of April, 1862, and in making assessments the law provides that due regard shall be had to the valuation made under State authority at the period nearest that date.

Since that time estates have been sold and resold; they have been divided and subdivided. Some have received costly improvements, and from others has been swept away all that was valuable. In ordinary times the assessment made upon a comparative valuation so remote would be greatly unequal; but when the immense changes, directly and indirectly brought by the war, are considered, it seems to me that the collection of this tax upon the present statutory basis cannot be further prosecuted without very great inequality and very just complaint.

The further postponement of this subject can relieve it of none of its embarrassments, and landholders and purchasers are alike entitled to its early solution. Unless it is deemed wise, in view of the difficulties suggested, and of the impoverished condition of the south, to abate its uncollected portion altogether, I would recommend the passage of a law allowing its assumption by the several States within a definite period, coupled with a reasonable premium for such assumption, and authorizing and directing the internal revenue officers, in case of non-payment by the State, to proceed with the assessment and collection upon a new basis of taxation.

CHANGES OF STATUTES.

Next to frequent changes of officers there is nothing so prejudicial to the personal convenience and interests of tax-payers, and so productive of loss to the revenue, as frequent changes of the statutes.

The gradual increase of the expenses of the government from 1861 to 1865, and their gradual reduction during the last two years, have secured the passage of at least one revenue bill at every session of the national Congress, and within a period of six years more than twenty-five such bills have passed both houses and received the approval of the President. The pendency of a measure has furnished frequent opportunities for numerous amendments, some of them not really important, but from a change of language, rendering valueless many precedents and regulations of the office and well-considered decisions of the courts.

While officers are employed in the introduction of a new law involving great study and frequent correspondence to secure uniformity in its administration, honest tax-payers are fretted by obligations to which they are unaccustomed, and the dishonest find renewed opportunity for the commission of fraud under the protection of professed ignorance.

The annual revenue required for many years from internal taxation can now be well determined, if, indeed, a proper regard to the rapid reduction of the debt and the value of the public securities in the markets of the world has not already fixed it at its present amount, and I believe that no advantage can possibly accrue from a material change in the objects of taxation. From several hundreds if not thousands of sources the number has been reduced to a comparatively few, all of which contribute their allotted share without embarrassment, and the masses of the country are not only unburdened, but, except through the

complaints of others, are seldom even reminded of the existence of the revenue laws.

The recent act relative to distilled spirits, tobacco, snuff, and cigars, has been in force for so brief a period that but few modifications which its operations may prove necessary can now be recommended with confidence. I would respectfully suggest, therefore, that the general codification of the revenue laws, begun at the last session of Congress, be postponed a year, that this statute may be more thoroughly tested, and that a single act then be passed embracing all that is valuable in existing laws, and of such character as to insure it against the necessity of amendments for several years.

Some legislation, however, in addition to that recommended in my report last year, and not covered by the act of July last, is, I think, advisable at the present time.

LIMITATION OF COMMISSIONERS' AUTHORITY TO REFUND TAXES ERRONEOUSLY COLLECTED.

The authority vested in the Commissioner of Internal Revenue to refund taxes erroneously collected has been the means of preventing much expensive litigation, and has afforded speedy and inexpensive relief to many persons who have been compelled to pay more than was legally due. While a withdrawal of this authority would be productive of great hardship in many cases, I am satisfied that a statutory limitation of the time within which such claims must be presented would tend to prevent much abuse. When the legality of an assessment is not seriously questioned at the time it is made, the evidence in its support is very apt to disappear with a change in the officers of the district; and it is not then difficult for a skilful attorney to present reasons in support of a claim for refunding such as are hard to be set aside. Different persons succeeding one another in the office of Commissioner will naturally have different views as to the interpretation of portions of the statutes, and he whose claim has been once rejected may present it anew, after a change of officers, with reasonable hope of better success. I would recommend that no claim be allowed unless it is presented within fifteen months from the time when the tax was paid.

STAMPS UPON TAX-PAID TOBACCO AND SNUFF.

