This report contains data on sources of income, adjusted gross income, exemptions, deductions, taxable income, income tax, modified income tax, tax credits, self-employment tax, and taxpayments. Classifications are by tax status, size of adjusted gross income, marital status, and type of tax computation.

Additional unpublished information from individual income tax returns, classified by size of adjusted gross income, is available on a reimbursable basis. A public-use computer tape file, i.e., the Individual Tax File, containing the records selected for the Statistics of Income sample is also available on a reimbursable basis. This file is suitable primarily for making national level estimates.

# **Introduction and Changes in Law\***

This report contains complete individual income tax data for Tax Year 1989. The statistics are estimates based on a stratified probability sample of individual income tax returns, selected before audit, and represent coverage of approximately 112 million Forms 1040, 1040A, and 1040EZ filed by the nation's taxpayers for Tax Year 1989.

Table A on the following page shows selected income and tax items for Tax Years 1975, 1980, 1985, 1988, and 1989, with the percentage change from Tax Year 1988 to 1989. When comparing income and tax items from different years, it is important to note any changes in the tax law; of special importance are the changes generated by the Tax Reform Act of 1986

From 1988 to 1989, the number of returns filed increased by 2.4 million, and adjusted gross income (AGI) increased by more than \$173.3 billion, or 5.6 percent. Total income tax (the sum of income tax after credits and the alternative minimum tax) rose 4.9 percent from 1988 to 1989.

This report is divided into six sections. Section 1 includes requirements for filing, changes in tax law for 1989 which may affect the statistics, and an explanation of the 1979 Income Concept.

The 1979 Income Concept is a consistent measure of income which is used to compare average tax rates from 1986 to 1989, showing the difference before and after tax reform. Section 2 gives a description of the sample of income tax returns upon which the statistics are based, and Section 3 contains the basic tables of detailed statistics on individual tax returns. Section 4 provides an explanation of the terms used in the tables. The tax return forms and instructions appear in Section 5, and Section 6 contains an index.

#### Requirements for Filing

The Internal Revenue Code of 1986, as amended, provides the legal basis for the tax activity detailed in this volume. For Tax Year 1989, the principal criteria that determined the general filing requirements were gross income, filing status, marital status, and age. Gross income included all income received in the form of money, property, and services that were not expressly exempt from tax.

Generally, a U.S. citizen or resident had to file a tax return if gross income for the year was at least as much as the amount shown for the appropriate filing status in Figure 1 above. Figure 2 must be used if a taxpayer can be claimed as a dependent by another person (such as a parent).

In addition to these filing requirements, an individual had to file a return for Tax Year 1989 if he or she:

- (1) was liable for any of the following taxes:
- social security tax on unreported tip income;
- uncollected social security tax or railroad retirement tax on reported tip income;
- tax on an individual retirement arrangement (IRA) or other qualified retirement plan;
- alternative minimum tax;

- tax from the recapture of investment credit or low income housing credit.
- (2) received advanced earned income payments;
- (3) had net earnings of at least \$400 from self-employment income; or
- (4) had wages of \$100 or more from a church or qualified church-controlled organization that was exempt from employer social security taxes.

Data shown in these tables include individuals who were not required to file tax returns but filed in order to obtain refunds of tax withheld or to take advantage of the earned income credit.

#### Changes in Law

All major changes in effect for Tax Year 1989 that are included in Statistics of Income data are listed below in alphabetical order. Section 4 contains more detailed explanations and definitions of the terms used in this report.

#### Child Care Credit

Beginning in 1989, the following new rules were applicable:

 Payments for the care of a dependent child could be claimed only if the child was disabled or under age 13; the limit was under age 15 for Tax Year 1988.

- The care provider had to be identified (by social security or employer identification number) on the return.
- The dollar limit had to be reduced by any employer-provided dependent care benefits that could be excluded in the computation of AGI.

#### **Earned Income Credit**

The earned income credit was increased to a maximum \$910 for 1989. Some credit was available for qualified individuals whose earned income and AGI were each less than \$19,340. For 1988, the maximum credit was \$874, and the credit phased out entirely if income or earnings exceeded \$18,576.

#### Figure 2.—Filing Requirements for Children and Other Dependents

If someone (such as a parent) can claim the filer as a dependent, use Figure 2 to determine if a return must be filed. Uncarned income includes taxable interest and dividends. Earned income includes wages, tips, and taxable scholarships and fellowships.

#### 1. A single dependent under 65

Must file a return if—

His or her unearned income was:	the total of that income plus earne income was:		
\$1 or more,	more than \$500		
\$0	more than \$3,100		

#### 2. A single dependent 65 or older or blind

Must file a return if-

- His or her earned income was more than \$3,850, or
- His or her unearned income was more than \$1,250 (\$2,000 if 65 or older and blind), or
- His or her gross income was more than the total of earned income (up to \$3,100) or \$500, whichever is larger, plus \$750 (\$1,500 if 65 or older and blind).

Exception for Children Under Age 14. If a child was under the age of 14 on January 1, 1990, and all of the following apply, a filer may elect to report the child's income on his or her return. If this election is made, the child does not have to file a return.

- The child had income only from interest and dividends;
- The child's gross income was less than \$5,000; and

#### 3. A married dependent under 65

Must file a return if-

- His or her earned income was more than \$2,600, or
- He or she had any unearned income and gross income was more than \$500, or
- His or her gross income was at least \$5 and spouse files a separate return on Form 1040 and itemizes deductions.

#### 4. A married dependent 65 or older or blind.

Must file a return if-

- His or her earned income was more than \$3,200, or
- His or her unearned income was more than \$1,100 (\$1,700 if 65 or older and blind), or
- His or her gross income was more than the total of earned income (up to \$2,600), or \$500, whichever is larger, plus \$600 (\$1,200 if 65 or older and blind), or
- His or her gross income was at least \$5 and spouse files a separate return on Form 1040 and itemizes deductions.
- The child had no Federal income tax withheld from his or her income (backup withholding) or did not make estimated tax payments for 1989.

If the child's parents are not filing a joint return, special rules apply to determine which parent may make the election. Details may be found in Form 8814, Parent's Election to Report Child's Interest and Dividends, for details.

#### **Employee Business Expenses**

For Tax Year 1988, there was an adjustment as well as an itemized deduction item for employee business expenses. The adjustment item was to cover expenses that were included as income on the taxpayer's Forms W-2 and 1040; the deduction item was for unreimbursed expenses. For 1989, employers were to include only "nonaccountable" business expenses on Form W-2. "Accountable" expenses were to be excluded from income and shown neither as an adjustment nor a deduction. All other employee business expenses could be deducted only as an itemized deduction, subject to reduction by 2 percent of AGI.

#### **Exemptions**

The amount of each individual personal exemption increased to \$2,000 for 1989 from \$1,950 for 1988. As was true for 1988, the deduction for exemptions was phased out for taxpayers with taxable income above certain limits. These limits, which varied according to marital status, were adjusted for inflation for Tax Year 1989. See also Tax Rates.

For Tax Year 1989, an age limit for students was introduced to the exemption qualification test: to qualify for the exemption, a student had to be under age 24. For previous years, any dependent child who was a full-time student could qualify for the exemption.

#### **Interest Paid Deduction**

For 1989, the deductible portion of personal interest was limited to 20 percent of expenditures for personal interest, which included interest on credit cards, car loans, or personal loans. For 1988, 40 percent of personal interest was deductible.

#### **Passive Losses**

Under the Tax Reform Act of 1986, some of the "passive" losses (i.e., those generated by any trade, business, or rental activity in which the taxpayer did not materially participate) entered into before October 23, 1986 were allowed to offset "nonpassive income". For Tax Year 1989, 20 percent of such losses were allowed to offset nonpassive income, down from 40 percent allowed for 1988. The disallowed, or nondeductible, passive losses for 1989 could, in many cases, be carried forward to 1990. (Most of the passive loss activity was concentrated in partnerships and rental activities on Schedule E.)

## Parent's Election to Report Child's Interest and Dividends

For Tax Year 1989, a child's interest and dividends could be reported on the parent's return if the child was under age 14 on January 1, 1990, and met certain other conditions. If this election was made, the child was not required to file a return.

#### Pensions and Annuities

For Tax Year 1989, a 50 percent excise tax was applied to excess accumulations in any qualified pension plan. In previous years, the 50 percent tax applied only when required distributions were not made from Individual Retirement Arrangements, but it did not apply to other pension plans which qualified for special tax treatment under the Internal Revenue Code. See also Penalty Tax on Qualified Retirement Plans in Section 4.

#### **Self-Employment Tax**

The maximum net earnings subject to selfemployment tax increased to \$48,000 for 1989 from \$45,000 for 1988, while the net tax rate remained at 13.02 percent for 1989.

#### **Standard Deduction**

As the result of an inflation adjustment, the basic standard deduction was increased for 1989.

The standard deduction rose from \$3,000 to \$3,100 for single taxpayers, from \$5,000 to \$5,200 for those filing joint returns, from \$2,500 to \$2,600 for married filing separately, and from \$4,400 to \$4,550 for heads of household. The additional standard deduction for taxpayers age 65 or older or blind also increased for 1989. See also Section 4, Standard Deduction.

#### **Tax Rates**

For 1989, the tax rate schedules contained the same two basic rates as for 1988: 15 and 28 percent, plus a range in which an additional 5 percent rate applied. The income levels at which the rate increased to 28 percent, and at which the 5 percent additional rate applied were all indexed for inflation.

For single filers, taxable income in excess of \$18,550 was taxed at the 28 percent rate, an increase over the \$17,850 breakpoint for 1988. For married couples filing jointly and qualifying widow(er)s, the breakpoint amount for 1989 was \$30,950, up from \$29,750 for 1988. The breakpoints for heads of households and married couples filing separately were \$24,850 and \$15,475, respectively.

Taxable income in excess of \$44,900 if the taxpayer was single, \$74,850 if married filing jointly or a qualifying widow(er), \$64,200 if head of household, and \$37,425 if married filing separately, was subject to the additional 5 percent tax. The purpose of this was to phase out the benefits of the 15 percent tax rate and the deduction for personal exemptions for taxpayers and dependents. The benefits of the 15 percent tax rate bracket were phased out, and completely disappeared at varying levels of taxable income, according to filing status: \$93,130 for single taxpayers, \$155,320 for married filing jointly and qualifying widow(er)s, \$128,810 for heads of households. and \$117,895 for married filing separately. After the benefits of personal exemptions were also phased out, a 28 percent tax was imposed on each additional dollar of taxable income.

#### The 1979 Income Concept

#### A Retrospective Income Definition

In order to analyze changes in income and taxes over a period of years, a consistent definition of income must be used. The income concept available from Federal income tax returns, AGI, was designed to facilitate tax administration, and its definition has changed to reflect modifications to the Internal Revenue Code. Tax laws of the 1980's—the Economic Recovery Tax Act of 1981, the Tax Equity and Fiscal Responsibility Act of 1982, the Tax Reform Act of 1984, and the Tax Reform Act of 1986—made significant changes to the components of AGI, which made it more difficult to use AGI for accurate comparisons of income from year to year. For this reason, it was decided to develop an income definition that would be applicable over several years and allow comparisons both before and after the major tax legislation of the 1980's.

The result was a retrospective income definition known as the 1979 Income Concept, reflecting a base period from 1979 through 1986. It was calculated using only data available from individual income tax returns; by using the same income items in the calculation each year, its definition was consistent throughout the base years. In addition, this retrospective income definition could be used in future years to compare income by continuing to include the same components that were common to all years [1].

The calculation of the 1979 Income Concept is shown in Figure 3. Several items partially excluded from AGI for the base years were fully included in this new income measure, the largest of which was capital gains. The full amount of all capital gains, as well as all dividends and unemployment compensation, was included in the income calculation. Total pensions, annuities, IRA distributions, and rollovers were added, including

the nontaxable portion that was excluded from AGI. Social security benefits were omitted because they were not reported on tax returns until 1984. Also, any depreciation deduction in excess of straight-line depreciation, which was subtracted in computing AGI, was added back.

Deductions that could be subtracted in the calculation of the 1979 Income Concept were limited to employee business expenses, alimony paid, and moving expenses. These same items were also subtracted in computing AGI until 1987 when unreimbursed business expenses and moving expenses were changed from adjustments to itemized deductions. The amount reported for these two expenses by taxpayers who itemized deductions was subtracted in the calculation of the 1979 Income Concept. But, taxpavers who did not itemize deductions could not claim either of these two expenses, since they were not allowed as "adjustments" after 1986. For this reason, the deduction for these two expenses beginning in 1987 is not completely comparable to that for previous years.

#### Comparison of AGI with 1979 Income Concept

The Tax Reform Act of 1986 made extensive changes to the calculation of AGI beginning with 1987. These changes made it necessary that the calculation of the 1979 Income Concept be revised, in order to make tax years beginning with 1987 comparable to the base years, 1979 to 1986. The new law limited the deduction of passive losses and eliminated unreimbursed employee business expenses and moving expenses as "adjustments" in figuring AGI beginning with Tax Year 1987. Since passive losses had been fully deductible for both income measures prior to 1987, the disallowed passive losses had to be deducted in the 1979 Income Concept calculation of income for tax years after 1986.

Some income items, such as capital gains, that had been partially excluded from AGI under prior law were fully included. The new law also eliminated or restricted some deductions. For this reason, if AGI is used to measure income, any comparison of 1986 income and tax data with that for 1987, 1988, and 1989 is misleading. A more accurate comparison can be made using the 1979 Income Concept because it measures income in the same way for all four years. Table B shows total income and selected tax items for 1989 using AGI and the 1979 Income Concept.

<sup>1</sup> Individual Retirement Arrangements are included in the calculation of "Pensions and annuities in AGI" and "Pensions and annuities."

Income, as calculated by the two measures, showed little difference for 1989. Before TRA became effective, a comparison of income measured by AGI with that measured by the 1979 Income Concept showed significant differences at income levels of \$200,000 or more. But, with the elimination of preferential treatment of various income items by TRA, such as the exclusion of capital gains, much of the difference disappeared. Under tax law prior to 1987, the capital gains exclusion accounted for the largest difference at the higher income levels between the two income measures.

Total income for all returns, using the 1979 Income Concept, increased 5.8 percent for 1989; total income

for the group \$200,000 and above increased only 2.3 percent, following an increase of more than 50 percent for 1988. Total income tax reported for the \$200,000 and above income group decreased 2.8 percent for 1989 after increasing almost 38 percent for 1988. The slow growth in income for the \$200,000 and above income group is due in part to the decline of almost 12 percent in the sales of capital assets (net capital gains) for 1989. This decline may stem from decisions by taxpayers to postpone capital gains in anticipation of more favorable tax treatment in 1990, which had been outlined in proposed legislation.

through 1989, based on AGI and the 1979 Income Concept, are shown in Figure 4. Based on the 1979 Income Concept, average tax rates declined or remained the same from 1988 to 1989 in most income categories. At incomes over \$125,000 the decrease was larger, with incomes over \$500,000 showing the largest decline in average tax rates.

When average tax rates for 1989 (based on the 1979 Income Concept) are compared to those for 1986 (before tax reform), the rates declined or remained the same in almost all income categories except the \$1,000,000 and over income category, which showed the largest increase, and the \$150,000 to less than \$200,000 income group, which had a much smaller increase. Average tax rates on incomes of \$1,000,000 and over rose from 21.4 percent for 1986 to 23.2 percent for 1989. Although this higher average tax rate

for 1989 was calculated using a lower marginal tax rate—28 percent for 1989 compared to 50 percent for 1986—it was calculated on income which included all capital gains (long-term gains could be partially excluded from income for 1986). Also, certain deductions from income that were allowed for 1986, were limited or eliminated beginning in 1987.

## **Section 2**

# Description of the Sample\*

This section describes the sample criteria and selection, the method of estimation, and the sampling variability of the estimates contained in this report. It also describes some of the limitations of the data. Statistical estimates included in this report are based on samples of tax returns.

#### Sample Selection

The statistics in this report were estimated from a stratified probability sample of unaudited Individual Income Tax Returns, Forms 1040, 1040A, and 1040EZ filed by U.S. citizens and residents. The sample was designated at the Martinsburg Computing Center and was processed at the ten Internal Revenue Service (IRS) Centers during Calendar Year 1990. The total sample of 110,840 returns was selected from a population of 112,952,035 returns.

All returns processed during 1990 were subjected to sampling except tentative and amended returns. Tentative returns were not subjected to sampling because the revised returns may have been sampled later on, while amended returns were excluded because the original returns had already been subjected to sampling. A small percentage of returns were not identified as tentative or amended until after sampling. These returns along with those that contained no income information were excluded from the tables in this report. Sample returns representing 816,322 returns were excluded from the tables as a result.

The estimates in this report are intended to represent all returns filed for Tax Year 1989. While about 97 percent of the returns processed during Calendar Year 1990 were for Tax Year 1989, a few were for noncalendar years ending during 1989 and 1990, and some were returns for prior years. Returns for prior years were used in place of 1989 returns received and processed after December 31, 1990. This was done in the belief that the characteristics of returns due but not yet processed could best be represented by the returns for previous income years that were processed in 1990. Therefore, data for Tax Year 1989 may include amounts for discontinued items, such as the deduction for a working married couple, reported on prior year returns processed in 1990.

#### Sample Design and Selection Criteria

Data from Forms 1040, 1040A, and 1040EZ processed to the IRS Individual Master File System at the Martinsburg Computing Center during Calendar Year 1990 were classified, by computer, into sample strata. These strata were based on the larger of total income or total loss amounts and the size of business plus farm receipts. In addition, the strata were based on the presence or absence of a Form 2555, Foreign Earned Income; a Form 1116, Computation of Foreign Tax Credit; a Schedule C, Profit or Loss from Business or Profession; a Schedule F, Farm Income and Expenses; and Form 4835, Farm Rental Income

<sup>\*</sup>Bonnye Walker designed the sample and prepared the text and tables in this section under the direction of Yahia Ahmed, Chief, Mathematical Statistics Team, Coordination and Publications Staff.

and Expenses. Twenty variables were used to derive the total income and loss amounts.

Returns were then selected from the sample strata using two methodologies. One method used certain ending digits of the social security number (SSN), and the second method used ending digits of numbers generated from transformations of the SSN. The sampling rates for the various strata ranged from 0.02 percent to 100 percent.

Table C contains the number of returns in the population and sample by sample stratum for the United States. A comparison of the population counts in Table C with the total shown in the national tables of this report will disclose a small difference. This difference is the result of having excluded an estimated 816,322 returns (see above).

#### **Method of Estimation**

Weighting factors were obtained by dividing the population count of returns in a sample stratum by the number of sample returns for that stratum. These weighting factors were used to generate all of the estimated numbers of returns and amounts in this report.

#### **Table Presentation**

Whenever a weighted frequency is less than 3, the estimate and its corresponding amount are combined or deleted in order to avoid disclosure of information for specific taxpayers. (The combined or deleted data, if any, are included in the corresponding column totals.) These combinations and deletions are indicated by a double asterisk (\*\*) and by a dagger (†), respectively. Estimates based on less than 10 sampled returns are considered to be unreliable. These estimates are noted by a single asterisk (\*) to the left of the data unless all of the sampled returns are selected with certainty (at the 100 percent rate).

In the tables, a dash (—) in place of a frequency or an amount indicates that either no returns in the population had the characteristic or the characteristic was so rare that it did not appear on any of the sampled returns.

#### Processing and Management of the Sample

While the sample was being selected, the selection process was monitored by applying prescribed sampling rates for each stratum to the population for that stratum. A follow-up was required to reconcile differences between the actual number of returns designated for each sample strata and the expected number.

In transcribing and tabulating the information from the returns in the sample, checks were imposed to improve the quality of the resulting estimates. Incorrect or missing entries on the sampled record were altered during statistical editing to make them consistent with other entries on the return and accompanying schedules. Data were also adjusted during processing in an attempt to achieve consistent statistical definitions. For example, a taxpayer may have reported director's fees on the "other income" line of the Form 1040 return. If this situation had been detected during statistical processing, the amount of director's fees would have been transferred to salaries and wages in the sample record.

The quality of the sample data was controlled at the IRS service centers by means of a continuous verification system that used computer tests to check for mathematical errors and inconsistent or missing data [1], [2].

Some returns designated for the sample are not available for SOI processing because other areas of IRS, such as Audit and Collection, need the return at the same time as SOI. These returns are referred to as unavailable returns. During Tax Year 1989 there were 69 unavailable returns which constituted about 0.06 percent of the designated sample. The chart below contains the percentage of unavailable returns for Tax Years 1986—1989.

This population includes an estimated \$16,322 returns that were excluded from other tables in this report because they contained no income information or represented amended or tentative returns identified after sampling.

This population includes 35 Form 1040 returns that have alternative minimum tax or income tax after credits other than zero.

After the completion of service center review, data were further validated, tested, and balanced at the Detroit Computing Center. Computer adjustments and imputations for selected fields were used to make each record internally consistent, and the data were then tabulated.

A small subsample of returns was selected and independently reviewed, analyzed, and processed for a quality evaluation. Finally, prior to publication, all statistics and tables were reviewed for accuracy and reasonableness in light of provisions of the tax laws, taxpayer reporting variations and limitations, economic conditions, comparability with other statistical series, and statistical techniques used in data processing.

#### Sample Redesign

A complete revision of the sample design used to produce the statistics from individual income tax returns is being phased in over a 6-year period beginning with Tax Year 1987 and ending with Tax Year 1992. In addition to new strata definitions and methods of estimation, the revisions include the development of a longitudinal panel. For additional details on the redesign see [3], [4], [5], [6], [7] and [8].

\* Data combined to avoid disclosure of information for specific taxpayers.

\* Data combined to avoid disclosure of information for specific taxpayers.

\* For 1989, the tax rate schedules contained only two basic rates: 15 percent and 28 percent. However, taxable income over certain levels was subject to an additional 5 percent tax, creating a temporary 33 percent marginal rate. The purpose behind this was to phase out the benefit of the 15 percent rate and the benefit of the eduction for personal exemptions for taxpayers and dependents. After these benefits were phased out; the marginal tax rate returned to 28 percent; the average tax rate was also 28 percent.

NOTE: Detail may not add to totals because of rounding.

<sup>\*</sup> Estimate should be used with caution because of the small number of sample returns on which it is based.