It having been found practically impossible to prepare and furnish to collectors in all parts of the country, within 60 days from the passage of the act of July 20, 1868, the stamps required for distilled spirits and tobacco, the Secretary of the Treasury, in the exercise of the authority conferred upon him by the 108th section of the act, fixed the 2d day of November as the day for putting into operation the provisions relative to the use of stamps upon distilled spirits, and the 23d day of November for the stamps upon tobacco and cigars. In anticipation of a much earlier use of stamps upon tobacco, it was enacted that after the 1st

day of January, 1869, no smoking or fine-cut chewing tobacco or snuff shall be sold or offered for sale except at retail, from stamped wooden packages, unless put up in the prescribed form of package and duly stamped. It was believed that, by the close of the calendar year, the stock on the market, when the use of stamps should begin, would be so nearly exhausted that it would not be burdensome to impose a second tax upon the small remnant unconsumed. The short interval between the 23d day of November and the 1st day of January will not give the intended opportunity for the consumption of unstamped tobacco, and Congress will probably see fit to enlarge it. I have been urged to recommend that provision be made for issuing stamps without charge, to be affixed to all such tobacco as may be in the hands of dealers on the appointed day. Evasions of the law will be comparatively easy so long as tobacco may be sold without stamps, and prominent manufacturers believe that the advantage to the revenue of the early termination of these opportunities will more than compensate for the expense and inconvenience attending it. I fear, however, that if this method were adopted, it would be impossible to prevent the misuse of the free stamps upon tobacco properly taxable, and prefer, therefore, a postponement to a day later than the 1st day of January.

BANKERS' AND BROKERS' SALES.

I have heretofore in my annual reports expressed the opinion that the attempt to collect taxes by means of stamps upon instruments having no permanent value for purposes of evidence would prove a failure. Certainty rather than severity of punishment must be relied on to support the sanction of penal statutes. When both the maker and receiver of an instrument believe that the paper will never come under the eye of a revenue officer, it matters little what penalty is denounced for the omission to affix a stamp. If the writing is of such a character that its invalidity as an instrument of evidence is of slight consequence, evasions of the tax will naturally result. To no one of the various stamp taxes now imposed do these considerations apply with greater force than to the memoranda required of brokers when making sales of coin and securities. These memoranda are in no sense evidences of title. In fact, they are only passed in obedience to the statute requirement, and are soon thrown aside and destroyed. If stamps have been affixed they can easily be removed, and it is hardly necessary to make an attempt to efface the cancellation marks before placing them upon another memoranda. So little scrutiny is bestowed upon these papers as they pass from brokers, that specimens have been presented of stamps which had been issued by gentlemen of the highest respectability while bearing plainly the marks of two and even three successive cancellations. During the fiscal year 1866, when the tax upon sales of this description was paid monthly to the collectors, the receipts from this source were in excess of $2,500,000. In August, 1866, the tax was reduced from one-twentieth to one-hundredth of one per

cent., and made payable by stamps; but at the same time such changes were made in the terms of the statute as to render subject many sales which had before escaped taxation, and thus to some extent to counteract the effect of the reduction in rate. Since that time the sales of stamps have been scarcely larger than before, and I am satisfied that a return to the former method would secure a more thorough enforcement of the law and yield much richer results.

LIFE TABLES.

In assessing taxes upon legacies and successions it frequently becomes necessary to determine the values of life estates and annuities for life. In the British laws imposing similar taxes, are embodied tables for determining such values by reference to the expectancy of life at different periods, but our statute is silent upon the subject. When it became necessary to furnish assessors with a standard by which to regulate their assessments, they were referred by this office to the Carlisle tables of mortality as those which were believed to be generally accepted as most accurate in their results. Other tables have been adopted for a similar use by the courts of some of the States, and tax-payers have claimed the right to have their liability measured by these instead of those used by the assessor.

The controversies which thus arise do not merely involve the relative rights of the government and the tax-payer, but in many cases the interest of the life tenant demands the use of one standard, while the remainder man is benefited by the adoption of another. It is evident that so important a matter should be made clear by the terms of the law, and I would therefore recommend either that the proper tables be incorporated in the statutes, or that distinct authority be given the Commissioner of Internal Revenue to prescribe such as he shall deem appropriate.

COMPENSATION OF ACTING COLLECTORS.

By the third section of the act regulating the tenure of offices, passed March 2, 1867, it is provided that, in case no appointment is made to a vacant office during the session of the Senate, "the office shall remain in abeyance without any salary, fees, or emoluments attached thereto," and "the powers and duties belonging to such office shall be exercised by such other officer as may by law exercise such powers and duties in case of a vacancy in such office."