\*\* Data combined to avoid disclosure of information for specific taxpayers.

\*\* For 1989, the tax rate schedules contained only two basic rates: 15 percent and 28 percent. However, taxable income over certain levels was subject to an additional 5 percent tax, creating a temporary 33 percent marginal rate. The purpose behind this was to phase out the benefit of the 15 percent rate and the benefit of the deduction for personal exemptions for taxpayers and dependents. After these benefits were phased out, the marginal tax rate reverted to 28 percent. NOTE: Detail may not add to totals because of rounding.

#### **Explanation of Terms**

The Explanation of Terms is designed to clarify the statistical content of this report and should not be construed as an interpretation of the Internal Revenue Code, related regulations, procedures, or policies.

The definitions and explanations in this section relate to column or stub titles used in one or more tables in this report. They provide background or limitations to such titles and are necessary to interpret the statistical tables to which they relate. For each of these titles, the line number of the tax form on which it is reported appears after the title. Definitions marked with the symbol A have been revised for 1989 to reflect changes in the law.

Further information about many of the items in this report can be found in Section 5, 1989 Forms and Instructions.

## Adjusted Gross Income Less Deficit ▲ (line 31, Form 1040)

Income that had to be reported for the calculation of total income (line 23, Form 1040) and of adjusted gross income included the following:

- Compensation for services, including wages, salaries, fees, commissions, tips, fringe benefits, and similar items;
- Net income derived from a business, profession, or farm;
- Net gains from the sale of property;

- Taxable interest received;
- Rents and royalties;
- Dividends and capital gains distributions;
- Alimony and separate maintenance payments;
- Taxable amounts of annuities, pensions, and individual retirement arrangement (IRA) distributions;
- Distributive share of partnership income;
- Income from an estate or trust;
- Bartering income;
- Amounts received that were claimed as a deduction or credit in a prior year;
- Gambling winnings;
- Prizes and awards:
- Taxable amounts of social security payments;
- All unemployment compensation; and
- Recoveries (including state income tax refunds)

Some reported income was fully or partially excluded from total income for 1989. The following is a list of such items:

- Exclusion of the cost basis of pension, annuity, or IRA payments or distributions;
- Tax-exempt interest;
- Limited exclusion of social security benefits and railroad retirement benefits;
- Limited exclusion of qualified foreign earned income; and
- One-time exclusion of part or all of the gain from sale of principal residence by individuals who are 55 years of age or older.

From total income, the following Statutory Adjustments (lines 24 through 29 on Form 1040) were subtracted to arrive at adjusted gross income (line 31); a deficit occurred if the allowable exclusions and deductions exceeded gross income, i.e., the amount on line 30 was greater than the amount on line 23:

- Reimbursed employee business expenses that were included in reported income;
- Contributions to self-employed retirement plans (Keogh or simplified employee pension (SEP)) and to individual retirement arrangements (IRAs) by eligible persons;
- Forfeited interest penalties incurred by persons who made premature withdrawals of funds from time savings accounts;
- Alimony payments;
- Self-employed health insurance deduction;
- Forestation or reforestation expenses;
- Foreign housing exclusion;
- Repayments of supplemental unemployment compensation; and
- Certain expenses of qualified performing artists.

#### **Adjustments**

See "Statutory Adjustments."

## Advance Earned Income Credit Payments (included in the total on line 53, Form 1040)

Taxpayers who believed they would be eligible for the earned income credit at the end of the year could receive the credit from their employers as an additional payment in their paychecks during the year. Those payments were then shown on the tax return (line 53 total on Form 1040) where they either increased the balance due amount or reduced the amount of the overpayment. (See also "All Other Taxes.")

### **Alimony** (lines 11, 29, Form 1040)

Payments received as alimony or separate maintenance were income to the person receiving them and a deduction (an adjustment to total income) for the person paying them.

# **All Other Taxes** (lines 48,50,51,52, Form 1040)

For the statistics in this report, this amount represents the sum of the self-employment tax, tax from the recapture of the investment credit and the low income housing credit, social security taxes on tip income, penalty tax on qualified retirement plans, and other unspecified taxes which included uncollected tax on tips, excess "golden parachute" payments, and section 72 penalty taxes. This differs slightly from the "other taxes" portion of the Form 1040 itself, which includes the taxes listed above plus the alternative minimum tax and the advance earned income credit payments received. Alternative minimum tax is tabulated in this report as part of "total income tax" and is one of the criteria for determining the taxable or nontaxable classification of a return. Advance earned income credit payments are shown as a separate item in computing total tax liability, balance due, or refund. (See also "Taxable and Nontaxable Returns" and "Total Income Tax".)

# All Other Tax Payments (lines 57-60, Form 1040)

All other tax payments included the tax paid with requests for a filing extension, excess social security or railroad retirement taxes, credit for tax on gasoline and special fuels, and the credit for tax paid on undistributed capital gains by a regulated investment company.

### Alternative Minimum Tax (line 49, Form 1040)

The alternative minimum tax (AMT) was levied on benefits received in the form of deductions and exclusions which reduced an individual's regular effective tax rate. These benefits, known as "alternative minimum tax preferences and adjustments," resulted from the preferential treatment that the tax law gave to particular income and expense items.

Alternative minimum taxable income (line 8, Form 6251) was defined as taxable income with certain adjustments plus the amount of tax preference items. Alternative minimum taxable income (AMTI) was then reduced by an exemption amount determined by filing status and income. If the return was filed jointly by a married couple or a surviving spouse, the maximum amount of the exemption was \$40,000. The maximum amount for a single or head of household taxpayer was \$30,000, and for a married couple filing separately, \$20,000. The AMT exclusion was phased out if AMTI exceeded certain levels. For single returns, the phase-out began at \$112,500 and ended at \$232,500. For joint returns the range was \$150,000 to \$310,000, and for married couples filing separately, the range was \$75,000 to \$155,000.

If there was an amount remaining after subtracting the exemption, it was multiplied by the alternative minimum tax rate of 21 percent and then reduced by the recalculated alternative minimum tax foreign tax credit. This amount was then reduced by the regular income tax before credits (line 38, Form 1040 minus the regular foreign tax credit, line 43, Form 1040) to arrive at the alternative minimum tax.

### **Business or Profession Net Income or Loss** (line 12, Form 1040)

This source of income was reported by individuals who were sole proprietors of a non-farm business, including self-employed members of a profession.

If two or more sole proprietorships were operated by the same taxpayer, the single amount of net income or loss included in adjusted gross income represented the combined net income and loss from all sole proprietorships. The proprietor was required to exclude investment income from business profits and include it, instead, with the various types of investment income for which separate provisions were made on the individual income tax return.

Business costs and expenses were deductible from gross receipts or gross sales in arriving at net profit or loss. Compensation of the proprietor was taxable income and, therefore, not allowed as a business deduction in computing net income. The deduction of net operating losses from previous years was not considered a business expense, but was offset against "other income" on the proprietor's income tax return.

Information on sole proprietorships, business receipts, and expenditures can be found in the annual summer issue of the *Statistics of Income Bulletin*.

#### **Capital Assets**

See "Sales of Capital Assets Net Gain or Loss."

### Capital Gain Distributions Reported on Form 1040 (line 14, Form 1040)

These distributions included long-term capital gains either credited or distributed to individual taxpayers by regulated investment companies, mutual funds, and real estate investment trusts. Usually, taxpayers reported capital gains distributions on Schedule D (Capital Gains and Losses), but they could enter the distributions directly on line 14 of Form 1040 if they had no other gains or losses to report on Schedule D.

#### **Capital Gains and Losses**

See "Sales of Capital Assets Net Gain or Loss."

## Casualty and Theft Loss, Nonbusiness (line 18, Schedule A)

Nonbusiness casualty and theft losses were deductible, as an itemized deduction, from adjusted gross income to the extent that nonreimbursable net loss for each such casualty or theft exceeded \$100, and the combined amount for all net losses during the year exceeded 10 percent of adjusted gross income. Beginning with 1987, a deduction for a casualty or theft loss covered by insurance could be taken only if an insurance claim for reimbursement was filed promptly.

# Child Care Credit ▲ (line 41, Form 1040)

This credit could be claimed by taxpayers who, while employed, incurred expenses for the care of dependent children under age 13 for 1989 (under age 15 for 1988), or disabled dependents of any age. Qualifying expenses included those for services performed within the home by non-dependent baby-sitters, maids, or cooks. Expenditures paid for the care of children under the age of 13 or any other qualified individuals for out-of-home non-institutional care qualified for the child care credit.

The maximum amount of employment-related expenses to which the credit could be applied was the lesser of earned income or \$2,400 if one qualifying child or dependent was involved, and the lesser of earned income or \$4,800 if more than one dependent was involved. For returns of married couples filing jointly, earned income refers to the earnings of the spouse with the lesser earned income. Exceptions were allowed if the spouse was disabled or a full-time student.

The credit was equal to 30 percent of expenses related to employment for taxpayers with adjusted gross income of \$10,000 or less. The credit was reduced by one percentage point for each \$2,000 increment of adjusted gross income in excess of \$10,000 up to \$28,000. The credit remained at 20 percent of expenses for individuals with adjusted gross income of \$28,000 or more.

The amount of the credit which could be claimed was limited to income tax before credits, and any excess was not refundable.

The second of the second of the second of

#### Contributions Deduction (line 17, Schedule A)

Taxpayers could deduct contributions to organizations that were religious, charitable, educational, scientific, or literary in purpose. Contributions could be in cash, property, or out-of-pocket expenses that a taxpayer paid to do volunteer work for a qualified organization. Contributions were allowed as an itemized deduction on Schedule A.

### Credit for Federal Tax on Gasoline and Special Fuels

(line 61, Form 1040)

This credit (claimed on Form 4136) was allowed for Federal excise taxes paid on gasoline and special fuels, such as gasohol and diesel fuel, if they were used for certain nontaxable or reduced-tax-rate purposes (such as farm or off-road use). The credit could reduce unpaid total tax liability or could be refunded. A one-time credit (or refund) was allowed to the original purchaser of a new, qualified diesel-powered highway vehicle after January 1, 1985.

## Credit for the Elderly and Disabled (line 42, Form 1040)

A credit (claimed on Schedule R) for the elderly and permanently and totally disabled was available to taxpayers age 65 or older (within certain income limitations), and to those taxpayers under age 65, who had retired with a permanent and total disability, and who had received taxable income from a public or private employer because of that disability. An individual was considered permanently and totally disabled when he or she could not engage in any substantial gainful activity because of a physical or mental condition which had lasted, or was expected to last, at least 12 months, or was determined to be terminal.

Committee of the second

The maximum credit available was \$1,125 and was limited to total income tax with any excess not refundable, and was reduced if the taxpayer's income exceeded certain levels. Generally, if a taxpayer's income was high enough to require the reporting of social security benefits as taxable income, the taxpayer could not take the credit.

### **Credit from Regulated Investment Companies** (line 62, Form 1040)

Taxpayers were required to include in total payments any amounts which were allocated to them as undistributed capital gains of regulated investment companies. If investment companies paid tax on the capital gain, taxpayers were entitled to claim a refundable credit for their proportionate share of the tax paid.

### Credit to 1990 Estimated Tax (line 66, Form 1040)

This credit was the part of the overpayment of 1989 tax which taxpayers specifically requested to be credited to their estimated tax for 1990. (See also "Overpayment" and "Estimated Tax Payments.")

#### **Dividends**

(line 9, Form 1040)

Dividend income consisted of distributions of money, stock, or other property received by taxpayers from domestic and foreign corporations, either directly or passed through estates, trusts, or partnerships. Dividends also included distributions from money market mutual funds.

Dividends did not include nontaxable distributions of stock or stock rights, returns of capital, capital gains, or liquidation distributions. Taxpayers were also instructed to exclude so-called dividends on deposits or withdrawable accounts in mutual savings banks, cooperative banks, savings and loan associations, and credit unions, which were to be treated as interest income.

### Earned Income Credit (line 58, Form 1040)

The maximum credit for 1989 was \$910, and the amount not used to offset income tax liability could be refunded. The credit was available to workers who had a child living with them for more than half the year and whose earned income and adjusted gross income were each less than \$19,340. The credit was based on earned income, consisting of wages, salaries, and other employee compensation, plus net earnings from self-employment. Taxpayers could not take the credit if their filing status was single or married filing separately, or they claimed the foreign income exclusion.

For this report, the earned income credit was divided into three parts: the amount used to offset income tax before credits (limited to the amount needed to reduce income tax after credits to zero); the amount used to offset all other taxes (limited to the amount needed to reduce total tax liability to zero); and the refundable portion. (See also "Advance Earned Income Credit Payments.")

# Employee Business Expenses ▲ (line 20, Schedule A)

For 1989, an accounting change was made for employee business expenses. Since most taxpayers could only claim employee business expenses as an itemized deduction on Schedule A, the adjustment line on Form 1040 was dropped. The Schedule A amount was limited, along with other miscellaneous itemized deductions on Schedule A, to the amount that exceeded 2 percent of adjusted gross income. Employee business expenses included the cost of transportation, meals, lodging, and entertainment while away from home in the performance of services as an employee. Only 80 percent of business-related meal and entertainment expenses were eligible for deduction.

If employees accounted for deductible expenses to their employers, they were not required to report the reimbursement in income unless the amount of reimbursement exceeded expenses.

### Estate or Trust Net Income or Loss (line 37, Schedule E, Part III)

This was the beneficiary's share of fiduciary income (with the exception of the items described below, which were reported separately) from any estate or trust. Income from estates or trusts included amounts required to be distributed, amounts credited to beneficiaries' accounts from current-year fiduciary income (whether or not actually received), and any other amounts which were properly paid, credited, or required to be distributed for that year.

Taxpayers excluded from estate or trust income their share of dividends and gains or losses from sales of capital assets and other property. Such income (which made up the largest portion of income from estates or trusts) was included on the tax return on the separate lines provided for these income types and was not separately identified for the statistics. A loss from an estate or trust was allocated to the beneficiary only upon settlement or termination of an estate or trust and was limited by the "passive loss" rules.

For the tables, if a return showed net income from one estate or trust, and a net loss from another, that return was tabulated in both the "total income" and "total loss" columns. The columns labeled "net income" and "net loss" represent the sum of all income and losses reported from all estates or trusts, i.e., the net amount computed on a return-by-return basis.

### Estimated Tax Payments (line 57, Form 1040)

This figure represented the total of the tax payments made for 1989 using Form 1040ES and any overpayment from the taxpayer's 1988 return that was applied to 1989 estimated tax. Generally, individuals were required to make estimated tax

payments if they expected to owe, after subtracting withholding and credits, at least \$500 in tax for 1989, and they expected withholding and credits to be less than the smaller of: (a) 90% of the tax shown on Form 1040 for 1989, or (b) 100% of the tax shown on Form 1040 for 1988.

### Excess Social Security Taxes Withheld (line 60, Form 1040)

If a taxpayer earned more than \$48,000 (\$45,000 for 1988) in total wages from two or more employers in 1989, too much social security (FICA) or Railroad Retirement Act (RRTA) tax may have been withheld from his or her wages. Filers claim credit for such overpayment on their tax returns. The excess social security tax withheld could be taken as a credit toward payment of the taxpayer's income tax. In the case of a joint return, the credit was computed separately for each taxpayer.

### Exemptions (lines 6, 36, Form 1040)

In the computation of taxable income, a \$2,000 (\$1,950 for 1988) deduction was allowed for each exemption claimed. In general, an exemption was allowed for each taxpayer and dependent shown on a return. If an individual who could be claimed as a dependent by another taxpayer filed a return, that individual could not claim his or her own exemption.

In general an individual had to meet five requirements to qualify as a dependent for 1989:

- 1) The individual received more than half of his or her support for 1989 from the taxpayer;
- 2) The individual was related to the taxpayer (such as a son, daughter, or parent) or was a member of the same household for the entire year;
- 3) The individual did not file a joint return with his or her spouse;

- 4) The individual met certain citizenship requirements;
- 5) The individual's gross income was less than \$2,000. An exception to the income limitation was granted to children under age 19, or full-time students under age 24.

#### Farm Net Income or Loss

(line 19, Form 1040)

This source of income was reported by individuals who were sole proprietors of a farm. When there were two or more farms operated by the same taxpayer, the single amount of profit or loss included in adjusted gross income represented the combined profit and loss from all farming activities. Farm business costs and expenses were deductible from farm gross receipts in arriving at farm net profit or loss.

Gains from certain sales of livestock and crops that qualified for capital gains treatment were excluded from farm net profit or loss and included in capital gains. Farm rental income was included in rent net income or loss (See also "Farm Rental Income or Loss".)

#### Farm Rental Income or Loss

(line 28, Schedule E)

Taxpayers were required to report farm rental income and expenses separately from other farm profit or loss if they:

- received income that was based on crops or livestock produced by the tenant, and
- did not manage or operate the farm to any great extent.

#### **Filing Status**

See "Marital Filing Status."

#### Foreign Earned Income Exclusion (line 22, Form 1040)

Qualified taxpayers could exclude from total income a certain amount of their foreign earned income and employer-provided foreign housing expenses if their home, for tax purposes, was in a foreign country.

Qualified individuals were limited to the lesser of a \$70,000 exclusion or their total foreign earned income. Also, they could elect to exclude a portion of employer-provided foreign housing expenses. If the taxpayer elected to take both the foreign earned income and foreign housing exclusions, the total amount of both exclusions was limited to the taxpayer's total foreign earned income.

In this report, the foreign earned income exclusion includes the foreign housing exclusion.

#### Foreign Tax Credit

(line 43, Form 1040)

Individuals who paid income or excess profit taxes to a foreign country or U.S. possession could claim either this credit against Federal income tax liability, or an itemized deduction for the amount of the foreign tax payment. Depending on the taxpayer's income and taxes, the foreign tax credit could be less than the amount of foreign tax paid. Qualifying foreign taxes paid in excess of the allowable amount for Tax Year 1989 could be carried back 2 years and then forward 5 years.

# Forfeited Interest Penalty Adjustment (line 28, Form 1040)

Taxpayers who paid penalties for the premature withdrawal of funds from time savings accounts or deposits could deduct those penalties as an adjustment to total income.

#### General Business Credit

(line 44, Form 1040)

The general business credit consisted of the investment credit, the jobs credit, the alcohol fuel

credit, the low-income housing credit, and the research credit. Taxpayers claiming more than one of the business credits were required to summarize them on Form 3800, General Business Credit. The general business credit was limited to 100 percent of the first \$25,000 (\$12,500 for a married couple filing separately) of tax liability and 75 percent of the excess over \$25,000. If the current year general business credit exceeded the tax liability limitation, the excess amount could be carried back to the 3 preceding tax years, then forward 15 years.

#### **Home Mortgage Interest Deduction**

See "Interest Paid Deduction."

#### **Income Subject to Tax**

See "Modified Taxable Income."

#### **Income Tax After Credits**

(line 47 less line 58 (earned income credit), Form 1040)

To arrive at income tax after credits, taxpayers deducted total credits (line 46, Form 1040) from income tax before credits (line 40, Form 1040). For the statistics, tax was further reduced by the portion of the earned income credit which did not result in a negative tax. This portion of the earned income credit was included in the total credits as "earned income credit used to offset income tax before credits." Any tax remaining was tabulated as "income tax after credits."

# **Income Tax Before Credits** (line 40, Form 1040)

This amount consisted of the tax liability on taxable income, computed by using the tax tables, tax rate schedules, Form 8615, or Form(s) 8814, plus any additional taxes (line 39). (See also "Tax Generated.")

## Income Tax Withheld (line 56, Form 1040)

Income tax withheld included amounts deducted from salaries, wages, and tips, as reported on Form W-2, and from pensions, annuities, and certain gambling winnings as reported on Forms W-2P and W-2G. Amounts withheld from total distributions of profit-sharing, retirement plans, and individual retirement arrangements were reported on Form 1099-R.

In some cases, a backup withholding rate of 20 percent was required for interest, dividend, and royalty payments, which, generally, were not subject to withholding.

### **Individual Retirement Arrangement Deductible Payments**

Secretary of the second section is a section

(lines 24 and 25, Form 1040)

An individual retirement arrangement (IRA) is a savings program that allows a taxpayer to set aside money for retirement. Beginning in 1987, the deduction for IRA contributions was reduced or eliminated for taxpayers who were covered by an employer retirement plan and whose adjusted gross income exceeded certain levels. (Nondeductible contributions were still allowed for such taxpayers.) Deductible contributions could be deducted from the employee's total income in arriving at adjusted gross income.

Contributions to an IRA (whether or not they were deductible) were limited to the lesser of:

- (1) an individual's taxable compensation for the year; or
- (2) \$2,000 (\$2,250 if a nonworking spousal IRA was included).

State of the state

Unless they were disabled, taxpayers could not start withdrawing funds from the account until they reached age 59-1/2. After age 70-1/2 taxpayers were required to begin withdrawals. Penalty taxes were assessed if the taxpayer failed to comply with these limitations.

Individuals could also set up an IRA to include a nonworking spouse who met certain qualifying conditions. The total IRA deduction, including both the taxpayer and nonworking spouse, could not exceed \$2,250. A spousal IRA deduction is tabulated in the statistics as "secondary IRA payments."

To be deductible, payments to an IRA for a particular taxable year must be made not later than the due date of the individual's return for that year.

### Individual Retirement Arrangement Taxable Distributions (line 16b, Form 1040)

Any money or property received from a taxpayer's IRA account was considered a distribution and, generally, had to be included in the taxpayer's total income in the year received. An exception to this rule was tax-free rollover distributions from one retirement account to another, or to the extent to which the payout represented previous non-deductible IRA contributions.

#### Interest Paid Deduction ▲ (line 13, Schedule A)

Interest expenses, except for business or investment, were divided into two categories: personal interest and deductible home mortgage interest. Personal interest included items such as credit card interest, revolving charge account interest, and interest on bank loans. Only 20 percent of personal interest was deductible for 1989, whereas 40 percent was deductible for 1988.

The rules for deducting home mortgage interest for 1989 were: (1) if a taxpayer took out a mortgage before October 14, 1987, secured by the taxpayer's main or second home, all the interest was deductible, (2) if the taxpayer's mortgage was after October 13, 1987, and the funds were used to buy, build, or improve that home, all interest could be deducted if the total of all mortgages on the property was \$1 million or less, and (3) taxpayers could deduct all of the interest on an additional \$100,000 of mortgages on their main or second home other than to buy, build, or improve that home.