Under the statutes relating to internal revenue, a collector appoints his deputies and pays them out of his commissions, and, when a vacancy occurs in the office of collector, the duties of the office devolve upon one of his deputies. It follows that when a vacancy in the office of collector of internal revenue is not filled during a session of the Senate, a deputy collector must act as collector, while no provision is made for compensating him for discharging the duties of either office. At the adjournment of Congress on the 3d of March, 1867, there were 69 vacancies in

the office of collector. Deputies of the retiring collectors remained in charge of their respective offices until new appointments were made, and they have not received compensation for their services. I recommend that some provision be made for paying them proper salaries, and also to meet similar cases that may occur hereafter.

Much inconvenience and delay are now experienced in paying the subordinate officers in a district whenever a vacancy occurs in the office of collector, as the deputy who acts as collector is not authorized to act as disbursing agent.

I recommend either that the official bond of a collector be made to cover his liabilities as disbursing agent, or, if that is not deemed advisable, that the bond given by the collector in the capacity of disbursing agent be made available upon the default of his deputy acting in like capacity, as the official bond of the collector now is for the acts of all his deputies.

TAX OF NATIONAL BANKS TO BE RETURNED AND PAID TO REVENUE OFFICERS.

The 110th section of the act of June 30, 1864, imposing a tax upon the capital, circulation, and deposits of persons and corporations engaged in the business of banking, has never had application to the banks organized under the national currency act, such banks paying a like tax directly to the Treasurer of the United States. As nearly all the State banks which were in existence when the tax was imposed have been converted into national banks or have closed up their business, the amounts reported to this office from this source have shrunk to a very small amount, although the actual revenue has probably increased.

While those banks which are affected by the operation of the revenue law are required to pay their taxes at the end of each month, the national banks pay only semi-annually. This discrimination was adopted when the policy of the government required that every inducement should be presented for the conversion of State into national associations, and it was thought that this comparative infrequency of returns by the latter would prove such inducement. Now that the national banking system has so completely superseded all others, the reason for the distinction fails, and a mere suggestion seems enough to show that the revenue law should be made alike applicable to all who are engaged in the same kinds of business.

SALES OF FORFEITED GOODS BY COLLECTORS.

The act of July, 1866, provided a summary process for the sale by collectors, without the decree of forfeiture, of goods seized for violation of the revenue laws, where the aggregate value of such goods should not exceed $300. Ample checks are thrown around the exercise of this authority for the protection of the innocent, and I believe that no serious complaint of its abuse has ever reached this office. The customs laws

have long contained a similar provision, and I am informed that its working has given general satisfaction. The statute in its terms now only applies to goods forfeited under the acts of 1866 and those of an earlier date, and it should be so amended as to apply to forfeiture for violations of any revenue law.

The expenses attendant upon sales made in this way are so small when compared with the costs which accrue before property can be sold under decree of a United States court, that it would, in my judgment, be wise if the same method of procedure be authorized in the case of goods of much higher aggregate value.

SUPERVISORS.

The act providing for the appointment of supervisors of the revenue requires that each shall be assigned to a district composed of one or more *judicial* districts. The services of these officers will be principally devoted to matters having little reference to the boundaries of judicial districts, and a much more convenient arrangement can be made if this particular provision is repealed. In each of the States of Pennsylvania and Ohio the amount of work has been thought to be such as to require the services of two supervisors, but the line between the two judicial districts in neither case coincides with the boundaries of collection districts. Two collection districts in the former State, and four in the latter, are thus placed severally under the jurisdiction of two supervisors.

Again, the proper supervision of the revenues in the five districts of New Jersey hardly furnishes employment for one officer, while it is not convenient to attach the whole State either to the districts including the city of New York, or to that covering the city of Philadelphia. Violations of the revenue law in the northern portion of the State will ordinarily be found connected with transactions in the one city, while in the southern part the connection will be with the other. In general terms the same may be said of many other parts of the country, and I would therefore recommend that the law be so changed that each supervisor may be assigned to a district including such collection districts as may be determined by the Commissioner of Internal Revenue.

REVENUE STAMPS UPON RECEIPTS.

The written instruments subject to stamp duty are, with few exceptions, prepared by persons familiar with the requirements of law, and at places where stamps of the proper denomination are kept, and when necessary may be attached without inconvenience. Among these exceptions receipts for money or the payment of debts exceeding $20 are the most prominent. These are often given under circumstances when compliance with the law would be exceedingly inconvenient if not impossible, and by and to people ignorant of the obligations which the law imposes. It thus often happens that a person innocently issuing an unstamped receipt may be put in peril of prosecution, while a person

innocently receiving it may find, too late, that the courts refuse to recog nize it, and that he is wronged without remedy.