Generally, investment interest (interest paid on money borrowed that is allocable to property held for investment) was fully deductible up to the amount of net investment income. Interest relating to business, royalty, and rental income was deducted directly from these items and was not reflected in the interest paid statistics.

#### Interest Received

See "Taxable Interest Received."

#### Interest, Tax-Exempt

See "Tax-Exempt Interest."

#### **Itemized Deductions**

See "Total Itemized Deductions" and specific types.

#### **Marginal Tax Rates**

Different portions of taxable income are taxed at different rates. The tax rate applied to the last dollar of income is called the "marginal tax rate" for that return (See also "Tax Generated".)

#### **Marital Filing Status**

(lines 1-5, Form 1040)

The five marital filing status classifications were:

- (1) returns of single persons (not heads of households or surviving spouses);
- (2) joint returns of husbands and wives;
- (3) separate returns of husbands and wives;
- (4) returns of heads of households; and
- (5) returns of surviving spouses.

Marital status was usually determined as of the last day of the taxable year. If one spouse died during the tax year, the other was considered married for the entire year. If a taxpayer was divorced during the tax year and did not remarry, the taxpayer was considered to be unmarried for the entire year.

## Medical and Dental Expense Deduction (lines 1-4, Schedule A)

Qualified medical expenses included payments made for the diagnosis, treatment, or prevention of disease or for medical or dental insurance. However, taxpayers who took the self-employed health insurance adjustment had to reduce their total premiums by the amount of the adjustment (see "Self-Employed Health Insurance"). In general, medical and dental expenses could be claimed as an itemized deduction to the extent that they exceeded 7.5 percent of adjusted gross income. Amounts paid for medicine and drugs were deductible only if they were not available except by prescription or were for insulin. Taxpayers could also deduct a maximum of \$50 per day for certain lodging expenses incurred while travelling to obtain medical care.

## Minimum Tax Credit (line 45, Form 1040)

A minimum tax credit could be taken for 1989 by certain taxpayers who paid alternative minimum tax for 1988. The credit was that part of the 1988 alternative minimum tax based on adjustments or preference items that deferred tax rather than caused permanent avoidance of tax. If all of the minimum tax credit could not be used for 1989, the excess could be carried forward to later years.

# Miscellaneous Itemized Deductions ▲ (lines 20-25, Schedule A)

For 1989, the base rate for the first telephone line into a taxpayer's residence became a non-deductible expense, even if it was used for business- or investment-related purposes. Other

miscellaneous itemized deductions were divided into two tiers. The first tier included those items that were limited to the amount that exceeded 2 percent of adjusted gross income, while the expenses included in the second tier were fully deductible.

#### Limited Miscellaneous Deductions:

Unreimbursed employee business expenses, tax preparation fees, and those expenses of producing income (including qualifying educational expenses), were limited to the amount that exceeded 2 percent of adjusted gross income.

#### Other Miscellaneous Deductions:

Other, fully deductible expenses included such items as gambling losses (limited to gains), impairment-related work expenses for handicapped people, and amortizable bond premiums.

#### Modified Taxable Income A

"Modified taxable income" is the term used to describe "income subject to tax," the actual base on which tax is computed for the statistics in Tables 3.4 and 3.5. For taxpayers filing current year returns, modified taxable income is identical to "taxable income" except for those upper income taxpayers paying both average and marginal tax rates of 28 percent. For these taxpayers the deduction for personal exemptions was phased out and their "income subject to tax" became taxable income plus some or all of the exemption amount.

For prior year returns included in the 1988 statistics, a modified taxable income was computed. This was calculated by using the tax rate schedule to impute a hypothetical taxable income amount necessary to yield the given amount of tax reported.

# **Moving Expense Deduction** (line 19, Schedule A)

An employee who had to move to a new residence as a result of changing jobs could claim certain expenses for moving and house hunting as an itemized deduction. For employees to qualify for this deduction, the new job location had to be

at least 35 miles farther from the former residence than the old job was. Deductible expenses included those incurred while moving household and personal goods, as well as in travel, meals, and lodging of the taxpayer and household members en route to the new residence. (Additional deductible expenses included pre-move house search trips, and the cost of selling a residence or breaking a lease.)

#### Nondeductible Passive Losses A

(calculated on Form 8582)

See "Changes in Law section," Section 1.

#### **Nontaxable Returns**

See "Taxable and Nontaxable Returns."

#### Other Adjustments A

(included in line 30, Form 1040)

See "Statutory Adjustments."

#### Other Income A

(line 22, Form 1040)

For 1989, jury duty pay had to be included in other income. If individuals were required to give the jury duty pay to their employer because they continued to receive their wages while on jury duty, they could deduct the amount turned over to the employer as an adjustment to income. Also included in other income were items such as prizes, awards, sweepstakes winnings, gambling winnings, recoveries of bad debts, insurance received as reimbursement for medical expenses taken as a deduction in a previous year, and any other income subject to tax for which no specific line was provided on the return form. Any "net operating loss" in an earlier year that was carried forward and deducted for 1989 was entered as a negative amount on this line by the taxpayer but edited into a separate field during service center processing.

#### Other Tax Credits

(included in line 46, Form 1040)

"Other tax credits" is a residual category in the statistics and does not relate to a line item on a tax form. It included the "credit for fuel from a nonconventional source" and other miscellaneous? credits that did not belong in any other category and were used to offset income tax before credits.

#### Overpayment

(line 64, Form 1040)

An overpayment of tax occurred when the "total payments" exceeded "total tax". Total payments included the amount of any "refundable portion of the earned income credit." Overpayment could be refunded or credited toward the estimated tax for the following year. (See also "Credit to 1990 Estimated Tax" and "Refund.")

#### Overpayment of Windfall Profit Tax

(included in line 63)

A "windfall profit" excise tax was imposed on producers of crude oil, but the tax was withhele and reported by the first purchaser of such oil. If too much tax was withheld in the course of the year, the producer could claim a refund on his or her income tax return The excess payment was entered in the margin of the tax payments section of the Form 1040.

#### Parent's Election to Report Child's Interest and Dividends

Beginning with 1989, a parent could report on his or her return, income received by his or her child. If the election was made, the child was not required to file a return. A parent could make this election only if his or her child:

- Was under age 14 on January 1, 1990;
- Had income only from interest and dividends;
  - Had gross income for 1989 that was more than \$500 but less than \$5,000;

- Did not have any overpayment of tax shown on his or her 1988 return applied to the 1989 return; and
- Had no Federal income tax withheld from his or her income (backup withholding).

If the parents were not filing a joint return, special rules applied to determine which parent could make the election.

### Partnership and S Corporation Net Income or Loss

(lines 31, 32, Schedule E)

Since partnerships and S corporations (formerly Subchapter S corporations) are not taxable entities, tax on their net profit or loss was levied, in general, directly on the members of the partnership or shareholders of the S corporation. The profit or loss shown in the statistics was the taxpayer's share of the ordinary gain or loss of the enterprise and certain payments made to the taxpayer for the use of capital or as a salary. Net long-term capital gain retained its character in the hands of the partners or stockholders and was included in the statistics for net gain or loss from sales of capital assets.

If a return showed net income from one partnership or S corporation and a net loss from another, the two were added together and the return was tabulated by the net amount of income or loss in the appropriate column. Beginning in 1987, net income and net loss were reported separately for passive and non-passive partnership and S corporation activities. Passive losses were limited under new rules to the amount that could offset passive income.

### Payment with Request for Extension of Filing Time

(line 59, Form 1040)

This payment was made when the taxpayer filed Form 4868, Application for Automatic Extension of Time to File U.S. Individual Income Tax Return or Form 2688, Application for Additional Extension of Time to File. The extension granted the taxpayer an additional period of time to file a

tax return, but it did not extend the time for payment of expected tax. Full payment of any tax due had to be made with the application for extension.

#### Payments to a Keogh Plan

(line 27, Form 1040)

Self-employed individuals were allowed to contribute to a Keogh retirement plan or a "simplified employment pension" (SEP) plan for themselves and to deduct all or a part of such contributions in computing adjusted gross income. The amount which could be deducted was based on net earnings from self-employment.

# **Penalty Tax on Qualified Retirement Plans** (line 52, Form 1040)

If taxpayers withdrew any funds from an Individual Retirement Arrangement or qualified retirement plan before they were either age 59-1/2 or disabled, they were subject to a penalty tax equal to 10 percent of the premature distribution. Any taxpayer who failed to withdraw the minimum required distribution after reaching age 70-1/2 had to pay a 50 percent excise tax on the excess accumulation. Contributions to the retirement arrangement in excess of the legal limitation for the year (the lesser of \$2,000 or the taxpayer's compensation for the year) were subject to an excise tax equal to 6 percent of the excess contribution.

#### Pensions and Annuities

(lines 17a, 17b, Form 1040)

Generally, pensions are periodic income received after retirement for past services with an employer, while annuities are income payable at stated intervals after payment of a specific premium. A taxpayer could acquire a pension or annuity either by purchase from a commercial organization (usually life insurance, endowment, or annuity contracts) or under a plan or contract connected with the taxpayer's employment. Those pensions or annuities obtained in connection with employ-

ment could be purchased entirely by the taxpayer or could be financed in part (a contributory plan) or in whole (a non-contributory plan) by contributions of the employer.

Since a non-contributory pension was paid for entirely by an employer, the amount received by the employee was fully taxable. This fully taxable pension was reported on lines 17a and b. For the taxpayer who participated in a contributory retirement plan while employed, the amount received was only partially taxable. In general, the amount excludable from gross income, the nontaxable portion, represented the taxpayer's contributions under the plan, while the taxable portion represented the employer's contribution and earnings on the entire investment. The nontaxable portion had to be amortized over the expected lifetime of the taxpayer.

The entire amount of pensions and annuities received for the year was reported on line 17a of the Form 1040. The taxable portion was computed on a separate worksheet and entered on line 17b, "Taxable amount."

## Predetermined Estimated Tax Penalty (included in line 67, Form 1040)

If a return showed taxes of \$500 or more owed on line 67 (tax due at time of filing) and this amount was more that 10 percent of the total tax, taxpayers could owe a penalty, unless tax payments in the current year equalled or exceeded prior year tax liability (provided prior year liability was greater than zero). Also, taxpayers could owe a penalty if they underpaid their 1989 estimated tax liability for any payment period. Form 2210 was used to determine the amount of a penalty, if any.

For this report, the predetermined estimated tax penalty includes only the amount calculated by the taxpayer when the return was initially filed.

#### Refund

(line 65, Form 1040)

A refund of tax included all overpayment of income taxes not applied by the taxpayer as a

credit to the next year's estimated tax. (See also "Overpayment.")

#### **Regular Tax Computation**

Typically, the taxpayer, in determining the amount of "tax generated," first computed taxable income. Depending on marital status and size of taxable income, the taxpayer then used the tax tables or applied the rates from one of four tax rate schedules to determine tax. Returns of taxpayers who had taxes computed by the Internal Revenue Service were classified under the regular tax computation method.

### Rent and Royalty Net Income or Loss A (line 27, Schedule E)

This amount is the combination of rent net income, rent net loss, royalty net income, and royalty net loss.

## Rent Net Income or Loss A (line 23, columns A,B,C, Schedule E)

Rent net income or loss was determined by deducting from gross rent, the amounts for depreciation, repairs, improvements, interest, taxes, commissions, advertising, utilities, insurance, janitorial services, and any other allowable expenses related to the rented property. Beginning with 1987, new "passive loss" rules limited the losses that could be claimed for rental activities and for 1988 and 1989 losses were further limited. In the statistics, total rental net loss includes passive losses that were not deductible in figuring AGI. (Passive losses are discussed under Changes in Law, Section 1.)

### Royalty Net Income or Loss (line 23, columns A,B,C, Schedule E)

Net royalties consisted of gross royalties less deductions for depletion, depreciation, office rent, legal fees, clerical help, interest, taxes, and similar items. Gross royalties included revenues from oil, gas, and other mineral rights; revenue from patents; and revenue from literary, musical, or artistic works. Certain royalties received under a lease agreement on timber, coal, and domestic iron ore were eligible for capital gains or ordinary loss treatment under Code section 1231. As a result of the separate computation, those royalties are reflected in the statistics for "sales of capital assets" and "sales of property other than capital assets." (See also "Total Rent and Royalty Income or Loss in AGI.")

# **S** Corporations

See "Partnership and S Corporation Net Income or Loss."

# Salaries and Wages (line 7, Form 1040)

Salaries and wages as reported on the tax return were amounts of compensation primarily for personal services. The following items were included:

- salaries;
- wages;
- commissions;
- bonuses;
- tips;
- fees:
- excess reimbursement over employee business expenses;
- moving expense allowances;
- the difference between the fair market value of certain property and the discount price for which it was purchased by a taxpayer from his or her employer;
- severance pay;
- sick pay:
- the value of exercising a stock appreciation right;
- vacation allowances;
- most disability payments;
- strike and lockout benefits; and
- the value of certain non-monetary payments for services (e.g., merchandise, accommodations, certain meals or lodging, certain stock purchase plans, or property).

Identifiable amounts for any of these categories which may have been reported by taxpayers as "other income" were treated as salaries and wages for the statistics.

# Sales of Capital Assets Net Gain or Loss ▲ (line 13, Form 1040)

In general, capital assets for tax purposes included all property held for personal use or investment. Examples of such assets were personal residences, furniture, automobiles, and stocks and bonds. Most assets used for business activities were specifically excluded from treatment as capital assets. (See also "Sales of Property Other Than Capital Assets, Net Gain or Loss".)

The following concepts were used in the computation of net capital gain or loss for this report:

Net capital gain: If the combination of net short-term gain or loss and net long-term gain or loss resulted in a positive amount, the taxpayer had a net capital gain. The full amount of this gain, whether short-term or long-term was included in adjusted gross income. The holding period was one year or less for short-term assets, and longer than one year for long-term assets.

Net capital loss: If the combination of net short-term gain or loss and net long-term gain or loss resulted in a negative amount, the taxpayer showed a net capital loss. The amount of net capital loss to be included in adjusted gross income was limited to the smaller of the actual net capital loss or \$3,000 (\$1,500 for married persons filing separately). Any excess capital losses over the \$3,000 limit could be carried over to subsequent tax years ("capital loss carryover" in the statistics).

Net capital gain or loss also included capital gain distributions which were not reported on Schedule D (Capital Gains and Losses and Reconciliation of Forms 1099-B). These capital gain distributions were entered directly on line 14 of Form 1040 if the taxpayer did not have any other gains or losses to report on Schedule D. These distributions were, by definition, long-term capital gains. (See also "Capital Gain Distributions Reported on Form 1040.")

# Sales of Property Other Than Capital Assets, Net Gain or Loss (line 15, Form 1040)

Property other than capital assets generally included property of a business nature, in contrast to personal and investment property which were capital assets. Some types of property specifically included in this group were:

- (1) certain depreciable, depletable, and real business property;
- (2) accounts and notes receivable in the ordinary course of business generated from the sale of goods and services ordinarily held for sale by the business or includable in the inventory of the business;
- (3) certain copyrights, literary, musical, or artistic compositions, or similar properties; and
- (4) amounts resulting from certain "involuntary conversions," including net losses from casualty and theft.

Taxpayers reported all gains and losses not receiving capital gains treatment on Form 4797, Gains and Losses From Sales or Exchanges of Assets Used in a Trade or Business and Involuntary Conversions.

# **Self-Employed Health Insurance** (line 26, Form 1040)

Self-employed individuals could deduct, as an adjustment, up to 25 percent of the amount paid for medical insurance for themselves and their families. If the taxpayer had other employees working for his or her business, they must have been offered nondiscriminatory health insurance coverage if the taxpayer was to qualify for the deduction.

The 25 percent adjustment could not exceed the net earnings from the business in which the insurance plan was established. The balance of the health insurance cost was included with other medical care expenses as an itemized deduction subject to the 7.5 percent deduction threshold based on AGI. However, self-employed persons

were not allowed this deduction if they or their spouses were employees and eligible to participate in an employer-subsidized health plan.

# Self-Employment Tax ▲ (line 48, Form 1040)

This tax, levied under the social security system, was reported by most individuals who had self-employment earnings of at least \$400 derived from a sole proprietorship or from their share of partnership profits. Some types of income (such as dividends, interest, and capital gains and losses) and certain deductions (such as net operating losses, and casualty and theft losses) were not allowed in computing self-employment earnings.

The maximum net earnings subject to self-employment tax for 1989 increased to \$48,000 from \$45,000 for 1988. The net self-employment tax rate for 1989 remained at 13.02 percent.

# Size of Adjusted Gross Income (line 31, Form 1040)

The amount of adjusted gross income reported by the taxpayer on the return was the basis for classifying data by size of adjusted gross income. Returns without positive adjusted gross income, such as deficit returns or returns on which income and loss were equal, were classified as having "no adjusted gross income" and appear as a separate class in most basic tables. The absence of a class labeled "no adjusted gross income" indicates that any deficit or break-even returns in a table were included in the lowest income size class.

# Social Security Benefits (lines 21a, 21b, Form 1040)

Social security benefits include any monthly benefit under title II of the Social Security Act or the part of a "tier 1 railroad retirement benefit" that was equivalent to a social security benefit. Social security benefits are not taxable unless the taxpayer's total income (including tax-exempt interest) plus one-half of total social security benefits exceeds certain levels. The maximum taxable amount was one half of the net social

security benefits received. Social security benefits received were reported on Form 1040, line 21a with only the taxable portion reported on line 21b. Taxpayers who had no taxable benefits were not required to show the total benefit on their income tax returns.

# Social Security Taxes on Tip Income (line 51, Form 1040)

This amount consisted of social security tax on unreported tip income and uncollected employee social security tax on tips.

Cash tips amounting to \$20 or more received by the taxpayer in a month while working for any one employer were subject to withholding of income tax and social security tax (or the equivalent railroad retirement tax). If the employer was unable to withhold the social security tax, the amount of uncollected social security tax on tips was indicated on the employee's Form W-2, and the taxpayer was required to report the uncollected tax and pay it with the Form 1040. If the employee did not report the tips to the employer, the employee was required to compute the social security tax on unreported tips on Form 4137 and attach it to Form 1040.

# Standard Deduction ▲ (line 34, Form 1040)

For 1989, the *basic* standard deduction was increased. Taxpayers who were age 65 or over or blind could claim an *additional* standard deduction amount of \$600 or \$750. Both the basic and additional standard deduction were determined by filing status, as shown below.

State of the state

## Single

- Basic deduction of \$3,100;
- Each taxpayer 65 or over or blind was allowed an additional \$750 deduction each for age and blindness.

# Married filing jointly or qualifying widow(er)

- Basic deduction of \$5,200;
- Each taxpayer 65 or over or blind was allowed an additional \$600 deduction each for age and blindness.

# Married, filing separately

- Basic deduction of \$2,600;
- Each taxpayer 65 or over or blind was allowed an additional \$600 deduction each for age and blindness.

## Head of Household

- Basic deduction of \$4,550;
- Each taxpayer 65 or over or blind was allowed an additional \$750 deduction each for age and blindness.

In the statistics, the basic standard deduction was tabulated for all taxpayers who claimed it, including those who were 65 or over or blind. The "additional standard deduction" total included only the additional amount that was taken by those taxpayers who were 65 or over or blind.

# State Income Tax Refund (line 10, Form 1040)

This amount was the refund of State income tax that was claimed as an itemized deduction in a prior year, only to the extent that such deduction reduced taxes in the prior year.

# Statutory Adjustments ▲ (lines 24-30, Form 1040)

These were the adjustments to total income which were allowed as deductions in arriving at adjusted gross income. For 1989, statutory adjustments included jury duty pay received by the taxpayer and given to the employer if the taxpayer continued to receive wages while on jury duty, payments to a self-employed Keogh retirement plan or a "simplified employee pension" (SEP), forfeited interest penalty, payments to an individual retirement arrangement (IRA), alimony paid, the self-employed health insurance deduction, and the foreign housing deduction. Each of the above items is described separately in this section. In addition, statutory adjustments included the forestation/reforestation amortization deduction and the repayment of supplemental unemployment benefits under the Trade Act of 1974. These amounts were included in the "Other Adjustments" category in the statistics.

# Tax Due at Time of Filing (line 67, Form 1040)

"Tax due" was reported on returns on which total tax liability exceeded total tax payments.

# Tax From Recomputing Prior-Year Investment Credit (line 50, Form 1040)

The investment tax credit provisions of the law included a recapture rule which required taxpayers to pay back some or all of any investment credit previously taken on property disposed of before the end of the useful life claimed in computing the credit. The law specified that if property qualifying for the credit was disposed of before the end of its intended useful life, the tax for the year of disposal was increased by the difference between the credit originally claimed and the credit that would have been allowed based on the shorter actual life. Tax credits could not be applied against this additional tax.

# Tax Generated ▲ (line 38, Form 1040)

This amount was the tax computed on modified taxable income. (See also "Modified Taxable Income.") For 1989, there were two basic tax rates, 15 and 28 percent. However, taxable income over certain levels (from \$44,900 to \$93,130 if single, \$37,425 to \$117,895 if married filing separately, \$64,200 to \$128,810 if head of household, and \$74,850 to \$155,320 if married filing jointly or a qualifying widow(er)) was subject to an additional 5 percent tax. This meant that a 33 percent marginal tax rate was applied to this part of taxable income with the purpose of phasing out the benefit of the 15 percent tax rate. At income levels immediately above those shown for each filing status, the personal exemption deduction for taxpayers and dependents was phased out, also at a 5 percent rate. Above those levels, the marginal tax rate dropped back to 28 percent. The tax generated at each of these tax rates is shown in Tables 3.4 and 3.5.

If children under age 14 had investment income that exceeded \$1,000, there were two methods of reporting this income. If the child filed his or her

own return, the investment income that exceeded \$1,000 was taxed at the parents' rate on Form 8615 and tabulated separately in Tables 3.4 and 3.5. If the parents elected to report the child's investment income on their return, they attached a Form 8814. The investment income in excess of \$1,000 was included on Form 1040, line 22. The remaining investment income was taxed at the child's rate (15 percent), added to the parents' tax on Form 1040, line 38, and was also tabulated separately in Tables 3.4 and 3.5.

On most returns, except those with additional taxes from special computations, "tax generated" equaled "income tax before credits."

# **Tax Payments**

(lines 56, 57, 59-62, Form 1040)

These payments were generally made before the return was filed and were applied against tax liability to determine any amount payable or refundable at the time of filing. They consisted of the following:

- (1) income tax withheld, including backup withholding;
- (2) estimated tax payments;
- (3) payment with request for extension of filing time;
- (4) excess social security taxes or railroad retirement tax withheld;
- (5) credit for tax on certain gasoline, fuel, and oil;
- (6) credit from regulated investment companies; and
- (7) overpayment of windfall profit tax.

Each of the above is described under a separate heading in this section.

Although the earned income credit was included with tax payments on the tax return itself, for the statistics it is treated partly as a credit against income tax liability and partly as a refundable amount (See also "Earned Income Credit.")

## Tax Rates

.See "Tax Generated."

# Tax-Exempt Interest (line 8b, Form 1040)

Beginning with 1987, the amount of any tax-exempt interest received or accrued during the tax year had to be shown on the tax return. Tax-exempt interest includes interest on certain State and municipal bonds, as well as any tax-exempt interest dividends from a mutual fund or other regulated investment company. This is an information reporting requirement and does not convert tax-exempt interest to taxable interest.

## **Taxable and Nontaxable Returns**

The taxable and nontaxable classification of a return for this report was determined by the presence of "total income tax" (the sum of income tax after credits and the alternative minimum tax). Some returns classified as "nontaxable" may have had a liability for other taxes, such as self-employment or Railroad Retirement Tax Act (RRTA) taxes, social security taxes on tip income, tax from recomputing prior-year investment credit, penalty taxes on individual retirement arrangements, Section 72 penalty taxes, advance earned income credit payments, golden parachute payments, or uncollected employee social security tax on tips. These taxes, however, were disregarded for purposes of this classification since three of the above taxes were considered social security (rather than income) taxes, and the remaining ones, except for advance earned income payments, were either based on prior year's income or were penalty

For this report, the earned income credit was treated as an amount which, first, was used to offset income tax before credits. Since the earned income credit was refundable, it was subtracted from income tax (for the statistics) after reduction by all other statutory credits. As a result, some returns became nontaxable strictly because of the

earned income credit if there was no alternative minimum tax and the earned income credit equaled or exceeded income tax before credits reduced by any other credits.

It should be noted that classification as taxable or nontaxable was based on each return as it was originally filed and does not reflect any changes resulting from audit or other enforcement activities.

## **Taxable Income**

(line 37, Form 1040)

Taxable income was derived by subtracting from adjusted gross income any exemption amount and either total itemized deductions or the standard deduction. On most current year returns "taxable income" was identical to "modified taxable income", with the exception of returns for taxpayers with taxable income over certain levels, whose benefits of the 15 percent tax rate bracket and personal exemption amount were phased out. For prior year returns received during the current year filing period, taxable income was imputed from the amount of tax reported. (See also "Modified Taxable Income.")

# Taxable Interest Received

(line 8a, Form 1040)

This amount was the taxable portion of interest received from bonds, debentures, notes, mortgages, certain insurance policy proceeds, personal loans, bank deposits, savings accounts, tax refunds, and U.S. savings bonds. Also included as interest were "dividends" on deposits or withdrawable accounts in mutual savings banks, cooperative banks, savings and loan associations, and credit unions. For 1989, these amounts could, in some circumstances, include a child's income which was to be taxed at the parent's rate. Most interest on State or local government obligations remained tax-exempt, but the total tax-exempt interest had to be reported on line 8b of Form 1040. It was not included in the taxpayer's income for income tax purposes (See also "Tax-Exempt Interest.")

# **Taxes Paid Deduction**

(line 8, Schedule A)

Taxes allowed as an itemized deduction from adjusted gross income included personal property taxes, State and local income taxes, taxes paid to foreign countries or U.S. possessions (unless a foreign tax credit was claimed), and real estate taxes except those levied for improvements that tended to increase the value of the property. Mandatory employee contributions to a state disability fund and employee contributions to a state unemployment fund were also included. Federal taxes and State and local sales taxes were not deductible.

Taxes paid on business property were deducted separately on the schedules for business, rent, royalty, and farm income and are excluded from the "taxes paid" statistics in this report.

### **Total Income Tax**

(line 47 — earned income credit amount + line 49 of Form 1040)

Total income tax was the sum of income tax after credits (from which the earned income credit was subtracted) and the alternative minimum tax. It did not include any of the other taxes which made up total tax liability. Total income tax was the basis for classifying returns as taxable or nontaxable.

## **Total Itemized Deductions**

(line 34, Form 1040)

Itemized deductions from adjusted gross income could be claimed for medical and dental expenses, taxes paid, interest paid, contributions, casualty and theft losses, moving expenses, and miscellaneous deductions. The total amount of itemized deductions was tabulated only from returns showing positive adjusted gross income.

## **Total Rent and Royalty Income or Loss**

This income concept consists of all rent and royalty income and loss which was used in computing adjusted gross income, farm rental income and suspended rental loss carryover from prior years. It excludes that portion of rental losses which was not deductible in computing adjusted gross income due to the passive loss rules which went into effect for Tax Year 1987. (Passive loss rules are discussed under Changes in Law.)

## Total Tax Credits A

(lines 46, 58, Form 1040)

For this report, total tax credits consisted of the following:

- (1) child care credit;
- (2) credit for the elderly and disabled;
- (3) foreign tax credit;
- (4) general business credit;
- (5) minimum tax credit;
- (6) other tax credits;
- (7) mortgage interest credit and any credits on prior year returns; and
- (8) earned income credit (EIC) used to offset income tax before credits.

These amounts were deducted from income tax before credits to arrive at income tax after credits. For the statistics, the portion of the EIC which did not result in a negative amount was tabulated as "earned income credit used to offset income tax before credits." Any amount remaining of the EIC could be refunded or applied to other taxes, and

was classified separately as "earned income credit refundable portion," or "earned income credit used to offset other taxes." All other credits were limited to the amount needed to offset income tax before credits and were not refundable.

# **Total Tax Liability**

(line 55 modified by the earned income credit, Form 1040)

Total tax liability was the sum of income tax after credits, the alternative minimum tax, self-employment tax, social security tax on tips, tax from recomputing prior-year investment credits, taxes from individual retirement arrangements, Section 72 penalty taxes, and tax on golden parachute payments. These taxes were then reduced by the earned income credit used to offset all other taxes (defined under "Earned Income Credit"). For the statistics, unlike the Form 1040, total tax liability did not include any advance earned income credit payments.

# Type of Tax Computation ▲ (line 38, Form 1040)

Tabulations in Table 3.1 include two methods of computing the tax on income subject to tax. These methods were:

- (1) regular tax, as computed from the tax tables or tax rate schedules accompanying the Forms 1040, 1040A, or 1040EZ (see also "Regular Tax Computation"); and
- (2) Form 8615, used to compute the tax on investment income of children under 14.

# **Unemployment Compensation** (line 20, Form 1040)

Beginning in 1987, all unemployment compensation had to be included in income.

# Unreimbursed Employee Business Expenses (line 20, Schedule A)

### From the Commissioner

Dear Taxpayer,

IRS appreciates the efforts you make to file an accurate tax return. We can improve the processing of returns and issuance of refunds if you file early and use the label we sent to you. If you have a refund coming, we can process your return even faster if you file electronically.

When we went to print with this year's forms and instructions. Congress was still considering changes to the tax law. Please take note of the information included in these instructions concerning the new law.

As your new Commissioner. I assure you we are deeply committed to do everything we can to make it easier for you to comply with the tax laws. We are equally committed to simplifying tax rules and modernizing IRS' outdated equipment. This will make it easier for you to file your tax return or resolve other tax problems. We want to provide whatever assistance we can to make filing your return as easy as possible. Let us know if we can do more.

> Fred T. Goldberg, Jr. Commissioner of Internal Revenue

### What's New for 1989?

Fast Refund. If you expect a tax refund for 1989, instead of mailing your return to IRS, you may want to have it filed electronically. When you file electronically, you receive your refund in about 3 weeks, or, in about 2 weeks if you have it deposited directly into your savings or checking account. For a charge, many professional tax return preparers offer electronic filing in addition to their return preparation services. If you prepare your own return, a preparer or transmitter in your area can file your return electronically for you. For more information on electronic filing, see Tele-Tax Information in the index (topic no. 112). For a list of those in your area who can file your return electronically for you, call IRS toll free at 1-800-424-1040 and ask for the Electronic Filing Office.

Refund Checks Resure to cash your refund check soon after you receive it. Checks not cashed within 12 months of the date of the check will be cancelled.

Deduction for Exemptions. The deduction for each exemption—for you. your spouse, and dependents-has increased to \$2,000.

For 1989, you may not claim an exemption for your child who was a fulltime student and was age 24 or older at the end of the year, unless the child's gross income was less than \$2,000. But the child may claim an exemption on his or her own return

Should You Itemize or Take the Standard Deduction? The standard deduction has increased for most people Because of this increase, it may be to your benefit to take the standard deduction this year even though you

itemized deductions in the past. Read the instructions for line 34 on page 16.

Social Security Numbers for Dependents Age 2 or Older. If you claim any person age 2 or older as a dependent, show that person's social security number on your return. If your dependent does not have a number, see the instructions for line 6c, column (3), on page 9.

Increased Earned Income Credit, You may be able to take this credit for 1989 if you earned less than \$19,340 and a child lived with you. The limit was \$18,576 last year. Read the instructions for line 58 on page 20 to see if you can take this credit

Child and Dependent Care Expenses. You may not claim the credit for child and dependent care expenses or exclude employer-provided dependent care benefits from your income unless you report the new information about the care provider on Form 2441.

You may not claim a credit for payments made for the care of a dependent child who was age 13 or older unless the child was disabled. The age limit was 15 or older last year

Supplemental Medicare Premium. If you were eligible for Medicare Part A benefits for more than 6 full months during the year, you may owe the new supplemental Medicare premium. The premium will help pay the cost of the new Medicare catastrophic and prescription drug coverage. Read the instructions for line 54 on page 19.

Children Under 14 May Not Have To File. If your child was under age 14 and had income only from interest and dividends that totaled less than \$5,000, you may be able to elect to report your child's income on your return. If you do. your child will not have to file a return.

For more details, see Exception for Children Under Age 14 on page 5.

Employee Business Expenses. For most people, employee business expenses are deductible only as an itemized deduction on Schedule A, line 20. If you are reimbursed for your employee expenses under an arrangement with your employer and both of the conditions listed below apply, amounts you received under the arrangement should not have been reported to you as income on your Form W-2.

- · The arrangement requires you to substantiate your expenses to your employer, AND
- The arrangement requires you to return (and you do return) any amount in excess of your substantiated expense covered under the arrangement.

If the arrangement does not meet both of the above conditions, amounts you received under the arrangement should have been reported to you as wages on your Form W-2.

Pending Legislation. At the time these instructions were printed, Congress was considering changes that affect the capital gain and supplemental Medicare premium rules. When Congress completes its action, we will take steps to publicize the final rules.

Additional Information, if you want more information about tax law changes for 1989, get Pub. 553, Highlights of 1989 Tax Changes. You may also find the publications listed at the end of this booklet helpful in completing your return.

New Publication. An easy-to-read guide, Pub. 2. The ABC's of Income Tax, will help you better understand your taxes. It gives the basic rules that apply to most people, without the exceptions that apply to only a few.

### What To Look For in 1990

Exclusion of Interest From U.S. Savings Bonds. If you cash Series EE savings bonds issued after 1989, you may be able to exclude from income part or all of the interest on those bonds. But you must have paid higher education expenses during the year for you, your spouse, or your dependent. Get Pub. 550, Investment Income and Expenses, for details.

#### Privacy Act and Paperwork Reduction Act Notice

The Privacy Act of 1974 and Paperwork Reduction Act of 1980 say that when we ask you for information, we must first tell you several things: our legal right to ask for the information, why we are asking for it, and how it will be used. We must also tell you what could happen if we do not receive it and whether your response is voluntary, required to obtain a benefit, or mandatory under the law.

This notice applies to tax returns and any papers filed with them. It also applies to any questions we need to ask you so we can complete. Correct. or process your return:

figure your tax; and collect tax, interest, or penalties.

Our legal right to ask for information is Internal Revenue Code sections 6001, 6011, and 6012(a) and their regulations. They say that you must file a return or statement with us for any tax you are liable for. Your response is mandatory under these sections. This is so we know who you are, and can process your return and papers.

You must fill in all parts of the tax form that apply to you. Code section 6109 and regulations say that you must show your social security number on what you file. You do not have to check the boxes for the Presidential Election Campaign Fund.

We ask for tax return information to carry out the tax laws of the United States. We need it to figure and collect the right amount of tax.

We may give the information to the Department of Justice and to other Federal agencies, as provided by law. We may also give it to cities, states, the District of Columbia, and U.S. commonwealths or possessions to carry out their tax laws. And we may give it to foreign governments because of tax treaties they have with the United States.

If you do not file a return, do not provide the information we ask for, or provide

fraudulent information, the law says that you may be charged penalties and, in certain cases, you may be subject to criminal prosecution. We may also have to disallow the exemptions, exclusions, credits, deductions, or adjustments shown on the tax return. This could make the tax higher or delay any refund, interest may also be charged.

Please keep this notice with your records. It may help you if we ask you for other information. If you have questions about the rules for filing and giving information, please call or visit any Internal Revenue Service office.

#### The Time It Takes To Prepare Your Return

We try to create forms and instructions that are accurate and can be easily understood. Often this is difficult to do because some of the tax laws enacted by Congress are very complex. For some taxpayers with income mostly from wages, filling out the forms is easy. For others who have businesses, pensions, stocks, rental income or other investments, it is more difficult.

The time needed to complete and file the following forms will vary depending on individual circumstances. The estimated average times are:

### **Preparing Your Return**

Follow the six useful steps below to help you prepare your return. If you follow these steps and read the line-by-line instructions, we feel that you can fill in your return quickly and accurately.

# Step 1 — Get all of your records together.

Income Records. These include any Forms W-2, W-2G, W-2P, and 1099 that you may have. If you don't get a Form W-2 by January 31, 1990, or if the one you get isn't correct, please contact your employer as soon as possible. Only your employer can give you a Form W-2 or correct it. If you cannot get a Form W-2 by February 15, call the toll-free telephone number listed in the instructions for your area. You will be asked for your employer's name, address, and if known, identification number.

# Itemized Deductions and Tax Credits. Pages 18 through 27 of these instructions tell you what credits and itemized deductions you can take. Some of the records you may need are:

- Medical and dental payment records.
   Real estate and personal property tax receipts.
- Interest payment records for items such as a home mortgage, car, or appliances.
   Records of payments for child care so you

# Step 2— Get any forms, schedules, or publications you need.

could work

In general, we mail forms and schedules to you based on what you filed last year. Before you fill in your return, look it over to see if you need more forms or schedules.

If you think you will need any other forms, get them before you start to fill in your return. Most IRS offices and many local banks, post offices, and libraries may have some of them. Or, you can use the order blank on the next to the last page of this instruction booklet. We will send you the forms, schedules, instructions, and publications you ask for.

Step 3— Fill in your return.
The line-by-line instructions begin below.

#### Step 4— Check your return to make sure it is correct. See Avold Common Mistakes on page 22. Step 5—Sign and date your

# return. Form 1040 is not considered a valid return

unless you sign it. Your spouse must also sign if it is a joint return.

# Step 6— Attach all required forms and schedules.

Attach the first copy or Copy B of Forms W-2, W-2G, and W-2P to the front of Form 1040.

Attach all other schedules and forms behind Form 1040 in order of the "Attachment Sequence No." shown in the upper right corner of the schedule or form For example, the "Attachment Sequence No." for Schedule A (Form 1040) is 07. Attach forms without an attachment sequence number at the end of your return.

If you need more space on forms or schedules, attach separate sheets. Use the same format as the printed forms, but show your totals on the printed forms, Please use sheets that are the same size as the forms and schedules. Be sure to put your name and social security number on the sheets and attach them at the end of your return.

If you owe tax, be sure to attach your payment to the front of Form 1040.

# Line-by-Line Instructions

#### Name, Address, and Social Security Number

We can process your return faster if you use the mailing label on the front of the instruction booklet. But don't attach it until you have finished your return. Cross out any errors and print the correct information on the label. Add any missing items (such as your apartment number). Caution: If the label is for a joint return and the social security numbers are not listed in the same order as the first names, show the numbers in the correct order.

If you do not have a labet, print or type the information in the spaces provided. But if you are married filing a separate return, do not enter your husband's or wife's name here. Instead, show his or her name in the space provided on line 3.

Name Change. If you changed your name because of marriage, divorce, etc., be sure to report this to the Social Security Administration (SSA) so that it has the same name in its records that you have on your tax return. This prevents delays in processing your return and safeguards your future social security benefits.

Social Security Number. Enter your social security number in the area marked "Your social security number." If you are married, write your husband's or write's social security number in the area marked "Spouse's social security number." Be sure that the number you enter agrees with the number shown on your social security card. Also be sure to check that your social security number is correct on your Forms W-2 and 1099. See page 22 for more information.

If you don't have a social security number, get Form \$\$-5 from your local SSA office. If you do not receive a number by the time your return is due, write "Applied for" in the space for the number.

Nonresident Alten Spouse. If your spouse is a nonresident alien and you file a joint return, your spouse must get a social security number. If you file a separate return and your spouse has no social security number and no income, write "NRA" in the space for your spouse's number.

P.O. Box. If your post office does not deliver mail to your home and you have a P.O. box, show your P.O. box number instead of your home address.

Foreign Address. If your address is outside of the United States or its possessions or territories, enter the information on the line for "City, town, or post office, state, and ZIP code" in the following order: city, province or state, foreign postal code, and the name of the foreign country. Do not abbreviate the country name.

#### Presidential Election Campaign Fund

Congress set up this fund to help pay for Presidential election costs. If you want \$1 of your tax to go to this fund, check the "Yes" box. If you are filing a joint return, your souse may also have \$1 go to the fund. If you check "Yes," your tax or refund will not change.

#### Filing Status Lines 1 through 5

In general, your filing status depends on whether you are considered single or married. Each filing status has a different tax rate. The filing statuses are listed below, with the highest tax rate listed first and the lowest rate last:

- · Married filing a separate return
- Single
- Head of household
- Married filing a joint return and Qualifying widow(er) with dependent child

If more than one filing status applies to you, choose the one that will give you the lowest tax

#### Single

You may check the box on line 1 if any one of the following was true on December 31, 1989:

- You were never married, or
- You were legally separated, according to your state law, under a decree of divorce or of separate maintenance, or
- You were widowed before January 1, 1989, and did not remarry in 1989.

# Married Filing Joint Return You may check the box on line 2 if any one

You may check the box on line 2 if any on of the following is true:

- You were married as of December 31, 1989, even if you did not live together atthe end of 1989, or
- Your spouse died in 1989 and you did not remarry in 1989, or
- Your spouse died in 1990 before filing a 1989 return. For details on how to file the joint return, see Death of Taxpayer on page 23.

A husband and wife may file a joint return reen if only one had income or if they did not live together all year. However, both persons must sign the return and both are responsible. This means that if one spouse does not pay the tax due, the other may have to.

If you file a joint return for 1989, you may not, after the due date for filing that return, amend that return to file as married filing a separate return.

Special Rule for Allens. If at the end of 1989 you were a nonresident allen or dual-status allen married to a U.S. citizen or resident allen, you may be able to file a joint return, you and your spouse must agree to be taxed on your combined worldwide income. For more details, get Pub. 519, U.S. Tax Guide for Allens.

## **Married Filing Separate Return**

If you file a separate return, you will, generally pay more tax. This is because the tax rate is higher for married persons filing separately. But you may want to figure your tax both ways to see which filing status is to your benefit. If you file a separate return, the following apply:

- You cannot take the standard deduction if your spouse itemizes deductions.
- You cannot take the credit for child and dependent care expenses in most cases.
   You cannot take the earned income.
- credit.
   You cannot take the credit for the elderty or the disabled if you lived with your spouse at any time in 1989.
- You may have to include in income up to one-half of any social security or equivalent railroad retirement benefits you received in
- Generally, you report only your own income, exemptions, deductions, and credits. Different rules apply to people in community property states. See gage 9.

But you may be able to file as head of household if you had a child living with you, and you lived apart from your spouse during the last 6 months of 1989. See Married Persons Who Live Apart on this page.

#### **Head of Household**

You may check the box on line 4 ONLY IF on December 31, 1989, you were unmarried or legally separated and meet either test 1 or 2 below. The term 'unmarried' includes certain married persons who live apart, as discussed on this name

- You paid more than half the cost of keeping up a home for the entire year, that was the main home of your parent whom you can claim as a dependent. Your parent did not have to live with you in your home; OR
- 2. You paid more than half the cost of keeping up a home in which you lived and in which one of the following also lived for more than 6 months of the year (temporary absences, such as for vacation or school, are counted as time lived in the home).
- a. Your unmarried child, grandchild, great-grandchild, etc., adopted child, or stepchild. This child does not have to be your dependent. But your foster child must be your dependent.

b. Your married child, grandchild, great-grandchild, etc., adopted child, or stepchild. This child must be your dependent. But if your married child's other parent claims him or her as a dependent under the rules on page 8 for Children of Divorced or Separated Parents, this child does not have to be your dependent.

- c. Any other relative whom you can claim as a dependent. For the definition of a relative, see page 8.
- To find out if someone is your dependent, see the instructions for line 6c. To find out what is included in the cost of keeping up a home get **Pub. 501**, Exemptions, Standard Deduction, and Filing Information.

If the person for whom you kept up a home was born, or died, during the year, you may still file as head of household as long as the home was that person's main home for the part of the year he or she was alive.

You do not qualify as head of household if your child, parent, or relative described above is your dependent under the rules for Person Supported by Two or More Taxpayers (see page 8).

Aid to Families With Dependent Children (AFDC). If you used payments you received under the AFDC program to pay part of the cost of keeping up your home, you cannot count them as money you paid for keeping up your home. Instead, count them as support from someone else.

Married Persons Who Live Apart. Even if you were not divorced or legally separated in 1989, you may be considered unmarried and file as head of household. You may also be able to claim the credit for child and dependent care expenses and the earned income credit. You can take the standard deduction even if your spouse itemizes deductions.