I am convinced that there is no form of taxation which, producing so much annoyance to the tax-payer, yields so little revenue to the government, and I recommend that receipts be stricken from the schedule of instruments subject to stamp duty.

CIVIL SERVICE.

In my last annual report I presented the distinctive features of the civil service of Great Britain and of several countries of the continent, together with the reasons which, after a study of their superior workings, had convinced me of the pressing necessity of a change for the better in the service of our own country. My experience and observation since that time have deepened my convictions that justice to honest tax-payers and due regard to our national reputation alike demand the elevation of the revenue service above individual preferences and the fluctuations of parties. The antagonism between the legislative and the executive departments of the government, which has so sadly damaged the service for the past two years, may, I know, be regarded as exceptional, and the harmony to prevail hereafter be urged as a full corrective to existing evils; but until there is a positive change in the method of making appointments, importunity will secure recommendations upon which bad appointments must inevitably be made, and from which the public will suffer. A dishonest gauger or assistant assessor, in many localities, may, undetected, do more wrong to the government than lies within the power of an assistant treasurer or a foreign minister; yet these offices, through the skilful management of the applicants and their associates, are often devolved upon men of small ability and less integrity—in the very toils of corrupt distillers. I have known a distinguished clergyman advocating, from the purest motives, the appointment to office of one whom I knew as a leader among illicit whiskey operators. He was cheated by those who, two or three removes from him, had carefully studied the lines of sympathy and friendship, and did not hesitate to use the sacred office of the Christian ministry for personal emolument, through frauds upon the treasury. Without a service which shall insure appointment during good behavior, from comparative fitness, and which shall protect vigilant officers from the malicious attacks of the felons whom they obstruct or pursue, bad men, pressed for place because of their political service or their personal necessities, will prostitute positions they secure for enriching themselves at the cost of the treasury, and the guilty, in and out of office, will seek to blind the appointing authorities and the public, and cheat justice of her rights by assaulting the character of the officers whom they fear.

I fully admit that the spirit of our people is somewhat averse to the permanent service I so strongly recommend; that political aid from those in public positions is exacted by all political parties, and that rotation in

office is the long-established practice under local as well as under the general government; but, unless free institutions are to prove failures, ballots must be cast from honest convictions rather than the hope of political preferment or the fear of political displeasure. The inevitable tendency of such practice is the demoralization of our institutions and the degradation of official position—good men in all parties relaxing their interest in public affairs when place-hunting instead of principle is the controlling power, and men of well-earned and established reputation refusing to imperil it in places which have been desecrated by incompetency or fraud. The principles of Mr. Jenckes's bill, reported to the House of Representatives from the Joint Committee on Retrenchment, passed into law, would prove of immense public advantage.

CONSOLIDATION OF COLLECTION DISTRICTS.

Under the act of July 1, 1862, the then loyal States, with the exception of Kentucky and Missouri, were divided into collection districts of the same number, and in most cases with the same boundaries, as the con gressional districts. Several of the larger cities of the country—Boston, New York, Brooklyn, Philadelphia, Baltimore, and Cincinnati—comprising or forming parts of more than one congressional district, were thus thrown into more than one collection district. So many intricate questions were constantly arising under the laws as they existed prior to their recent amendments, that I have heretofore believed it impossible for a single officer to discharge properly the duties of assessor in either of these cities. The tax upon manufactures, under which the most puzzling doubts have arisen, has now been repealed; the sections of the statute imposing taxes upon incomes, legacies, and successions, have been almost unchanged for several years, and, except as to a small number of occupations, the same may be said of the sections relating to special taxes and taxes upon sales and gross receipts. The frequent changes in the laws necessary heretofore, through the varying wants of the treasury, have increased the labors of assessors. Doubtful questions will disappear, as the laws hereafter shall be but slightly modified. I am satisfied that the several cities above named can shortly be consolidated into single districts, with a saving of expense to the treasury and of convenience to the public. The present divided jurisdiction leaves many an open door for confusion and evasion; a tax-payer upon one side of a street finds himself assessed, while his neighbor, equally liable, on the other side, goes free; complaint follows inequality of taxation; business gravitates to that district where it is likely to fare best, unless other local advantages are sufficiently great to overbalance those connected with the revenue.

For example, if the officers in one district are lenient in their administration of the law concerning distilleries, it will follow that there distillers will multiply. Increased official vigilance in one district has but the effect of reducing the revenue from its own, while increasing that from

the neighboring, district. The upright and energetic officer sees his labor result in a transfer to his dishonest or inefficient colleague of the official emoluments which might have been his own if he had failed to interfere with violations of law. The increased number of distillers, though paying but a tithe of what they should, swells the revenues of the negligent district, and all stimulus to honest effort is well nigh destroyed.

There are other considerations which bear with almost equal weight in favor of the proposition that each single business community should form but a single collection district. Collectors would not so often as now lose sight of delinquent tax-payers through their simple removal from one place to another in the same city. Many tax-payers are resi dents of one district, manufacturers in a second, and dealers in a third, and the different aspects of the same transaction are thus passed upon by three different officers, neither of whom has, unless accidentally, any knowledge of the action of the others. If a fraud is committed, it is so distributed between the districts that proof becomes difficult and justice remains unsatisfied.

The enforcement of the penal provisions of the statutes is also weakened by the subdivision of power and by the barrier presented to a collector's authority by the district line. The holder of illicit property escapes a forfeiture by crossing a street; and it has been decided by the courts that a rescue is not punishable unless it is consummated in the district where the proceeding began.

The advantages of the proposed consolidation have been already recognized by the statute provision for the appointment of superin tendents of drawback, and for placing export bonded warehouses, without regard to their actual location, under the supervision of a single collector.

The cities of New York and Philadelphia are of such magnitude, however, that I should not deem it feasible to include either in a single collection district, unless authority were granted by legislation for the employment of a grade of officers between the assessor and the present assistant assessors. Five deputy assessors in New York and Brooklyn, inclusive, under the direction of the single assessor, would supply the place of eight assessors whose offices would be abolished. For the district of Philadelphia, which is now divided into five districts, I presume that two intermediate officers would be found sufficient. Assistant assessors are now appointed by the Secretary of the Treasury; the proposed deputy assessors would with propriety be appointed by the President, with the concurrence of the Senate.

By the proposed arrangement, the offices of eight collectors in New York, and four in Philadelphia, would be abolished. If experience should demonstrate the need of one or more intermediate officers between the collector and the present deputy collectors, as in the case of the proposed deputy assessors, temporary provision can be made for the employment of such officers without additional legislation.

As the unsettled liabilities of tax-payers under former laws are fast being adjusted, it will be found advantageous, in some sections of the country, to unite districts outside of the large cities. In this way, and in this way alone, can the cost of the service be reduced in a degree commensurate with the reduction of taxation.

THE OFFICE OF COMMISSIONER—A SEPARATE DEPARTMENT.

The bill reported by the Committee of Ways and Means at the last session of Congress, proposed to create this office into a separate department, with the Commissioner as its head, instead of continuing it, as it has hitherto been, a bureau of the Treasury Department. My experience long ago convinced me that such a change would be productive of great benefit to the service; but the subject could so readily be made to assume personal and partisan aspects, that I have hitherto refrained from its advocacy. Judging from the past, the passage of no general revenue law can be expected until near the close of the approaching session; and as the change, if made, will thus coincide with the incoming of a new administration, the question can now be considered solely in the light of its administrative merits.

The erection of this office into a separate department would conduce to a more vigorous and thorough enforcement of the law in the first place by greatly simplifying the work in the office of the Commissioner.

So vast is the volume of business flowing through the Treasury Department that it is manifestly impossible for the Secretary to make himself familiar with all its details; and the same may be said of the Commissioner and the business of his office. Experienced officers and clerks in this bureau, devoting their entire attention to special portions of the law, are necessarily better informed than others can be of their particular requirements, and the peculiar conditions of business or trade to which they are applicable. When the Commissioner has to determine upon proper regulations to be established, or orders to be issued, he does so after full consultation with those of his subordinates who are most familiar with the subject-matter in all its connections. His own lack of acquaintance with details is thus corrected, and a safe and prudent conclusion is probably reached. Any changes made in their subseqnent revision by the Secretary are likely to be productive of injury rather than advantage, for it is practically impossible for those here employed to confer as freely with the Secretary as they do with the Commissioner; and in such revisions the benefit of their experience is in a large measure lost.

Under the present relations of the two offices, so many questions pass from one to the other that the Secretary is constantly compelled to adopt the opinions of his own immediate subordinates, instead of forming a personal judgment of his own, and thus the carefully reached conclusions of the Commissioner may be overruled by clerks without legal and public responsibility.