- You may check the box on line 4 if ALL 5 of the following apply:
- You file a separate return from your spouse, and
- 2. You lived apart from your spouse during the last 6 months of 1989, and
- 3. You paid more than half the cost of keeping up your home for 1989, and
- 4. Your home was the main home of your child, stepchild, adopted child, or foster child for more than 6 months of 1989, and
- 5. You claim this child as your dependent. However, you do not have to claim this child as your dependent if the child's other parent claims him or her as a dependent under the rules on page 8 for Children of Divorced or Separated Parents.

# Qualifying Widow(er) With Dependent Child

bependent Ciniu
If your spouse died in 1987 or 1988 and
you did not remarry in 1989, you may be
able to use joint return tax rates for 1989.
You may check the box on line 5 if you meet
ALL 3 of the following tests:

- You could have filed a joint return with your spouse the year he or she died, even if you didn't actually do so.
- Your dependent child, stepchild, adopted child, or foster child lived with you (except for temporary absences, such as for vacation or school).
- 3. You paid over half the cost of keeping up the home for this child for the whole year.

Otherwise, you must file as single.

## Line 6b

#### For Your Spouse

If you file a joint return and your spouse cannot be claimed as a dependent on another person's return, check the box on line 6b. If you file a separate return, you can take an exemption for your spouse only if your spouse is not filing a return, had no income, and cannot be claimed as a dependent on another person's return.

If at the end of 1989 you were divorced or legally separated, you cannot take an exemption for your former spouse. If your divorce was not final (an interlocutory decree), you are considered married for the whole year.

Death of Your Spouse. If your spouse died in 1989 and you did not remarry before the end of 1989, check the box on line 6b if you could have taken an exemption for your spouse on the date of death. For other filing instructions, see Death of Taxpayer on page 23.

Nonresident Alien Spouse. If you do not file a joint return, you can take a exemption for your spouse only if your spouse had no income from U.S. sources and is not the dependent of another taxpayer. Check the box on line 5b if you can take an exemption for your spouse and enter "NRA" to the right of the word Spouse on line 6b.

## Line 6c

#### Dependents

You can claim an exemption for each of your dependents who was alive during some part of 1989. This includes a baby born in 1989 or a person who died in 1989. Any person who meets ALL 5 of the following tests qualifies as your dependent.

#### Test 1—Relationship

The person must be your relative (see Exception at end of Test 1). The following are considered your relatives:

- Your child, stepchild, adopted child; a child who lived in your home as a family member, if placed with you by an authorized placement agency for legal adoption; or a foster child (any child who lived in your home as a family member for the whole year).
- Your grandchild, great-grandchild, etc.
- Your son-in-law, daughter-in-law.
- Your parent, stepparent, parent-in-law
- Your grandparent, great-grandparent, etc.
   Your brother, sister, half brother, half sister, stepbrother, stepsister, brother-in-
- If related by blood, your aunt, uncle, nephew, niece.

law. sister-in-law.

Any relationships established by marriage are not treated as ended by divorce or death. Exception. A person who lived in your home as a family member for the entire year can also be considered a dependent. But the relationship must not violate local law.

#### Test 2-Married Person

If the person is married, he or she cannot file a joint return. However, if neither the person nor the person's spouse is required to file, but they file a joint return to get a refund of all tax withheld, you may.claim him or her if the other 4 tests are met.

#### Test 3-Citizen or Resident

The person must have been a U.S. citizen or resident alien, a resident of Canada or Mexico, or your adopted child who is not a U.S. citizen, but who lived with you all year in a foreign country.

#### Test 4-Income

Generally, the person's gross income must be less than \$2,000. Gross income does not include nontaxable income, such as welfare benefits or nontaxable social security benefits.

Income earned by a permanently and totally disabled person for services performed at a sheltered workshop school is generally not included for purposes of the income test. Get Pub. 501, Exemptions, Standard Deduction, and Filing Information, for details.

Exception for Your Child. Your child can have gross income of \$2,000 or more if:
a. your child was under age 19 at the end of 1989, or

- b. your child was under age 24 at the end of 1989 and qualifies as a student. Your child is a student if he or she:
- was enrolled as a student at a school during any 5 months of 1989 for the number of hours or classes that the school considers to be full-time, or
- took a full-time, on-farm training course during any 5 months of 1989. (The course had to be given by a school or a state, county, or local government agency.)
   School includes technical, trade, and mechanical schools. It does not include onthe-job training courses or correspondence schools.

#### Test 5-Support

The general rule is that you had to provide over half the person's support in 1989. If you file a joint return, support can come from either spouse. If you remarried, the support provided by your new spouse is treated as support coming from you. For exceptions to the support test, see Children of Divorced or Separated Parents and Person Supported by Two or More Taxoavers, on this page.

Support includes food, a place to five, clothing, medical and dental care, and education. Support also includes items such as a car and furniture, but only if they are for the person's own use or benefit. In figuring support, use the actual cost of these items. However, figure the cost of a place to five at its fair rental value. Include money the person used for his or her own support, even if this money was not taxable. (Examples are gifts, savings, and social security and welfare benefits).

Support does not include items such as income and social security taxes, life

insurance premiums, scholarships, or funeral expenses.

If you care for a foster child, see Pub. 501 for special rules that apply. Children of Divorced or Separated Parents. Special rules apply to determine if the support test is met for children of divorced or separated parents. The rules also apply to children of parents who did not live together at any time during the last 5 months of the year, even if they do not have

the support test is met for children or divorced or separated parents. The rules also apply to children of parents who did not inve together at any time during the last 6 months of the year, even if they do not have a separation agreement. For these rules, a custodal parent is the parent who had custody of the child for most of the year. A noncustodial parent is the parent who had custody for the shorter period or who did not have custody at all.

The general rule is that the custodial parent is treated as having provided over half of the child's support if both parents together paid more than hall of the child's support. This means that the custodial parent can claim the child as a dependent if the other dependency tests are also met.

But, if you are the noncustodial parent, you are treated as having provided over half of the child's support and can claim the child as a dependent if either 1 or 2 below applies:

- The custodial parent agrees not to claim the child's exemption for 1989 by signing Form 8332 or a similar statement. But you (as the noncustodial parent) must attach this signed Form 8332 or similar statement to your return. Instead of attaching Form 8332, you can attach a copy of certain pages of your divorce decree or separation agreement, if it went into effect after 1984 (see Children Who Didn't Live With You Due to Divorce or Separation on page 9), OR
- 2. Your divorce decree or written separation agreement went into effect before 1985 and it states that you (the noncustodial parent) can claim the child as a dependent. But you must have given at least \$600 for the child's support in 1989. Also, you must check the pre-1985 agreement box on line 6d. This rule does not apply if your decree or agreement was changed after 1984 to say that you cannot claim the child as your

Person Supported by Two or More Taxapyers. Sometimes two or more taxpayers together pay more than half of another person's support, but no one alone pays over half of the support. One of the taxpayers may claim the person as a dependent only if Tests 1, through 4 above are met. In addition, the taxpayer who claims the person as a dependent must:

a. have paid more than 10% of that person's support, and

b. attach to his or her tax return a signed Form 2120, Multiple Support Declaration, from every other person who paid more than 10% of the support. This form states that the person who signs it will not claim an exemption in 1989 for the person he or she

- · you do not file a joint return, and
- · none of the community income you earn is transferred to your spouse.

For details, get Pub. 555, Community Property and the Federal Income Tax.

## **Rounding Off to Whole Dollars**

You may round off cents to the nearest whole dollar on your return and schedules. To do so, drop amounts under 50 cents and increase amounts from 50 to 99 cents to the next dollar. For example, \$1.39 becomes \$1 and \$2.50 becomes \$3.

If you do round off, do so for all amounts. However, if you have to add two or more amounts to figure the amount to enter on a line, include cents when adding and only round off the total. Example. You received two W-2 forms, one showing wages of \$5,000.55 and one showing wages of \$18,500.73. On Form 1040, line 7, you rould enter \$23 501 (\$5 000 55 + \$18,500.73 = \$23,501.28).

# Were You Covered by an Employer Retirement Plan?

If you were covered by a retirement plan (qualified pension, profit-sharing, annuity, keogh, SEP, etc.) at work or through self-employment in 1989, your IRA deduction may be reduced or eliminated. But you can still make contributions to an IRA even if you can't deduct them. In any case, the income earned on your IRA contributions is not taxed until it is paid to you.

The "Pension plan" box in Box 5 of your Form W-2 should be checked if you were covered by a plan. This box should be checked even if you were not vested in the plan. You are also covered by a plan if you are self-employed and have a Keogh retirement olan.

Use Form 8606 to report all contributions you treat as nondeductible. Also use it to figure the basis (nontaxable part) of your IRA. If you and your spouse each make nondeductible contributions, each of you must complete a separate Form 8606.

Note: If you file Form 2555, Foreign Earned Income, get Pub. 590 to figure your IRA deduction.

Paid Preparers Must Sign Your Return. Generally, anyone you pay to prepare your return must sign it. A preparer who signs your return must sign it by hand in the space provided (signature stamps or labels cannot be used), and give you a copy of the return for your records. Someone who prepares your return for you but does not charge you should not sign your return.

Usually this is 3 years from the date the return was due or filed, or 2 years from the date the tax was paid, whichever is later. Also keep copies of your filed tax returns as part of your records. You can get Pub. 1167 by writing to the Forms Distribution Center for your state. See the next to the last page of this instruction booklet for the address.

#### Amended Return

#### **Death of Taxpayer**

If a taxpayer died before filing a return for 1989, the taxpayer's spouse or personal representative may have to file and sign a return for the person who died. A personal representative can be an executor, administrator, or anyone who is in charge of the deceased person's property.

If the taxpayer did not have to file a return but had tax withheld, a return must be filed to get a refund.

The person who files the return should write "deceased" after the deceased's name and show the date of death in the name and address space at the top of the return. Also write "DECEASED" across the top of the x return.

If your spouse died in 1989 and you did not remary in 1989, you can file a joint return. You can also file a joint return if your spouse died in 1990 before filing a 1989 return. A joint return should show your spouse's 1989 income before death and your income for all of 1989. Also write

your income for all of 1989. Also write
"Filing as surviving spouse" in the area
where you sign the return. If someone else
is the personal representative, he or she
must also sign.

Claiming a Refund for a Deceased Person. If you are a surviving spouse filing a joint return with the deceased, file only the tax return to claim the refund. If you are a court-appointed representative, file the return AND attach a copy of the certificate that shows your appointment. All other filers requesting a refund of the deceased should file the return and attach Form 1310.

For more details, see Tele-Tax Information in the index (topic no. 158) or get Pub. 559, Tax Information for Survivors. Executors. and Administrators.

# Instructions for Schedule A Itemized Deductions

# Changes You Should Note Beginning in 1989, if you use your home telephone for business purposes, you may

الرائد والمتطوف والمراجد المواج ومصور فيسور

not deduct any of the basic local service charge (including taxes) for the first telephone line into your home.

• For taxable bonds acquired after December 31, 1987, you may not deduct any amortizable bond premium as interest on Schedule A. Instead, reduce the interest income on the bond by the amount of the premium. For details, see the instructions for Schedule B.

For taxable bonds acquired after October 22, 1986, and before January 1, 1988, you may choose to either deduct any amortizable bond premium as interest on-Schedule A, line 11, or reduce your interest income on the bond as explained above.

#### **Purpose**

Some taxpayers should itemize their deductions because they will save money. See Standard Deduction OR Itemized Deductions on page 16.

If you itemize, you can deduct part of your medical and dental expenses and unreimbursed employee business expenses and amounts you paid for certain taxes, interest, contributions, and certain miscellaneous expenses. You may also deduct certain moving expenses and casualty and theft basses.

#### Lines 1a through 4

#### Medical and Dental Expenses

Before you can figure your total deduction for medical and dental expenses, you must complete Form 1040 through line 32.

You may deduct only that part of your medical and dental expenses that is more than 7.5% of the amount on Form 1040, line 32

Line 1a. Enter the amount you paid for doctors, dentists, nurses, and hospitals, prescription medicine and drugs, or for insulin, after you reduce these expenses by any payments received from insurance or other sources. Also include the total amount you paid for insurance premiums for medical and dental care.

Caution: If you were self-employed, do not include the amount of any health insurance you deducted on Form 1040, line 26.

Line 1b. Enter the amounts spent for transportation and lodging, and other expenses such as hearing aids, dentures, eyeglasses, and contact lenses, after you reduce these expenses by any payments received from insurance or other sources. List the medical expense and the amount of the expense. Enter one total in the total amount column on line 1b.

Note: If your insurance company paid your doctor or dentist directly for part of your medical expenses, and you paid only the amount that remained, include in your medical expenses ONLY the amount that you paid.

If you received a reimbursement in 1989 of prior year medical or dental expenses, do not reduce your 1989 expenses by this amount. You must include the reimbursement in income on Form 1040, line 22, if you deducted the medical expenses in the earlier year and the deduction reduced your tax. Pub. 502 tells you how to figure the amount to include in income.

When you figure your deduction, you may include medical and dental bills you paid for:

- Yourself.
- Your spouse.
- All dependents you claim on your return.
- Your child whom you do not claim as a dependent because of the rules explained on page 8 for Children of Divorced or Separated Parents.
- Any person that you could have claimed as a dependent on your return if that person had not received \$2,000 or more of gross income or had not filed a joint return.

Example. You provided more than half of your mother's support but may not claim her as a dependent because she received \$2,000 of wages during 1989. If part of your support was the payment of her medical bills, you may include that part in your medical expenses.

#### Examples of Medical and Dental Payments You MAY Deduct

- To the extent you were not reimbursed, you may deduct what you paid for:

  Prescription medicines and drugs, or
- Medical doctors, dentists, eye doctors, chiropractors, osteopaths, podiatrists, psychiatrists, psychologists, physical therapists, acupuncturists, and psychoanalysts (medical care only).
- Medical examinations, X-ray and laboratory services, insulin treatment, and whichool baths your doctor ordered.
- whirlpool baths your doctor ordered.

  Nursing help. If you pay someone to do both nursing and housework, you may
- deduct only the cost of the nursing help.

  Hospital care (including meals and
- lodging), clinic costs, and lab fees.

   Medical treatment at a center for drug addicts or alcoholics.
- Medical aids such as hearing aid batteries, braces, crutches, wheelchairs, guide dogs and the cost of maintaining them.
- Lodging expenses (but not meals) paid while away from home to receive medical care in a hospital or a medical care facility that is related to a hospital. Do not include more than \$50 a night for each eligible person.
- Ambulance service and other travel costs to get medical care. If you used your own car, you may claim what you spent for gas and oil to go to and from the place you received the care; or you may claim 9 cents a mile. Add parking and tolls to the amount you claim under either method.

# Examples of Medical and Dental Payments You MAY NOT Deduct

- The basic cost of Medicare insurance (Medicare A).
- Note: If you were 65 or older but not entitled to social security benefits, you may deduct premiums you voluntarily paid for Medicare A coverage.
- Life insurance or income protection policies.
- The 1.45% Medicare (hospital insurance benefits) tax withheld from your pay as part of the social security tax or the Medicare tax paid as part of social security self-employment tax.

Page 23

- Nursing care for a healthy baby. (You may qualify for the child and dependent care credit; get Form 2441.)
- . Illegal operations or drugs.
- . Nonprescription medicines or drugs.
- Travel your doctor told you to take for rest or change.
- · Funeral, burial, or cremation costs.

Pub. 502 has a discussion of expenses that may and may not be deducted. It also explains when you may deduct capital expenditures and special care for handicapped persons.

#### Lines 5 through 8

#### Taxes You Paid

#### Taxes You MAY Deduct

Line 5—State and Local Income Taxes. Include on this line state and local income taxes that were withheld from your salary and any estimated payments made in 1889, including payments for a prior year. Also include any part of a prior year refund of state or local income taxes that you chose to have credited to your 1989 estimated state or local income taxes. Do not reduce your deduction by either of the following:

- Any state and local income tax refund (or credit) you expect to receive for 1989, or
- Any refund of (or credit for) prior-year state and local income taxes you actually received in 1989 (see the instructions for Form 1040, line 10).

Line 6—Real Estate Taxes. Include taxes that you paid on property you own that was not used for business. Pub. 530 explains the deductions homeowners may take.

If your mortgage payments include your real estate taxes, do not take a deduction for those taxes until the year the mortgage company actually pays them to the taxing authority.

Line 7—Other Taxes. If you had any deductible tax not listed on Schedule A, lines 5 or 6 (such as personal property or foreign income tax), list the tax and the amount of tax. Enter one total in the total amount column online 7.

Personal property tax must be based on value alone. For example, if part of the fee you paid for the registration of your car was based on the car's value and part was based on its weight, you may deduct only the part based on value.

If you paid tax to a foreign country or U.S. possession, you may want to take it as a credit instead of a deduction. Please get Pub. 514.

#### Taxes You MAY NOT Deduct

- Federal income and excise taxes.
   Social security and railroad retirement (RRTA) taxes.
- · Customs duties.

Page 24

- Federal estate and gift taxes. (However, see Expenses NOT Subject to the 2% Limit on page 26.)
- Certain state and local taxes, including: general sales tax, tax on gasoline, car inspection fees, assessments for sidewalks or other improvements to your property, tax you paid for someone else, and license fees (marriage, driver's, dog, etc.).

## Lines 9a through 13

#### Interest You Paid

Include interest you paid on nonbusiness items only. Whether your interest expense is treated as investment interest, personal interest, or business interest depends on how and when you used the loan proceeds. Get Pub. 545, Interest Expense, for details.

In general, if you paid interest in 1989 that includes amounts that apply to any period after 1989, you may deduct only the amount that applies for 1989.

Note: If you have a loan agreement that in any way refers to the "Rule of 78's," see Pub. 545.

#### Interest You MAY Deduct

Lines 9a and 9b—Home Mortgage Interest. In most cases, you will be able to deduct all of your home mortgage interest. The following rules apply to any loans secured by your main home, including first and second mortgages, home equity loans, and refinanced mortgages. Whether your home mortgage interest is deductible depends on the date you took out the mortgage, the amount of the mortgage, and your use of its proceeds.

If ALL of your mortgages fit into one or more of categories a, b, and c below, you can deduct all of the interest on those mortgages and report it on Schedule A, line 9a or 9b, whichever applies. If one or more of your mortgages does not fit into any of the categories below, get Pub. 936, Limits on Home Mortgage Interest Deduction, to figure the amount of interest you can deduct.

a. Mortgages you took out on your main home ON or BEFORE October 13, 1987. These mortgages also include line-of-credit mortgages you had on October 13, 1987, and mortgages you had no October 13, 1987, that you refinanced after that date. But see Special Rules below if you refinanced or borrowed additional amounts on a line-of-credit mortgage after October 13, 1987.

b. Mortgages you took out on your main nome AFTER October 13, 1987, to buy, build, or improve your home, but only if these mortgages plus any mortgages in a above totaled \$1 million or less throughout 1989. The limit is \$500,000 or less if married filing separately.

c. Mortgages you took out AFTER October 13, 1987, on your main home, OTHER THAN to buy, build, or improve your home, but only if these mortgages totaled \$100,000 or less if married filing separately. An example is a home equity loan you used to pay off credit card bills, to buy a car, or to pay futtion costs.

#### Special Rules

Refinanced Mortgages.—If you had a montgage on your home on October 13, 1987, and refinanced it after that date for no more than the balance of the old mortgage, all of the new mortgage is treated as a mortgage described in a above. But, if you refinanced it for more than the balance of the old mortgage, only the part of the new mortgage equal to the amount you owed on the old mortgage at the time you refinanced it is treated as a mortgage described in a. The part of the new

mortgage that is more than the balance of the old mortgage is a mortgage described in b or c (or b and c. if a mlxed-use mortgage—see below).

Line-of-Credit Mortgages.—If you had a line-of-credit mortgage on your home on October 13, 1987, and you borrowed additional amounts on this line of credit after that date, the additional amounts borrowed are treated as a mortgage taken out after October 13, 1987, and are subject to the rules under bor c (or b and c if a mixed-use mortgage—see below).

Mixed-Use Mortgages.—If you took out a new mortgage after October 13, 1987 (including relinancing for more than what you owed or borrowing additional amounts on a line-ol-credit mortgage you had on October 13, 1987), for purposes described in both b and c above, you have a mixed-use mortgage. The mortgage proceeds used to buy, build, or improve the home fit into category b and the rest of the proceeds fit into category c.

Note: Additional limits apply if the total amount of all mortgages exceeds the fair market value of the home. See Pub. 936.

What Is a Home.—A home may be a house, condominium, cooperative, mobile home, boat, or similar property. It must provide basic living accommodations including sleeping space, a toilet, and cooking facilities.

More Than One Home. —If you had a main home and a second home, the dollar limits explained in b and c above apply to the total mortgages on both homes. See Pub. 936 for more information.

Line 9a. Enter on line 9a deductible mortgage interest you paid directly, or indirectly, to financial institutions for which you received a Form 1098, Mortgage Interest Statement. (If you did not receive a Form 1098, enter the interest on line 9b.)

If you paid \$600 or more of mortgage interest, the recipient will generally send you a Form 1098, or similar statement, by January 31, 1990, showing the total interest received during 1989. Any points you paid will not be shown

If you paid more interest to financial institutions than is shown on Form 1098, get Pub. 545 to see if you can deduct the additional interest. If you can, attach a statement explaining the difference and write "See attached" next to line 9a.

Note: If you qualify for the Mortgage

Interest Credit (see instructions for Form 1040, line 46), subtract the amount shown on line 3 of Form 8396 from the total deductible interest you paid on your home mortgage and enter the result on line 9a.

Line 9b. If the recipient was not a financial institution or you did not receive a Form 1098 from the recipient, report your deductible mortgage interest on line 9b.

If you and at least one other person (other than your spouse if you life a joint return) were liable for and paid interest on the mortgage, and the other person received the Form 1098, attach a statement to your return showing the name and address of that person. Next to line 9b, write "See attached."

Line 10—Points. Generally, points (including loan origination fees) charged

only for the use of money are deductible over the life of your mortgage. Exception. Points may be deducted in the year paid if the loan was used to buy or improve your main home, the loan was secured by that home, the points were paid with funds other than those obtained from the lender, it is customary to charge points in the area where the loan was made, and the points paid did not exceed the points usually charged in that area. This generally does not apply to points paid to refinance your mortgage. For more details, get Pub. 545.

Line 11—Investment Interest. Investment interest is interest paid on money you borrowed that is allocable to property held for investment. It does not include any interest allocable to a passive activity.

Complete and attach Form 4952, Investment Interest Expense Deduction, to figure your deduction.

Exception. You do not have to file Form 4952 if ALL of the following apply:

- Your only investment income was from interest or dividends,
- You have no other deductible expenses connected with the production of the interest or dividends.
- Your investment interest expense is not more than your investment income,
- You have no carryovers of investment interest expense from 1988, and
- You have no passive activity losses.
   For more details, get Pub. 550,

Investment Income and Expenses.
Lines 12a and 12b—Personal Interest.
For 1989, you can deduct only 20% of personal interest (such as interest paid on car loans and credit cards). Include on line 12a interest you paid on:

- Bank and other general purpose credit cards. Include the finance charge paid as interest if no part of it was for service charges, membership fees, loan fees, credit investigation fees, etc.
- Revolving charge accounts, Include finance charges if they were based on your monthly unpaid balances.
- Your personal note for money you borrowed from a bank, a credit union, or another person.

- Taxes you paid late. Show only the interest; do not include any amount that is considered a penalty. If the tax is deductible, show it under Taxes You Paid (lines 5 through 8 of this schedule).

Note: Special rules apply to interest expense imputed on below-market loans. Get Pub. 545.

#### Interest You MAY NOT Deduct

Do not include interest paid on your debts by others, such as mortgage interest subsidy payments made by a government agency. Also do not include the interest you paid for:

 Certain loans against your interest in a 401(k) plan or a tax-sheltered annuity plan that were made, renewed, renegotiated, modified, or extended after 1986. (Get Pub. 575, Pension and Annuity Income (Including Simplified General Rule), for details.)

- Tax-exempt income. This includes interest on money you borrowed to buy or carry wholly tax-exempt securities. This also includes interest paid to purchase or carry obligations or shares, or to make deposits or other investments, to the extent any interest income received from the investment is tax exempt.
- A loan on life insurance if the interest is added to the loan and you report on the cash basis.
- A debt to buy a single-premium life insurance or endowment contract.
- Any kind of business transaction. (Use Schedule C, E, or F of Form 1040 to deduct business interest expenses.)

Get Pub. 545 for more details.

#### Contributions You MAY Deduct

Contributions may be in cash (keep canceled checks, receipts, or other reliable written records showing the name of the organization and the date and amount given), property, or out-of-pocket expenses you paid to do volunteer work for the kinds of organizations described above. If you drove to and from the volunteer work, you may take 12 cents a mile or the actual cost of gas and oil. Add parking and tolts to the amount you claim under either method. (But don't deduct any amounts that were repaid to you.)

If the amount of your deduction is more than \$500 you must complete and attach Form 8283. Noncash Charitable Contributions. If your total deduction is over \$5,000, you may also have to get appraisals of the values of the donated property. - b. the total amount of ALL losses during the year is more than 10% of your adjusted gross income on Form 1040, line 32.

Special rules apply if you had both gains and losses from nonbusiness casualties or thefts. Get Form 4684 for details.

Employees and self-employed persons (including partners) can deduct certain moving expenses

You can take this deduction if you moved in connection with your job or business and your new workplace is at least 35 miles farther from your old home than your old home was from your old workplace. If you had no former workplace, your new workplace must be at least 35 miles from your old home. If you meet these requirements, see Tele-Tax Information in the index (topic no. 304) or Pub. 521. Moving Expenses. Complete and attach Form 3903 to figure the amount of moving expenses to enter on line 19. If you began work at a new workplace outside the United States or its possessions, get Form 3903F, Foreign Moving Expenses.

To see what interest income you must report, read the instructions for Form 1040, line 8a, on page 10.

The payer should send you a Form 1099-INT or Form 1099-QID, if applicable, showing interest you must report. A copy of the form is also sent to IRS. If the total taxable interest from all payers is over \$400, fill in Parts I and III.

### Line 1

But identify the amount to be subtracted as "Accrued Interest."

Tax-Exempt Interest. If you received a Form 1099-IMT for tax-exempt interest, such as from municipal bonds, report the interest on line 2. Several lines above line 3, put a subtotal of all interest listed on lines 1 and 2. Below this subtotal, write "Tax-Exempt Interest" and show the amount. Subtract this amount from the subtotal and enter the result on line 3. Be sure to also include this tax-exempt interest on Form 1040, line 8b.

## Line 4

Several lines above line 5, put a subtotal of all dividends listed on line 4. Below this subtotal, write "Nominee Distribution" and show the amounts you received as a nominee. Subtract these amounts from the subtotal and enter the result on line 5.

# Instructions for **Schedule D**

### **Capital Gains and Losses**

Caution: At the time these instructions were printed, Congress was considering legislation that could change some of the rules that apply to Schedule D and these instructions. When Congress completes its action, we will take the steps necessary to publicize the final rules.

#### Purpose

- Use Schedule D to:
- · Report a sale of a capital asset.
- Report gains from involuntary conversions of capital assets not held for business or profit.
- Reconcile Forms 1099-B you got for bartering transactions. (See Part VI.)
   Make the long-term capital gain election
- Make the long-term capital gain election for lump-sum distributions.

Use Form 4797, Sales of Business Property, instead of Schedule D to report the following:

- The sale or exchange of trade or business property, depreciable and amortizable property, oil, gas, geothermal, or other mineral property, and section 126 property.
- The involuntary conversion (other than by casualty or theft) of trade or business property and capital assets held for business or profit.
- The disposition of other noncapital assets not mentioned above.

Use Form 4684, Casualties and Thefts, to report involuntary conversions of property due to casualty or theft.

Get Pub. 544, Sales and Other Dispositions of Assets, and Pub. 550, Investment Income and Expenses, for more information.

Form 1099-A, Information Return for Acquisition or Abandonment of Secured Property. If you received a Form 1099-A from your lender, you may have gain or loss to report because of the acquisition or abandonment. Get Pub. 544 for details.

#### Capital Gain Elections on Lump-Sum Distributions From Qualified Retirement Plans

The amount of a lump-sum distribution that qualifies for capital gain treatment should be shown on Form 1099-8, Box 3. If you qualify to use Form 4972, Tax on Lump-sum Distributions, you can make the 20% capital gain election in Part II of that Form. If you do not include the capital gain portion on Form 4972, you can make a long-term capital gain election on Schedule D. To make the election on Schedule D. To make the election on Schedule D. To make the election on Schedule D. To form 4972, you can make a long-term capital gain election on Schedule D. To form 4972, you favored to the form 1989-8, Box 2, minus the amount used on Schedule D) on Form 1040, lines 17a and 17b. However, if you qualify to use Form 4972, you may report

Page 28

the balance on that form instead of Form 1040, lines 17a and 17b.

If you elect to include net unrealized appreciation (NUA) in income, a portion of the amount from Form 1099-R, Box 6, can generally receive capital gain treatment. See the Instructions for Form 4972 for details.

#### **Capital Asset**

Most property you own and use for personal purposes, pleasure, or investment is a capital asset. For example, your house, furniture, car, stocks, and bonds are capital assets.

A capital asset is any property held by a taxpayer except the following:

- a. Stock in trade or other property included in inventory or held for sale to customers. b. Accounts or notes receivable you received for services in the ordinary course of your trade or business, or from the sale of any property described in a, or for
- services you performed as an employee.

  c. Depreciable property used in your trade or business even if it was fully depreciated.

  d. Real property (real estate) used in your trade or business.
- e. A copyright, a literary, musical, or artistic composition, a letter or memorandum, or similar property: (1) created by your personal efforts; or (2) prepared or produced for you (in the case of a letter, memorandum, or similar property); or (3) that you received from a taxpayer mentioned in (1) or (2), in a way (such as by gift) that entitled you to the basis of the previous owners.

f. U.S. Government publications, including the Congressional Record, that you received from the government, other than by purchase at the normal sales price, or that you from another taxpayer who had received it in a similar way, if your basis is determined by reference to the previous owner.

#### Short-Term or Long-Term

Separate your capital gains and losses according to how long you held or owned the property. The holding period for long-term capital gains and losses is more than one year. The holding period for short-term capital gains and losses is one year or less.

To figure the holding period, begin counting on the day after you received the property and include the day you disposed of it. Use the trade dates for date acquired and date sold for stocks and bonds on an exchange or over-the-counter market.

Generally, a nonbusiness bad debt must be treated as a short-term capital loss. See Pub. 550 under the section entitled Nonbusiness Bad Debts for what qualifies as a nonbusiness bad debt and how to enter it on Schedule D.

#### Capital Losses

The capital loss that can be deducted after offsetting capital gains is limited to \$3,000 (\$1,500 if married filing a separate return).

### **Losses That Are Not Deductible**

Do not deduct a loss from the direct or indirect sale or exchange of property between any of the following:

• Members of a family.

 A corporation and an individual or a fiduciary owning more than 50% of the

corporation's stock (not counting liquidations).

- A grantor and a fiduciary of a trust.

- A fiduciary and a fiduciary or beneficiary of another trust created by the same grantor.

For example, you have a loss on the sale of a vacation home that is not your main home. Report it on line 2d or 9d, depending on how long you wored the home. Complete columns (a) through (e). Since the loss is not deductible, enter zero in columns (f) and (g).

# Specific Instructions Line1

# Reconcile Forms 1099-B for Sales of Stocks, Bonds, etc.

Enter your total sales of stocks, bonds, etc., reported for 1989 to you on Form(s) 1099-B or on any equivalent substitute statement(s). Enter real estate transactions reported to you on Form 1099-S or on an equivalent substitute statement on line 2d or 9d.

If line 1 differs from the total of lines 2c and 9c, column (d), attach a statement explaining the difference. For exampte, there would be a difference between line 1 and the total of lines 2c and 9c, column (d), if you received a Form 1099-B for an item that represents a return of capital. A return of capital reduces the basis of your stock and is not taxed until your basis in the stock is fully recovered. Include any nontaxable amount shown as a return of capital in the total on line 1. Do not report it in either Part I or II. Explain the difference between the entries in Parts I and II and the total on line 1.

1 in a statement that you attach to Schedule D. See Pub. 550 for more information

#### Column (d) Sales Price

Enter in this column either the gross sales grice or the net sales price from the sale. If you sold stocks or bonds and you received a Form 1099-B or similar statement from your broker that shows gross sales price, enter that amount in column (d). However, if the broker advised you that gross proceeds (gross sales price) less commissions and option premiums were reported to IRS, enter that net amount in column (d). If the net amount is entered in this column, do not include the commissions and option premiums in column (e).

Caution: Be sure to add all sales price entries on lines 2e and 9e, column (d), to amounts on lines 2b and 9b, column (d). Enter the totals on lines 2c and 9c.

#### Column (e)

#### Cost or Other Basis

In general, the cost or other basis is the cost of the property plus purchase commissions, improvements, and minus depreciation, amortization, and depletion. If you inherited the property or got it as a gift in a tax-free exchange, involuntary conversion, or "wash sale" of stock, you may not be able to use the actual cash cost as the basis. If you do not use cash cost, attach an explanation of your basis.

When selling stock, adjust your basis by subtracting all the nontaxable distributions you received before the sale. Also adjust your basis for any stock splits. Get Pub. 550 to see how to figure your basis of stock that split during the time you owned it.

The basis of property acquired by gift generally is the basis of the property in the hands of the donor. The basis of property acquired from a decedent is generally the fair market value at the date of death.

The cost or other basis of an original issue discount (OID) debt instrument is increased by the amount of OID that has been included in gross income for that instrument.

If a charitable contribution deduction is allowed because of a sale of property to a charitable organization, the adjusted basis for determining gain from the sale is an amount which has the same ratio to the adjusted basis as the amount realized has to the fair market value.

Increase your cost or other basis by any expense of sale, such as broker's fees, commissions, state and local transfer taxes, and option premiums before making an entry in column (e), unless you reported net sales price in column (d).

For more information, get Pub. 551, Basis of Assets.

#### Lines 2a and 9a

Enter all sales of stocks, bonds, etc., whether or not you actually received a Form 1099-B. You can use abbreviations to describe property you list as long as your abbreviations are based on the descriptions of the property as shown on Form(s) 1099-B or on an equivalent substitute statement(s). If you need more space to list

combined totals of all your Schedules D-1.

Lines 2d and 9d

Enter sales and exchanges of other capital assets, including real estate transactions reported to you on Form(s) 1099-S or on an equivalent statement, unless you reported them on Form 2119, 479, or 6252.

#### Lines 6 and 15

You may have a capital loss carryover from 1988 to 1989 if the loss on your 1988 Schedule D, line 18, was more than \$3,000 (\$1,500, if married filing a separate return), or il line 18 showed any loss and taxable income on your 1988 Form 1040, line 37, was zero.

Do not use Part IV of your 1988 Schedule D to figure your carryover to 1989 because the law was changed after that form was printed. Instead, use the worksheet below. But, if you already figured your carryover using the worksheet in Pub. 553 (Rev. January 1989), which reflected the law change, enter the amount from lines 8 and 17 of that worksheet, on your 1989. Schedule D, lines 6 and 15, respectively.

# Instructions for **Schedule E**Supplemental Incom

# Supplemental Income and Loss

#### Purpose

Use Schedule E to report income or loss from rents, royalties, partnerships, S corporations, estates, trusts, and REMICs. Note: If you attach your own schedule(s) to report income or loss from any of these sources, use the same format as on Schedule E. Enter separately on Schedule E the total income and the total loss for each part. Enclose loss figures in (parentheses). Filers of Form 1041. Enter your employer identification number in the block for "Your social security number."

#### Part I Income or Loss From Rentals and Royalties

Use Part I to report rental and royalty income and expenses. If you own a part interest in rental property, you may report your part on Schedule E. See the instructions for lines 4 and 5 to determine when rental and royalty income should be reported on Schedule C instead.

If you have more than three rental or royalty properties, complete and attach as many Schedules E as you need to list them. Complete lines 1, 2, and 3 for each property. But fill in column D only on one Schedule E. The figures in column D on that Schedule E should be the combined totals of all the schedules.

If you also need to use page 2 of Schedule E, use the same Schedule E on which you entered the combined totals in

#### Lines 1 through 3

Line 1.—Show the kind of property you remted out, for example, "brick duplex." Give the street address, city or town, and state. You do not have to give the ZIP code Line 2.—Renting Out a Owelling Unit That is Also Used for Personal Purposes.—If you rented out a dwelling unit and also used it as a home during the year, you may not be able to deduct all the expenses for the rental part. A dwelling unit (unit) means a house, apartment, condominium, mobile home, boat, or like property. Check the "Yes" or "No" box on line 2, whichever applies, to show whether you or your family used the property for personal purposes in 1989.

If the property is not a dwelling unit, check "No."

- If the property is a dwelling unit, check "Yes" if you or your family used the unit for personal use more than the greater of:
- 1. 14 days; or
- 2. 10% of the total days it was rented to others at a fair rental price.

What is personal use? A day of personal use is any day, or part of a day, that the unit was used by:

- vou for personal purposes
- any other person for personal purposes, if that person owns part of the unit (unless rented to that person under a "shared equity" financing agreement).
- anyone in your family or in the family of someone else who owns part of the unit.
   The day is not treated as personal if the unit is rented at a fair rental price to that person as his or her main home.
- anyone under an agreement that lets you
  use some other unit
- anyone who pays less than a fair rental price for the unit.

If you checked "No," you can deduct all your expenses for the rental part, subject to the at-risk and passive activity loss rules explained on page 32.

If you checked "Yes" and rented the unit out for less than 15 days, you may not deduct any rental expenses. But if you itemize deductions on Schedule A, you may deduct interest, taxes, and casualty losses. You do not have to report the rental income.

If you checked "Yes" and rented the unit out for at least 15 days, you may NOT be able to deduct all your rental expenses. You can deduct your mortgage interest, real estate taxes, and casualty losses for the rental part on Schedule E. You can also deduct your other rental expenses that are not related to your use of the unit as a home, such as advertising expenses and realtors' fees. If any income is left after deducting these expenses, you can then deduct other expenses. But you cannot deduct more than the income that is left. Carry amounts you cannot deduct to 1990. See Pub. 527, Residential Rental Property (Including Rental of Vacation Homes) for more details. Also, get Pub. 545, Interest Expense, to see how much interest you can

Line 3.—Rental Real Estate Properties with Active Participation.—A rental real estate activity is generally a passive activity subject to the limitation on losses from passive activities. See the instructions for line 24 and the Passive Activity Loss Rules on page 32 for more details. However, a special rule applies if you actively participated (defined on page 31) in rental real estate activities and had losses from them. In general, you may be able to deduct

up to \$25,000 in losses from all rental real estate activities in which you actively participated. However, other amounts apply if you are married filing separately.

Check the "Yes" or "No" box on line 3, whichever applies, to indicate whether you actively participated in 1989 in each rental real estate activity listed on line 1.

Active Participation. The active participation requirement can be met without regular, continuous, and substantial involvement in operations. But you must have participated in making management decisions or arranging for others to provide services (such as repairs), in a significant and bona fide sense. Management decisions that are relevant in this context include approving new tenants, deciding on rental terms, approving capital or repair expenditures, and other similar decisions.

You are not considered to actively participate if, at any time during the tax year, your interest (including your spouse's interest in the activity) was less than 10% (by value) of all interests in the activity.

For more information, see the Instructions for Form 8582, Passive Activity Loss Limitations, and Pub. 925, Passive Activity and At-Risk Rules.

#### Line 4

If you were not in the real estate sales business but received rent from property you own or control, report it on line 4. Include room and other space rentals. If you received services or property instead of money as rent, report its fair market value. If you received serm rental income, report it on Form 4835, Farm Rental Income and Expenses. See Rental Income From Farm Production or Crop Shares, below.

If you provided significant services to the renter or sold real estate as a business, do not report the income on line 4. Instead, report it on Schedule C.

For more information, see Tele-Tax Information in the index (topic no. 213) or Pub. 527.

Rental Income From Farm Production or Crop Shares. Report farm rental income and expenses on Form 4835 if (1) you received rental income based on crops or livestock produced by the tenant, and (2) you did not manage or operate the farm to any great extent.

Note: A loss from this kind of activity may be subject to the passive activity loss rules. See Pub. 925 for more information.

If you use Form 4835, enter on line 28 of Schedule E the net farm rental income or loss from Form 4835. Also include the gross farm rents from Form 4835, line 7, on Schedule E. line 43.

Note: For estimated tax payments, income received from your share of crops and rental based on farm production is considered income from farming.

#### Line 5

Report on line 5 royalties from oil, gas, or mineral properties (not including operating oil, gas, or mineral interests); copyrights; and patents. If you received \$10 or more in royalties, by January 31, 1990, you should receive a Form 1099-MISC, or similar statement, showing them. If you are in business as a self-employed writer. inventor, artist, etc., report your income and expenses on Schedule C. You may be able to treat amounts received as "royalties" for transfer of a patent or amounts received on the disposal of coal and iron ore as the sale of a capital asset. For details, see Pub. 544, Sales and Other Dispositions of Assets.

If state or local taxes were withheld from oil or gas payments you received, enter on line 5 the gross amount of royalty. Include the taxes withheld by the producer on line 16.

Caution: If you received a credit or refund of overpaid windfall profit tax in 1989, see the instructions for line 42.

#### Lines 6 through 22

Enter your rental and royalty expenses for each property in the appropriate columns. You can deduct an amount for the depreciation of rental property and all normal expenses, such as taxes, interest, repairs, insurance, maintenance, and agents' commissions.

Do not deduct the value of your own labor, capital investments, or capital improvements.

Renting Out Part of Your Home, If you rent out only part of your home or other property, deduct the part of your expenses that apply to the rented part.

Expenses To Rehabilitate Low-Income Housing. You may amortize part of the costs you paid or incurred to rehabilitate qualified low-income housing if the rehabilitation began before January 1, 1987. If it began after 1986, you may be able to take a tax credit. See Form 8586, Low-Income Housing Credit, Form 8582-CR, Passive Activity Credit Limitations, and Pub. 572, General Business Credit, 180, get Pub. 925 to learn how the passive activity loss rules apply to low-income housing.

Deduction for Removal of Barriers to the Handicapped and the Elderly. You can deduct up to \$35,000 of the costs you paid or incurred in 1989 to remove barriers to the handicapped and the elderly. See Pub. 535, Business Expenses, and Pub. 907, Tax Information for Handicapped and Disabled Individuals, for details.

#### Lines 12 and 13

In general, to determine the interest expense allocable to your rental activities, you will have to keep records to show how the proceeds of each debt were used. Specific tracing rules apply for allocating debt proceeds and repayment of the debt. See Pub. 545 for drahigh.

If you have a mortgage on your rental property, enter on line 12 the interest you paid for 1989 to banks or other financial institutions. Be sure to fill in column D. Mote: If the recipient was not a financial institution or you did not receive a Form 1098, Mortgage Interest Statement, from the recipient, report your deductible mortgage interest on line 13.

If you paid \$600 or more in interest on this mortage, by January 31, 1990, you should receive a Form 1098, or similar statement, showing the total interest you paid during 1989. If you paid more mortgage interest than is shown on your Form 1098, or similar statement, get Pub. 454 to see if you can deduct the additional

interest. If you can, enter the amount on line 12. Attach a statement to your return explaining the difference. Write "See attached" in the left margin next to line 12.

If you and at least one other person (other than your spouse if you file a joint return) were liable for, and paid interest on the mortgage, and the other person received Form 1098, report the interest on line 13. Attach a statement to your return showing the name and address of the person who received Form 1098. In the left margin next to line 13, write "See attached."

#### Line 17

Beginning in 1989, the base rate (including taxes) for local telephone service for the first telephone line to any residence is a personal expense and is not deductible.

#### Line 21

You may take a depreciation deduction each year for rental property. The deduction does not apply to land and personal-use property.

If you placed any property in service after 1980, complete and attach Form 4562, Depreciation and Amortization. Enter on line 21 the amount from Form 4562, Part I. If you are depreciating only property placed in service before 1981, you do not need Form 4562. Figure depreciation on a worksheet from your own books and records. Enter the total depreciation on line 21. You do not need to attach the worksheet to your return. For a sample worksheet, see Pub. 534, Depreciation.