The separation would prevent the necessity for the joint action of the

two officers, which is often attended with considerable delay, even when promptness is an indispensable element of success. It would locate responsibility which is now divided, and clothe the Commissioner with more than a seeming authority.

The benefits of the proposed change would arise especially, however, from its rendering more direct and single the responsibility of the local officers. One applies to the Secretary for instructions, while another, called to act perhaps in the same case, takes direction from the Commissioner. Those inclined to disregard his directions find a plausible pretext in some assumed difference of opinion between him and the Secretary. Those who are striving for the same end find themselves working at cross purposes, while the consequent confusion encourages the wrong-doer and disheartens the upright.

Objection has been made to the proposed separation on the ground that the customs revenue has been successfully managed without it; but it should be borne in mind that the entire responsibility of the execution of the customs laws is vested in the Secretary of the Treasury, the Commissioner of Customs under the law acting only as an accounting officer, or discharging such functions as may be devolved upon him by the Secretary.

The laws relating to internal duties and customs are framed in many particulars with reference to each other. The official regulations under them, especially those covering the storage and movement of bonded property, are oftentimes not dissimilar.

The Treasury Department within a recent period has been enlarged, not alone as other executive departments have been, by the immense increase of its former varieties of business, but by the addition of several bureaus, either of which, a few years ago, would have been regarded as sufficient for an independent department. It is too large now, and its interests are too complex and diversified for the supervision of a single officer.

I believe the public interest would be best subserved by the erection of a new department, which should embrace the collection of all the national revenues except those derived from the sale of the public lands.

I am, sir, with great respect, your obedient servant,

E. A. ROLLINS,
Commissioner.

Hon. H. McCULLOCH,
Secretary of the Treasury.

TABLE SHOWING

THE

RECEIPTS FROM EACH SPECIFIC SOURCE OF REVENUE,

AND THE

AMOUNTS REFUNDED IN EACH COLLECTION DISTRICT, STATE, AND TERRITORY OF THE UNITED STATES,

FOR THE

FISCAL YEAR ENDING JUNE 30, 1868.

A.—*Table showing the receipts from each specific source of revenue, and the amounts refunded in each collection district, State, and Territory of the United States, for the fiscal year ending June 30, 1868.*

	DISTRICTS.	MANUFACTURES AND PRODUCTIONS.						
		Agricultural implements not specially exempted, 5 per cent.	Boilers, water tanks, and sugar tanks, 5 per cent.	Boots and shoes, including those made of India-rubber, and shoe strings, 2 per cent.	Brandy made from grapes, per gallon, $1.	Brushes, 5 per cent.	Bullion, gold, in lumps, ingots, or bars, ½ of 1 per cent.	Bullion, silver, in lumps, ingots, or bars, ½ of 1 per cent.

COMPARATIVE STATEMENT

SHOWING THE TOTAL

COLLECTIONS FROM EACH SPECIFIC SOURCE OF REVENUE

FOR THE

FISCAL YEARS ENDING JUNE 30, 1863, 1864, 1865, 1866, 1867, AND 1868, RESPECTIVELY.

F.—*Comparative statement showing the total collections from each specific source of revenue for the fiscal years ending June 30, 1863, 1864, 1865, 1866, 1867, and 1868, respectively.*

[The articles and occupations marked with a †, against which no collections or only comparatively small collections appear for former years, were taxed in those years, but were reported under more general heads.]

Articles and occupations.	Collections for 1863.	Collections for 1864.	Collections for 1865.
MANUFACTURES AND PRODUCTIONS.			
Agricultural implements†			
Barytes, sulphate of	$9,873 43	$20,713 04	$20,388 62
Bill-heads, cards, &c., printed			193,136 94
Blinds, doors, &c.†			
Boilers, water tanks, &c.†			
Books, magazines, &c., printed			354,527 95
Boots and shoes†			3,280,627 29
Brass, &c., rolled	8,402 53	76,874 28	469,280 55
Brick, draining tiles, &c			188,543 82
Brushes†			
Bullion			379,517 85
Candles	117,133 25	186,228 45	326,583 08
Carpetings†			
Carriages†			880,021 36
Cars†			
Chemical productions†			317,382 60
Chocolate and cocoa	6,409 19	16,950 46	17,980 46
Cigars, cheroots, &c	476,589 29	1,255,424 79	3,087,421 51
Clocks, clock movements, &c	17,771 40	39,165 88	93,837 85
Cloth and other fabrics of cotton	1,600,947 39	3,548,176 51	6,747,923 18