For more details on depreciation, see the Instructions for Form 4562 and Pub. 534. For information on depletion, see Pub. 535.

#### Line 23

If you have a loss from the activity, you may be subject to the At-Risk Rules explained below. If you are, you must file Form 6198, At-Risk Limitations, to figure the loss to enter on line 23. If you must file Form 6198 and the deductible loss from line 21 of that form is less than the loss shown on line 23 of Schedule E, enter the amount from Form 6198 in the appropriate column(s) on line 23 of Schedule E. In the space to the left of line 23, write "Form 6198."

If you have a loss from a passive activity, that loss may be further limited. In most cases, you must file Form 8582 to figure your deductible loss. See the instructions for line 24 and the Passive Activity Loss Rules, on page 32. If line 23 is income from a passive activity and you have losses from other passive activities, you may have to complete Form 8582.

### At-Risk Rules

If (1) you have a loss from any activity that you, your partnership, or Scorporation engaged in as a trade or business or for the production of income, including the holding of real property placed in service after December 31, 1986, and (2) you have amounts for which you are not at risk in the activity, use Form 6198 to determine your allowable loss to report on Schedule E.

Amounts for which you are not at risk include the following:

Nonrecourse loans used to finance the activity, acquire property used in the

Page 31

activity, or acquire your interest in the activity, unless secured by property not used in the activity or by certain real property used in an activity of holding real property or

- 2. Amounts protected against loss by a guarantee, stop-loss agreement, or similar arrangement; or
- 3. Loans from someone who has an interest in the activity, other than as a creditor, or who is related, under section 465(b)(3)(C), to a person (other than yourself) having such an interest or
- 4. Amounts contributed to the activity, or to your interest in the activity that are covered by:
- nonrecourse loans or protected against loss by a guarantee, stop-loss agreement, or similar arrangement; or
- loans from a person described in 3 above See Pub. 925 for details.

The at-risk rules may apply to an individual, a member of a partnership or joint venture, a shareholder in an S corporation, or a lessor of certain property. The amount you have at risk generally limits the loss you can deduct for any tax year.

If, in addition to the amount you report on Schedule E, you sell or otherwise dispose of (1) an asset used in an activity to which the at-risk rules apply, or (2) any part of your interest in an activity to which the at-risk rules apply, and you have amounts in the activity for which you are not at risk, see the Instructions for Form 6192.

Any loss from an activity not allowed for the tax year because of the at-risk rules is treated as a deduction allocable to the activity in the next tax year.

#### Line 24

Enter on line 24 your deductible rental loss. If your rental loss is from a passive activity, your loss may be further limited under the Passive Activity Loss Rules explained below. If your rental of property is not treated as a rental activity under the passive activity rules, you may not be able to deduct any loss from the activity for the tax year because the special \$25,000 alliowance of losses applies only to rental real estate activities with active participation. See the Instructions for Form 8582 to determine whether the rental is treated as a "rental activity."

If your loss is from a passive activity, you generally need to complete Form 8582 to figure the amount of loss, if any, to enter on line 24. But you do not have to complete Form 8582 to figure the amount of loss you can deduct on line 24 if you meet ALL 3 of the following conditions:

- Rental real estate activities are your only passive activities; and
- 2. You do not have any prior year unallowed losses from any passive activities; and
- 3. All of the following apply if you have an overall net loss from these activities:
- You actively participated in all of the rental real estate activities (for details on active participation, see the line 3 instructions); and
- Your total losses from these activities are \$25,000 or less (\$12,500 or less if married)

filing separately and you lived apart from your spouse all year); and

- You have no current or prior year unallowed credits from passive activities;
   and
- Your modified adjusted gross income, defined below, is \$100,000 or less (\$50,000 or less if married filing separately and you lived apart from your spouse all year).

If you meet ALL 3 of the conditions listed above, your rental real estate losses are not limited by the passive activity rules. Enter the loss from line 23 on line 24. Write at the top of Schedule E, "Form 822 not required because of \$25,000 special allowance."

If you do not meet ALL 3 of the conditions listed above, you must complete and attach Form 8582.

Modified adjusted gross income is your adjusted gross income from Form 1040, line 31, without taking into account any passive activity loss, any taxable social security or equivalent railroad retirement benefits, or any deductible contributions to an IRA or certain other qualified retirement plans under section 219.

Caution: Passive activity income does not include income from renting: (1) substantially nondepreciable property. (2) property incidental to a development activity, and (3) property to a trade or business activity in which you materially participate. See Pub. 925 for details.

#### Passive Activity Loss Rules

The passive activity loss rules may limit the amount of losses you can deduct. They apply to losses in Parts I, II, and III of Schedule E.

You can generally deduct losses from passive activities only to the extent of income from passive activities. Exceptions apply to some activities, such as rental real estate (see the instructions for line 3).

Losses from passive activities may be first subject to the at-risk rules. Losses deductible under the at-risk rules are then subject to the passive activity rules.

A passive activity is any business activity in which you DO NOT materially participate and any rental activity regardless of participation. See the Instructions for Form 8582 to determine whether you materially participated in an activity. If you are a limited partner, you are generally not treated as having materially participated in the partnership's activity for the year.

The rental of real or personal property is generally a rental activity, but exceptions apply to this rule. If your rental of property is not a rental activity, you must determine whether it is a trade or business activity, and, if so, whether you materially participated in the activity for the tax year. See the Instructions for Form 5582 for the material participation tests and the definition of "rental activity." See Pub. 925 or special rules that apply to rentals of: (1) substantially nondepreciable property, (2) property incidental to development activities, and (3) property to activities in which you materially participate.

The rental of your home that you also used for personal purposes is not a passive activity. See Renting Out a Dwelling Unit

That Is Also Used for Personal Purposes on page 30.

A working interest in an oil or gas well that you hold directly or through an entity that does not limit your liability is not a passive activity even if you do not materially participate.

Royalty income not derived in the ordinary course of a trade or business reported on Schedule E is generally not considered income from a passive activity.

For more information on passive activities, see the Instructions for Form 8582 and Pub. 925.

#### Parts II and III

#### Income or Loss From Partnerships, S Corporations, Estates, or Trusts

If you are a member of more than one partnership, a shareholder in more than one S corporation, or a beneficiary of more than one estate or trust, do not report information from more than one entity on the same line.

If you need more space in Parts II and III to list your income or losses, attach a continuation sheet using the same format as shown in Parts II and III. However, be sure to complete the "Totals" columns for lines 31a and 31b, or lines 36a and 36b, as appropriate. If you also completed Part I on more than one Schedule E, use the same Schedule E on which you entered the combined totals in Part I.

Tax Shelter Registration Number. If you are claiming or you are reporting any deduction, loss, credit, or other tax benefit, or reporting income from an interest purchased or otherwise acquired in a tax shelter, you must attach Form 8271, investor Reporting of Tax Shelter Registration Number, to your return. This reports the tax shelter registration number as well as other information about the tax shelter. There is a penalty if you fail to report this number on your tax return.

Tax Preference Items. If you are a partner, a shareholder in an S corporation, or a beneficiary of an estate or trust, you must take into account your share of tax preference items and adjustments from these entities on Form 6251, Alternative Minimum Tax—Individuals or Form 8656, Alternative Minimum Tax—Individuals or Form 8656, Alternative Minimum Tax—Individuals or Form 8656.

Amount(s) From 1987 Schedule(s) K.1. If you received a 1987 Schedule K.1 (Form 1065, 1120S, or 1041) for a short year, and you did not report all of the short-year income on your 1987 return, you must report 25% of the amounts shown on the short-year 1987 K.1 on the appropriate lines of your 1989 Form 1040 and related schedules. Write "PYA" (prior-year amount) next to the entries.

### Partnerships and S Corporations

If you are a member of a partnership or joint venture or a shareholder in an S corporation, use Part II to report your share of the partnership or S corporation income (even into received) or loss. You should receive a Schedule K-1 from the partnership or the S corporation. Do not attach Schedules K-1 to your return. Keep them for your records. You should also receive a copy of the Partner's or Shareholder's Instructions for

Schedule K-1. If you did not receive these instructions with your Schedule K-1, you can get a copy at most IRS offices. Your copy of Schedule K-1 and its instructions will tell you where on your return to report your share of the items.

Special rules apply that limit losses.
Please note the following:

 If you have a current year loss or a prior year unallowed loss from a partnership or an S corporation, see the At-Risk Rules beginning on page 31 and the Passive Activity Loss Rules on page 32.

Partners and S corporation shareholders should get a separate statement of income, expenses, deductions, and credits for each activity engaged in by the partnership and S corporation. If you are subject to the at-risk rules for any activity, use form 6198 to figure the amount of any deductible loss. If the activity is nonpassive, enter the deductible loss, if any, from form 6198 in Part II, column (i), of Schefolm 6198 in Part II, column (i), of Schefolm 6198.

- If you have a passive activity loss, you generally need to complete Form 8582 to ligure the amount of the allowable loss to enter in Part III, column (g), for that activity but if you are a general partner or an S corporation shareholder reporting your share of a partnership or an S corporation loss from a rental real estate activity, and you meet ALL 3 of the conditions listed in the instructions for line 24, you do not have to complete Form 8582. Instead, enter your allowable loss in Part III, column (g), and write at the top of Schedule E, "Form 8582 not required because of \$25,000 special allowance."
- If you have passive activity income, complete Part II, column (h), for that, activity.
- If you have nonpassive income or loss, complete Part II, columns (i) through (k), as appropriate.

If you are treating items on your tax return differently from the way the partnership or S corporation reported them on its return, you may have to file Form 8082, Notice of Inconsistent Treatment or Amended Return.

Limits on Section 179 Deductions. The maximum you can deduct on your return for recovery property (section 179) is \$10,000. For example, if you received a Schedule K-1 allocating \$1,000 of section 179 expense to you, the maximum amount you can deduct from other sources that have qualifying section 179 expenses is \$9,000. This limit is reduced if the total cost of the \$200,000. Your deduction is also limited to the total taxable income from all your trades or businesses. See Form 4562 and Pub.

If you are claiming a section 179 deduction from a nonpassive activity, enter the allowable deduction in Part II, column (j).

#### Partnerships

If you have other partnership items relating to a passive activity, or income or loss from any publicly traded partnership, see the Form 8582 instructions before entering them on your return.

If you have other partnership items, such as depletion, from a nonpassive activity, show each item on a separate line in Part II. Show unreimbursed partnership expenses

from nonpassive activities on a separate line in column (i) of Part II. Unreimbursed expenses that are itemized deductions are entered on Schedule A (From 1040). Report allowable interest expense paid or incurred from debt-financed acquisition in Part II, or on Schedule A, depending on the type of expenditure to which the interest is allocated. See Pub. 545 for details.

If you claimed a credit for Federal tax on gasoline or other fuels on your 1988 Form 1040 (based on information received from the partnership), enter as income in column (h) or column (k), whichever applies, the amount of the credit claimed in 1988.

Part or all of your share of partnership income or loss from the operation of the business may be considered net earnings from self-employment that must be operation of Schedule SE (Form 1045). Enter the amount from Schedule K-1 (Form 1065), line 14a, on Schedule SE, after you reduce this amount by any allowable expenses aftributable to that income.

If you have losses or deductions from a prior year that you could not deduct because of the at-risk or basis rules, and the amounts are now deductible, do not combine the prior-year amounts with any current-year amounts to arrive at a net figure to report on Schedule E. Instead, report on separate lines on Schedule E prior-year amounts and current-year amounts and current-year amounts.

#### **S Corporations**

Your share of the net income is NOT subject to self-employment tax. Distributions of prior-year accumulated earnings and profits of S corporations are dividends and are reported on Schedule B (Form 1040). For details, see Pub. 589, Tax Information on S Corporations.

Interest expense relating to the acquisition of shares in an Scorporation may be fully deductible on Schedule E. For details, see Pub. 545.

As a shareholder in an S corporation, your share of the corporation's aggregate losses and deductions (combined income, losses, and deductions) is limited to the adjusted basis of your corporate stock and any debt the corporation owes you. Any loss or deduction not allowed this year because of the basis limitation may be carried forward and deducted in a later year subject to the basis limitation for that year. If you are claiming a deduction for your share of an aggregate loss, attach to your return a computation of the adjusted basis of your corporate stock and of any debt the corporation owes you. See Pub. 589 for more information.

After applying the basis limitation, the deductible amount of your aggregate losses and deductions may be further reduced by the at-risk rules and the passive activity loss rules explained on pages 31 and 32, respectively.

If you have losses or deductions from a prior year that you could not deduct because of the basis, at risk, or passive activity loss limitations, and the amounts are now deductible, do not combine the prior-year amounts with any current-year amounts to arrive at a net figure to report on Schedule E. Instead, report the prior-year amounts and the current-year amounts on separate lines of Schedule E.

#### Estates and Trusts

If you are a beneficiary of an estate or trust, use Part III to report your part of the income (even if not received) or loss. You should receive a Schedule K-1 (Form 1041) from the fiduciary. Do not attach that schedule to your return. Keep it for your records. Your copy of Schedule K-1 and its instructions will tell you where on your return to report the items from Schedule K-1.

Caution: Future regulations will explain how to determine whether you should show amounts reported to you on Schedule K-1 (Form 1041) as amounts from passive activities

If you have estimated taxes credited to you from a trust (Schedule K. 1, line 12a), write "ES payment claimed" and the amount on the dotted line next to line 39. Do not include this amount in the total on line 39. Instead, enter the amount on Form 1040, line 57.

A U.S. person who transferred property to a foreign trust may have to include in income the income received by the trust as a result of the transferred property if, during 1989, the trust had a U.S. beneficiary. For more information, get Form 3520-A, Annual Return of Foreign Trust With U.S. Beneficiaries.

## Part IV

## Income or Loss From REMICs

If you are a residual holder of a Real Estate Mortgage Investment Conduit (REMIC), use Part IV to report your total share of the REMIC's taxable income or loss for each quarter included in your tax year. You should receive Schedule Q (Form 1006) and instructions from the REMIC for each quarter. Do not attach the schedule(s) to your return. Keep them for your records.

REMIC income or loss reported on Schedule E is not income or loss from a passive activity.

Note: If you are a regular holder of a REMIC, do not use Schedule E to report the income you received. Instead, report it on Form 1040. line 8a.

You must use the cash method on your return unless you kept account books. If you kept such books, you can use the cash method or the accrual method. For long-term contracts entered into after February 28, 1986, special rules apply. See Internal Revenue Code section 460 for details. The method used must clearly reflect your income.

# Instructions for **Schedule SE**

Social Security
Self-Employment Tax

#### **Purpose**

If you are subject to self-employment tax, use Schedule St to figure any tax due on net earnings from self-employment. You may also have to pay this tax on wages you were paid as an employee of an electing church or qualified church-controlled organization. The Social Security Administration uses the information from Schedule St to figure your benefits under the social security program. This tax applies on matter how old you are. It applies even if you are already getting social security benefits.

Additional Information. Get Pub. 533, Self-Employment Tax, for more details. Note: Schedule SE has two sections: Section A, Short Schedule SE, and Section B, Long Schedule SE.

#### Who Must File Schedule SE

You must file Schedule SE if both a and b below apply to you:

a. You were self-employed, and your net earnings from your business were \$400 or more (or you had wages of \$100 or more as an employee of an electing church or organization controlled by a church), AND b. You did not have wages (including tips), other than Medicare qualified government wages, of \$4,000 or more that were subject to social security tax or railroad returnment.

#### Who Can File Schedule SE

#### How can the optional method help you?

- Social security coverage. The optional method may give you credit toward your social security coverage even though you have a loss or low income from selfemployment.
- 2. Earned income credit. Depending on your circumstances, using the optional method may quality you to claim the earned income credit or give you a larger credit. This could happen if your SE earnings by not using the optional method are less than \$1,600. Figure the earned income credit with and without using the optional method to see if the optional method do see if the optional method will benefit you.
- 3. Child and dependent care credit.—
  The optional method may also help you if your SE earnings are less than \$1,600 and you want to increase your net SE earnings to qualify for the child and dependent care credit.

# Who is Subject to Self-Employment Tax?

Self-Employed Persons. You are subject to SE tax if you had net earnings from being self-employed. If you are in business for yourself, or you are a farmer, for example, you are self-employed.

Your share of certain partnership income and guaranteed payments are subject to SE tax. Read the instructions for **Partnerships** on page 39.

Employees of Churches and Church Organizations. If you were an employee of a church or qualified church-controlled organization that has in effect a certificate electing exemption from employer social security taxes, you may be subject to SE tax on your wages. This applies if the wages were \$100 or more from any one church or church-controlled organization. See line B at the top of the long SE. If you also have Medicare qualified government wages, you must use the worksheet on page 39.

U.S. Citizens or Resident Allens Living
Outside the United States. If you are a
self-employed U.S. citizen or resident alien
living outside the United States, in most
cases you are subject to SE tax. You may
reduce your foreign earnings from selfemployment by the deduction for certain
foreign housing costs. But you may not
reduce your foreign earnings from selfemployment by your foreign earned income
exclusion.

Coverage for Overseas Missionaries. You may figure net earnings from selfemployment as if you were in the United States if:

- You are a U.S. citizen; and
- You were a minister (but not a Christian Science practitioner) or a member of a religious order serving outside the United States; and

In most cases you are subject to SE tax on net earnings you get as a minister, a member of a religious order who has not taken a yow of poverty, or a Christian Science practitioner But you will not be subject to the tax on those net earnings if you filed Form 4361 and IRS approved you as exempt from the tax. In this case, if you have no other income subject to SE tax, write "Exempt— Form 4361" on Form 1040, line 48. However, if you have other earnings of \$400 or more subject to SE tax, see line A at the top of the long SE. Note: If you have ever filed Form 2031 to elect social security coverage on your earnings as a minister, you cannot change that election now

If you have conscientious objections to social security insurance because of your belief in the teachings of a recognized religious sect of which you are a member, you are not subject to the tax if you got IRS approval by filing Form 4029, Application for Exemption From Social Security Taxes and Waiver of Benefits. In this case, do not file Schedule SE. Instead, write "Exemption Form 4029" on Form 1040; line 48. Note: Do not file Form 4029 for wages you get from a church or church-controlled organization that has chosen to treat its employees as self-employees.

#### **General Information**

Fiscal Year Filers. If your tax year is a fiscal year, you must use the tax rate and earnings base that apply at the time the fiscal year begins. The tax or earnings base for a fiscal year that overlaps the date of a rate or earnings base change is not prorated.

More Than One Business. If you farmed and had at least one other business or you had two or more businesses, your net earnings from self-employment are the combined net earnings from all your businesses. If you had a loss in one business, it reduces the income from another. Figure the combined SE tax on one Schedule SE.

Joint Returns. Show the name of the spouse with SE income on Schedule SE. If both spouses have SE income, each must file a separate Schedule SE. If one spouse qualifies to use the short SE, and the other has to use the long SE, both can use one Schedule SE. One spouse should complete the front and the other the back.

Include the total profits or losses from all businesses on Form 1040, as appropriate. Then enter the combined SE tax on Form 1040 line 48

Community Income. In most cases, if any of the income from a business, (including farming) is community income, all of the income from that business is SE earnings of the spouse who carried on the business. The identity of the spouse who carried on the business is determined by the facts in each case. If you and your spouse are partners in a partnership, see Partnership, on page 39.

If you and your spouse have community income and file separate returns, attach Schedule SE to the return of the spouse with the SE income. Also attach Schedule(s) C and /or Schedule(s) F.

Caution: Community income included on Schedule(s) C or F must be divided for income tax purposes on the basis of the community property laws.

#### Specific Instructions

Read the top of page 1 of Schedule SE to see if you can use Section A. Short Schedule SE, or if you must use Section B. Long Schedule SE. For either section, you need to know what to include as net earnings from self-employment. Read the instructions below to see what to include as net earnings and how to fill in lines 1 and 2 of either the short or long SE.

Name of Self-Employed Person. Enter the name and social security number of the self-employed person as it appears on that person's social security card.

#### Net Earnings From Self-Employment

What is included in net SE earnings? In most cases, net earnings include your net profit from a farm or nonfarm business. If you are a partner in a partnership, see the instructions on page 39.

Do not report on lines 1 and 2 any income or expense not included in figuring net SE earnings. If you are a partner, reduce lines 1 and 2 for any deduction for recovery property (section 179), oil or gas depletion, or unreimbursed partnership expenses. You must attach a statement to explain why you are not including certain items of income or expense.

If you deposited earnings into a capital construction fund set up under the Merchant Marine Act of 1936, get Pub. 595.

If you are a duly ordained minister who is an employee of a church and you are subject to St tax, the unreimbursed business expenses that you incurred as acturch employee are allowed only as an itemized deduction for income tax purposes. They are deducted from your St earnings in figuring St tax. However, special rules apply. Get Pub. 517.

#### **Partnerships**

If you are a general partner, include in your total net earnings your share of partnership income or loss from the trade or business. Also include any guaranteed payments your partnership paid you for your personal services. If you are a limited partner, include only guaranteed payments. Line 14a of Schedule K-1 (Form 1065) should show net earnings for either general or limited partners.

If your partnership is engaged solely in the operation of a group investment program, earnings from the operation are not SE earnings for either the general or limited partner.

If you are married and both you and your spouse are partners in a partnership, each of you is subject to SE tax on your own share of partnership income. Each of you must file a Schedule SE and report the partnership income or loss on Schedule E (Form 1040). Part II, for income tax purposes.

SE income belongs to the person who is the member of the partnership and cannot be treated as SE income by the nonmembe spouse. This applies even in community property states.

If a partner in an ongoing partnership dies, that member's share of partnership ordinary income or loss for the year must be included in the partner's net SE earnings. Share Farming

You are considered self-employed if you produced crops or livestock on someone else's land for a share of the crops or livestock produced (or the proceeds from them). This is true even if you had another person ("agent") doing the actual work or management for you. Report your net earnings for income tax purposes on Schedule F. (Form 1040) and for SE tax purposes on Schedule SE. For more details get Pub. 225, Farmer's 13 as Guide.

Section B, Long Schedule SE, Line 6b Medicare qualified government wages are wages you get as a Federal, state, or local government employee that are subject ONLY to the 1.45% Medicare tax. If you received such wages, do NOT include them as social security wages on Schedule SE, line 5a. Instead, include them on Schedule SE, line 6b. # Optional Methods Optional Method for FARM Income

Was your gross tarm income for the year \$2,400 or less? If it was, you can report two-thirds of your gross farm income instead of your actual net earnings from farming on line 3a of Part I and line 11 of Part II.

If your gross farm income was more than \$2,400, and your net farm profits were less than \$1,600 on line and Part I and line 11 of Part II.

If you can use this method, it can increase or decrease your net SE farm earnings, even if the farming business resulted in a loss. There is no limit on how many times you can use this method. If you use this method, you must apply it to all farm earnings from self-employment for the year.

Page 39

You may change the method after you file your return. For example, you can change from the regular method to the optional or from the optional to the regular.

For a farm partnership, figure your share of gross income based on the partnership agreement. With guaranteed payments, your share of the partnership is gross income is your guaranteed payment plus your share of the gross income after it is reduced by all guaranteed payments of the partnership. If you are a limited partner, include only guaranteed payments.

Optional Method for NONFARM Income Were your net nonfarm profits less than \$1,600 and also less than two-thirds of your gross nonfarm Income? If they were, you may use this method if you are regularly self-employed or regularly a partner. You meet this reduirement if you had actual net earnings from self-employment of \$400 or more in at least 2 of the 3 years just before the year for which you use this nonfarm method. The net earnings of \$400 or more could be from either farm or nonfarm earnings or both. The net earnings include your distributive share of the income or loss from any of your partnerships.

You may report on line 3b of Part I and line 13 of Part II two-thirds of your gross nonfarm income, up to \$1,600 as your net earnings, but you may not report less than your actual net earnings from nonfarm self-employment.

For a nonfarm partnership, see Optional Method for Farm Income on page 39 for details on how to figure your share of gross income.

The limit for the optional method for nonfarm self-employment is five years. The five years do not have to be one after another.

Using Both Optional Methods
Did you have both nonfarm and farm
income? If you did, you may use the
nonfarm optional method if:

 your actual net earnings from nonfarm self-employment were less than \$1,600, and
 b. your net nonfarm profits were less than

two-thirds of your gross nonfarm income.

If you can use both methods, you may report less than your total actual net earnings from farm and nonfarm income, but you cannot report less than your actual

net earnings from nonfarm SE income alone If you use both methods to figure net earnings, you cannot report more than \$1,600 of net SE earnings.

#### Line 11

Enter the smaller of:

 two-thirds (35) of the total gross income from all Schedules F, line 11, and Schedules K-1 (Form 1065), line 14b; or
 \$1.500.

## Line 13

Enter the smallest of:

- \$1,600; or
- two-thirds (75) of the total gross income from all Schedules C, line 7, plus your distributive share of gross income from all nonfarm partnerships, Schedules K-1 (Form 1065), line 14c; or
- the amount on line 12 if you also had farm income and elect the farm optional method.

#### Purpose

Use Schedule F to report farm income and expenses. File it with Forms 1040, 1041, or 1065.

Additional Information. Pub. 225, Farmer's Tax Guide, has samples of filled-in forms and schedules, and lists important dates that apply to farmers. It also contains information about payments under the Disaster Assistance Acts of 1988 and 1989.

You may also have to file an information return if you sold \$5,000 or more of consumer products to a person on a buy-sell, deposit-commission, or other similar basis for resale. For more information, get Pub. 937, Business Reporting.

In addition, if you received cash of more than \$10,000 in one or more related transactions in your farming business, you may have to file Form 8300.

#### Lines A and B

On line A, enter your principal crop or activity for the current year.

On line B, enter one of the 15 major agricultural activity codes listed in Part IV on page 2 of Schedule F. The code you select should represent the major farm activity from which you derive the largest amount of your income. Field crop pertains to the production of grains, such as wheat, rice, feed corn, soybeans, barley, rye, and lentilis; and nongrains such as cotton, tobacco, sugar, and lrish potatoes. Animal specialty includes the raising of pets or laboratory animals, such as dogs, cats, bees, and snakes.

### Line C

- the interests in the business have ever been for sale in a way that would require registration with any Federal or state agency. or
- b. more than 35% of the loss during any tax year is spread between limited partners or limited entrepreneurs. (A limited pertner is one who can lose only the amount invested in the partnership; a limited entrepreneur is a person who does not take any active part in managing the business.)

#### Line D

You need an employer ID number only if you had a Keogh plan, or were required to file an nployment, excise, fiduciary, partnership, or alcohol, tobacco, or firearms tax return.

You can elect to include Commodity Credit Corporation loan proceeds as income in the year you received them instead of reporting as income the proceeds from the sale of the commodities in the year sold or in the year of forfeiture. If you made this election and reported these loan proceeds as income in a prior year, check the "Yes" box on line E. Otherwise, check "No." For information on how to make this election, see the instructions for lines 7a-7c.

#### Line F

### **Material Participation**

See the Instructions for Schedule C (Form 1040), line I, for the definition of material participation for purposes of the passive activity rules.

If you meet any of the material participation tests described in the line I nstructions for Schedule C, check the "Yes" hox

If you are a retired or disabled farmer you are treated as materially participating in a farming business if you materially participated 5 of the 8 years preceding your retirement or disability. Also, a surviving spouse is treated as materially participating in a farming activity if the real property used in the activity meets the estate tax rules for special valuation of farm property passed from a qualifying decedent, and the surviving spouse actively manages the farm.

Check the "No" box if you did not materially participate. If you checked "No" and you have a loss from this business, see Limit on Losses, below. If you have a profit from this business activity but have losses from other passive activities or prior-year unallowed nassive activity losses, see the Instructions for Form 8582, Passive Activity Loss Limitations

Generally, you can deduct losses from passive activities only to the extent of income from passive activities.

For more details, get Pub. 925, Passive Activity and At-Risk Rules,

#### Line G

Capitalization rules apply if you produce real or tangible personal property or acquire property for resale (See Exceptions below). This means that certain expenses must be included in inventory costs or capitalized These expenses include the direct costs of the property and the share of any indirect costs allocable to that property. But in some cases, you may be able to elect to currently deduct certain preproductive period expenses rather than capitalize them. See Election To Deduct Certain Preproductive Period Expenses, on this page.

Exceptions. These rules generally do NOT

1. expenses incurred after 1988 to raise any animals,

2. expenses of producing any plant that has a preproductive period of 2 years or less, or 3. expenses of replanting certain crops if hey were lost or damaged by reason of disease, drought, or other casualty. Note: Exceptions 1 and 2 above do not

annly to tax shelters, farm syndicates, or partnerships required to use the accrual method of accounting under Interna Revenue Code section 447 or 448.

**Election To Deduct Certain Preproductive** Period Expenses. If the preproductive period of any plant you produce is more than 2 years, you may elect to currently deduct the expenses rather than capitalize them. But you may not make this election for the costs of planting or growing citrus or almond groves that are incurred before the close of the fourth tax year beginning with the tax year you plant them in their permanent grove.

Note: This election may not be made by tax shelters, farm syndicates, or partnerships required to use the accrual method of accounting under Internal Revenue Code section 447 or 448.

If you elect to currently deduct your preproductive period expenses for plants, you will have to recapture these costs as ordinary income when you dispose of this property, and the alternative depreciation rules apply to property placed in service in any tax year your election is in effect. You must make this election in the first tay year after 1986 during which you engage in a farming business involving the production of property subject to the capitalization rules. Except as explained below, you may not revoke this election without the consent of IRS.

For more information, see Pub. 225. Which Box Should I Check? If you are revoking a prior election you made for animals (see below) and you do not have anny preproductive period expenses, check the "Does Not Apply" box on line G. Also check the "Does Not Apply" box if you do not, or did not, have preproductive period expenses or if you are not eligible to make the election.

Check the "No" box if you are capitalizing your preproductive period expenses. Also check the "No" box if you chose to capitalize them in a prior year. Caution: If you are eligible to make this election but you do not check any of the boxes on line G and you deduct these expenses, you will be treated as if you checked the "Yes" box.

Revocation of Prior Election for Animals. If you previously elected to deduct preproductive period expenses for animals or if you elected the simplified (safe-harbor) method of capitalizing the costs of raising female beef or dairy cattle, you may revoke that election for your first tax year beginning after 1988 without the consent of IRS. To do so, write "Prior Election for Animals

Revoked" in the space below line G. Even if you revoke your election to deduct preproductive period expenses for animals, you must continue to apply the alternative depreciation rules to property placed in service while your election was in effect.

Also; the expenses you previously elected to deduct will have to be recaptured as ordinary income when you dispose of the animals. If you are revoking your election to use the simplified method of capitalizing the costs of raising female beef or dairy cattle, you must continue to amortize the costs capitalized in tax years beginning before

#### Farm Income—Cash Method

- your area qualified for Federal aid.

#### Information Returns

If you received information returns (Forms 1099 or CCC-182) showing amounts paid to you, first determine if the amounts are to be ncluded with farm income. Then, use the chart below to determine where to report the income on Schedule F. Include the Form 1099 or CCC-182 amounts with any other income reported on that line.

**Call IRS With Your Tax Question** 

If the instructions to the tax forms and our free tax publications have not answered your question, please call us TOLL-FREE. "Toll-Free" is a telephone call for which you pay only local charges.

CHOOSING THE RIGHT NUMBER: Use only the number listed below for your area. Use a local city number only if it is not a long distance call for you. Please do not dial "1-800" when using a local city number.

BEFORE YOU CALL: Remember that good communication is a two-way process. IRS representatives care about the quality of the service we provide to you, our customer. You can help us provide accurate, complete answers to your tax questions by having the following information available:

1. The tax form, schedule, or notice to which your question relates:

2. The facts about your particular situation (the answer to the same question often varies from one taxpayer to another because of differences in their age, income, whether they can be claimed as a dependent, etc.); 3. The name of any IRS publication or other source of information that you

used to look for the answer. BEFORE YOU HANG UP: If you do not fully understand the answer you receive, or you feel our representative may not fully understand your question, our representative needs to know this. He or she will be happy to take the additional time required to be sure we have answered your

question fully and in the manner which is most helpful to you. By law, you are responsible for paying your fair share of Federal income tax. If we should make an error in answering your question, you are still responsible for the payment of the correct tax. Should this occur, however, you will not be charged any penalty. To make sure that IRS representatives give accurate and courteous answers, a second IRS representative sometimes listens in on telephone calls. No record is kept of any taxpayer's identity.

### Line-by-Line Instructions

The alternative minimum tax is attributable to two types of adjustments and tax preference items—those called "exclusion items" and those called "deferral items." The minimum tax credit is allowed only on the AMT you paid that is attributable to deferral items

Defezzal Items are generally adjustments and tax preference items that do not cause a permanent difference in taxable income over a number of years. An example is depreciation. Exclusion items, on the other hand, cause a permanent difference in taxable income. An example of an item that will cause a permanent difference is a personal exemption.

Line 1-Form 1041 Filers.-Add any net operating loss deduction on line 15 of the 1988 Form 1041 to the taxable income on line 22 of the 1988 Form 1041 and enter the result on line 1 of this form. However, in figuring the taxable income on line 22 of the 1988 Form 1041 for this purpose, you must recompute the income distribution deduction on line 18 of the 1988 Form 1041 on a minimum tax basis excluding deferral items. To do so, complete Part II of the 1988 Form 8656 without including deferral items (generally lines 51 and 7f of 1988 Form 8656) in arriving at adjusted alternative minimum taxable income.

Line 2.— Enter on this line the adjustments and tax preference items treated as exclusions.

Exclusion items are your AMT adjustments and tax preference items for: the standard deduction, personal exemptions, estate or trust exemption, itemized deductions (including any investment interest expense reported on Schedule E), the deduction for charitable contributions of appreciated property, certain tax-exempt interest, depletion, and in the case of certain insurance organizations, the adjustment under section 833(b).

Individuals.—Combine lines 4i and 5d of your 1988 Form 6251 and enter the result on line 2 of

Corporations.—Combine lines 2i and 3d of the corporation's 1988 Form 4626 and enter the result on line 2 of this form.

Estates and trusts.—Combine lines 4e and 6d of the 1988 Form 8656 and line 20 of the 1988 Form 1041, and enter the result on line 2 of this

Note: If you included any of the exclusion items on a line other than those listed above, add that item to the amount to be entered on line 2. For exam to the amount to be entered on line 2. For example, if depletion was included on Form 6251 as an adjustment on line 45 (passive activity loss) instead of on line 5c (depletion), include it as an exclusion item when figuring the amount for line 2. Exclusion items included in adjusted net book income will not be taken into account for nurnoses of the minimum tax credit

Line 3.—Minimum tax net operating loss deduction.—Your minimum tax credit net operating loss deduction (MTCNOLD) is your net operating loss deduction (NOLD) for 1988 determined under section 172, subject to the following rules:

 For loss years beginning after 1986, an NOL that has exclusion items is reduced by the amount of those exclusion items (see the instructions for line 2 for a list of exclusion items); and

 For loss years beginning before 1987, the amount of NOL that may be carried forward to tax years beginning after 1986, is equal to the amount that may be carried from such loss years to the first tax year beginning after 1986 for regular tax purposes.

Do not enter on line 3 more than the total of lines 1 and 2. The amount that exceeds the total of lines 1 and 2 is carried forward to be used in a later year. If the total of lines 1 and 2 is negative, enter zero (-0-) on line 3 and carry forward all of the MTCNOLD to the next year.

Lines 4 and 10 .- If line 4 or line 10 is -0-and you had an atternative minimum tax liability in 1988, all of the AMT paid in 1988 is attributable to the deferral items. Enter -0- on line 15 and then complete Part II to see how much of the

Line 12—Minimum tax foreign tax credit.— Religure your 1988 minimum tax foreign tax credit using only the exclusion items included on line 2 of this form that were attributable to sources outside the United States. To do this, use a 1988 Form 1116 or Form 1118, whichever applies, and follow the steps below.

Step 1. Use a separate Form 1116 (Form 1118) for each type of income and specify the type of income at the top of those forms.

Step 2. Fill in Part I of Form 1116 (Schedule A of Form 1118) using that portion of your taxable income and the exclusion items on line 2 of this form that were attributable to sources outside the United States.

Step 3. Fill in Part III of Form 1116 (Schedule B, Part II of Form 1118). However, instead of entering the AMT foreign tax credit carryforward on line 2, Part III of Form 1116 (line 4, Part III, Schedule B of Form 1118), use the foreign tax credit carryforward, if any, figured on exclusion items last year. Enter the amount from line 4 of this form on line 9, Part III of Form 1116 (line 7c, Part III, Schedule B of Form 1118) and the amount from line 11 of this form reduced by the child care credit and the credit for the elderly or disabled, if any, on line 11, Part III of Form 1116 (line 9, Part II, Schedule B of Form 1118).

Step 4. Complete Part IV of Form 1116. (Schedule B. Part III of Form 1118). Enter the refigured credit from Form 1116 (Form 1118) on line 12 of this form.

If line 5. Part III, of Form 1116 (line 5, Part II, Schedule B of Form. 1118) was greater than line 12. Part III, of Form 1116 (line 10, Part II). Schedule B of Form 1118), keep a record of the difference between lines 5 and 12 of Form 1116 (lines 5 and 10 of Form 1118). carried forward and used to compute your foreign tax credit on exclusion items next year. Line 19.—If line 16 of your 1988 Form 8801 exceeds line 15 of that form, and you also had a 1987 unailowed credit for producing fuel from a nonconventional source that was disallowed solely because of the limitation under section 29(b)(5)(B), make the following computation: Add line 15 of your 1988 Form 8801 to your 1987 unallowed nonconventional source fuel credit. If the result exceeds line 16 of your 1988 Form 8801, enter the excess on line 19 of this form. If there is no excess, enter zero (-0-) on line 19 of this form.

Line 20.—Enter the unused portion of your 1988 credit for producing fuel from a nonconventional source that was not allowed solely because of the limitation under section 29(b)(5)(B).

Line 21,-If line 21 is zero or a negative amount, you do not have a minimum tax credit or a minimum tax credit carryforward. Do not complete the rest of the form

Line 22 —Follow the instructions below and refer to your 1989 income tax return to figure the amount to enter on line 22.

General Instructions
Purpose of Form.—Use this form if you are a parent and choose to report the income of your return. If you do, the child will not have to file a return.

- You can file this form only if your child:

  Was under age 14 on January 1, 1990;
- Had income only from interest and dividends (including Alaska Permanent Fund dividends);
- Had gross income for 1989 that was more than \$500 but less than \$5,000;

Name(s) shown on parent's return

Had no estimated tax payments for 1989;

- Did not have any overpayment of tax shown on his or her 1988 return applied to the 1989 return; AND
- Had no Federal income tax withheld from his or her income (backup withholding).

The parent(s) must also qualify as explained on page 2 of these instructions.

Step 1 is used to figure the amount of the child's income to report on the parent's return. Step 2 is used to figure an additional tax that must be added to the parent's tax.

A separate Form 8814 must be filed for each child whose income the parent chooses to report.

Caution: The Federal income tax on your child's income may be less if you lie a tax return for the child instead of making this election. This is because you cannot take certain deductions that your child would be entitled to on his or her own return. For details, see Deductions You May Not Take on page 2.

Form 8814 (1989)

## General Instructions (continued)

Parents Who Qualify To Make the Election. — You qualify to make this election if you file Form 1040 or Form 1040NR and any of the following applies to

- You and the child's other parent were married to each other and you are filing a joint return for 1989.
- You and the child's other parent were married to each other but you file separate returns for 1989 AND you had the higher taxable income. (If you do not know if you had the higher taxable income, get Pub. 929, Tax Rules for Children and Dependents.)
- Vou were unmarried, treated as unmarried for Federal income tax purposes, or separated from the child's other parent by a divorce or separate maintenance decree. You must have had custody of your child for most of the year (you were the custodial parent and you remarried, you may make the election on a joint return with your new spouse. But if you and your new spouse (your child's stepparent) do not file a joint return, you qualify to make the election only if you had higher taxable income than your new spouse.

Deductions You May Not Take.—If you elect to report your child's income on your return, you may not reduce that income by any of the following deductions that your child would be entitled to on his or her own return.

- Standard deduction of \$1,250 for a blind child.
- Penalty on early withdrawal of child's savings.
- Itemized deductions (such as child's investment expenses or charitable contributions).

If any of the above applies to your child, you should figure the tax on the child's income as if he or she is filing a return and as if you are electing to report the income on your return to find out which results in the lowest amount of tax.

How To Make the Election.—To make the election, complete and attach Form 8814 to your tax return and file your return by the due date (including extensions).

Additional Information.—For more information about the election, get Pub. 929.

### Line-by-Line Instructions

Parent's Name and Social Security Number.—Enter the name(s) shown on your return. If filing a joint return, enter the social security number of the person whose name is shown first on the return. Line 1a. —Enter ALL taxable interest income received by your child in 1989. If your child received a Form 1099-INT for tax-exempt interest, such as from municipal bonds, write the amount and "Tax-exempt interest" on the dotted line next to line 1a. Be sure to include this interest on line 1b but do not include ti in the total for line 1a.

If your child received, as a nominee, interest that actually belongs to another person, write the amount and "ND" (for nominee distribution) on the dotted line next to line 1a. Do not include amounts received as a nominee in the total for line 1a.

If your child had accrued interest that was paid to the seller of a bond, amortizable bond premium (ABP) allowed as a reduction to interest income, or if any original issue discount (OID) included on line 1 a is less than the amount shown on your child's Form 1099-01D, follow the instructions above for nominee interest to see how to report the nontaxable amounts. But, on the dotted line next to line 1a, write the nontaxable amount and "Accrued interest," "ABP adjustment," or 'OID adjustment," whichever applies. Do not include any nontaxable amounts in the total for line 1a.

Line 1b.—If your child received any taxexempt interest income, such as interest on certain state and municipal bonds, enter the total tax-exempt interest on line 1b. Also include any exempt-interest dividends your child received as a shareholder in a mutual fund or other regulated investment company. Do not include this interest on lines 1a or 3.

Note: If line 1b includes tax-exempt interest (or exempt-interest dividends paid by a regulated investment company) from private activity bonds, see Alternative Minimum Tax, on this page.

Line 2a. — Enter gross dividends received by your child in 1989, including capital gain distributions and nontaxable distributions. Form 1099-DIV shows gross dividends in Box 1a. Also include dividends your child received through a partnership, an S corporation, or an estate or trust.

If your child received, as a nominee, dividends that actually belong to another person, write the amount and "ND" (for nominee distribution) on the dotted line next to line 2a. Do not include amounts received as a nominee in the total for line 2a.

If line 2a includes any capital gain distributions (from Form 1099-DIV, Box 1c), and you have gains or losses to report on Schedule D. part or all of your child's capital gain distributions should be reported on your Schedule D instead of on Form 8814, line 5. Before you enter an amount on line 5, see Pub. 929 for details on how to figure the amount to report on your Schedule D.

Line 5.—If you are filing more than one Form 8814, add the amounts from line 5 of ALL your Forms 8814 and include the total on Form 1040, line 22 (or Form 1040NR, line 22).

Be sure to write "Form 8814" and show the total of the line 5 amounts in the space next to line 22 on your return.

Line 8.—If you are filing more than one Form 8814, add the amounts from line 8 of ALL your Forms 8814 and include the total on Form 1040, line 38 (or Form 1040NR, line 36).

On Form 1040, be sure to enter the total of the line 8 amounts in the space provided next to line 38. On Form 1040NR, be sure to write "Form 8814" and the total of the line 8 amounts on the dotted line next to line 36.

Alternative Minimum Tax.—If your child received any lax-exempt interest (or exempt-interest dividends paid by a regulated investment company) from certain private activity bonds, you must take this into account in determining if you owe the alternative minimum tax. Get Form 6251, Alternative Minimum Tax—Individuals, and its instructions for more information.

Foreign Accounts and Foreign Trusts.—If your child had a foreign financial account or was the grantor of, or transferor to a foreign trust. Part III of Schedule B (Form 1040) would have to be completed and attached to the child's return if he or she was filing a return. If Part III of Schedule B had been completed for your child, would either the question on line 10a or line 11 have been answered "Yes" II have been answered "Yes" to the question(s). Also complete line Schedule B with your return and answer "Yes" to the question(s). Also complete line 10b if applicable. Write "Form 8814" on the dotted line next to line 10a or line 11, whichever applies, on your Schedule B.
